General Manager and Chief Executive Officer's Message

We are working differently at Metro, and the preparation of this budget is no exception. Before proposing a budget this year, we conducted outreach with customers, employees, the larger community, and stakeholders through transit station meet and greets, open houses, surveys, town hall meetings and individual interviews. What clearly matters most to all of us is delivering frequent service that is safe, reliable, and affordable. In February 2023 the WMATA board approved a new Strategic Transformation Plan that will become our north star. This budget is a first installment towards delivering the customer experience improvements our customers deserve. I thank the Board for approving our FY2024 Budget and for their leadership in advancing Metro.

This collaborative approach is building trust through transparency and reinforces our commitment to the region. We have already implemented some immediate solutions; however, our work has just begun. Many of the concepts in this budget will sound familiar. From low-income fare programs, fare simplification, modernizing infrastructure and vehicles to be environmentally friendly, investments in our team members, increasing public safety efforts, and more transit service -- we are listening to our customers.

The FY2024 budget was made possible through continued federal funding support that enables us to continue our state of good repair and preventive maintenance work to deliver reliable service. And while we are fortunate to have several funding sources for FY2024, FY2025 presents a looming structural operating deficit that can only be addressed through regional consensus.

The FY2024 budget totals \$4.8 billion, of which \$2.4 billion is operating expenses and \$2.4 billion is capital investments. Federal Covid-19 relief funding of \$561.0 million will enable Metro to continue to deliver safe and reliable service while ridership and fare revenues continue to recover.

Throughout the pandemic, Metro has aggressively implemented its Capital Improvement Program (CIP). The FY2024 Capital Budget of \$2.4 billion and six-year CIP of \$14.4 billion advance investments in projects and programs that support safe, reliable, and efficient Metro services. Capital investments are made in six categories: Railcars and Railcar Facilities; Rail Systems; Track and Structures Rehabilitation; Stations and Passenger Facilities; Bus, Bus Facilities, and Paratransit; and Operations and Business Support.

Over the last five years from FY2018 through FY2022, WMATA invested \$8.3 billion through the CIP with projections estimated to reach a record-setting \$2 billion or more in FY2023. Compared to FY2018, Metro's FY2024 capital budget increases annual investments in the transit infrastructure needed to provide safe, reliable, and efficient bus and rail service by \$1.36 billion, a 109% increase. Sustained focus on completing projects started as part of the FY2022 budget and proposed through FY2031 will reduce the backlog of unfunded capital needs so we are operating a safer, more efficient system.

As you travel the region, I hope you will choose Metro. We beat traffic and gas prices, we fight climate change, and we are your connection to possibilities. Though I am honored to be the general manager, it's Your Metro, so please let us know how we can better serve you.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Randy Clarke', written over a light blue background.

Randy Clarke
General Manager and
Chief Executive Officer

Strategic Transformation Plan

Your Metro, The Way Forward

Metro's Mission: Your Metro – Connecting you to possibilities

Metro's Vision: The region's trusted way to move more people safely and sustainably

Metro's vision will be achieved by advancing four goals that were developed through data and direct input from our customers, staff, and stakeholders:

Goal 1: Service Excellence

- Objective 1A) Safety and security
- Objective 1B) Reliability
- Objective 1C) Convenience

Goal 3: Regional Opportunity and Partnership

- Objective 3A) Regional network and partner optimization and transit equity
- Objective 3B) Community partnership and engagement

Goal 2: Talented Teams

- Objective 2A) Recruitment and retention
- Objective 2B) Engagement, empowerment and recognition
- Objective 2C) Professional and technical skill development

Goal 4: Sustainability:

- Objective 4A) Financial sustainability
- Objective 4B) Environmental sustainability

PRESENTED TO

**Washington Metropolitan Area Transit Authority
District of Columbia**

For the Fiscal Year Beginning

July 01, 2022

Christopher P. Morill

Executive Director

THIS PAGE INTENTIONALLY LEFT BLANK

Board of Directors

The Washington Metropolitan Area Transit Authority is governed by a Board of Directors that determines agency policy and provides oversight for funding, operation, and expansion of transit facilities within the Transit Zone. The 16-member Board of Directors is composed of eight Principal Directors and eight Alternate Directors. The District of Columbia, Maryland, Virginia, and the federal government each appoint two Principal and two Alternate members. The Board performs its duty through three committees: Executive, Finance and Capital, and Safety and Operations. At the time of publication, one Board position was vacant: one Alternate Director representing the District of Columbia.

Paul C. Smedberg, Chair – Commonwealth of Virginia

Paul Smedberg was first elected Chairman of the Board in June 2019 and re-elected in June 2020 and June 2021. He was first appointed to the Board as an Alternate Director in 2016 and appointed Principal Director in January 2019 representing the Commonwealth of Virginia. He served on the Alexandria City Council from 2003 to 2018, the Virginia Railway Express (VRE) Operations Board from 2006 to 2018 and has served on the Northern Virginia Transportation Commission (NVTC) since 2006. Mr. Smedberg currently serves as Chair of Metro's Executive Committee and is a member of the Safety and Operations Committee.

Lucinda Babers, 1st Vice Chair – District of Columbia

Lucinda Babers was confirmed by the District of Columbia (DC) City Council on May 4, 2021 as a principal member of the WMATA Board. She currently serves as the first Deputy Mayor for Operations and Infrastructure (DMOI) for District government. She previously served as the Director of the DC Department of Motor Vehicles (DC DMV). As the DC DMV Director, Ms. Babers led the agency in significant and innovative changes, including the closure and opening of three service centers, elimination of passenger vehicle safety inspections, creation of a more secure credential (along with central issuance), and implementation of REAL ID and Limited Purpose Credentials. Under her direction, DC DMV added numerous online services-and received several International Customer Service and Communication Awards from the American Association of Motor Vehicles Administrators (AAMVA), as well as several regional AAMVA awards. Ms. Babers serves as First Vice Chair of Metro's Executive Committee and is the Vice Chair of the Finance and Capital Committee.

Don Drummer, 2nd Vice Chair – State of Maryland

Don Drummer was appointed to the Board in July 2021 as a Principal Director from Maryland. He is a solar energy entrepreneur, a retired Senior Executive in federal government, and a retired U.S. Army Colonel. Mr. Drummer concluded his federal career in the Federal Aviation Administration (FAA) while serving as Director of the Aviation Logistics Organization in Washington, DC from December 2015 to May 2018. His responsibilities included nationwide planning, programming, and management of the FAA real property lease portfolio (6.4 million square feet) and personal property account (valued at \$7.2 billion). Prior to this appointment, Mr. Drummer served in the Transportation Security Administration (TSA) for almost six years culminating as Deputy Assistant Administrator in the Office of Security Capabilities, which was preceded by 30 years of active-duty service in the U.S. Army. Mr. Drummer serves as the Chair of Metro's Safety and Operations Committee.

Sarah Kline – Federal Government

Sarah Kline was appointed in September 2021 to serve as a Principal Director for the Federal Government. Ms. Kline has spent her career developing and advancing policies to improve transportation outcomes in cities, towns, and rural areas, with a specialty in public transit and transit-oriented development. She led policy development for two national nonprofit organizations, Transportation for America and Reconnecting America. She also served as Director of Policy and Government Relations here at WMATA. Ms. Kline spent 8 years working at the U. S. Senate Committee on Banking, Housing, and Urban Affairs as counsel for transit policy, during which time she negotiated the transit provisions of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU). Ms. Kline is a member of Metro’s Executive Committee and Finance and Capital Committee.

Matt Letourneau – Commonwealth of Virginia

Matt Letourneau joined the Board as an Alternate Director in January 2019 and was appointed Principal Director representing the Northern Virginia Transportation Commission (NVTC) in March 2020. He was elected to represent the Dulles District on the Loudoun County Board of Supervisors in 2011 and re-elected in 2015 and 2019. Mr. Letourneau serves as Chairman of the Loudoun Board's Finance, Government Operations and Economic Development Committee. He represents Loudoun County on NVTC and served as Chairman in 2019. Mr. Letourneau serves as Chair of Metro’s Finance and Capital Committee.

Tracy Hadden Loh – District of Columbia

Dr. Tracy Hadden Loh was appointed to the Board as a Principal Director in November 2021. Dr. Loh is a Fellow with the Anne T. and Robert M. Bass Center for Transformative Placemaking at the Brookings Institution. She is a graduate of DC public schools and holds a Ph.D. in city and regional planning from the University of North Carolina at Chapel Hill. Dr. Loh served two years representing Ward 1 on the Mount Rainier City Council in Prince George’s County, Md. She is currently chair of the board of directors of Greater Greater Washington. Dr. Loh is a member of Metro’s Safety and Operations Committee.

Joe McAndrew – State of Maryland

Joe McAndrew was appointed to the WMATA Board of Directors as a Principal Director in April 2023 representing the State of Maryland. Mr. McAndrew began serving as Transportation Secretary Paul J. Wiedefeld’s Assistant Secretary for Planning and Project Development on March 8, 2023. As Co-Chair of the Transportation Executive Policy Committee, he led the Partnership’s policy and engagement work with federal, state and local elected officials, and led efforts to achieve a 21st century regional mobility and infrastructure ecosystem in the Capital Region. Prior to joining the Partnership, Mr. McAndrew served as legislative assistant for the Senate Commerce Committee and Senator Brian Schatz. Before working on Capitol Hill, he served as the Policy Director for Transportation for America. McAndrew is a member of the Finance and Capital Committee.

Kamilah Martin-Proctor – Federal Government

Kamilah Martin-Proctor was appointed to the Board in September 2021 as a Principal Director to represent the Federal Government. She also currently serves as 2021 Chair, Washington D.C. Commission on Persons with Disabilities (DCCPD). In addition, she also serves on the Board of the World Institute on Disability (WID), is a British-American Project Fellow and was the WDC 2020 United State of Women Ambassador. Ms. Martin-Proctor served as Vice-Chair on President Barack Obama’s National Council on Disability and has worked with the Charles B. Rangel International Affairs Program at Howard University. She also worked as Staff Assistant and Legislative Correspondent for Congresswoman Shelia Jackson Lee (D-TX) and as Executive Assistant to Senator Robert Menendez (D-NJ). Martin Proctor received a B.A. in Political Science and an M.A. in Organizational and Cultural Communication from Howard University. She is a lifelong resident and fourth generation Washingtonian. Ms. Martin-Proctor is the Vice Chair of Metro’s Safety and Operations Committee.

Canek Aguirre – Commonwealth of Virginia

Canek Aguirre was appointed to WMATA Board of Directors as an Alternate Director in March 2020. He was appointed to the NVTC in January 2019 and is currently serving as its chair. Mr. Aguirre was elected in November 2018 to serve a three-year term on the Alexandria City Council, the first Latino elected to that body. He is a past chair of the Economic Opportunities Commission, past president of the Tenants and Workers United (TWU) Board of Directors, and past vice-chairman of the Health Systems Agency of Northern Virginia (HSANV) Board of Directors. In 2016, Mr. Aguirre was appointed to the Virginia Board of Social Work by Governor Terry McAuliffe.

Michael Goldman – State of Maryland

representing Montgomery County. Mr. Goldman has practiced in the areas of international, antitrust and transportation law since 1972. He previously served as a Principal Director on the WMATA Board from 2013 – 2021. During his time as a Principal Director, Mr. Goldman served as the Board’s Second Vice Chair and the Chair of its Safety and Operations Committee. Mr. Goldman is currently member of the District of Columbia Bar, the American Bar Association sections on antitrust and administrative law, and the Forum on Air & Space Law.

April Rai – Federal Government

April Rai was appointed as an Alternate Director representing the federal government in December 2022. She was appointed President & CEO of the Conference of Minority Transportation Officials (COMTO) in December 2021. With over 15 years of experience, April’s career focus has centered on strategic partnership development, coalition building, people, and project management. Under the direction of the COMTO Board of Directors, April provides strategic leadership, guidance and ensures COMTO operates effectively to further the mission. Previously, April served as Deputy Executive Director for the Women’s Transportation Seminar International (WTS), partnering with the Executive Director to achieve the WTS mission and vision.

Walter L. Alcorn – Commonwealth of Virginia

Walter L. Alcorn was appointed to the Board in January 2020 as an Alternate Director representing Fairfax County when he began his first term as the Hunter Mill District Supervisor on the Fairfax County Board of Supervisors. Mr. Alcorn’s focus is on transit-oriented development, pedestrian/bicyclist mobility and safety, affordable housing and diversifying the local economy. Previously, Mr. Alcorn served on the county’s Planning Commission for 16 years and served on the Park Authority Board. Professionally, he has worked on environmental issues in the tech industry and is a nationally recognized expert on electronics recycling systems.

Spring Worth – District of Columbia

Spring Worth was appointed by the Council of the District of Columbia on December 20, 2022 as an alternate member of the WMATA Board. Spring currently serves as the WMATA Budget & Policy Program Manager at the District Department of Transportation (DDOT). Since joining DDOT in 2013, Spring has led several large transit planning projects including the 16th Street NW Bus Lanes Project, the H Street NW Bus Priority Project and the Martin Luther King Jr. Avenue SE Bus Priority Project. In 2022, Spring accepted the role of chair of the Metropolitan Council of Governments Public Transportation Committee. Ms. Worth has served as the Vice Chair of the American Public Transportation Association’s (APTA) Bus Rapid Transit (BRT) Committee and the Secretary of the APTA BRT Standards committee.

Thomas Graham – State of Maryland

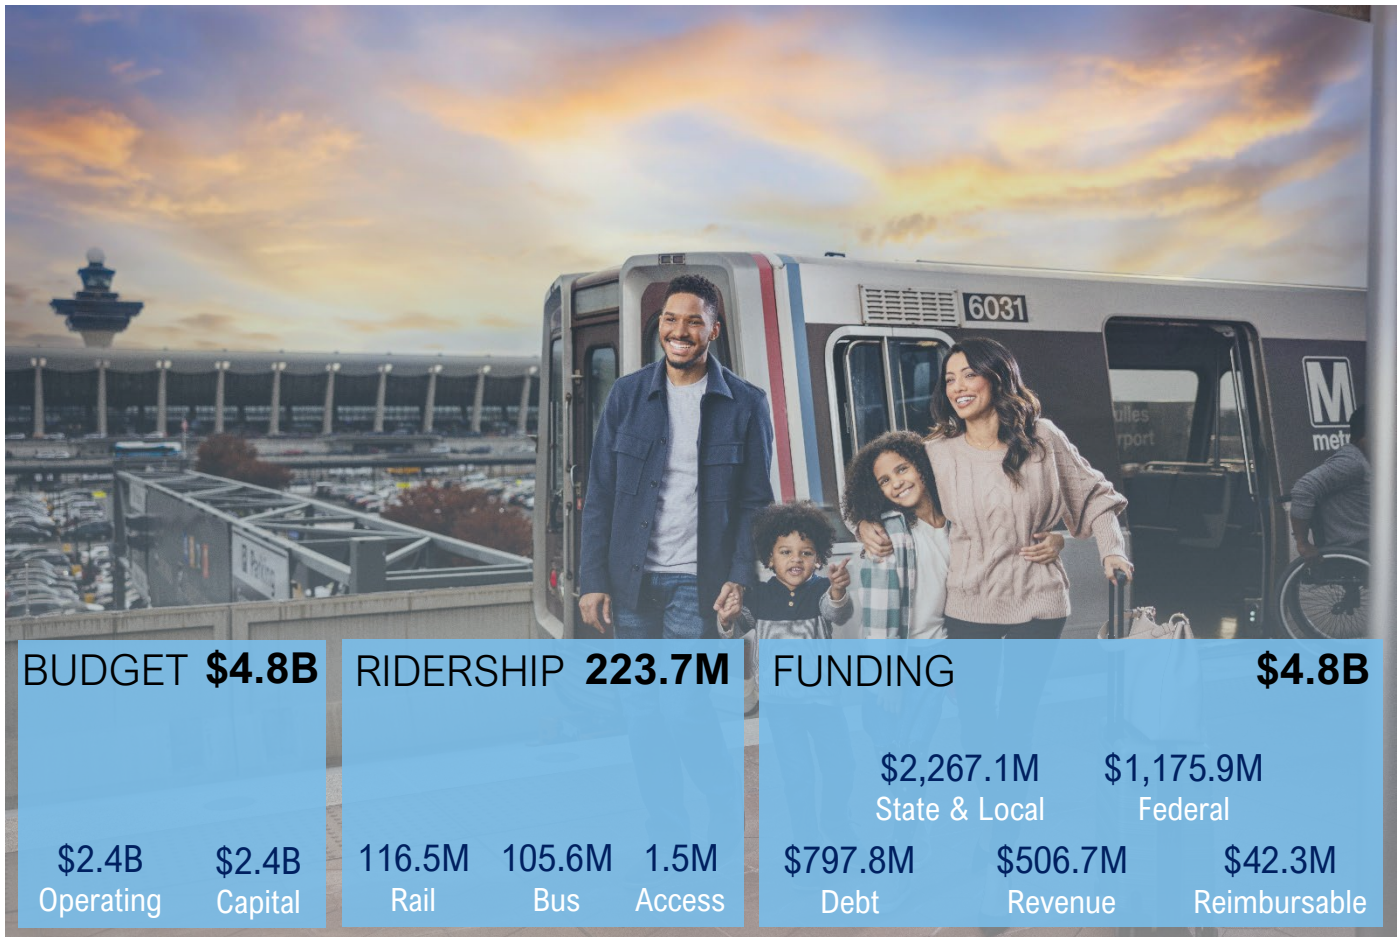

Thomas H. Graham was appointed to the Metro Board of Directors in May 2019 as an Alternate Director representing Prince George’s County. Mr. Graham is the founder of T.H. Graham and Associates, a strategic consulting firm. Prior to his work as a consultant, Mr. Graham served in several leadership positions at Pepco Holdings, Inc. before retiring in 2016. Mr. Graham currently serves on the board of Summit Utilities Inc., and Midwest Reliability Organization, in addition to several other boards.

Bryna Helfer – Federal Government

Bryna Helfer was appointed in September 2021 to serve as Alternate Director for the Federal Government. She has a long career in public service with a wide range of experiences in the transportation industry including former positions as Deputy Assistant Secretary for Public Engagement at the United States Department of Transportation (USDOT), Senior Advisor on Accessible Transportation and Workforce Development at USDOT, Senior Advisor for the Federal Interagency Coordinating Council on Access and Mobility, and the Director of Easter Seals Project ACTION. Dr. Helfer currently serves as the Assistant County Manager in Arlington County, Virginia where she leads government wide communications and public engagement strategy.

Chapter 1 – Budget Summary

Executive Summary

Metro is committed to improving the safety, reliability, and affordability of the regional transit system by substantially improving its assets and providing a dependable and equitable transit experience for the communities we serve.

The FY2024 Budget continues to support the region's recovery from the Covid-19 pandemic by building on important steps that Metro took in the last three fiscal years to restore and improve service and provide more convenient fare options.

During FY2024, Metrobus and Metrorail service will see further improvements. In addition, Metro will enhance fare and service equity to promote broader transit access across the region through a low-income fare and service optimization. While continuing to build momentum for Metro and the region's recovery, the budget adheres to legislatively mandated subsidy growth limits.

As the Covid-19 pandemic drastically reduced ridership and fare revenue beginning in FY2020, federal relief funds have played a critical role in bridging Metro's funding gap and ensuring continued delivery of essential transit service as the region recovers. Federal relief funds will play an important role in funding Metro operations in FY2024 as Metro will utilize remaining funding provided through the American Rescue Plan Act (ARPA) to balance the FY2024 budget.

Prior to the pandemic, ridership had stabilized at approximately 300 million trips per year. At the onset of the pandemic in March 2020, ridership and revenue declined approximately 90 percent. The FY2024 total ridership forecast is 223.7 million trips or 71 percent of pre-Covid-19 levels. Although Metro is optimistic that transit ridership will rebound in the long run, the FY2024 Budget assumes ridership and revenue recovery will remain below pre-pandemic levels in the near term.

The FY2024 Budget is funded with \$506.7 million of projected operating revenues (excluding federal support), 79.6 percent of which is supported by fare revenue, and the remainder from non-fare revenues such as parking fees and advertising revenues. The FY2024 operating revenue projection, excluding federal relief of \$561.0 million, represents a \$124.2 million increase or 32.5 percent over FY2023.

The \$12.4 billion in planned FY2024-2029 CIP investments focuses on safety, state of good repair, reliability, security, and customer experience improvements with \$2.4 billion for investment in FY2024. The CIP includes Passenger Rail Investment and

Improvement Act (PRIIA) funding, which has been authorized by Congress through Metro's Fiscal Year 2031. The CIP includes assumptions about increases to Federal formula funding over the six-year planning horizon. Federal financial participation, including the increase in federal investment under the Infrastructure Investment and Jobs Act, is critical for funding Metro's capital investment.

Despite the ongoing impact of Covid-19 on the FY2024 Budget, Metro continues to look toward the future and focus on services and initiatives that will support the region's long-term livability and economic growth.

Potomac Yard station grand opening

Cherry blossom wrapped Metrobus

Operating Budget

The FY2024 Operating Budget total of \$2.4 billion (including debt service) represents a three percent increase over the FY2023 Budget. The operating budget upholds Metro’s commitment to safety, reliability and affordability and maintains its mission as an essential transportation provider to the region. Specifically, the operating budget:

- Continues improvements to Metrobus and Metrorail service that enhance service equity and promote broader transit access
- Simplifies the Metrorail fare structure for customers
- Reduces costs through additional management efficiencies

To further encourage ridership recovery, the FY2024 Budget includes fare and service changes such as:

- Weekday peak and off-peak fare structure consolidation
- Simplification of Metrorail per-mile charges by standardizing at 40 cents per mile
- Administer a Low-Income Fare Discount program
- Alignment of Metrorail and Metrobus base fares at \$2 each
- Reduce the MetroAccess maximum fare from \$6.50 to \$4
- Launch of the Better Bus network redesign

- Implementation of targeted Metrorail and Metrobus service frequencies improvements

The Base Budget

The Operating Budget is legislatively restricted to three percent annual subsidy growth. In FY2024, the legislatively mandated base three percent subsidy growth cap totals \$1.2 billion.

In FY2024, personnel and non-personnel costs are projected to increase. As a result, personnel costs will represent 67.6 percent of Metro’s total Operating Budget, comparable to the FY2023 Budget. The FY2024 Budget supports 13,113 positions funded by the Operating and Capital Budgets. Total non-personnel costs will increase by \$22.7 million, or 3.1 percent.

Since FY2018, management actions have included expense reduction and revenue-generating initiatives resulting in savings of \$308 million. The Budget includes \$38.5 million of additional revenue-generating initiatives and expense reductions through management efficiencies; including improving labor utilization and process and program modernization.

Legislative Exclusions

Legislatively excluded costs are mandated costs Metro incurs that are excluded from the base budget and not subject to the three percent subsidy growth cap imposed by the Commonwealth of Virginia and State of Maryland as part of the dedicated funding legislation. In FY2024, subsidy for legislatively excluded items totals \$24.6 million and will fund operations for Board approved service enhancements and Potomac Yard Station.

Capital Budget

The \$2.4 billion FY2024 Capital Budget includes debt service and revenue loss from capital projects, and the \$14.4 billion total FY2024-2029 CIP focuses Metro's capital investments on safety, state of good repair, and reliability of Metrorail, Metrobus, and MetroAccess assets.

Metro's CIP is grouped into six major investment categories: Railcars and Railcar Facilities; Rail Systems;

Track & Structures Rehabilitation; Stations & Passenger Facilities; Bus, Bus Facilities & Paratransit; and Operations and Business Support.

Details regarding the Capital Budget and the Six-Year Capital Improvement Program can be found in Chapter 4. Additional information regarding WMATA's 10-Year Capital Needs can be found on-line at: www.wmata.com/initiatives/capital-improvement-program/

Northern Bus Garage construction

FY2024 Sources of Funds

Metro’s operating and capital budgets are funded through a variety of sources including system generated revenues, state and local support as well as federal funding sources.

State and local funding of \$2.3 billion supports both the operating and capital budgets delineated as follows:

- The jurisdictional operating contribution of \$1.3 billion includes \$1.25 billion of net operating subsidy and \$72.2 million of debt service contributions
- State and local funding of \$942.7 million supporting the capital program consists of the following funding sources:
 - \$500.0 million of dedicated funding
 - \$293.3 million in federal match and system performance funds
 - \$148.5 million in state and local match to federal PRIIA grants
 - \$0.9 million in Congestion Mitigation and Air Quality (CMAQ) grants

System generated revenues derived from Metrorail, Metrobus and MetroAccess support the operating budget and total \$506.7 million including:

- Passenger fares of \$403.5 million
- Non-passenger revenue totaling \$103.2 million consists of parking, advertising, joint development

and fiber optic proceeds of \$81.5 million and other sources of revenue of \$21.7 million

Federal funding of \$1.2 billion consists of \$561.0 million in federal ARPA relief in the operating budget and \$614.9 million of support for the capital program:

- \$148.5 million in total PRIIA funding, including \$5.0 million for the Inspector General’s office
- \$471.4 million in Federal Transit Administration (FTA) formula grants and other federal grants
- \$561.0 million from the American Rescue Plan Act (ARPA) to offset the revenue losses and fund additional expenses incurred due to the ongoing pandemic

Reimbursable project funding supports both the operating and capital budgets as follows:

- \$9.2 million for operating projects requested by jurisdictions or other third parties and safety/security programs
- \$33.2 million in jurisdictionally requested capital improvements

Dedicated funding debt proceeds totaling \$797.8 million support the capital program.

Please note that chart and table totals throughout this publication may not add due to rounding.

4. WMATA Compact requires Metro to have a balanced budget (i.e. projected funding equals planned expense). See Appendix A for additional discussion

Ridership and Revenue

Metrorail rider using mobile pay at station faregate

Metro is an essential transportation provider for the Washington metropolitan area. Metrorail, Metrobus and MetroAccess provide safe, reliable and equitable transportation options to the region's six million people.

FY2024 operating revenue budget remains lower than pre-pandemic levels, but federal relief funding will enable Metro to continue to operate service at or near pre-pandemic levels. The budget includes \$561.0 million in federal relief funding to offset anticipated revenue losses. The FY2024 Budget projects \$506.7 million in directly generated revenue, which reflects fare reductions approved to take effect during FY2024. This represents a 32.5 percent increase from FY2023. Ridership is projected to improve in FY2024 but not estimated to reach pre-pandemic levels.

Passenger fares of \$403.5 million make up 79.6 percent of the operating revenue budget, excluding federal funding. Passenger revenue is estimated to be \$102.5 million more than FY2023. Non-passenger revenues from parking, advertising, joint development, and fiber optic leases are projected to be \$81.5 million while other non-transit revenues total \$21.7 million. Non-passenger revenues are expected to be \$21.7 million higher than FY2023.

Total ridership is projected at 223.7 million trips, 71.0 percent of pre-pandemic levels, with 52.1 percent of trips on Metrorail, 47.2 percent on Metrobus and the remainder on MetroAccess.

Ridership

RIDERSHIP BY SERVICE

(Trips in Thousands)	FY2021 Actual	FY2022 Actual	FY2023 Budget	FY2024 Budget	Change	% Change
Metrorail ¹	28,157	60,120	85,875	116,509	30,635	35.7%
Metrobus ²	52,097	80,790	79,269	105,640	26,371	33.3%
MetroAccess	1,065	1,307	1,415	1,542	128	9.0%
Total Ridership³	81,318	142,217	166,558	223,691	57,133	34.3%

1. FY2024 Budget and prior year Metrorail totals include only tapped trips

2. Metrobus ridership reflects Automated Passenger Count (APC) data

3. Metrorail ridership is based on linked trips; Metrobus ridership is based on unlinked trips from APC data; MetroAccess ridership is based on total passengers.

Unlinked trips are total boardings, while linked trips are total number of complete trips from origin to destination, including transfers

Holiday season wrapped Metro railcar

Metrorail

Metrorail anticipates 116.5 million total riders in FY2024 which represents a 35.7 percent increase over FY2023 budget ridership levels as more workers are projected to return to their offices. Prior to the pandemic, Metro had experienced a stabilization in ridership after several years of steady decline. Although Metrobus carried more riders than Metrorail during most of the pandemic, in FY2024 Metrorail is expected to carry more riders than Metrobus. Since Metrorail has a higher average fare than Metrobus, the anticipated increase of trips on Metrorail has a significant impact on total passenger revenue.

Over the past few years, Metrorail ridership has been impacted by a shift in the region towards telecommuting and alternative work schedules resulting in lower ridership, particularly on Fridays and Mondays. These trends became even more pronounced during the pandemic with the widespread use of remote work.

Although the pandemic has significantly impacted Metrorail, capital improvements have continued. The

Platform Improvement Project, a multi-year campaign to rebuild platforms at 20 of Metro's 45 outdoor stations, was substantially completed in FY2023 with rehabilitation of three platforms on the Orange Line. These station improvement projects are essential to the maintenance and rehabilitation of the system to ensure riders' long-term safety.

Metro has taken steps to measure the public's willingness to choose Metrorail during the pandemic as part of the effort to align service with demand. Surveys such as the Return-to-Work survey indicated several key factors impacting ridership in both the short and long term.

These include:

- A strong majority of rail customers have said they would feel safe after they are vaccinated
- Peak period ridership is unlikely to immediately recover due to growth of telework and split work weeks

Metrobus

Metrobus ridership is forecasted at 105.6 million trips in FY2024, an increase of 26.4 million trips, or 33.3 percent over 79.3 million trips in the FY2023 budget.

Metrobus ridership is based on data collected using Automatic Passenger Counters (APCs), which the transit industry considers a more accurate means of recording ridership than data acquired through the farebox. Accordingly, starting with FY2020, bus ridership is reported using APC figures unless otherwise noted. Metrobus ridership in FY2020 was under budget by 31.8 million trips, or 24.8 percent, due to both the downward trend of bus ridership and significant impacts of the pandemic. In FY2021, ridership exceeded budget by 27.4 million trips or 111.4 percent as Metrobus ridership was greater than Metrorail. Finally, in FY2022 Metrobus ridership continued to exceed Metrorail and was above budget by 14.2 million trips or 21 percent.

MetroAccess

MetroAccess is a shared-ride, door-to-door, paratransit service for people whose disability prevents them from using Metrobus or Metrorail. MetroAccess is projected to provide 1.5 million trips in FY2024, or 0.1 million trips

higher than the FY2023 budget. Metro's ridership decline extended to MetroAccess resulting from the pandemic. As with Metrorail and Metrobus ridership forecasts, MetroAccess ridership is expected to return as the region moves toward the Resiliency Phase of the Recovery Plan.

Long-term, the region's demand for paratransit services is expected to increase driven by the aging population and an increase in disability rates. To meet growing demand in a cost-efficient way, MetroAccess has taken the following measures:

- Increased efforts in providing shared-ride, fixed route equivalent service, thus transporting more passengers in a single vehicle
- Increased the number of subsidized alternative services available to MetroAccess customers. There are now 10 transportation companies available to MetroAccess customers as an alternative to ADA paratransit service

Nearly 60.7 percent of MetroAccess trips are provided in Montgomery and Prince George's counties in Maryland, 26.4 percent in Washington D.C., and the remaining 12.9 percent of the trips in combined Virginia jurisdictions.

Better Bus Network outreach

Passenger Revenue

The FY2024 Budget includes several fare decreases that make taking Metro more affordable and convenient.

1. Other non-transportation revenue includes interest on investments, property disposal sales, vending machine sales, and miscellaneous revenues

2. Includes CARES Act, CRSSAA, and ARPA

Metrorail

Metrorail passenger revenue is budgeted at \$330.8 million for FY2024, a 39.7 percent increase or \$94.1 million above the FY2023 budget. This assumes a gradual recovery of Metrorail ridership throughout FY2024.

Metro's budget also includes up to \$10.0 million as a rail fare revenue offset for closing stations for major capital improvement projects similar in scope to the Platform Improvement Project.

In addition to fares from customers, Metrorail revenue includes the Kids Ride Free program. In partnership with the District Department of Transportation (DDOT), District of Columbia Public Schools (DCPS), and the District of Columbia Public Charter School Board, Metro is reimbursed for District K-12 students riding Metrorail and Metrobus for free. Students can take unlimited trips on Metrorail and Metrobus using program specific SmarTrip® cards.

Metrobus

Metrobus passenger revenue for the FY2024 Budget is \$67.9 million, an increase of \$8.8 million over FY2023. Though not as hard hit as Metrorail, slow recovery of Metrobus ridership is expected to continue throughout FY2024. The budget accounts for ridership that is below pre-pandemic levels particularly among full fare riders due to significant growth in the fare evasion rate and customers shifting to passes.

MetroAccess

MetroAccess passenger revenue for FY2024 is \$4.9 million, or \$0.3 million less than FY2023.

Fare Changes

To make riding more affordable and encourage ridership, Metro made permanent the popular changes introduced during FY2022 including the \$2 bus/rail transfer discount, \$2 weekend flat fare, and \$12 7-Day regional bus pass. The FY2024 Budget will continue fare modifications that reduce and simplify fares.

The following details new fare offerings for FY2024:

- The FY2024 fare optimization proposal simplifies the Metrorail fare structure for customers, grows ridership and revenue, and makes transit more affordable for Metro's most price sensitive customers. The rail fare structure ranges from \$2 to \$6.00 for weekdays and maintains the \$2 flat late night and weekend fares
- This fare simplification offers advantages over a general across-the-board fare increase by growing ridership while maintaining a positive budget impact
- The low-income fare program would provide customers enrolled in the Supplemental Nutrition Assistance Program (SNAP) with a 50 percent discount on trips, comparable to the senior and disabled reduced fares
- The MetroAccess maximum fare is reduced from \$6.50 to \$4 per trip

MetroAccess van

Non-Passenger Revenue

Parking

Total parking revenue for the FY2024 Budget is projected at \$26.0 million, a \$4.7 million increase over the FY2023 budget, which reflects projected growth in Metrorail ridership.

In FY2024, all Metrorail stations scheduled to close for platform repairs have parking facilities. As a result, Metro is projecting a parking revenue loss of \$1.0 million during the station closures.

The following parking programs initiated in recent fiscal years are expected to generate up to \$3.0 million in additional revenue once ridership returns following the Covid-19 pandemic to help offset losses:

- Lowering daily fees at low-utilization garages to spur higher utilization and revenue
- Assessing non-rider fees for special events such as festivals, concerts and other similar activities
- Increasing parking spaces leased to non-transit users, as well as permitting commercial uses of Metro parking facilities for a fee

Advertising

Total advertising revenue in FY2024 is budgeted at \$16.0 million, a \$2.0 million increase from the FY2023 budget.

Fifty-six Metrorail stations include digital display panels. This technology has not only broadened Metro's advertising base but also provided a platform to communicate important Metro specific information to customers.

Joint Development

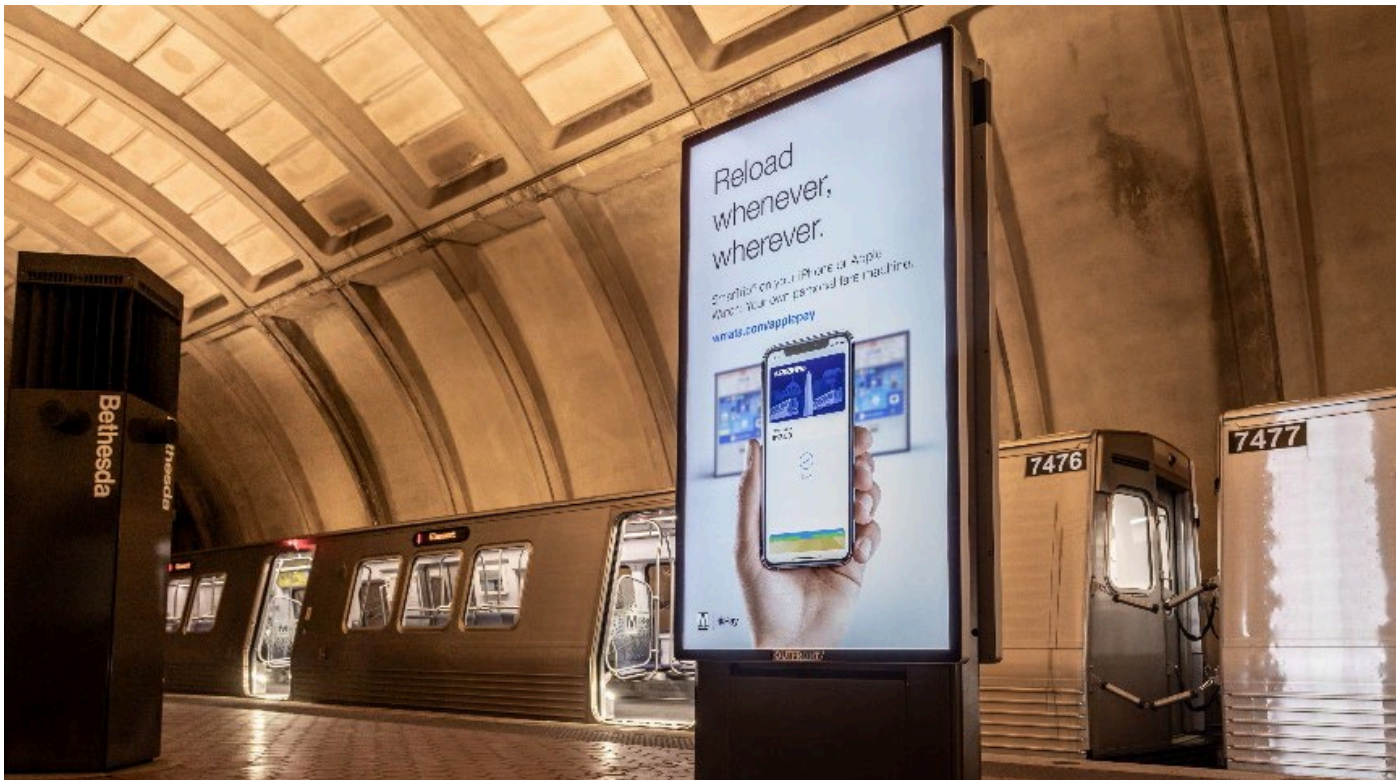

Joint development revenues are estimated to be \$22.0 million, an increase of \$12.4 million from FY2023. This growth is driven by increasing ground lease payments and real property disposal sales.

Fiber Optics

The Metro Fiber Optic Program, initiated in September 1986, allows for the installation, operation, and maintenance of fiber optic cables in Metro's right-of-way. Under these lease agreements, Metro receives revenue from telecommunications companies as well as fiber optic lines for its own use. For FY2024, the fiber optic revenue budget is \$17.5 million.

Other Revenue

Other revenues total \$21.7 million in FY2024 and include lost revenue from capital projects as well as proceeds from agreements with cellular service providers, vending machine companies, surplus asset disposals, and employee parking.

Operating Subsidy

The FY2024 Operating Subsidy adheres to the legislatively restricted three percent annual subsidy growth cap with a base subsidy of \$1.2 billion. Legislative exclusions of \$24.6 million include:

- \$0.2 million for Potomac Yard
- \$5.5 million for Metrobus service improvements
- \$18.9 million for Metrorail service improvements

Thus, the FY2024 total subsidy is \$1.25 billion, an increase of \$60.4 million or 5.1 percent over the FY2023 Budget. In addition, debt service payments remain equivalent to FY2023 at \$72.2 million, resulting in jurisdictional contributions totaling \$1.3 billion.

Note: FY2024 Approved Legislative Exclusions include \$0.2M for Potomac Yard, \$5.5M for bus service improvements, and \$18.9M for rail service improvements. New Bus Services includes B2, A12, 16M, and 11Y; 2016 Rail Passenger Survey; May 2022 Metrobus geo-distribution

FY2024-29 Capital Funding

Metro’s six-year CIP investments of \$12.4 billion require total funding of \$14.4 billion from the federal government, state and local government partners and other sources due to an expected \$60.0 million cost for revenue loss from service shutdowns for capital projects and more than \$1.9 billion of debt service.

Within the \$14.4 billion six-year funding plan, Metro is projecting:

- \$3.8 billion from federal grant funding, based on the IJA authorization for continuing PRIIA funding
- State and local contributions for matching of federal grants and system performance funds \$2.8 billion, of

which \$60.0 million is expected to fund revenue losses from long-term service shutdowns due to major capital projects

- State dedicated funding of \$3.0 billion, of which \$1.9 billion is projected to be used for debt service
- Debt, secured by dedicated funding, of \$4.7 billion
- Other local sources in the amount of \$132.1 million, driven by the City of Alexandria funding for the new Potomac Yard station

Additional information about capital funding sources is included in Chapter 4 – FY2024 Capital Budget.

Board Reporting Structure

The Metro Board of Directors Bylaws designate three Metro officers as direct reports to the Board: the General Manager and Chief Executive Officer (GM/CEO), the Inspector General and the Board Corporate Secretary. The latter two officers are appointed by, and may be removed only by, the Metro Board of Directors and operate independently of the GM/CEO.

This chapter includes budget information for the departments that support the Board Corporate Secretary, Inspector General and GM/CEO. The Authority-wide operating figures in Chapter 3 include the costs of these three departments in order to present a complete budget for the Authority.

Board Corporate Secretary

The Office of the Board Corporate Secretary is an independent office that reports to the Metro Board of Directors and serves as a resource to advance the Board’s goals, policies, and strategic plan.

The office works with the Board to research policy issues and provide consultation, represents the Board in policy matters, and advises on governance best practices. The Board Corporate Secretary office works proactively with management to carry out the policies, goals and initiatives of the Board; and serves as liaison between the Board, the

Authority, Board advisory bodies and customers. The Office of the Board Corporate Secretary is responsible for managing the Board’s activities across the Authority in support of executive decision-making.

Other responsibilities include the coordination, review and distribution of Metro Board materials; maintaining official records of Board actions and resolutions; publishing legal notices and arranging public hearings approved by the Board, as well as representing the Board on a variety of issues relating to stakeholder groups.

Please note: the chart and table totals throughout this publication may not add up due to rounding.

3. Authorized Positions include total positions funded under the operating and capital budgets, based on Metro's organizational structure at the time of budget approval or proposal

FY2024 Business Plan

The Office of the Board Corporate Secretary will:

- Serve as a vital bridge between the Board, the public and management
- Ensure Board materials and Board operations maintain a strategic focus and that the Board's work aligns with its priorities
- Serve as the Board's staff lead/representative for the Strategic Transformation Plan
- Create and implement opportunities for the Board to develop and continually refine its priorities, including through retreats and strategic planning sessions
- Provide policy, governance and communications counsel and recommendations regarding Board initiatives and policies on an ongoing basis
- Facilitate public access to Board meetings and other public events that provide riders opportunity to offer feedback
- Manage the Compact public hearing process, including the administration of hearings and coordination with Metro's outreach processes under the Public Participation Plan
- Support the Board in fulfilling the requirements of dedicated funding legislation, the WMATA Compact and the Board's Bylaws
- Develop and lead Board orientation for new members as appointed
- Facilitate training and other educational and developmental opportunities for Board members, including mandatory trainings
- Ensure completion of Board members' annual Financial Disclosure process and support continued adherence to the Board's Code of Ethics; develop online disclosure site for Board member use
- Oversee annual performance evaluation process for Board direct reports
- Provide policy and logistical support for the Riders' Advisory Council, including development of an annual work plan
- Develop and strengthen relationships between Riders' Advisory Council, the Board, and Metro riders
- Conduct recruitment for the Riders' Advisory Council and Metropolitan Transit Police Department Investigations Review Panel to fill any vacancies
- Review recommendations by the Metropolitan Transit Police Department Investigations Review Panel

FY2023 Major Accomplishments

- Supported Board in development of Strategic Transformation Plan
- Developed first online Board Ethics Portal for financial disclosures, declarations and recusals
- Onboarded four new Board members
- Recruited and appointed new members to the Riders' Advisory Council; provided onboarding to assist new members in their roles
- Drafted and implemented Board committee work plans
- Facilitated numerous virtual and hybrid public hearings in accordance with the Metro Compact and Public Participation Plan
- Completed Board members' annual Financial Disclosure process
- Resolved constituent issues on behalf of Board Members
- Fulfilled all Board-related Public Access to Records Policy (PARP) requests
- Completed required Board trainings on Audit Awareness and Ethics
- Updated process to provide more secure and reliable method of sharing information with jurisdictional and federal staff

Inspector General

The Office of Inspector General is an independent office that reports to the Metro Board of Directors. Under the WMATA Compact the Office of Inspector General is:

[an] independent and objective unit of the Authority that conducts and supervises audits, program evaluations, and investigations relating to Authority activities; promotes economy, efficiency, and effectiveness in Authority activities; detects and prevents fraud and abuse in Authority activities; and keeps the Board fully

and currently informed about deficiencies in Authority activities as well as the necessity for and progress of corrective action.

In December 2021 the Board adopted certain reforms aimed at strengthening the independence of the Inspector General's office in procurement, hiring, budgeting, reporting, and obtaining legal advice, as required by the Infrastructure Investment and Jobs Act of 2021 as a condition of releasing authorized funding to WMATA.

INSPECTOR GENERAL

<i>(Dollars in Thousands)</i>	FY2021 Actual	FY2022 Actual	FY2023 Budget¹	FY2024 Budget	\$ Change	% Change

Authorized Positions ⁴	44	41	48	48	-	-

1. The Inspector General's FY2023 and FY2024 budgets each include \$5 million of PRIIA funding

2. Personnel figures include the department's share of total fringe expenses

3. The total operating budget cost for each fiscal year is based on Metro's organizational structure at the time of budget approval or proposal

4. Authorized positions include total positions funded under the operating and capital budgets, based on Metro's organizational structure at the time of budget approval or proposal

FY2024 Business Plan

The Inspector General's Office of Investigations will:

- Conduct criminal, civil and administrative investigations and refer them for prosecution or other resolution, as appropriate
- Handle and issue confidential reports of investigations involving fraud, waste, abuse, gross mismanagement, or any investigation of Authority activities deemed necessary or desirable by the Inspector General
- Provide all oversight and administration of the Office of Inspector General's hotline
- Oversee and administer Metro's whistleblower/retaliation program, as well as provide confidential and timely investigative reports to the Whistleblower Panel
- Issue management alerts to the GM/CEO on matters with time sensitivity and those requiring management action
- Provide fraud awareness training to Metro departments and offices
- Oversee data analytics initiatives to identify fraud, waste or abuse

The Inspector General's Office of Audits and Evaluations will:

- Conduct risk-based performance audits and evaluations to promote economy, efficiency and effectiveness of Metro programs, operations, and activities
- Perform reviews and analyses of contractor proposals to determine reasonableness of cost/pricing information and compliance with the Buy America Act
- Oversee the independent public accounting firm conducting Metro's annual financial statement audit
- Keep the Board of Directors fully and currently informed about the progress of corrective actions on audit and evaluation recommendations
- Issue management alerts for issues with time sensitivity and those requiring management action

Independence of Inspector General

In a significant move to strengthen the independence of the Inspector General's office, Congress passed, and the President signed into law, the Infrastructure Investment and Jobs Act of 2021 (Act) on November 15, 2021. As a condition of funding for WMATA, Section 30019(c) of the

Act requires the Board of Directors (Board) to adopt specific reforms to the Inspector General's authorities. These include:

- Greater independence in the annual budget process, by directing the Inspector General's office to send its annual budget request directly to the Board for review and approval
- Improved procurement authority, by requiring WMATA to delegate contracting officer authority to the Inspector General
- Greater independence in selecting and appointing the Office of the Inspector General's officers and employees, by delegating to the Inspector General the authority to select, appoint, and employ personnel as necessary for carrying out the duties of the Inspector General's office
- Assurance that the Inspector General obtains legal advice from a counsel reporting directly to the Inspector General, and
- Specified reporting requirements and measures to assure the public dissemination of Inspector General's office reports - in particular:
 - Any Inspector General's office report containing a recommendation for corrective action must be posted to the Inspector General's website not later than three days after the report is submitted in final form to the Board (subject to redactions of privileged or other protected information)
 - The Office of the Inspector General must submit semiannual reports to the Board, which in turn must transmit them to specified recipients including the Congress and the signatories to the WMATA Compact (Virginia, Maryland, and the District of Columbia)
 - Not later than three years after the enactment of the Act, the U.S. General Accounting Office must report to Congress on whether the reforms to strengthen the Inspector General's office independence have been carried out

On December 9, 2021, the Board of Directors passed Board Resolution 2021-46 adopting, and directing staff to implement, the reforms set out in the Act.

FY2023 Major Accomplishments

Milestones reached over the last year included:

- Conducted the review, referral, or subsequent investigation of over 317 complaints made to the OIG hotline as of May 1, 2023
- Issued three Reports of Investigation involving fraud, waste, abuse, and other misconduct
- Issued a Management Alert concerning unauthorized direct deposit changes in which WMATA employees' paychecks were being redirected to unknown bank accounts
- Issued a Management Alert in response to a hotline complaint alleging misconduct by a WMATA employee
- Issued a Management Assistance Report regarding a review of overtime compensation paid to MTPD special police employees of WMATA. The review identified several employees within WMATA who earned substantial overtime
- Issued a Management Assistance Report based on an allegation of wasteful spending of federal funds associated with the purchase of a \$3.8 million crane
- Assisted the FBI with the arrest of a WMATA employee charged with conspiracy, bribery, and smuggling items into a D.C. Corrections facility
- Issued a report based on a complaint of mismanaged resources by a senior vice president. OIG's review determined the complaint stemmed from a difference of opinion as to how resources would be best utilized to fulfill the department's mission rather than mismanagement. Ultimately, the OIG found no evidence to support the allegations against WMATA's Senior Vice President
- OIG received a multitude of complaints and allegations against a WMATA Executive Vice President (EVP) and the senior leadership of that EVP's department. OIG conducted the investigation and referred the allegations to the GM/CEO for action he deemed appropriate and necessary
- OIG initiated an investigation regarding a WMATA Director who was put on paid administrative leave for perceived concerns about how he handled various contracts. The Director subsequently contacted OIG with concerns of retaliation. After interviews with WMATA officials, including contracting staff, OIG did not identify any inappropriate actions by the Director
- Supervised an OEEEO investigation of discrimination regarding an executive vice president. OIG's review determined the complaint stemmed from a difference of opinion as to how resources would be best utilized to fulfill the department's mission rather than mismanagement. Ultimately, OIG found no evidence to support the allegations against WMATA's Senior Vice President
- Issued a report based on a request from the WMATA Board of Directors Ethics Committee who requested OIG investigate compliance by the former Board member's compliance with the Code of Ethics and the WMATA Compact
- As a result of an OIG investigation, a WMATA contractor was debarred by WMATA on September 22, 2022 for a period of three years. The company was ordered to pay WMATA \$198,000 in administrative restitution before it can resume any work with WMATA. Debarment is an action taken by the Chief Procurement Officer to exclude a contractor from contracting or subcontracting with WMATA due to a serious cause as set forth in Chapter 15 of the Procurement Procedures Manual
- Referred four companies to the WMATA Procurement Office for debarment. Those referrals were pending further action at the time this book was published
- Issued one performance audit report that identified weaknesses in WMATA's Defined Benefit Pension Plans and made recommendations to improve the governance of those plans and WMATA's oversight of contributions to those plans
- Assessed and issued a memorandum regarding the WMATA Office of Cybersecurity Staffing, at the request of the Board
- Issued 55 contract audit reports and three Buy American audits. Potential savings identified by these reports were \$20.5 million, including savings reported in a prior year report but realized in this reporting period
- Oversaw WMATA's annual independent financial statement and Single Audit reports.
- Issued two Evaluation reports – one in response to a Congressional inquiry regarding communication between the Washington Metrorail Safety Commission and WMATA, and an evaluation of WMATA's Non-Revenue Vehicle Program

General Manager & Chief Executive Officer

The Washington Metropolitan Area Transit Authority (Metro) provides transit services to the millions of residents and visitors of the national capital region. Now more than ever, safe, reliable, and equitable public transportation within the region is critical, and essential in responding to the changing needs of our customers. Metro is working to improve the customer experience by providing the service that meets the region’s needs. In FY2024, Metro’s focus is on delivering the improvements our customers deserve.

Our strategic transformation plan serves as the north star guiding our work over the next five years. Input received

during internal and external stakeholder outreach events informed the framework of the plan and outlines our priorities beyond FY2024. Every penny will fund improved services and a better customer experience. The FY2024 Budget includes operational and capital priorities for more service, improved customer communications, enhanced safety, new fare simplifications, MetroAccess enhancements, sustainability, and capital improvements.

We exist to serve our customers. This budget and the innovative programs and initiatives it funds further support the people who need us and depend on our service most.

GENERAL MANAGER & CHIEF EXECUTIVE OFFICER

3. Authorized Positions include total positions funded under the operating and capital budgets, excluding those of the Board Corporate Secretary and Inspector General, based on Metro's organizational structure at the time of budget approval or proposal

FY2024 Business Plan

Business actions in FY2024 build on the foundation laid out in previous years to progress toward achieving top-notch transit services for our customers that restore ridership and provide reliable, equitable and safe service.

Major initiatives in the approved FY2024 budget include:

- Continuing Metro’s focus on safety through capital investments in Metrorail’s train control system, tunnel leak mitigation, station rehabilitations, and the procurement of new rail cars and zero-emission buses
- Overseeing Metro’s long-term Pandemic Recovery to restore ridership while ensuring the safety of customers and WMATA’s own workforce by implementing higher standards and practices of cleaning and safety precautions, and reassuring customers with communications campaigns and innovations such as touchless payment options
- Maintaining the financial stability of the organization as it continues to emerge from the impacts of the pandemic on ridership and the overall regional economy
- Expanding our equity framework to enhance Metro’s social justice actions that guide our approach to service, fares, policing initiatives and community engagement, ensuring equity across Metrorail and Metrobus and in the communities it serves
- Rethinking the service that Metrobus provides through a collaborative, data-driven, customer-focused effort to decide where bus service should go, starting from a clean slate. The Bus Network Redesign will allow WMATA to better align bus service to current and potential customers’ needs, providing more frequent, competitive service, and simplifying the bus network
- Focusing on sustainability by advancing projects that conserve resources, reduce emissions, and

improve livability in the region. This includes the ongoing procurement of zero-emission buses, coordination with local partners and utilities to put in place the infrastructure needed to support electric buses, and reconstruction of Metrobus operations and maintenance facilities to serve an all-electric fleet

- Delivering more frequent rail and bus service, increasing service in the Metrorail core and on the 16M, A12 and B2 bus routes, and opening the new Potomac Yard station in Alexandria, as well as a full year of service on the new Silver Line Phase 2 extension to Dulles International Airport and Ashburn
- Returning all 7000-series railcars to full active service after ensuring their safe operation
- Launching a new low-income fare program and simplifying the fare structure by eliminating the Peak/Off-Peak price difference

FY2023 Major Accomplishments

- Several bus and rail service improvements
- More transparent communications
- Public safety enhancements
- Compassion, Cameras, Cops
- Opening of Silver Line Stations, November 15
- Filled 400+ staff vacancies
- Realigned Metro’s Leadership Team
- Hired first Chief Diversity and Inclusion Officer
- Hired first Chief Customer Experience and Engagement Officer
- Passed first Strategic Transformation Plan
- Partnership with local law enforcement for more police visibility
- FY2024 Budget Approval

Chapter 3 – Operating Budget

Introduction

The operating budget funds expenses associated with Metrobus, Metrorail, and MetroAccess operations. The total operating budget is \$2.3 billion excluding debt service, a 3.2 percent increase over the FY2023 budget, with an additional reimbursable projects budget of \$9.2 million.

Sources of Funds

Metro historically has three primary funding sources for the operating budget: passenger revenue, non-fare revenue including parking and advertising, and local subsidy. Due to the impacts of Covid-19 on ridership and revenue, Metro budgeted federal relief funding totaling \$672.8 million in FY2023, to replace passenger revenue lost and to cover additional expenses incurred as a result of the pandemic. FY2024 federal relief funding is budgeted at \$561.0 million.

- The largest source of operating funding for FY2024 is the net operating subsidy totaling \$1,252.3 million (excluding Debt Service), or 53.9% of total operating funds (excluding Reimbursable)
- The next largest source of operating funding in FY2024 is Federal relief funding from the American Rescue Plan Act (ARPA), totaling \$561.0 million
- Passenger fare revenue of \$403.5 million and parking revenue of \$26.0 million (together representing 18.6% of total revenue) are the next largest source of funds
- The remaining \$77.2 million of operating revenue comes from advertising, joint development projects, fiber optic and property leases, and other revenues

Please note that chart and table totals throughout this publication may not add due to rounding.

Uses of Funds

- Personnel expenses, including labor, fringe benefits and capital overhead allocation, are the largest operating budget expense category at \$1,568.4 million or 67.6 percent of total expenses, followed by Services at \$419.3 million or 18.1 percent of total. Operating personnel expenses increased by 4.3 percent from FY2021 to FY2022 actuals. In FY2024, personnel expenses total \$1,568.4 million, an increase of \$50.1 million or 3.3 percent compared to FY2023. Both the personnel and non-personnel budget increases include reinstatement of service from the severe service reductions and initiatives from management actions implemented in response to the impacts of the Covid-19 pandemic
- Services budget consists primarily of expenses related to professional and technical services, contract maintenance, custodial services and temporary labor services. The largest service expense is in support of paratransit, which is projected to be \$182.7 million of the \$419.3 million Services total in FY2024. Services expenses decreased by 13.6 percent from FY2021 to FY2022. In FY2024 the services budget is \$419.3 million, an increase of \$6.9 million or 1.7 percent compared to FY2023
- Materials and Supplies budget consists primarily of maintenance parts for buses and railcars, track and structure maintenance, elevator and escalator, and general fleet repair for non-revenue vehicles. Materials and Supplies expenses decreased 37.3 percent from FY2021 to FY2022. In FY2024, materials and supplies expenses total \$121.0 million, a decrease of \$2.9 million or 2.4 percent over FY2023
- Metro's energy budget (fuel, utilities and propulsion) consists of propulsion usage by the Metrorail system; diesel and compressed natural gas (CNG) for Metrobus; gasoline for MetroAccess and non-revenue vehicles; and utilities (i.e., electricity, water, natural gas, phone and refuse collection) at Metro facilities. Energy costs, which increased 11.6 percent from FY2021 to FY2022, are projected to increase by \$16.7 million or 12.9 percent in FY2024
- Other expenses include casualty and liability insurance, leases, capital overhead allocation credit and miscellaneous costs

Operating Budget by Mode: Metrobus

Metrobus 50th anniversary event

Profile

Metrobus provides safe, reliable and effective service across the Washington region. Prior to the Covid-19 pandemic, Metrobus operated 159 lines with 245 routes covering over 2,396 street miles of service throughout the region. In response to the pandemic Metro reduced service to approximately 75 percent of pre-Covid levels. Service was fully restored in FY2022 and has continued to operate at 100 percent of pre-Covid levels.

Building on the all-day service improvements introduced in Fall 2021, which upgraded 20 bus lines to every 12-minute frequency all day and 16 bus lines to every 20-minute frequency all day, the FY2024 budget includes improvements that increase frequency and expand access.

FY2024 service improvements include the following:

- Increase service on the B2 line to every 12 minutes all day
- Restructure and extend the A12 line into two routes connecting to Downtown Largo and New Carrollton, both operating every 20 minutes

- Restructure the existing 16G service as the 16M service, connecting Skyline to Crystal City every 12 minutes all day
- Restore Route 11Y on the pre-pandemic route alignment between Mt. Vernon and Potomac Park, with service every 24 minutes, northbound in the AM peak period and southbound in the PM peak period. Express fare would be charged on Route 11Y

Current and enhanced FY2024 service levels are enabled by federal relief ARPA funding. Service is provided on a combination of local, limited-stop (MetroExtra) and express routes connecting the region to Metrorail; employment, medical and activity centers; schools, colleges and universities; airports; military installations; and commuter rail. Metro utilizes 9,374 bus stops supported by 2,554 shelters owned by 15 separate agencies.

All buses are accessible to people with disabilities, and bike racks are available for use on all buses.

NET SUBSIDY

1. Includes ARPA

- Metrobus sources of funds consist of revenue primarily from fares and advertising and subsidy from Metro’s jurisdictional partners. Subsidy is \$566.4 million or 76.2 percent of the total funding need for Metrobus
- Total Metrobus revenue in FY2024 is projected at \$80.9 million. The largest revenue source is passenger revenues estimated at \$67.9 million, which includes fares and passes. Passenger revenue is expected to increase \$8.8 million from FY2023 to FY2024 primarily due to gradual recovery of ridership from pandemic impacts
- Metrobus is projected to receive advertising revenue of \$8.2 million, an increase of 136.8 percent when compared to FY2023 budget, attributable to minimum annual guarantee contract provisions
- Other Metrobus revenue, which includes interest, property disposal, and other miscellaneous revenue, is projected to total \$4.8 million

PERSONNEL

- Personnel expenses are the largest portion of the Metrobus budget. For FY2024, personnel cost is estimated at \$563.7 million or 75.8 percent of the Metrobus budget. Personnel expenses increased by \$53.6 million or 10.7 percent from FY2021 actuals to FY2022 and are projected to increase by \$8.6 million or 1.5 percent from FY2023 budget to FY2024, primarily driven by increased salaries from the Collective Bargaining Agreement (CBA) contracts and service restoration and improvements for FY2024
- Services costs, budgeted at \$69.3 million in FY2024, decreased by \$15.4 million or 23.7 percent from FY2021 actuals to FY2022. These costs are projected to decrease by \$8.7 million or 11.1 percent from FY2023 budget to FY2024. Contract increases were offset by continued management actions
- Materials and Supplies, budgeted at \$60.5 million in FY2024, decreased by \$5.4 million or 19.7 percent from FY2021 actuals to FY2022, but are projected to increase by \$8.0 million or 15.2 percent from FY2023 budget to FY2024
- Energy costs are projected to decrease by \$8.2 million from FY2023 budget to FY2024. Fuel costs, which include diesel, Compressed Natural Gas (CNG) and gasoline, are budgeted at \$25.9 million,

an increase of \$1.1 million over FY2023. Utilities costs of \$1.6 million are projected to decline by \$9.3 million versus the FY2023 budget

- Other expenses total \$22.3 million for FY2024, a decrease of \$0.2 million compared to the FY2023 budget

Operating Budget by Mode: Metrorail

Cherry blossom wrapped Metrorail train

Profile

The Metrorail system is a rapid transit system that consists of 128 route miles, 98 passenger stations and a fleet of over 1,200 railcars. In November 2022 Metro added six new stations and 12 route miles associated with the Silver Line Phase 2 extension. In addition, the Blue and Yellow lines were augmented with an in-fill station at Potomac Yard in May 2023. All Metrorail stations and railcars are accessible to disabled passengers and compliant with ADA standards.

The system is composed of three main types of structures: underground, surface and elevated. The addition of the Silver Line Phase 2 and Potomac Yard stations in FY2023 expanded the system to 128 route miles, 54 miles (47 stations) of which are underground, 59 miles (44 stations) of which are at the surface, and 15 miles (seven stations) of which are elevated.

Metrorail's design requires high reliance on vertical mobility through the utilization of elevators and escalators. Most customers access Metrorail via escalators to the train platform, while elevators provide accessibility for persons with disabilities, seniors, customers with strollers, travelers carrying luggage and other riders.

Metro operates more than 900 vertical transportation assets (618 escalators and 278 elevators as of December 2022, excluding Silver Line Phase 2), which served over 600,000 rail passengers each weekday before the pandemic. Silver Line Phase 2 and Potomac Yard stations added 32 escalators and 35 elevators, bringing the total to over 900 vertical transportation units. The Wheaton station on the Red Line has the longest escalator (230 feet) in the Western Hemisphere. The Forest Glen station, also on the Red Line, is the deepest station in the system (196 feet or 21 stories below street level) with high-speed elevators that take less than 20 seconds to travel from the street to the platform.

The FY2024 Budget increases service frequency with trains every three to six minutes at stations in the core and trains every eight to 12 minutes (or better) systemwide, benefiting customers across the entire network.

FY2024 service improvements include the following:

- Green and Yellow Line trains would arrive every six minutes all day, with all Yellow Line trains turning around at Mt. Vernon Square station
- Orange line trains would operate every 7.5 minutes on average during peak service, and every 10 minutes during off-peak service

NET SUBSIDY

1. Includes ARPA

- Metrorail sources of funds consist of revenue primarily from passenger fares and parking fees, as well as advertising and lease revenues and subsidy from Metro's jurisdictional partners. Subsidy is \$486.8 million or 35.5 percent of the rail funding need
- Total Metrorail revenue in FY2024 is projected at \$420.9 million. Passenger revenues, including fares and passes, are projected at \$330.8 million. Passenger revenue is expected to increase 39.7 percent from FY2023 to FY2024 due to the expected gradual post-pandemic increase in ridership. Prior to the pandemic, rail passenger revenues were projected to increase due to a

rebound in ridership related to improved reliability, expanded fare products, customer service initiatives and a partial restoration of late-night hours

- Parking revenue at Metrorail facilities will contribute \$26.0 million in revenue. This is a 22.4 percent increase from FY2023 to FY2024 due to gradual recovery from the Covid-19 impacts
- Advertising revenue applied to Metrorail will contribute \$7.8 million to revenue in FY2024. This is a \$2.7 million decrease from the FY2023 budget
- Other revenue, which includes joint development, fiber optics, and other non-transit revenue is projected to contribute \$56.4 million in FY2024

PERSONNEL

- Personnel expenses are the largest portion of the FY2024 Metrorail budget. Personnel costs are estimated at \$995.7 million in FY2024, or 72.6 percent of total Metrorail expenses. Personnel expenses increased by \$2.9 million or 0.4 percent from FY2021 actuals to FY2022 actuals and are projected to increase \$48.1 million or 5.1 percent from the FY2023 budget to FY2024 budget
- Services are budgeted at \$162.4 million in FY2024. Services decreased from FY2021 actuals to FY2022 actuals by \$24.7 million or 19.3 percent due to outsourcing and are projected to increase by \$2.2 million or 1.4 percent from FY2023 budget to FY2024 budget
- Materials and Supplies are budgeted at \$60.3 million in FY2024. Materials and Supplies decreased \$31.1 million from FY2021 actuals to FY2022 actuals and are projected to decrease by \$10.9 million or 15.3 percent from FY2023 budget to FY2024 budget
- Fuel costs are budgeted at \$6.7 million in FY2024. Fuel costs increased \$3.8 million from FY2023 budget to FY2024 budget
- Utilities and Propulsion expenses of \$106.2 million are projected to increase by \$21.8 million or 25.9 percent over the FY2023 budget
- Other expenses consisting of Casualty and Liability insurance, lease and miscellaneous expenses total \$41.1 million, which is a \$2.2 million increase over the FY2023 budget

Operating Budget by Mode: MetroAccess

MetroAccess van on street

Profile

MetroAccess ensures the ongoing accessibility of Metrobus and Metrorail for customers with disabilities and, in accord with ADA standards, provides MetroAccess paratransit service for those who are unable to use Metrobus and Metrorail. MetroAccess, a shared-ride door-to-door service, is offered for the same days, hours, and locations as fixed-route transit, utilizing a fleet of 754 vehicles in FY2024. Service contractors operate the van service and manage the operations control center and quality assurance functions. Prior to the pandemic, MetroAccess provided over two million trips each year, and currently provides over 1.5 million per year.

Demand for paratransit service is increasing as the population of people with disabilities is growing in the region and nationwide. For this reason, it is critical for Metro to accommodate as many customers as possible. Metro provides travel training to assist customers with disabilities in navigating the Metrobus and Metrorail systems, while encouraging customers to take full advantage of the many accessibility and safety features. MetroAccess partners with Metrobus and Metrorail to provide group orientations and workshops to educate organizations on how to provide travel training to their clients.

Additionally, Metro has partnered with the jurisdictions to improve the accessibility of bus stops in the region, further

enhancing customers' ability to use the fixed-route system. Due to these initiatives and Metro's free ride benefit, MetroAccess customers take over 2.3 million fixed-route trips each year.

To keep MetroAccess sustainable for future years, Metro has embarked on a campaign to facilitate the establishment of lower-cost alternatives to MetroAccess. Metro is helping to facilitate the following programs:

- Coordinated Alternatives to Paratransit Services (CAPS), established in 2013, provides transportation service for clients of two human services agencies (HSA) in Maryland between the HSAs' main facilities and clients' homes. Services provided under the CAPS program cost Metro 40 percent less per trip than a comparable trip on MetroAccess
- The Abilities-Ride program began in FY2018 as a public-private partnership between Metro and two vendors to provide generally available on-demand and reserve trip service to MetroAccess customers for trips beginning and ending in Maryland. The program now has 11 providers with service throughout the MetroAccess service area. Trips provided by the program can save Metro as much as 25 percent of the cost of a comparable MetroAccess trip

SOURCES OF FUNDS – METROACCESS

(\$ in millions)

\$ 4.9 (2.4%)
PASSENGER

\$ 0.4 (0.2%)
FEDERAL RELIEF¹

\$ 199.0 (97.4%)
NET SUBSIDY

1. Includes ARPA

- MetroAccess sources of funds include passenger revenue and net subsidy from Metro’s jurisdictional partners. MetroAccess passenger revenues are projected at \$4.9 million and cover 2.4 percent of Metro’s paratransit costs; federal relief provides \$0.4 million of funding support in FY2024, and jurisdictional subsidies of \$199.0 million support the remaining 97.4 percent
- MetroAccess passenger revenues are expected to decrease 6.0 percent when compared to FY2023 budget due to the projected increase in ridership

PERSONNEL

- Personnel costs are budgeted at \$9.0 million, which is a \$6.6 million decrease in comparison to the FY2023 budget
- Services expenses decreased by \$3.8 million or 3.0 percent from FY2021 to FY2022, and are budgeted at \$187.6 million in FY2024, an increase of \$13.4 million or 7.7 percent from FY2023 budget to FY2024. This increase is primarily due to cost escalation in paratransit contract rates. Contracts to provide Paratransit service account for 89.4 percent of the total MetroAccess budget. Other contract spending brings total Services costs to 91.8 percent of total Access expenses
- Energy costs, consisting of fuel and utilities, are projected to decrease marginally (10.7 percent) from FY2023 to FY2024. The decrease is primarily due to declining gasoline prices

Reimbursable Budget

Reimbursable projects are those unique services, programs and projects for which separate funding is provided by a jurisdiction or third-party entity. Metro is reimbursed on a dollar-for-dollar basis to provide the arranged services.

FUNDING SOURCES FOR REIMBURSABLE PROJECTS

	FY2022 Actual	FY2023 Budget	FY2024 Budget	\$ Change
Federal Grant Funding				
Safety and Security Grants	\$1,766	\$4,767	\$1,847	(\$2,920)
Other Sources of Funding				
Joint Development and Adjacent Construction Projects	7,043	9,675	7,319	(2,357)
Total	\$8,809	\$14,443	\$9,166	(\$5,277)

Safety and Security Grants

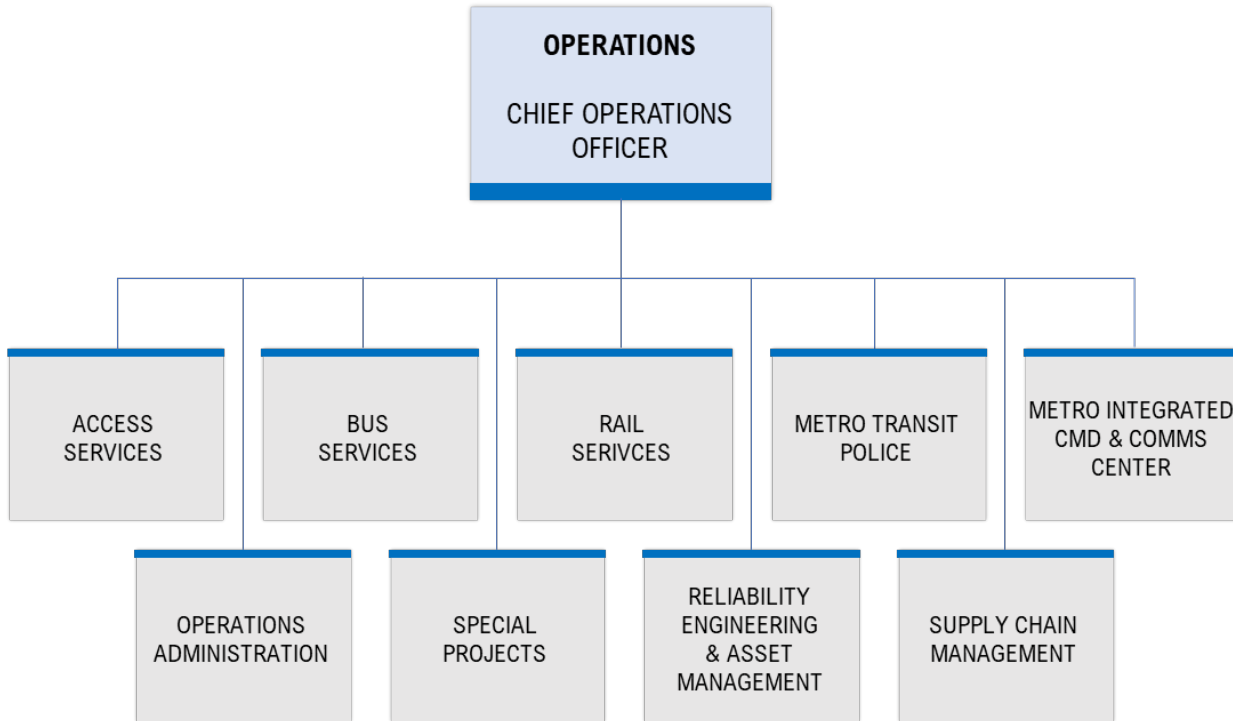

Metro has been awarded several grants under the Transit Security Grant Program (TSGP) from the Department of Homeland Security (DHS). The security grants provide funding for capital and operational security activities. The funding enhances the ability of the Metropolitan Transit Police Department to detect and deter potential attacks of international and homegrown terrorism through increased visibility, unpredictable presence, security assessments, and employee/public awareness. As Federal appropriations become available, Metro continues to pursue new funding to further enhance security activities.

Joint Development and Adjacent Construction Projects

Metro's Office of Joint Development and Adjacent Construction reviews and approves construction activities for projects adjacent to Metrorail and Metrobus property, facilities, and operational right of way to ensure that:

- Metro facilities and operations are not damaged or affected during and after the project construction
- Joint Development expenditures are reimbursed by the requesting private entity or jurisdiction. The Joint Development office performs the following activities for the entities:
 - Provides internal Authority departmental coordination with project's owner/developer/contractor (ODC) including external agencies, jurisdictions, property owners, consultants, developers, utilities and/ or anyone who has an impact on Metro property, facilities and/or operations
 - Prepares project agreements in conjunction with Real Estate and Station Area Planning and General Counsel
 - Provides coordination/oversight for all aspects of a project including design, safety, operations, constructability, assuring compliance with Metro standards, monitoring/coordinating construction activities and acceptance of on-site installations and facilities
 - Provides oversight and acceptance for joint development and jurisdictional reimbursable projects that will ultimately be owned and operated by Metro

1. Due to the extensive re-organization of November 2022, headcount by department is not available for FY2021 and FY2022

The Chief Operating Officer’s mission is to move the region through safe, reliable, equitable and cost-effective public transportation. Operations staff operate buses and trains; maintain Metro vehicle fleets, facilities, and rail infrastructure; execute certain capital programs; and ensure a safe and secure environment for passengers and employees.

The department consists of Operations Administration, Rail Services, Bus Services, Access Services, Metro Transit Police, Metro Integrated Command & Communications Center, Reliability Engineering & Asset Management, Supply Chain Management, and Special Projects.

FY2024 Business Plan

- Return all 7000-Series railcars to service
- Improve service reliability and frequency
- Improve customer experience throughout the system by optimizing the hiring and allocation of station staff
- Open and operate new Metrorail stations
- Engage as a leader in the Bus Network Redesign
- Improve employee safety and quality of facilities
- Significantly reduce fare evasion

1. Due to the extensive re-organization of November 2022, headcount by department is not available for FY2021 and FY2022

The Department of Access Services ensures that Metro remains in compliance with the provisions of the Americans with Disabilities Act (ADA) and other federal, state, and local laws and regulations related to providing equitable access to transportation services by people with disabilities.

Access Services is responsible for:

- Regulatory compliance with ADA and all other applicable accessibility-related laws, regulations and standards
- Accessibility planning, design review, and quality assurance for all Metro services, facilities, and equipment
- Budgeting, planning, and management of MetroAccess ADA paratransit service delivery
- Eligibility assessments for MetroAccess service and the Reduced Fare Program
- Ombudsman service for issues related to accessibility
- Accessibility Advisory Committee administrative and policy support
- Community engagement to ensure that existing and prospective customers are aware of and know how to use the full array of accessible transportation choices available to them

Access Services supports accessibility through its three offices: ADA Policy & Planning, Eligibility Certification and Outreach, and MetroAccess Service. ADA Policy & Planning ensures Metro’s compliance with the ADA and all other applicable laws, regulations, and standards; interacts with operations departments to ensure that existing and future fleets and facilities continue to be both ADA compliant and optimally accessible; and engages regional organizations and policy makers to ensure that funding and resources are effectively channeled to sustain accessibility for a growing constituency. The Office of Eligibility Certification and Outreach responds directly to those customers with disabilities who approach Metro seeking accessible transportation options to navigate the region. The Office of Eligibility Certification and Outreach matches the customer with the service or product that most effectively meets the customer’s needs (with an emphasis on bus and rail wherever possible, augmented by proactive community outreach and travel training functions) while conserving the highest level of assistance, for those customers whose disabilities prevent them from using bus and/or rail for at least some of their travel. MetroAccess manages the delivery of the region’s paratransit service of record, MetroAccess service. MetroAccess management, contract staff, and compliance staff work in conjunction with MetroAccess contractors; service delivery, call center operations, and quality assurance, to facilitate safe, efficient, and customer friendly paratransit service

KEY PERFORMANCE INDICATORS: ACCESS SERVICES

Goal	Objective	Initiative/Action	Metric	Baseline	Target
Service Excellence	Reliability	Improve operational effectiveness to deliver better service and improve maintenance with minimal disruption	MetroAccess on time performance	92.9%	92%+

FY2024 Business Plan

- Ensure accessibility of Metro’s fixed route services, facilities, equipment, and digital resources to improve the customer experience, particularly for customers with disabilities
- Ensure efficient, accurate and effective use of certification eligibility resources, aiming to reduce customer wait times for appointments and determinations and increase customer knowledge and use of available transportation options in the region
- Accurately schedule MetroAccess trips to reflect the respective fixed-route equivalent time and progressive routing
- Re-institute Real Time Traffic to the MetroAccess Fleet
- Continue growth of alternatives to MetroAccess. This provides opportunities for low-income customers to opt into discounted service as an option for low-income customers
- Continue cooperative efforts with Waymaps to bring accurate Station Wayfinding information to

customers with disabilities, and all customers in general

- Establish a pilot of 20 or more customers of the Find-A-Ride feature, which delivers browser-based “where’s my ride” functionality
- Complete the fleet-wide installation of Garmin GPS devices with real-time traffic, utilizing HD Radio signal

FY2023 Major Accomplishments

- Ensured full ADA compliance of the Silver Line Phase II stations
- Developed accessibility standards for the modernization of WMATA parking garages
- Re-instituted travel training
- Installed Driver Attention Warning technology in all MetroAccess vehicles
- Installed Real-Time Traffic GPS devices in all MetroAccess vehicles
- For the fiscal year through March 2023, the MetroAccess on-time pick-up performance was above target at 92.5 percent

Bus Services

1. Due to the extensive re-organization of November 2022, headcount by department is not available for FY2021 and FY2022

The Department of Bus Services is committed to ensuring safe, clean, reliable, cost effective and responsive bus service to promote regional mobility and contribute to the social, economic and environmental well-being of the communities in the Washington region.

Bus Services is the transportation provider for more than 120 million customer trips each year (pre-Covid), and

handles the operation, maintenance, and scheduling of Metrobus service in the District of Columbia, Maryland, and Virginia.

Metrobus is responsible for over 1,570 buses.

KEY PERFORMANCE INDICATORS: BUS SERVICES

Goal	Objective	Initiative/Action	Metric	Baseline	Target
Service Excellence	Reliability	Improve operational effectiveness to deliver better service and improve maintenance with minimal disruption	Metrobus on time performance	20 min routes: 78% 12 min routes: 76%	80%+
		Improve reliability of real-time bus tracking information	Bus: accuracy of real-time arrival information	86.3%	88%

FY2024 Business Plan

In support of Metro's strategic goals, the department's core services are to deliver safe, equitable and reliable transportation to the riding public; provide a safe work environment to bus employees; manage the workforce effectively; and balance departmental budgets wisely.

In FY2024, Bus Services is focused on delivering excellence to customers, empowering employees to drive bold changes and renewing and modernizing the system. In so doing, Bus Services' priorities include:

- Enhancing a proactive safety culture by implementing elements of the agency safety plan, identifying and managing risks, and promoting safety
- Improving Metrobus service quality for all riders through the Better Bus redesign project, launching this year, which will create the bus system of our future.
- Advancing on-board bus technology to improve the amount and accuracy of real-time data provided to customers
- Streamlining and improving day-to-day operations and activities at bus divisions to improve Metro's ability to provide reliable and frequent bus service for customers
- Investing in Metrobus vehicles and facilities to ensure that the fleet and facilities remain clean and in a good state of repair

FY2023 Major Accomplishments

- Celebrated 50 Years of Metrobus service at the Washington, DC Auto Show and with internal bus division appreciation events. Created a history book to highlight the work of the team to reflect the

changes and improvements over 50 years of Metrobus service

- Launched digital viewing of the bus operator pick at all divisions. This program was executed through collaboration with business partners including Information Technology (IT), Bus Technology System Support (BTSS), Plant Maintenance (PLNT), Low Voltage Electrical Maintenance (LVEM) and Trapeze
- Graduated 206 new bus operators from bus training, increasing bus operator availability.
- Held groundbreaking events at Northern and Bladensburg Divisions
- Bus Maintenance and Bus Transportation teams built a program and executed transition activities to support WMATA operations of Cinder Bed Division, which opened January 2022
- Successfully began production on the Motorola Radio 700MHz replacement for Metrobus
- Updated Customer Information System to eliminate the "ghost bus" issue. Working to improve the digital arrival time information at bus stops
- Implemented open stroller initiative
- Issued notice to proceed to two vendors to manufacture five electric buses each
- Partnered with Planning to begin the Better Bus network redesign
- Conducted nine listening sessions at bus garages to obtain employee feedback on the Better Bus network redesign
- Transported 634,000 customers during the South of National shutdown from September to November
- Delivery of 95 new buses with infotainment screens and USB charging ports began

Rail Services

FY2024 APPROVED OPERATING EXPENSE: RAIL SERVICES

<i>(Dollars in Thousands)</i>	FY2021 Actual	FY2022 Actual	FY2023 Budget	FY2024 Budget	\$ Change	% Change
Personnel	\$184,452	\$187,132	\$206,904	\$257,403	\$50,499	24.4%
Non-Personnel	\$121,935	\$88,239	\$114,163	\$115,810	\$1,647	1.4%
Total Cost	\$306,387	\$275,370	\$321,068	\$373,214	\$52,146	16.2%
Authorized Positions ¹	n/a	n/a	2,548	2,591	43	1.7%

1. Due to the extensive re-organization of November 2022, headcount by department is not available for FY2021 and FY2022

The Rail Services department operates and maintains Metro’s rail system in a safe, reliable and efficient manner 24-hours a day, seven days a week. The Rail department provides service across 128 miles of track and 98 stations, including 40 in Washington, D.C., 26 in Maryland and 32 in Virginia (all figures include Silver Line Phase 2 and Potomac Yard). Rail Services is responsible for station and train operations.

The Rail Services department is composed of the following groups:

- Rail Administration
- Rail Transportation

KEY PERFORMANCE INDICATORS: RAIL SERVICES

Goal	Objective	Initiative/Action	Metric	Baseline	Target
Service Excellence	Convenience	Modernize station operations to streamline station management/operations to deliver consistent, high-quality service across network	Customer satisfaction	52%	80%+
			Metrorail on time performance	92%	95%+
	Reliability	Improve operational effectiveness to deliver better service and improve maintenance with minimal disruption	Metrorail crowding	0.7%	5% or below
			Metrorail on time performance	92%	95%+
		Increase number of 7000-series trains in operation and begin 8000-series train implementation	Percent of planned rail service delivered	75%	Trend toward 92%

FY2024 Business Plan

In FY2024, Rail Services will continue its mission to move the region through safe, reliable, and cost-effective public transportation, focusing on the following priorities:

- Return 7000-Series railcars back to service
- Improve service reliability and frequency
- Enhance real-time customer communications and customer engagement
- Operate new rail stations on Silver Line Phase 2 and Potomac Yard station
- Improve station cleanliness and enhance public safety
- Work to reduce fare evasion

FY2023 Major Accomplishments

- Started passenger service at six Silver Line Phase 2 stations in Fairfax and Loudon Counties and the Potomac Yard Station in the City of Alexandria
- Reduced station overruns by 50 percent in FY2023 compared to FY2022

- Completed 8000 series Railcar Conceptual Design Review (CDR) Milestone
- Added a new position: Customer Experience Liaison (CEL)
- Addressed safety and maintenance issues in 6000-series railcars and completed campaign on active cars
- Increased use of the 7000-series fleet to support a 50 percent increase in Metrorail service levels
- Staffed all Silver Line Phase 2 stations and the Potomac Yard Station with trained Station Managers and appropriate Metro staff
- Supported Platform Improvement Project, a major capital project
- Restored service on the eastern portion of the Orange Line in Northeast Washington, D.C. and in Prince George's County after completion of the Platform Improvement Project
- Restored service on the Yellow Line in Northern Virginia and Washington, D.C. after major repair and overhaul to the Yellow Line bridge

Potomac Yard station platform

Metro Transit Police

Metro Transit Police serving Thanksgiving meals outside of Anacostia Station

FY2024 APPROVED OPERATING EXPENSE: METRO TRANSIT POLICE

<i>(Dollars in Thousands)</i>	FY2021 Actual	FY2022 Actual	FY2023 Budget	FY2024 Budget	\$ Change	% Change
Personnel	\$58,483	\$59,563	\$68,552	\$79,822	\$11,270	16.4%
Non-Personnel	\$8,320	\$7,196	\$10,263	\$10,792	\$529	5.2%
Total Cost	\$66,803	\$66,759	\$78,815	\$90,614	\$11,799	15.0%
Authorized Positions ¹	n/a	n/a	688	694	6	0.9%

1. Due to the extensive re-organization of November 2022, headcount by department is not available for FY2021 and FY2022

The Metro Transit Police Department is responsible for the safety of Metro customers, personnel, and transit facilities throughout the 2,000 square mile Transit Zone that includes the District of Columbia, State of Maryland, and Commonwealth of Virginia.

The Metro Transit Police Department is composed of approximately 471 sworn officers, 119 security Special Police, and 110 civilian personnel and is responsible for protecting and serving Metro patrons, personnel, transit facilities, and revenue.

KEY PERFORMANCE INDICATORS: METRO TRANSIT POLICE

Goal	Objective	Initiative/Action	Metric	Baseline	Target
Service Excellence	Safety and Security	Increase public orderliness and safety programs to increase passenger and employee safety and perceptions of safety across the system	Customer perception/satisfaction: safety from crime	58%	75%+
			Employee assault rate	2.6	trending toward target of 0
			Part 1 Crime Rate	5.8	trending toward target of 0
		Increase visibility of Metro representatives	Customer perception/satisfaction: safety from crime	58%	75%+
			Part 1 crime rate	5.8	trending toward target of 0

FY2024 Business Plan

- Continue deployment of crisis intervention coordinators and create metrics to monitor and track crisis intervention
- Continue municipal partnership initiative for enhanced visibility/presence of law enforcement
- Continue to consider political strategy to address violent crime along with legislators and prosecutors

FY2023 Major Accomplishments

Patrol Operations Bureau

- Launched new Body-Worn Camera Program to increase transparency, continued civility and accountability
- Launched problem oriented policing model using a root cause approach to implement crime and disorder solution-oriented strategies
- Increased law enforcement presence throughout the system through jurisdictional partnerships, increased Special Police, and ensuring minimum staffing patrol levels are met
- Launched High Visibility and After-School Details to prevent crime and help students transition safely to and from school
- Provided fare evasion education
- Developed a “Be on the Lookout” (BOLO) squad
- Began NARCAN program to treat people experiencing an opioid overdose
- Deployed high visibility uniform initiative

- Dispatched the new Civil Disturbance Unit (CDU), which partners with local jurisdictions to manage large scale protests or acts of disorderly behavior
- Created the Tactical Operations Unit (TOU), a target enforcement, surveillance, and plain-clothes unit assigned throughout the bus and rail networks

Homeland Security, Intelligence Bureau

- Department of Homeland Security Teams completed a 10-week certification course
- Completed FBI quarterly Homemade Explosives and Peroxide Training Exercise
- Supported special events like the March for Life, First Amendment March, and the Marine Corps Marathon
- Established the Security Observation Response Team; SORT is dispatched throughout the core system
- Violent Crime Clearance Rate of 60 percent; law enforcement agencies consider crimes solved when they are “cleared” by arrests
- Property Crime Clearance Rate of 23 percent

Administrative Services Bureau

- Graduated two police academy classes, incorporating 30 new Transit Police Officers
- Completed leadership development workshops
- Completed bi-annual promotional five-day exercise
- Hosted MTPD Open House to promote intra-department partnerships, information sharing, and foster appreciation

Community Services Bureau

- Activated new Crisis Intervention Specialists
- Increased Homeless Outreach Initiatives
- Created youth mentorship programs and expanded the Youth Advisory Council
- Joined the District of Columbia's Criminal Justice Coordinating Council for juvenile data-sharing
- Implemented the Scanning, Analysis, Response Assessment model to address mental health related occurrences
- Conducted community outreach initiatives such as: National Night Out Event at Lincoln Park, Open Door Baptist Church health information fair, and Holiday Faith & Blue events in the District of Columbia and Maryland

- Raised over \$5,000 to provide holiday gifts and life necessities for children and families in local shelters and stations
- Provided hot meals to 300 people during the holiday seasons

Core Services Group

- Conducted peer exchange and site visit exercises
- Conducted formal threat and vulnerability assessment intended to identify and document security vulnerabilities and provide mitigation recommendations
- Developed a Technical Evaluation Team to conduct the solicitation process and provide guidance for the development of a Master Security Plan

Metro Transit Police officers with K-9s

Metro Integrated Command & Communications Center

FY2024 APPROVED OPERATING EXPENSE: METRO INTEGRATED CMD & COMMS CENTER

<i>(Dollars in Thousands)</i>	FY2021 Actual	FY2022 Actual	FY2023 Budget	FY2024 Budget	\$ Change	% Change
Personnel	\$31,094	\$32,544	\$35,343	\$36,414	\$1,071	3.0%
Non-Personnel	\$2,639	\$6,096	\$1,859	\$4,066	\$2,207	118.7%
Total Cost	\$33,733	\$38,641	\$37,202	\$40,480	\$3,278	8.8%
Authorized Positions ¹	n/a	n/a	196	196	-	-

1. Due to the extensive re-organization of November 2022, headcount by department is not available for FY2021 and FY2022

Metro Integrated Command & Communications Center safely and efficiently moves people, via our buses and trains, throughout the system 24-hours a day, seven days a week. The Metro Integrated Command & Communications Center Operations has four main functions: controlling bus and rail traffic, coordinating system information for both internal, and external stakeholders, overseeing the safety and security of the system, and managing maintenance requests.

Rail Operations Control Center: The Rail Operations Control Center safely and efficiently moves people and trains through the Metrorail system 24-hours a day, seven days a week. Its operations team has three functions: rail traffic, information, and maintenance. They are collectively responsible for providing effective control over train mainline and yard movements, station activities, mainline systems, overseeing maintenance on Metrorail infrastructure, as well as station and key customer service communications. Metrorail adjusted its service pattern, frequency, and hours to enhance safety for employees and individuals who had to travel during the pandemic.

Bus Operations Control Center: The Bus Operations Control Center monitors, directs, and manages the day-to-day operation of Bus Service with a focus on providing a reliable and safe environment. It identifies the need for responsive personnel to assist with service disruptions while committing to the safety of all customers and employees. It provides accurate, consistent, and reliable information to its internal and external customers.

Security Operations Control Center: The Security Operations Control Center is comprised of two divisions, Metro Transit Police Department Police Communications and Digital Video Evidence Unit. The Communications Division operates a full-service 24/7 police dispatch and communications center where all emergency and non-emergency calls are routed. It is responsible for answering and dispatching the appropriate police, fire, or emergency medical service personnel for calls received from Metro customers and personnel. The

Communications Division is also responsible for updating and relaying information to emergency personnel via radio and the Computer Aided Dispatch (CAD) system, managing the Metro Transit Police Department Text Tip program, Metro Transit Police Department Everbridge alerts, and processing all Criminal Justice Information Systems (CJIS) queries received by Metro Transit Police Department police officers in the field. The Digital Video Evidence Unit is responsible for live monitoring of cameras and researching both criminal and non-criminal incidents and events. It assists internal customers, external law enforcement partners, and government agencies with video recovery.

Power Operation Center: The Power Operation Center team consists of highly trained Power Desk Controllers (PDC) and Power Desk Assistant Superintendents (PDAS), led by a safety focus, and maintenance driven management team. The Power Operation Center controls and executes all third rail power activities, along with providing additional power support throughout the system. The Power Operation Center monitors power room access, alarms, and the dispatching of power response crews. The Power Operation Center supports mission (Safety and Service) by aligning with and collaborating with our internal and external customers.

Car Maintenance Desk: The Car Maintenance Desk manages and maintains the vast train car inventory for the agency. Its focus is to maintain a level of readiness, in accordance with safety codes and standards, that supports safe, efficient, and reliable service. This desk manages maintenance requests from the Metro Integrated Command & Communications Center personnel and the public to address incidents and malfunctions throughout service, minimizing disruptions to customers and keeping technicians and operators safe.

Elevator and Escalator Maintenance Desk: The Elevator and Escalator Maintenance Desk manages and maintains the vertical transportation equipment inventory in WMATA facilities which move people and personnel

through the system quickly, safely, and accessibly. It also supports capital improvement efforts in the agency by managing the replacement, rehabilitation, and installation of all vertical transportation equipment. This desk manages maintenance requests from Metro Integrated Command & Communications Center personnel and the

public to promptly address incidents and malfunctions and keeps regular communication with stakeholders to ensure disruptions to vertical transportation have a minimal impact on the safe and accessible movement of people throughout the system.

KEY PERFORMANCE INDICATORS: METRO INTEGRATED CMD & COMMS CENTER

Goal	Objective	Initiative/Action	Metric	Baseline	Target
Service Excellence	Safety and Security	Launch Metro Integrated Control Center	Metrobus on time performance	20 min routes: 78% 12 min routes: 76%	80%+
			Metrorail on time performance	92%	95%+

Staff tour of the Metro Integrated Command & Communications Center construction

FY2024 Business Plan

In FY2024, the Metro Integrated Command & Communications Center will continue its focus on integrating the Rail, Bus, Maintenance, Power, and Security Operations Control Centers to ensure our decision-making is inclusive, timely, and effective, enabling Metro to operate in a dynamic environment. The objective is to align our capabilities to our new strategic transformation plan, “Your Metro, the Way Forward.”

Specifically, the Metro Integrated Command & Communications Center will focus on the following actions:

- Integrate command and communications of the Rail and Bus operations, along with our Security operations, into a single world-class control center enabling efficient and reliable communication between all Metro services and an optimization of resources to address shifting needs
- Enhance system security and safety by combining our Security Control Center into the Operations Control Center and utilizing combined resources to further ensure our customers are safe within their transit system
- Implement a complete redesign of the training received by Rail Traffic Controllers (RTC) to meet the current and future needs of the system; ensuring the trainee has experience and is prepared to perform the job
- Develop and implement a new reporting dashboard for Metro Integrated Command & Communications Center metrics to enable all stakeholders to see the status of the system and help make data-driven decisions
- Incorporate a planning and exercise team (formerly in Safety) to oversee and develop critical operations plans and exercises to support an integrated response to incidents, enhancing system safety

FY2023 Major Accomplishments

- Successfully implemented a Safety Management System (SMS) process in the Rail Operations Control Center (ROCC) which enables the identification and mitigation of risks in WMATA rail operations
- Successfully completed a management team reorganization which provides 24/7/365 senior operational oversight of WMATA rail operations
- Implemented a revamp of the ROCC training program including overhaul of both academic and On-the Job training instruction. These foundational pieces are needed to provide a structured transfer of critical safety information to new and present ROCC employees
- Contract awarded to plan, coordinate, and execute the startup of the new Metro Integrated Command and Communications (MICC) Center, with the development of strategies for continuous improvement of MICC operations
- Developed a new, unified, and streamlined approach to MICC communications that will better support operations and improve customer experience
- Executed a multi-phase operational shift plan to exercise the operational and administrative capabilities of the new Eisenhower Building, formally establishing the facility as Metro’s operations center backup facility, as a first step toward its official designation as the MICC
- Hired a new Senior Vice President to lead the MICC and shape all aspects of the stand-up effort
- Developed a comprehensive MICC stakeholder and employee engagement plan to help manage the changes necessary to create a best-in-class integrated operations center, highlighting the professional and personal opportunities afforded our people

Operations Administration

FY2024 APPROVED OPERATING EXPENSE: OPERATIONS ADMINISTRATION

<i>(Dollars in Thousands)</i>	FY2021 Actual	FY2022 Actual	FY2023 Budget	FY2024 Budget	\$ Change	% Change
Personnel	\$3,672	\$3,691	\$3,777	\$4,083	\$306	8.1%

1. Due to the extensive re-organization of November 2022, headcount by department is not available for FY2021 and FY2022

The Office of Operations Administration ensures Metro's internal clients are well-equipped to serve our customers, providing direct support and managing oversight of financials, resources, policies, workforce availability and administrative functions within the Department of Operations to ensure that all activities are accomplished consistently, efficiently, and in conformance with WMATA and labor standards to confirm safety of personnel and customers.

FY2024 Business Plan

- Conduct in-depth manpower analysis across operations to ensure that service delivery aligns with resource availability
- Perform analysis of workforce structure across Operations to ensure consistency and efficiency
- Partner with Safety and Readiness to ensure consistent implementation and understanding of SMS throughout Operations
- Fully implement Centralized Absence Intake Center (CAIC) across all of Operations and Infrastructure offices with represented employees to capture unforeseen absences in real time so that work can be replaced quickly
- Implement improved workforce management tools and strategies to reduce reliance on unscheduled overtime
- Effective operating budget development and management for Operations and Infrastructure offices working closely with senior leaders to ensure budget is aligned with operational requirements

Open and transparent financial and contract reporting at monthly BudStat with Operations and Infrastructure

FY2023 Major Accomplishments

- Implemented new automated CAIC within Bus and Rail Transportation providing consistent intake of unscheduled absences for more than 3,000 front line employees
- Managed over 1,397 excessive absenteeism referrals and 1,010 cases of excessive absenteeism
- Provided Transitional Duty Assignments for 147 employees unable to work in their full duty capacities
- Scheduled and tracked the outcomes of 1,115 Safety Sensitive Physicals (SSP's) across Operations and Infrastructure
- Identified each Operations office's FY2023 initiatives and determined applicable expense categories based on the type of work and available funding by working with Operations senior leadership
- Completed the build of the FY2023 Operating Budget for 184 Operations offices in one week complying with the CFO's published timeline
- Developed proposed solutions for reducing and realignment of the FY2023 COO Operations budget by reviewing with senior operations leadership and the office of the Chief Financial Officer
- Conducted quarterly overtime budget vs. expenditures meetings with Bus and Rail Transportation divisions. Traveled to all transportation divisions to update front-line staff on their office's overtime spending, financial position, and absenteeism data
- Automated purchase card and excess hours reporting by using Power-BI business intelligence tools and bi-weekly auditing

Reliability Engineering & Asset Management

FY2024 APPROVED OPERATING EXPENSE: RELIABILITY ENGINEERING & ASSET MGMT

(Dollars in Thousands)	FY2021 Actual	FY2022 Actual	FY2023 Budget	FY2024 Budget	\$ Change	% Change
Personnel	\$4,677	\$5,467	\$5,517	\$6,488	\$971	17.6%
Non-Personnel	\$58	\$67	\$1,015	\$1,010	(\$5)	-0.4%

Authorized Positions ¹	n/a	n/a	50	52	2	4.0%

1. Due to the extensive re-organization of November 2022, headcount by department is not available for FY2021 and FY2022

The Office of Reliability Engineering Asset Management takes advantage of the many synergies and efficiencies provided by having complementary individual elements of maintenance planning, reliability, and asset management under one centralized office. The office is composed of the Reliability Centered Maintenance Planning Office and the Transit Asset Management Office.

FY2024 Business Plan

- Lead the transition from paper-based maintenance records to digital forms
- Lead the program of projects to upgrade our Enterprise Asset Management System (Maximo) as well as other supporting business systems including Optram and MaxTrax
- Expand and centralize the reliability engineering and reporting function, including maintenance planning, across Operations
- Conduct Industrial Internet of Things (IIoT) pilot program on Silver Line assets

- Develop Condition Assessment methodologies and Lifecycle Management Plans for major asset classes

FY2023 Major Accomplishments

- Initiated and led the development of safety critical items for all major asset classes
- Developed digital forms using MaximoX for the 7K Back-to-Back inspection
- Developed digital forms using MaxTrax for the Power and Plant maintenance departments
- Initiated and led the review of Engineering Change Management processes across the Authority
- Launched new reliability reports for Plant Assets
- Revised all seven Maximo CBT training modules and trained staff
- Conducted four Reliability Centered Maintenance (RCM) deep dives across Railcar and ATC

KEY PERFORMANCE INDICATORS: RELIABILITY ENGINEERING & ASSET MANAGEMENT

Goal	Objective	Initiative/Action	Metric	Baseline	Target
Service Excellence	Reliability	Implement reliability-centered maintenance using advanced analytics, imagery, and other tools to improve and coordinate preventive maintenance	Elevator and escalator availability	Elevator: 97.7% Escalator: 92.7%	Elevator: 98%+ Escalator: 93%+
		Implement reliability-centered maintenance using advanced analytics, imagery, and other tools to improve and coordinate preventive maintenance	Metrobus on time performance	20 min routes: 78% 12 min routes: 76%	80%+
		Implement reliability-centered maintenance using advanced analytics, imagery, and other tools to improve and coordinate preventive maintenance	Metrorail on time performance	92%	95%+

Supply Chain Management

FY2024 APPROVED OPERATING EXPENSE: SUPPLY CHAIN MANAGEMENT

<i>(Dollars in Thousands)</i>	FY2021 Actual	FY2022 Actual	FY2023 Budget	FY2024 Budget	\$ Change	% Change
Personnel	\$17,219	\$18,796	\$19,727	\$20,842	\$1,115	5.7%
Non-Personnel	(\$151)	\$1,309	\$2,236	\$2,229	(\$7)	-0.3%
Total Cost	\$17,068	\$20,106	\$21,963	\$23,071	\$1,108	5.0%
Authorized Positions ¹	n/a	n/a	192	192	-	-

1. Due to the extensive re-organization of November 2022, headcount by department is not available for FY2021 and FY2022

The Office of Supply Chain Management directs the supply chain to enable safe, reliable and cost-effective transportation. It is composed of the following offices: Supply Chain Planning and Analytics; Supply Chain Contracts Management; Supply Chain Warehousing and Logistics; and Supplier Warranty and Core Management.

FY2024 Business Plan

- Modernize warehouse infrastructure, technology, and logistics; reduce inventory value by \$50 million
- Partner with an external vendor to reduce supply chain costs (Vendor Managed Inventory)
- Develop a mature, data-driven culture, and enhance knowledge-sharing within Supply Chain Management and across departments

FY2023 Major Accomplishments

- Two employees selected for the competitive National EnoMAX Leadership Development program
- Three additional employees selected for the Authority's seven-month High Potential (HiPo) Leadership Program
- Team members spoke at three national conferences on topics relating to SGR and Supply Chain Management

Supply Chain Warehousing & Logistics

- Generated over \$5 million in revenue through our surplus/ divestment program
- Updated and modernized agreements with our union partners, updated job descriptions to accurately reflect our mission and state of supply chain, and stand-up a formal logistics program for last mile deliveries
- Implemented a SOGR program to lead the modernization of infrastructure and lifecycle

replacement of material handling equipment to modernize our warehousing real estate and enhance safety and productivity within the business unit

- Updated the inventory terms and conditions to reduce vendor discrepancies and prevent defects in the supply chain, preventing over \$10 million of defective material from entering the supply chain
- Storerooms and Warehouse Operations opened and started the Dulles Warehouse for revenue support on Silver Line Phase II
- Finished the Safety Management System implementation, resulting in eight risk and completion of 126 safety related actions. Efforts were favorably received when briefed to WMSC
- Provided direct support to throughout WMATA by issuing COVID and restricted products to internal customers
- Closed two storerooms through proactive safety actions with no impact to service levels
- Closed several corrective action plans
- Trained 100 percent of the warehouse workforce on chemical warehousing safety and implemented standards throughout 26 storerooms and warehouses

Supply Chain Planning & Analytics

- Continual forecasting of global supply chain impacts, enabling Metro to procure an ample supply of pandemic-safety items. Presented our activities at two national conferences
- Expanded Sales and Operations Planning Program by adding a forecasted demand average to compensate for lack of demand planning
- Upgraded three SCM dashboards, multiple reports, and recurring and ad-hoc analytics

- Identified and quantified maverick spend risks with departments of Safety & Readiness, Management Audits, Risk & Compliance (MARC), Quality Assurance, Internal Compliance, & Oversight (QICO) and Procurement
- Avoided a critical safety vest stock-out using analytics. Also standardized and consolidated safety vests into one style
- Redistributed over 200 lines of stock for a savings of over \$105,000
- Organized a Small Business Outreach Event to increase local supplier base
- Began standardizing high voltage gloves and putting them on contract to reduce risk to human life and increase fiscal responsibility
- Coordinated bringing Potomac Yard Capital Spares into stock to support future repair needs
- Coordinated with Operations on new faregates to ensure parts are inducted into Maximo and data is available for analysis
- Began sourcing items for additive manufacturing to support hard to find legacy parts

Supply Chain Contracts Management

- Ongoing collaborative efforts with Procurement to award contracts for Rail, Bus, SCM and MTPD material and service's needs
- Added MTPD procurements and contract compliance portfolio to SCCM and provide Procurement Life Cycle management support
- Additional WMATA locations added to Fastenal portfolio for Bus Maintenance, Railcar Maintenance, Traction Power Maintenance and Dulles Yard

- Implementing UnoBadge functionality for all Fastenal Vending machines for authorized users
- Ongoing VMI contract procurement and SCM WMS procurement

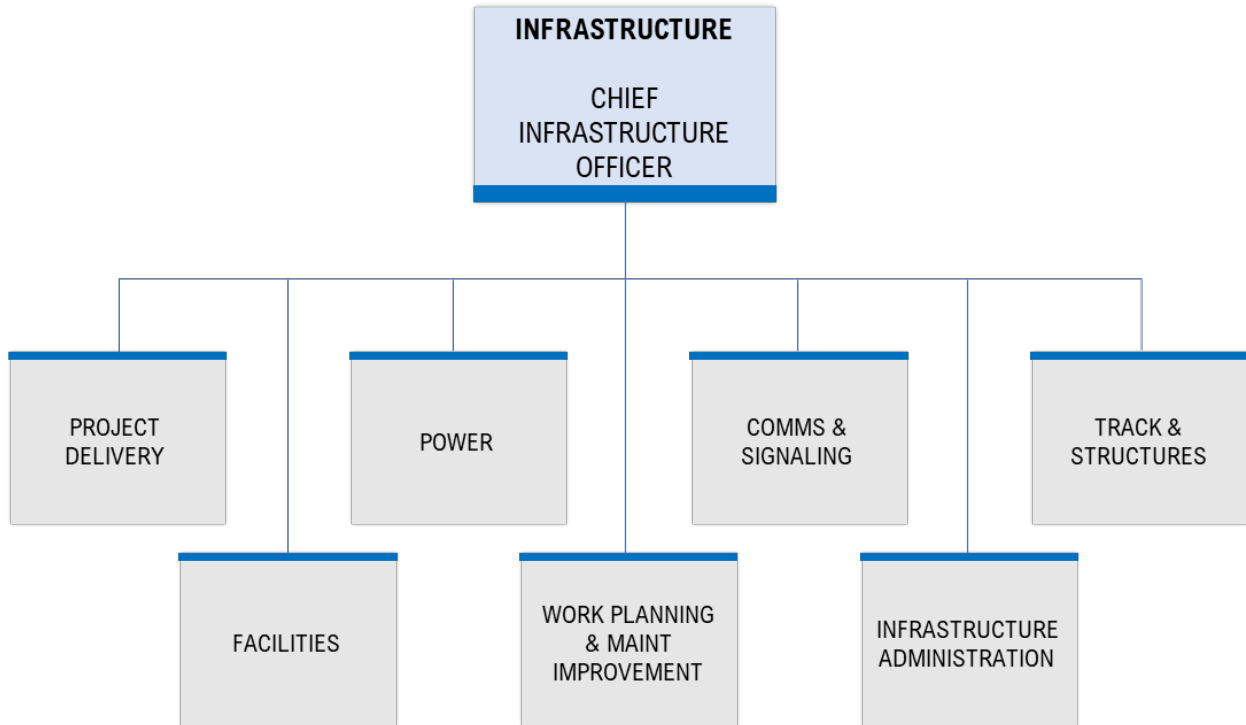

SCM Administration

- Coordinated production of SCM Monthly newsletter
- Coordinated retirement montage videos
- Liaised with EAP, FMLA, Workers' Comp and QICO to host informational sessions
- Created inclusion and collaboration opportunities
- Coordinated/participated in VP Field Visitations
- Developed a dashboard to analyze administrative operations expenditures monthly
- Implemented process to submit warehouse repair request to the Office of Risk Management for insurance approval

SCM Warranty & Core Management

- Initiated new office to centralize Warranty and Core management across the Authority to maximize the value return for reimbursable material and labor
- Collaborated with Bus Maintenance and Car Maintenance on revised warranty contract terms and conditions for capital purchases
- Following project handover, provided warranty claim continuity for Silver Line Phase II, working with MWAA for timely resolution
- Have recovered or offset dollars by holding contractors to terms they set in contracts
- Worked with Procurement to review future contracts to ensure most favorable warranty terms for Metro

Infrastructure

FY2024 APPROVED OPERATING EXPENSE: INFRASTRUCTURE

<i>(Dollars in Thousands)</i>	FY2021 Actual	FY2022 Actual	FY2023 Budget	FY2024 Budget	\$ Change	% Change

1. Due to the extensive re-organization of November 2022, headcount by department is not available for FY2021 and FY2022

The Department of Infrastructure executes the inspection, maintenance, and rehabilitation of all fixed assets throughout the Authority and delivers the Authority’s capital construction program from development of implementation strategy for all approved projects through daily oversight of project execution.

The Department of Infrastructure’s organization structure consists of seven main divisions: Project Delivery, Power,

Communications & Signaling, Track & Structures, Facilities, Work Planning & Maintenance Improvement, and Infrastructure Administration. During FY24, the Department will complete the design and implementation of an organizational realignment to focus on asset types (e.g., power) and the stages of the infrastructure life cycle (design, build, maintenance, etc.).

FY2024 Business Plan

The Department of Infrastructure is focused on advancing the GM/CEO's agenda of keeping Metro safe, reliable, and affordable through the following actions.

- Complete project charters for state of good repair and safety critical projects
- Perform preliminary risk assessments of capital projects
- Support development, procurement, award, and oversight of IDIQ project/construction management and general architectural and engineering task orders for Metro departments
- Continue to refine and standardize contract language for Division 0 and 1, incentive schemes, selection criteria, track access language, and commercial terms that fairly distribute the risk to the appropriate party, unit price schedule (UPS) alignment with bid documents, and internal cost estimate (ICE)
- Conduct market research to maximize competition on procurements and to float progressive bidding concepts that may aid bidders and reduce risk to WMATA during the procurement process
- Track cost data throughout a project's life cycle to ensure transparency and accountability against baseline data from executed charters through project implementation at critical milestones
- Strategically leverage construction access planning to ensure safe worksites, efficient execution, and proactively work to limit overuse of access locations. Consider dedicated Authorized Construction Site (ACS) as appropriate
- Support Metro's DBE goal achievement of 25 percent participation by identifying small business opportunities and construction implementation plans that enable optimal participation
- As part of Metro's Clean Sweep initiative, deep-clean all Metrorail stations and repaint or repair as needed for a safer and more enjoyable customer experience
- Continue supporting extensive capital elevator and escalator replacement and rehab contracts, through completion, and provide input to the capital program to ensure strategic investments
- Continue optimizing condition and availability for assets including elevators/escalators, faregates, and fare vending machines

Union Station escalator replacement

- Continue construction of Phase 4 escalator canopies contract, to include the remaining nine station entrance escalator canopies at Judiciary Sq North, Arlington Cemetery, Smithsonian North, Archives, U St East, Tenleytown-AU, Capitol South and Potomac Ave, and stairs at Bethesda, Judiciary Sq North, and College Park-U of Md Metrorail stations
- Continue designs for Traction Power and A/C Power gear replacements on all lines in accordance with prioritization
- Complete designs for next air handling unit locations, systemwide tunnel chilled water pipes, and chillers throughout the system
- Continue construction for the rebuild and replacement of Northern and Bladensburg bus facilities
- Complete demolition at Heavy Repair and Overhaul Facility
- Complete the construction of new Potomac Yard Station and bring the station into service
- Commence relocation of Union Station First Street entrance
- Continue construction for next phase of edge lighting installation and commence site lighting for stations
- Continue rehabilitation of drainage pump systems
- Complete rehabilitation of the tunnel ventilation upgrades pilot project
- Continue Structural Package A rehabilitation of D&G Connector, Grosvenor-Strathmore Aerial, and various bridges
- Award Structural Package B structural rehabilitation of 21 bridges and commence design phase
- Award and commence installation of next phase of Tunnel Smoke Detection System
- Continue design work for more maintenance friendly chemical detection systems for bus garages
- Continue installation of electronic safety and security upgrades (such as lighting, CCTV, access control, intrusion detection, fire alarms, public address, and intercom) across rail stations, bus stations, and other Metro facilities
- Continue repair and replacement of roofs program
- Continue rehabilitation of parking garages and surface parking lots
- Continue installation of pneumatic logic control (PLC) panel boxes
- Continue AC Switchgear replacement
- Continue UPS replacements at passenger stations, yards, and traction power locations
- Continue replacement and installation of cable and traction power system for rail car efficiency upgrades under Traction Power State of Good Repair contract
- Continue Tunnel Leak mitigation on Red Line
- Continue monitoring and support of MTA's Purple Line project including award of the Bethesda South Mezzanine project
- Continue coordinating and monitoring adjacent, development, and jurisdictional projects such as Crystal City East Entrance
- Track and Structures will reduce Mechanical Joints by 40 percent to improve ride quality
- Track and Structures will complete the Hay Rail Replacement Project to significantly improve rail reliability
- Track and structures will continue with the Yard Rehabilitation project and the installation of the Automatic Wayside Inspection System (AWIS) locations
- Track and Structures will reinstate the Track and Structures Safety Committee with a focus on the safety concerns of frontline employees
- Track and Structures will implement an employee recognition program
- Track and Structures will assist in identifying and conducting needed repairs to facilitate the return to Automatic Train Operation (ATO) on the Red Line
- Track and Structures will remove and replace the remaining legacy fasteners
- Track and Structures will work with Track Engineering to finalize the restraining rail study and plan to implement any needed repairs arising from that study
- Construction of Silver Line Phase 2 Automatic Train Control (ATC) Training Lab
- Continue implementation of the Train Control Room Renewal Project: completion of the Issued For Construction (IFC) design package, design completion for Modbus Embedded Remote Terminal Unit Communications Server (MERCs) and Remote Terminal Units (RTUs); design

- completion on the B and J line; all product manufacturing completion; train control room installation and testing on the G line
- Completion of business case and engineering assessment for Platform Screen Doors
 - Launch of regional Communications Based Train Control Advocacy Campaign
 - Complete train control copper to fiber installation at Rhode Island Ave to Takoma Metrorail stations
 - Implement ATO systemwide
 - Complete installation of cable trough and switch machine replacement project at West Falls Church Rail Yard
 - Complete 28 switch machine replacements at nine locations
 - Complete six Phase 1 locations (A02, A11, B02, C10, E01, F09) for a direct fixation structural switch machine assessment and submittal of repair designs for 37 Phase 2 locations
 - Install, test and evaluate new modular switch machines at Telegraph Road
 - Continue a Train Control Inventory Control and Asset Records Assessment
 - Execute acquisition contract to support the development of Project Management Construction Management (PMCM) and General Architecture & Electrical Consultant (GAEC) staff support contracts for the Computer Based Train Control (CBTC) program
 - Initiate a pilot of new snowmelter technology
 - Perform replacement of rail to reduce bobbing track circuit location through collaboration with Communications and Signaling, Track and Structures, and Power teams
 - Conduct a lifecycle management assessment of communications and signaling assets
 - Coordinate the Department of Infrastructure Board actions
 - Manage the Department of Infrastructure operating budget and continue to audit charging practices for improvement
 - Launch an improved intern and entry-level recruitment strategy to build strong talent pipelines
 - Support Infrastructure departments in matters related the Authority's human capital process and procedures
 - Improve situational awareness of WMATA team members through continued development of Radio Network Operations Center (RNOC) capabilities promoting safety, reliability centered activities and innovative intelligence to address future risks
 - Improve traceability to design requirements and customers' use cases through better quality management and increased stakeholder awareness
 - Continue pilot of CCTV in the tunnels to enhance situational awareness within WMATA
 - Promote COMM system compliance and traceability through the empowerment of cross functional systems integration teams
 - Provide more sustainable Fire Industry Association (FIA) designs through the reduction of appliances by 30 percent
 - Complete access control and fire alarm updates for six stations south of National Airport
 - Complete FIA Engineering Modification Instructions (EMIs) with retrofits at 52 of 72 stations to remove trouble alerts and Intrusion detection
 - Complete ESS and CCTV system revitalization at four railyards (Branch Avenue, Greenbelt, Glenmont and Shady Grove)
 - Design, procure and install new CNG systems in four bus garage locations
 - Complete ESS infrastructure enhancements to obsolete switching infrastructure
 - Leverage collaborative science and lessons learned from cross-functional projects such as FIA and CCTV SOGR to reduce delivery time and improve system performance

KEY PERFORMANCE INDICATORS: INFRASTRUCTURE

Goal	Objective	Initiative/Action	Metric	Baseline	Target
Service Excellence	Reliability	Rehabilitate Yellow Line tunnel and bridge	Metrorail on time performance	92%	95% or above
		Modernize signal infrastructure to allow for consistent and efficient rail operation			
	Safety and Security	Repair and modernize infrastructure and equipment to minimize time in maintenance, number of failures, and improve operational reliability	Percent of planned rail service delivered	75%	Trend towards 92%
		Install safety-oriented stations and bus stop infrastructure to improve passenger safety	Customer injury rate	35.9	Trend toward target of 0
	Launch platform screen door pilot				
Convenience	Metrobus customer satisfaction: cleanliness	Metrobus customer satisfaction: cleanliness	71%	80% or above	
	Metrorail customer satisfaction: cleanliness	Metrorail customer satisfaction: cleanliness	52%	80% or above	
Sustainability	Environmental Sustainability	Modernize design, construction and operations to meet sustainability and climate resiliency challenges (including pursuing green certifications for buildings)	Number of facilities with green certifications	Not Yet Tracked	TBD

FY2023 Major Accomplishments

Communications & Signaling

- Continued implementation phase of the return to ATO project
- Initiated systemwide assessment of bobbing track circuit locations
- Closeout of ATC system replacement at Alexandria Rail Yard
- Awarded Train Control Room Renewal contract for 24 train control rooms, 14 Remote Terminal Units (RTUs), and systemwide MERCs communication boxes; contract includes 100 percent design package completion and design completion for the F and G line train control rooms, and RTU A-line design completion
- Delivered long-term program implementation plan for Communications Based Train Control System
- Completion of Return to ATO installation of marker coils systemwide, Auto Door testing, and Integrated Red Line testing
- Completed Intrusion Detection Warning (IDW) System Installation between Union Station and Rhode Island Ave Metrorail stations
- Completed 43 mainline switch machine replacements
- Completed systemwide assessment Intrusion Detection Warning (IDW) system
- Completed design for ATC Training Lab at Dulles yard
- Evaluated snowmelter system and switch machine Requests for Information (RFI)
- Completed installation of Phase 1 of the tunnel smoke detection system and completed static acceptance testing
- Completed four railyard designs for CCTV and Access Control at Shady Grove, Greenbelt, Branch Ave and Glenmont
- Completed CCTV design upgrades and infrastructure enhancements at NoMa-Gallaudet U
- CHG design upgrades at three bus garages (Four Mile Run, Bladensburg and Southern); incorporated short-term solutions at Four Mile Run and Bladensburg bus garages
- Initiated FIA SOGR improvements by developing EMLs for retrofits at 52 of 72 stations to remove trouble alerts and Intrusion detection
- Completed FIA designs for New Carrolton Yard, Southern Bus Garage (including chemical detection), Wheaton Parking Garage, and Grosvenor Parking Garage have been delivered to the Office of Project Implementation & Construction

- Completed ESS (Access Control) and FIA design upgrades at Franconia-Springfield, Eisenhower Ave, Van Dorn Street, King St-Old Town, Huntington and Braddock Road Stations
- Completed ancillary and radio fiber backbone designs for 37 stations
- Achieved a five-year high of 98.7 percent camera availability through SOGR efforts with CCTV
- Support ESS server migration from JGB to Mill Rd and CTF as part of efforts to closeout JGB
- Radio team has updated 12 supplemental coverage areas on the 490MHZ system in support of our customers
- Completed the relocation of 490MHZ system prime, remote and below ground system to Mt. Vernon Sq and L'Enfant Plaza
- Completed the annual system Radio coverage assessment testing and reporting
- Completed installation of access Control and CCTV designs for Glenmont East and West parking garage
- Completed design upgrade of intercom and Public Address upgrades for Fort Totten, Stadium-Armory, and Congress Heights Stations
- Supported communication system integration of Metro's headquarters at three locations and operations control center system integration of communication infrastructure (video walls, radio infrastructure, access control, CCTV, FIA, communication rooms, chemical detection and supporting IT integration)
- Upgraded 490MHZ radio system infrastructure from 7,14 to A20.20 requirements
- Sponsored system integration acceptance testing at Dulles Phase II of the following systems: radio, FIA, CCTV, access control, public address, ESS software and faregates
- Supported COMM system revitalization at four stations (Deanwood, Cheverly, Landover and New Carrollton) upgrading the following systems: CCTV, FIA, public address, intercom systems, fiber backbone and access control
- Provided FIA hydrogen detection system and National Fire Protection Association (NFPA) 72 software enhancements at six Silver Line stations and 20 remote site facilities
- Developed remote tunnel smoke and fireworks remote monitoring capabilities within the ESS lab

- Created a collaborative ESS platform for operations and engineering team members to provide life cycle management of ESS infrastructure

Facilities

- Continued to develop plans for seating, hoteling and desk-sharing across existing buildings and new office buildings
- Continued escalator canopies contracts
- Completion of the L'Enfant Plaza North entrance, including the baring beam and sidewalk
- Completed full replacement of 24 escalators at Takoma, Capitol South, Tenleytown, Silver Spring, Ballston-MU, Metro Center, Potomac Ave, L'Enfant Plaza, and Union Station
- Completed Elevator replacement project at Forest Glen Station
- Completed Clean Sweep project at 91 stations throughout the system including pressure washing, relamping and painting of public-facing surfaces
- Completed fabrication and installation of suicide prevention signage systemwide
- Completed installation of digital display signs at DuPont Circle, Metro Center and Columbia Heights Stations
- Continued the restroom rehabilitation project with 13 more locations completed this year
- Reviewed and provided comprehensive responses to over 200 design submittals for Revenue Collection Facility, Heavy Repair & Overhaul Facility, Yellow Line Tunnel & Bridge Design/Engineering Services, MTPD District III, Bladensburg Bus Garage, Northern Bus Garage, Railcar Regenerative Power Optimization Support, Good Luck Road Backup ROCC & BOCC, Four Mile Run Bus Garage, Fan Shaft Structural SOGR Phase 1, Pilot Program Tunnel Ventilation at Woodley Park and Cleveland Park, and Zero-Emission Bus
- Reviewed over 300 construction submittals, site visits and supported the project team for Dulles Extension Packages A & B, Potomac Yard, Station Rehabilitation Phases 3 & 4, MTPD District III, Bladensburg Bus Garage, Replacement of DPS, Shepherd Parkway CNG, Pilot Program Tunnel Ventilation Woodley Park and Cleveland Park, and Zero-Emission Bus
- Completed support installation of 1087 faregates within the WMATA system

- Continued and completed project management support of CIPO261, removal, installation and replacement of approximately 22,000 Tunnel Light Fixtures

Power

- Continued AC Room Replacement
- Continued Traction Power room upgrades
- Replaced a total of 86 Uninterrupted Power Supply units through program
- Replaced High Voltage Traction power cables
- Meggered 20 percent of the systems cables
- Upgraded Maximo Structure and completed program to enter all assets into system

Track & Structures

- Replaced 5,740 lineal feet of grout pads, exceeding goal by almost 1000 lineal feet
- Replaced 3,050 lineal feet of Steel Rail with 84C third rail, cut 396,000 lineal feet of vegetation, replaced five switch layouts and replaced 2,800 insulators
- Worked with Track Engineering to implement a composite cross tie pilot project by identifying a location and installing 400 composite ties that have a 50-year life expectancy
- Corrected a safety issue at Cinder Bed Bus Garage by replacing 352 ft of damaged concrete
- Installed Fort Totten AWIS Location, assisting in the return of the 7000-series trains
- Completed the Glenmont Yard Rehab and 75 percent of Brentwood Yard

Project Delivery

- Continued establishing comprehensive implementation plans for Metro's capital projects
- Continued to sponsor a project control process and agreement in principle between key stakeholders within Metro which details a project's scope, schedule, budget, funding sources, initial risk assessments and associated mitigations, and impacts on operations
- Continued leading Lessons Learned program as part of Infrastructure's continuous improvement effort
- Provided various technical and soft skills trainings for staff to improve project delivery decision making, cultivate better working relationships with Metro's

business partners and promote a culture of inclusion

- Moving initiatives to implement Building Information Modeling (BIM) into projects; updating Design and Construction Manual
- Deployed Drone in Survey group for collecting survey data and providing information for inspections

Replacement Expansion and Capacity Projects

- Completed removal of all underground storage tanks, commenced mass demolition of the facility and completed historic façade bracing in preparation of excavations to begin in FY2024
- At Bladensburg Bus Garage completed mass demolition of the old facility, concluded earth work, pile driving and pile caps, and utility work in preparation of foundation and steel erection
- For Heavy Repair and Overhaul facility completed designs for the new facility to 60 percent, received GMP proposal from the Contractor and commenced negotiations; if contract negotiations conclude successfully, construction will begin in Q2 FY2024
- Completed an eight-week shutdown (September 10 through November 6, 2022) extending from National Airport to Braddock Rd in support of Potomac Yard Station tie-in to resume rail revenue service through the new station. Station construction is on-going with station opening anticipated in May 2023
- Battery Electric Bus (BEB) completed construction of the make ready infrastructure at Shepherd Parkway Bus Garage in support of Metro's Phase 1 BEB deployment
- Commenced design work to support complete electrification of Northern Bus Garage, and make-ready infrastructure at Bladensburg Bus Division

Rail Station Modernization and Platforms

- Completed Platform 4 rehabilitation program base scope and commenced work on installation of new PIDS at Core transfer stations
- Completed Construction Manager at Risk (CMAR) for L-Line Tunnel and Bridge Rehabilitation project on time and within budget
- Awarded Edge Lighting Contract for 47 locations with construction scheduled to commence in June
- Working to establish scope for Phase 2 of site lighting program

Rail and Bus Infrastructure Rehabilitation

- Completed standpipe replacement
- Continued installation of pneumatic logic control (PLC) panel boxes
- Retracted Structural Package B to establish tighter controls and improved access language to protect WMATA due to limited availability of track access
- Continued construction on the Tunnel Ventilation Pilot Contract
- Continued Surface Lot Rehabilitation
- Continued AC Switchgear replacement throughout the system
- Continued construction for New Hampshire Ave NW Chiller Plant Remediation & Building Addition

Work Planning & Maintenance Improvement

- Created and advanced the adherence to an Integrated Master Schedule (IMS), which serves as command central for all high-priority capital investment projects. This comprehensive schedule consolidates all high-priority capital projects into

one master schedule. It provides greater visibility on areas of conflict and resolution thereof; allows more efficient deployment of resources; and minimizing operational impacts to customers. An additional benefit of this heightened level of coordination is that it improves interdepartmental communications between the Operations and Infrastructure groups and supports safer project execution through the prioritization and deconflicting process which is particularly important within the railroad right of way

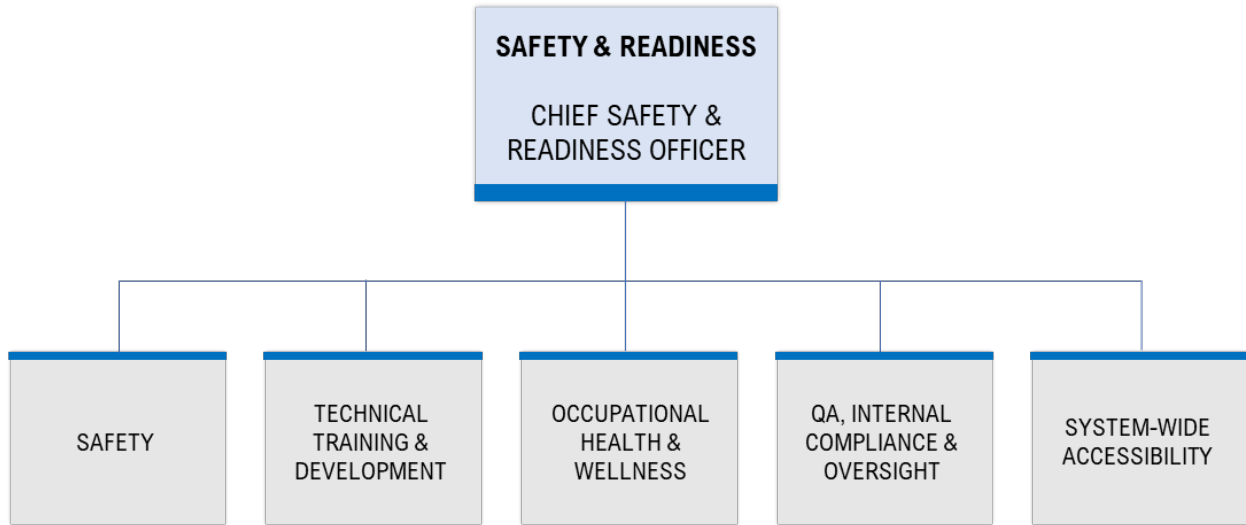

Administration

- Coordinated development, approval, and implementation of staffing plans to ensure Infrastructure's capacity to implement the Capital Program
- Executed the administrative changes of the organizational realignment
- Developed a new intern development program to build strong staffing pipelines
- Improved efficiency and effectiveness of Infrastructure's internal hiring process

Groundbreaking of zero-emission bus facility at Bladensburg Bus Garage

Safety & Readiness

FY2024 APPROVED OPERATING EXPENSE: SAFETY & READINESS

<i>(Dollars in Thousands)</i>	FY2021 Actual	FY2022 Actual	FY2023 Budget	FY2024 Budget	\$ Change	% Change
Personnel	\$45,121	\$52,569	\$64,490	\$73,047	\$8,558	13.3%
Non-Personnel	\$11,782	\$12,877	\$26,210	\$22,649	(\$3,562)	(13.6%)
Total Cost	\$56,903	\$65,446	\$90,700	\$95,696	\$4,996	5.5%
Authorized Positions ¹	n/a	n/a	591	539	(52)	(-8.8%)

1. Due to the extensive re-organization of November 2022, headcount by department is not available for FY2021 and FY2022

Safety & Readiness ensures Metrobus, Metrorail, MetroAccess and Metro’s facilities are operationally safe and environmentally sound for all employees, customers and surrounding communities, as well as providing internal occupational health and regulatory safety services. The overall goal is zero accidents, injuries and fatalities.

Safety & Readiness, in collaboration with all other departments, promotes Metro’s safety culture throughout the organization, from the Board of Directors to every employee regardless of position or location. Safety & Readiness is responsible for the management and compliance of policies and procedures in the following areas:

- System safety training
- Hazard identification and mitigation
- Incident and accident investigation
- Emergency preparedness
- Safety and security certification
- Oversight of construction safety

- Occupational safety and health
- Environmental management and compliance
- Quality business practices for Metro's overall quality, efficiency, reliability, and safety
- All-inclusive operational and safety training
- Accessibility standards to improve customer and workplace safety

Safety & Readiness is organized into five offices:

- Safety leads the strategic implementation of a safety management system (SMS), a systematic way to continuously identify and monitor hazards and control risks while maintaining assurance that these risk controls are effective. Safety’s main responsibilities include Safety Assurance (to include Safety Certification, Investigations, Oversight and Data Analytics), Safety Risk Management (to include Operation Practices, Occupational Safety & Health, and Environmental Management and Compliance), Safety Policy and Promotion, and Emergency Preparedness
- Occupational Health and Wellness provides occupational health services (clinical, drug and alcohol, etc.) to employees and prospective employees, as well as employee support programs to current employees to include health and wellness offerings, lactation support, and reasonable accommodations in compliance with Title I of the Americans with Disabilities Act (ADA)
- Quality Assurance, Internal Compliance & Oversight is responsible for the management of

Metro’s Policy Instruction (P/I) Manual and leads the development and implementation of Metro’s Quality Management System Plan (QMSP). The office manages a system of internal controls to elevate Metro’s overall quality, efficiency, reliability, and safety through unbiased internal reviews and assessments of service delivery, new railcar commissioning, engineering & maintenance, capital program management and safety functions. This office is also responsible for the coordination and oversight of the closure of corrective/preventive actions that address regulatory safety recommendations and required actions

- The recently created Office of Technical Training & Development was formed to address operational readiness by centralizing and streamlining operational and safety training and certifications across the organization
- The newly formed Office of System-Wide Accessibility establishes enhanced accessibility standards to improve customer and workplace safety by consolidating all accessibility related roles

KEY PERFORMANCE INDICATORS: SAFETY & READINESS

Goal	Objective	Initiative/Action	Metric	Baseline	Target
Service Excellence	Safety and Security	Enhance operational safety for employees from injury and assault	Employee assault rate	2.6	Trending toward target of 0
			Employee injury rate	5.7	Trending toward target of 0
		Implement Safety Management System (SMS) to create a formal, organization-wide, data-driven approach to proactive safety risk management, assuring effectiveness of safety risk mitigations, building a positive safety culture, and reducing safety incidents.	Customer injury rate	35.9	Trending toward target of 0
			Employee injury rate	5.7	Trending toward target of 0
			Employee assault rate	2.6	Trending toward target of 0
Talented Teams	Professional and Technical Skill Development	Establish a center of excellence training academy to provide staff with the right skills and capabilities that Metro's operations require	Staff perception of support to learning and development	49%	75%
		Centralize training structure for Metro employees and launch training academy			

FY2024 Business Plan

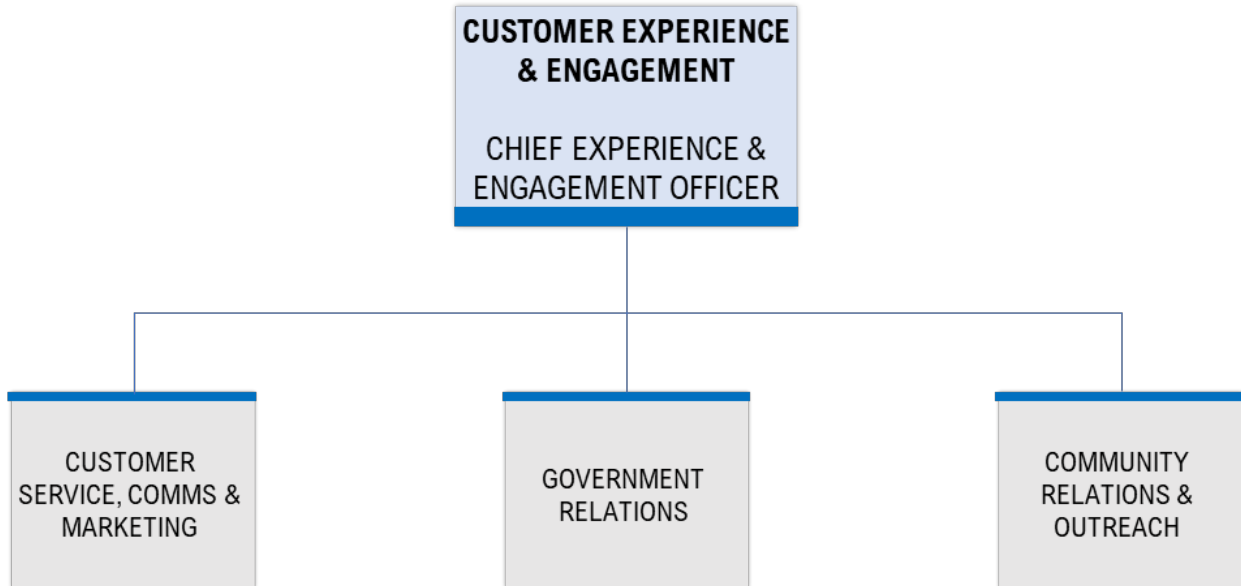

Major initiatives in the FY2024 budget include:

- Strengthening Metro’s safety culture and continuing to communicate safety as a core value to all WMATA employees and customers
- Formalizing and overseeing the Safety Risk Management processes throughout WMATA departments
- Enhancing Metro’s Voluntary Safety Reporting Program
- Conducting quality assurance, internal reviews and risk-based assessments of service delivery, new railcar commissioning, engineering and maintenance and capital program management inclusive of safety-oriented internal business functions
- Implementing the Quality Management System Plan (QMSP) framework to ensure quality standards are met and risk is managed consistently and effectively
- Improving processes and tools for the central tracking and monitoring of safety data as part of the strategic implementation of Safety and Readiness Risk Safety Management System solution (Origami) to improve collaboration through centralization, organization, and management of governance, risk and compliance information and processes
- Supporting the implementation of the Safety Risk Management component of Metro’s Public Transit Agency Safety Plan - a Federal Transit Administration requirement for all rail transit agencies under 41 CFR 673
- Establishing baseline occupational exposure assessments through industrial hygiene monitoring, establishing periodic exposure monitoring protocols, and using the Hierarchy of Controls to eliminate and reduce worker exposures to identified hazards
- Implementing the Incident Management Framework, which is a comprehensive process for incident management to improve urgency, consistency, and flexibility in Metro’s incident response and recovery
- Managing the P/I creation and revision process to assure updates occur on-time, document quality standards are met, stakeholder review is recorded, proper approval is obtained and approved P/Is are available organization-wide
- Collaborating with departments and offices to strengthen internal controls, identify key business process areas for improvement, and improve data integrity to mitigate and close corrective/preventive actions in response to federal oversight inquiries and external auditors
- Managing the enterprise online digital glossary tool that maintains Metro business terminology to ensure continuity in usage and definition throughout Metro
- Continuing the establishment of the Technical Training & Development Office and the System-Wide Accessibility Office centralizing and streamlining operational and safety training and certifications across the organization
- Launching training in support of key Metro initiatives including automatic train operations, zero-emission bus, customer experience liaison, and updates to the Roadway Worker Protection rules and the new Metrorail Operating Rulebook
- Developing Metro strategy for usage of simulators in training and complete installation of 20 7000-series rail simulators at central training facility
- Initiating creation of Training Center of Excellence Strategic Implementation Plan
- Developing a strategy to contribute to the overall health and wellness of Metro’s employees and support the general manager’s vision to be the employer of choice
- Initiating the implementation of an Electronic Health Records System, which is a multi-year project to efficiently monitor the health and wellness of employees
- Establishing and consolidating accessibility standards and roles to improve customer and workplace safety
- Overseeing the development and implementation of WMATA’s Fitness for Duty Program
- Continuing to demonstrate collaborative work with all stakeholders across the entire WMATA organization, connecting and focusing on the wellness of our employees

FY2023 Major Accomplishments

- Completed the first-annual update of the Public Transportation Agency Safety Plan, which was signed by the CEO and Board of Directors, approved by the Washington Metrorail Safety Commission (WMSC), and self-certified with the Federal Transit Administration (FTA) in accordance with 49 CFR Part 673
- Completed the pilot implementation of its Safety Management System (SMS) in the Rail Operations Control Center. This combination of people, processes, and tools involved hiring a Safety Risk Coordinator, refreshing the Local Safety Committee, developing procedures and introducing tools to ensure safety risks are proactively identified, assessed, and mitigated before an incident occurs. SMS implementation continues to expand, starting with the Supply Chain, Warehousing, and Logistics organization
- Received and mitigated over 252 employee safety reports through the Metro's Safety Hotline and Confidential Close Call Reporting programs
- Completed 604 Safety Data Sheet (SDS) reviews for chemical products to be utilized on WMATA property by employees or contractors
- Managed compliance with 50 environmental permits which included permit-required sampling, reporting, and monitoring for compliance with stormwater, wastewater, air, and storage tank regulations and requirements. Deliverables submitted included 126 Tier II reports for fixed facilities and traction power substations; 49 stormwater discharge reports, 21 wastewater discharge reports, Hazardous Waste reports for Maryland and DC facilities, annual air emissions reports, and semiannual and annual Title V air compliance reports
- OHAW's Employee Assistance Program in collaboration the Wellness and Health Strategy program kicked off the WMATA Suicide Awareness/Crisis Intervention Task Force to support the GM's mission to make WMATA a more suicide-aware community for our customers and employees
- OHAW's increased wellness offerings and services allowed our CDC Scorecard to improve by 11 points by focusing on prevention, mental health, and health education. OHAW's collaboration with IT in integration of ServiceNow application for both Medication Reporting and the Sleep Disorder Program. OHAW's newly developed Health Quality & Compliance program, in partnership with the Office of General Counsel, Office of Cybersecurity, Office of Management Audits, Risk and Compliance and Office of Talent Acquisition, completed The Health Insurance Portability and Accountability Act (HIPAA) risk assessment
- QICO facilitated six WMSC audits; developed and approved 24 WMSC CAP's; closed 41 WMSC CAP's, and closed 27 WMATA iCAPAs
- QICO completed SET requested Low Voltage Special Assessment, completed Bus Mid-Life Overhaul Internal Review, submitted WMATA CY 2022 Safety Report and Certification Package; closed two quarters of Power Operations Desk monitoring; transitioned 7000-series railcar QC; and accepted processes to Chief Engineer of Vehicles Quality group
- QICO approved 25 P/Is, approved three new P/Is, and rescinded two P/Is
- QICO reviewed 699 documents from 40 departments of which 616 were approved; completed QMS Core Standards for seven departments; and initiated self-assessments for eight departments

Customer Experience & Engagement

FY2024 APPROVED OPERATING EXPENSE: CUSTOMER EXPERIENCE & ENGAGEMENT

<i>(Dollars in Thousands)</i>	FY2021 Actual	FY2022 Actual	FY2023 Budget	FY2024 Budget	\$ Change	% Change
Personnel	\$11,308	\$11,479	\$12,431	\$14,547	\$2,116	17.0%
Non-Personnel	\$9,373	\$10,789	\$8,758	\$15,417	\$6,658	76.0%
Total Cost	\$20,681	\$22,268	\$21,189	\$29,963	\$8,774	41.4%
Authorized Positions ¹	n/a	n/a	112	110	(2)	(1.8%)

1. Due to the extensive re-organization of November 2022, headcount by department is not available for FY2021 and FY2022

The Department of Customer Experience & Engagement is responsible for initiatives to enhance the experience of bus, rail, and paratransit customers. Working collaboratively with other departments, this team develops strategies, processes, and programs to resolve customer pain points, as well as to define what customers value – and how to determine the differentiating experience to be delivered around customer satisfaction. Through collaborative partnerships across the organization, this team develops messages, metrics, tracking, reinforcements, recommendations for recognition, and drives the customer-centric culture change forward. The Department includes three functional divisions: Customer Service, Communications and Marketing, Government Relations, and Community Relations & Outreach. Together, this team is charged with building and

maintaining strong relationships with Metro’s stakeholders, partners, and customers to include regional elected officials, business and community groups, and the Board of Directors. Key priorities include:

- Work with jurisdictions and Congress to ensure needed operating and capital funding support
- Engage stakeholders in support of Metro’s business goals and objectives, as well as coordinate with federal agencies and safety oversight organizations
- Improve customer experience and public confidence through public information campaigns, customer surveys, media relations, and multimedia outreach channels

KEY PERFORMANCE INDICATORS: CUSTOMER EXPERIENCE & ENGAGEMENT

Goal	Objective	Initiative/Action	Metric	Baseline	Target
Service Excellence	Convenience	Implement digital interfaces for customer information and to improve wayfinding	Customer satisfaction	Metrobus: 73% Metrorail: 74% MetroAccess: 59%	85% or above
		Modernize and enhance end-to-end customer experience for user-friendliness and attractiveness			
Regional Partnership and Opportunity	Community Partnership and Engagement	Establish community relations office	Community engagement	Not Yet Tracked	TBD
		Proactively engage with the community to deepen and expand Metro's relationship with customers and foster a sense of shared ownership in regional transit services			
Sustainability	Financial Sustainability	Pursue regulatory approvals and permits to allow outdoor advertising at Metro properties and station entrances	Percent of revenue from non-fare, non-subsidy sources	3.6%	5-10%
		Optimize advertising strategy to increase non-fare revenue through more relevant and visible ads for riders and non-riders via outdoor digital displays, corporate partnership, or other revenue opportunities			

FY2024 Business Plan

In FY2024, Customer Experience & Engagement will continue to integrate the efforts of several functional areas to further develop and enhance its comprehensive program to strengthen Metro's brand. Key enhancements include:

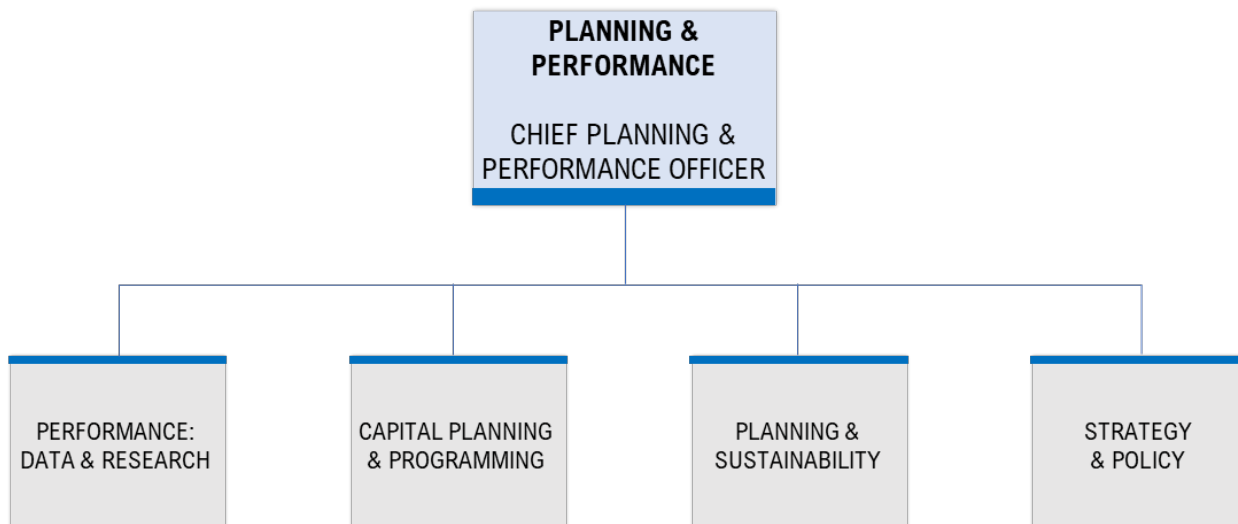

- Build ridership through promotion and marketing of service, assuring safety, reaching customers at the community level and engaging major employers
- Build awareness of and attract new customers to the new Silver Line and Potomac Yard stations with integrated Experience & Engagement plans that leverage opening events and follow up with targeted strategies
- Support development and implementation of the Strategic Transformation Plan through community outreach and engagement of business groups, elected officials, current and potential customers, advocacy and support groups
- Build community local level trust by establishing and launching a community relations program
- Improve immediate customer service communications through the implementation of the consolidated control center
- Expand digital and social media engagement to engage and inform more Metro customers on initiatives that support growing advocacy for transit and ridership
- Ensure a smooth consolidation of the SmartBenefits® customer support operation within Metro's Customer Service Center
- Lead customer communication, jurisdiction collaboration and stakeholder involvement in support of the expanded capital program, including the rehabilitation of Metrobus facilities and Metrorail stations, and the modernization of the Metrorail train control system
- Support Better Bus initiative through innovative and inclusive public engagement that collects feedback from the entire multi-jurisdiction service area and fulfills Metro's commitment to engaging diverse and historically underserved communities

- Continue to build trust among elected officials and other key stakeholders to invest in Metro by highlighting Metro’s progress (fiscal stewardship, internal morale, and safety improvement)
- Build a collaborative Board-management relationship to achieve business goals and ensure effective policymaking
- Support Diversity, Equity and Inclusion and Sustainability initiatives
- Expanded signage usage to include weekend work messaging
- Launched Metro leadership chats in the region to listen and hear from customers
- Elevated open stroller policy on Metrobus
- Created special tracker for Blossom Season and specialty wrapped buses and trains
- Executed Bladensburg and Northern Garage groundbreaking focused on 2042 acceleration of Zero-Emission Bus program

FY2023 Major Accomplishments

- Worked to ensure federal funding reauthorization through 2030 at current levels through the Infrastructure Investment and Jobs Act (IIJA), which will provide \$1.2 billion for Metro’s Capital Improvement Program
- Secured additional federal Covid-19 relief funding and grants, including a Department of Justice grant to facilitate the use of body worn cameras for MTPD officers
- Implemented communications and outreach programs to raise awareness among customers and stakeholders about the Platform Improvement Project and Rockville Canopy Replacement Project, which closed four stations through the summer and two stations in the fall/winter, respectively
- Launched customer information components of contactless payment via Google Pay; riders can now pay with an Apple® or Android® phone anywhere SmarTrip® is accepted
- Developed and launched an integrated communications/external relations program to introduce the Silver Line extension to the region
- Executed Metro’s fourth annual food drive, surpassing the previous year’s donations with employee donations of non-perishable food and donated funds to the Capital Area Food Bank equivalent to more than 25,000 meals
- Supported the Rail Operations Control Center’s safety and cultural transformation with enhanced internal and stakeholder communications
- Expanded customer service hours seven days a week
- Launched #YourMetro campaign to showcase customer improvements
- Launched multiple passenger information initiative which includes digital screens at Metro Center and Columbia Heights Stations
- Executed Metro Headquarter grand opening celebration
- Executed Maryland employee building celebration at New Carrollton, which included elected leadership from Congressional delegation, state and local officials
- Promoted free Metrobus and Metrorail services on New Year’s Eve
- Successfully executed Yellow Line shutdown communications
- Executed rollout of fare evasion warning and campaign
- Successfully rolled out camera enhancement and public safety campaign
- Implemented new e-paper displays at Braddock Rd
- Elevated ATO launch and awareness campaign
- Launched U-Pass mobile roll out
- Launched memorial GoFundMe campaign on behalf of the late Robert G. Cunningham and his family
- Celebrated 50th anniversary of Metrobus with multi-month event
- Successfully reopened after Yellow Line shutdown
- Successfully opened Potomac Yard in-fill station
- Communicated and facilitated more than 4,200 customer responses to the proposed FY2024 Budget in preparation for Board adoption and approval
- Lead outreach in each jurisdiction to elected officials in support of Better Bus initiative
- Coordinated calls with jurisdictional funding partners to support shutdowns, and, worked with intermodal planning to develop alternatives for customers

Planning & Performance Management

FY2024 APPROVED OPERATING EXPENSE: PLANNING & PERFORMANCE MANAGEMENT

<i>(Dollars in Thousands)</i>	FY2021 Actual	FY2022 Actual	FY2023 Budget	FY2024 Budget	\$ Change	% Change
Personnel	\$15,363	\$13,165	\$15,334	\$17,333	\$1,999	13.0%
Non-Personnel	\$4,763	\$651	\$5,517	\$5,549	\$32	0.6%

Authorized Positions ¹	n/a	n/a	197	207	10	5.1%

1. Due to the extensive re-organization of November 2022, headcount by department is not available for FY2021 and FY2022

The Department of Planning and Performance Management drives Metro’s strategy; plans new and ongoing programs and projects; and measures Metro’s success at delivering against those plans. Capital planning and programming builds and oversees Metro’s prioritized capital program while the Performance: Data & Research office plans service delivery and measures operational and capital performance against planned services and investments, providing accountability for results. The Planning & Sustainability office develops transformational ideas and injects the value of environmental sustainability into Metro’s programs and projects. The Strategy & Policy office develops long range and overarching visions for the Authority while also assisting in the tactical

implementation of those goals. The programs and projects delivered by Metro advance the customer experience, state of good repair, service reliability and financial stability. The Office of Capital Planning & Programming establishes the framework and plan for the investment of federal and jurisdictional funding and debt proceeds while using innovation to optimize operations and overseeing and reporting on the results of those investments.

KEY PERFORMANCE INDICATORS: PLANNING & PERFORMANCE

Goal	Objective	Initiative/Action	Metric	Baseline	Target
Service Excellence	Convenience	Optimize service and scheduling across the system to improve frequency of service and allow for seamless transfers	Metrorail on time performance	92%	95% or above
		Optimize service and scheduling across the system to improve frequency of service and allow for seamless transfers	Metrobus on time performance	20 min routes: 78% 12 min routes: 76%	80% or above
		Expand last-mile connectivity options to provide safe accessible routes to transit and critical amenities for bicyclists (secured parking, bikeshare, scootershare, e-bikes, etc.) and pedestrians	Last-mile connectivity / bicycle access	0.86%	3.5% By 2030
Regional Partnership and Opportunity	Regional Network and Partner Service Optimization and Transit Equity	Implement more frequent service on Green, Yellow and Orange lines	Rail frequent service	65%	75%
			Destination access	Not Yet Tracked	+10%
			Percent of transit mode share	<7%	7%
		Develop and select a plan for the Blue, Orange and Silver Line Corridor	Destination access	Not Yet Tracked	+10%
			Percent of transit mode share	<7%	7%
		Establish housing production and affordability goals for stations and high-capacity bus corridors that maximizes ridership potential	TOD on Metrorail properties	32 stations	50 stations By 2032
			TOD on high-capacity bus corridors	Not Yet Tracked	TBD
		Initiate Metrorail service optimization to increase core frequency and enable efficient transfers where most customers are riding	Rail frequent service	65%	75%
			Destination access	Not Yet Tracked	+10%
		Implement Better Bus network redesign to realign and expand bus service to best serve customers where and when they need to travel	Bus frequent service	30%	50%
			Destination access	Not Yet Tracked	+10%
		Reevaluate fare policy to make fares more simple and affordable and promote access to transit, while delivering improvements to Metro's payment system for easier access to transit	Reduced fare program enrollment	Not Yet Tracked	TBD
		Focus on customer-centric regional mobility to streamline customer information across services to provide a better experience and increase regional transit use	Percent of transit mode share	<7%	7%
		Establish transit equity advancement and policy actions to improve access to opportunity and quality of life for the region's historically disenfranchised residents and communities	Destination access	Not Yet Tracked	+10%
		Program service capacity capital investments to make forward-thinking investments that increase Metro's capacity to expand transit service in the region	Percent of transit mode share	<7%	7%
Community Partnership and Engagement	Community Partnership and Engagement	Adopt decarbonization strategy	GHG reduction	223,710	+10%

Goal	Objective	Initiative/Action	Metric	Baseline	Target
Sustainability	Environmental Sustainability	Complete solar carport installation and commissioning at several stations	Percent of renewable (carbon-free) electricity	12%	100% By 2033
		Pursue green certifications or three new administrative buildings and first certified transit station	Number of facilities with green certifications	Not Yet Tracked	TBD
		Deploy new anti-fare evasion gates and displays at demonstration stations	Fare evasion	Metrorail: ~13% Metrobus: 33-45%	Trend toward target of 0
		Decarbonize Metro infrastructure and equipment to eliminate use of fossil fuels from Metro business through carbon-free sources such as solar power utilization, and a transition to zero-emission vehicles	GHG per revenue mile	3.34	0 By 2050
		Optimize natural resource stewardship to protect, conserve, and enhance places where Metro operates (including promoting recycling, greenspace, water and stormwater management, and other sustainable practices)	Water use per revenue mile	0.99	<1
		Increase percent of energy procured from renewable sources	Percent of renewable (carbon-free) electricity	12%	100% By 2033
		Update subsidy formula and jurisdictional funding model to increase focus on servicing the region's and customers' needs	Percent of projected service funded	71%	100%
		Mitigate fare evasion to increase fare revenue and reduce instances of passengers boarding without paying fare or tapping free ride program cards	Fare evasion	Metrorail: ~13% Metrobus: 33-45%	Trend toward target of 0
		Decarbonize Metro infrastructure and equipment to eliminate use of fossil fuels from Metro business through carbon-free sources such as solar power utilization, and a transition to zero-emission vehicles	GHG reduction	223,710	+10%
		Reduce non-revenue vehicle fleet and plan for transition to zero-emission bus and non-revenue vehicle fleet	Non-revenue fleet	1524 owned 14 leased or rented	TBD
	GHG per revenue mile	3.34	0 By 2050		

FY2024 Business Plan

Performance and planning's business plan will help Metro progress towards its strategic goals and implement the GM/CEO's priorities with a specific focus on the following:

- Drive transformation of Metro's business and operations by sponsoring and progressing delivery of initiatives that improve safety, state of good repair, efficiency and cost-effectiveness, customer service, and sustainability
- Formulate Metro's capital budget and lead capital reporting, including developing and reporting on capital project and program outcome metrics
- Improve capital planning and programming practices, maintain capacity to plan and execute an expanded capital program and execute priority projects, and fund priority, emergent, and emergency capital needs
- Make Metro more sustainable, resilient and fiscally responsible by driving programs and partnerships that foster social well-being, racial and social equity,

economic prosperity, and environmental stewardship

- Drive the Energy Action Plan implementation, zero-emissions fleet strategy and decarbonization, and initiate the incorporation of resiliency into strategic planning efforts
- Facilitate delivery of the Better Bus Network Redesign initiative
- Deliver system, service and fare optimization recommendations based on data and analysis for rail, bus, and paratransit, including identifying necessary rail flexibility, reliability and service station capacity investment
- Deliver timely and accessible performance reports in coordination and collaboration with teams that deliver service and execute capital programs
- Plan effective and efficient service for Metrobus and Metrorail customers

FY2023 Major Accomplishments

Performance: Data and Research

- Created numerous internal dashboards and tools supporting improved management decision making and saving staff hours:
 - 15 automated internal dashboards and tools, saving over 3,000 staff hours per year; Rail Service Cost Model reduced staff time from 25 hours a week to three
 - Dashboards supporting policy decisions regarding mobile SmarTrip® marketing, SmartBenefits® disbursements, and rail service adjustments
 - Data analysis, dashboards and quality reviews to support the 7000-series return to service program
 - Enhanced tools for estimating ridership, revenue, and equity impacts of FY2024 fare and service scenarios including zone-based fares
 - Tools to enable staff to apply an equity lens to analyze and compare performance to peers
- Reports, tools, and projects to improve public transparency of Metro performance:
 - Four reports published on the performance of 125 bus lines for FY2019-FY2022
 - Dashboards that enable customers to monitor performance in real-time and see trends relevant to their trips

- New measures to monitor and report on the availability and accuracy of real-time arrival information for Bus and Rail and to track schedule service delivered

- Expanded Academic Research Partnership with MIT to six topics
- Completed over 120 benchmarking activities, 20 percent more than FY2022, and key peer reviews:
 - Joined the International Bus Benchmarking Group
 - Automated key performance indicator data collection
 - APTA Peer Review of station management practices

Bus Priority

- Worked with the District to increase the total new queue-jump lanes funded and installed by the District to 21
- Continued expansion, upgrades, and redeployment, of TSP network
- Initiated upgrade of the TSP Software System on all Metrobuses
- Completed final design plans for two Tactical Bus Lane projects with Montgomery, Prince George's and Maryland State Highway Administration

Fare Payment Systems

- Completed deployment of next-generation faregates across the Metrorail system
- Initiated faregate barrier modification program designed to reduce fare evasion in the Metrorail system
- Completed software development and testing of next-generation bus farebox/payment system, including rear-door boarding payment targets
- Completed design to redevelop wmata.com website
- Completed requirements development for new SmarTrip® back office, coordinating across the Authority and among regional transit partners

Strategic Initiatives

- Established a cross-departmental Track Access Program Team to advance projects that increase non-revenue railway maintenance time availability and productivity
- Initiated a Mobile Adoption marketing campaign with Marketing team on Metrorail mezzanines and station electronic signage

Planning

- Launched the Bus Network Redesign, a customer-focused, data-driven bus network to better meet the needs of our customers and the region
- Developed capacity and access/egress solutions for seven priority rail stations and two critical transfer stations to ensure continued safe operations and ability to serve customer demand
- Completed the inaugural Service Improvement Plan, a six-year framework to guide and enhance future service and fare changes
- Published the Mobility Market Research report, evaluating Metro's place in the overall multimodal landscape of regional travel

Transit Performance Management

- Created 15 automated internal dashboards and tools that save over 3,000 staff hours per year (equivalent to 1.5 FTEs). The Rail Service Cost Model automated several highly manual processes, reducing staff time from 25 hours a week to just three
- Improved transparency by publishing four reports on the performance of 125 bus lines for FY2019-FY2022, launching dashboards that enable customers to monitor performance in real-time and see trends relevant to the trips they take
- Launched new measures to monitor and report on the availability and accuracy of real-time arrival information for Bus and Rail
- Launched new measures to track the share of schedule Bus and Rail service delivered, which supported Bus's efforts to reduce by 70 percent the number of last trips each day that are missed
- Completed over 120 benchmarking activities, 20 percent more than FY2022; joined the International Bus Benchmarking Group

Data Lab

- Developed and enhanced tools for estimating ridership, revenue, and equity impacts of FY2024 fare and service scenarios
- Expanded Academic Research Partnership with MIT to six research topics
- Updated internal data systems to support the opening of the six new Silver Line stations
- Supported the 7000-series return to service program with data analysis, dashboarding, and quality reviews

- Developed dashboards supporting policy decisions regarding mobile SmarTrip® marketing, SmartBenefits® disbursements, and rail service adjustments

Bus Service Planning & Scheduling

- Completed three service schedules for adjustments to regular service which include:
 - Monitoring and adjusting schedules to maintain reliability
 - Monitoring crowding and adjusting schedules to meet ridership demands
 - Adjusting routes in response to safety concerns and/or changes in roadways (long-term temporary and permanent)
 - Preparing individual assignments for each bus and each operator
 - Preparing data to support real-time customer information and on-board announcements
- Prepared schedules and operating instructions for shuttles supporting Metrorail Capital Improvement Project Service Suspensions
- Prepared Severe Weather Operating Plans for Metrobus
- Coordinated with local jurisdictions on bus stop improvements and prepared plans to relocate and/or repair bus stops
- Prepared detour plans for construction projects affecting Metrobus routes including temporary bus stop relocations
- Completed the first version of the Better Bus Visionary Route Network and supported public and stakeholder engagement for the Better Bus initiative
- Supported the Zero-Emission Vehicle Transition Plan with operational forecasts for bus scheduling requirements both during the transitional phases and post implementation
- Maintained electronic real-time bus information signs in bus shelters and at bus stops throughout the region including supporting the effort to remove "ghost buses" from the sign information

Rail Planning

- Planned and implemented Silver Line extension pre-revenue and revenue Metrorail service
- Assisted in developing Metrorail service options for FY2024 budget to maximize rail infrastructure
- Prepared 10 rail operator, station manager, and interlocking operator schedule changes (picks) to

support three major capital projects, Silver Line extension, and contractual requirements

- Prepared multiple rail service adjustments and ridership analysis to adjust rail service with the phased introduction of 7000-series trains
- Developed prototype for MetroMeter, a new tool to monitor real-time headway Metrorail adherence
- Successfully launched HASTUS Upgrade Phase 1 to upgrade Rail Scheduling

Zero-Emissions Vehicles (ZEV)

- Completed Metro's first Zero-Emission Bus Transition Plan, identifying a path to transform the fleet, facilities, workforce, and operations to support a 100 percent zero-emission bus fleet by 2042
- Advanced the first phase of Zero-Emission bus deployments, including installing Metro's first overhead pantograph chargers at Shepherd Parkway
- Launched a Zero-Emission Bus Working Group with Metro's regional transit partners

Sustainability

- Completed Sustainability Action Plan setting a path to promote and ensure continued delivery of Metro's sustainability initiatives
- Achieved 35 percent carbon pollution-free electricity supply through supply contracts in the District of Columbia and Maryland
- Advanced capital investments identified in Metro's Energy Action Plan and launched the development of Decarbonization Strategy
- Completed solar array construction for Anacostia, Southern Avenue, and Naylor Road stations. The solar carports project will provide approximately 10 MW of community solar through an innovative lease agreement
- Sustainability Lab sponsored two battery-electric equipment initiatives, improving safety and working conditions for employees and supporting Metro's decarbonization goals

- Activated braking energy recovery equipment at Greenleaf traction power substation as part of the traction power modernization program
- Completed installation of energy-efficient LED lighting at 290 facilities – reducing energy operating costs by an estimated \$1.2 million annually and improving lighting for staff throughout Metro's maintenance, operations, and administrative facilities

Capital Planning and Programming

- Completed the FY2024-FY2033 capital programming process and prepared the proposed FY2024 Capital Budget, Six-Year Capital Improvement Program (CIP), and 10-Year Capital Plan that was presented to the Metro Board of Directors in January 2023
- Released the interactive FY2024 Proposed Capital Program Dashboard detailing information on the proposed capital program
- Published the internal FY2024 Program of Projects (POP) that contains information on capital investments as presented to the Board in January 2023. The POP groups projects with discrete "project identification numbers/PIDs" under the current corresponding CIP number used in the financial tracking and reporting of Metro's Budget
- Established a committee of internal and external experts to systematically develop holistic solutions to address water leaks and implement more effective maintenance and capital efforts. The committee developed a framework for defining water leak severity
- Implemented a capital investment performance outcome measures program to increase visibility into Metro's capital investments. The initial effort measured performance outcomes to determine if Metro is effectively investing resources and identified and assessed the benefits and impacts of specific capital investments for customers, employees, and other stakeholders. The results of the effort were included in the FY2024 Capital Budget, Six-Year Capital Improvement Program (CIP), and 10-Year Capital Plan

Finance

FY2024 APPROVED OPERATING EXPENSE: FINANCE

<i>(Dollars in Thousands)</i>	FY2021 Actual	FY2022 Actual	FY2023 Budget	FY2024 Budget	\$ Change	% Change
Personnel	\$35,529	\$33,113	\$31,432	\$36,650	\$5,217	16.6%
Non-Personnel	\$57,432	\$60,917	\$66,966	\$80,738	\$13,772	20.6%
Total Cost	\$92,961	\$94,029	\$98,398	\$117,388	\$18,990	19.3%
Authorized Positions ¹	n/a	n/a	377	398	21	5.6%

1. Due to the extensive re-organization of November 2022, headcount by department is not available for FY2021 and FY2022

The Department of Finance ensures WMATA’s fiscal integrity through budget development and management; financial planning, reporting and analysis; resource management and allocation; cash flow and investment management; compliance with accounting standards and regulatory requirements; quality procurement and mitigating the organization’s risk.

Finance aligns its fiscal responsibility with WMATA’s vision to move the region forward through safe, reliable, and equitable public transportation, improved service and enhanced customer experience.

The department comprises the Offices of Management and Budget, Accounting, Real Estate and Development,

Treasury and Procurement. Management and Budget formulates the annual operating and capital budget, conducts long-range financial planning and reporting, and revenue management. Accounting manages payroll operations, accounts payable and receivables, asset management and the annual financial statements and single audits. Real Estate and Development optimizes the Authority’s real estate and parking portfolios. Treasury is responsible for risk management, revenue collection, liquidity management, corporate investments, debt management and fare media sales and distribution. Procurement manages Authority-wide acquisition services.

KEY PERFORMANCE INDICATORS: FINANCE

Goal	Objective	Initiative/Action	Metric	Baseline	Target
Regional Partnership and Opportunity	Regional Network and Partner Service Optimization and Transit Equity	Create economic development plans for select stations to grow counter-commuter potential	TOD on Metrorail properties	32 stations	50 stations By 2032
		Adopt policy to right-size parking and bus facilities to accelerate TOD on Metro properties			
	Community Partnership and Engagement	Build directory for new Minority Business Enterprise (MBE) program	Inclusive contracting	15%	21% By 2025
		Hold "Meet the Primes" training programs for businesses to learn about opportunities			
		Accelerate TOD by resolving feasibility gaps delaying higher-density buildings from being constructed near rail stations and along high-capacity bus routes	TOD on Metrorail properties	32 stations	50 stations By 2032
		TOD on high-capacity bus corridors	Not Yet Tracked	TBD	
Sustainability	Financial Sustainability	Pursue state and local budget approvals of new dedicated funding sources for transit operations and capital investments	Percent of revenue from non-fare, non-subsidy sources	3.6%	5-10%
		Pursue portfolio funding solution to accelerate joint-development feasibility			
		Monetize assets by offering leasing opportunities for retail, parking, and bike facilities			
		Strengthen policies, procedures, and data dashboards to identify cost saving opportunities, improve cost controls, and manage financial resources more efficiently	Operating expenses per vehicle revenue mile	\$16.85	Index to Growth
			Deviation to budget (operating)	-11%	+/- 5% *Every year
			Bond rating	AA	Investment grade credit rating
		Expand non-fare, non-advertising revenue to better utilize existing spaces in stations/lines to drive revenue (e.g. station commercialization/retail, joint development, and parking leases)	Percent of revenue from non-fare, non-subsidy sources	3.6%	5-10%
		Improve asset management and cost-effective source of materials and contract services to be a better steward of resources and service delivery to modernize and reduce costs	Operating expenses per vehicle revenue mile	\$16.85	Index to Growth
		Percent of operating budget for reserves	Percent of operating budget for reserves	0%	Trend toward target of 10%
		Percent of growth in unfunded responsibilities	Percent of growth in unfunded responsibilities	Not Yet Tracked	Index to Growth

FY2024 Business Plan

Finance will continue to manage WMATA's financial capacity and maintain its fiscal integrity through accountable and transparent reporting, innovative initiatives, and programs that advance equity, ensure efficiency, and enhance customer experience. The following key areas of focus will directly support WMATA's focus on safe, reliable, and affordable service, increase stakeholder confidence, and drive regional economic vitality.

Key areas of focus will include:

- Effective budget management and enhanced reporting on the allocation and results of investments and budget performance
- Accurate, timely and reliable financial management and reporting by obtaining unmodified (clean) financial statement and single audit opinions
- Initiatives and system enhancements encouraging customers' return to public transit and support throughout all phases of their journey
- Redevelopment of WMATA's former Jackson Graham Building (JGB) headquarters, generating significant revenue for WMATA
- Successfully operate three new WMATA-owned office buildings that reduce WMATA's operational costs long term
- Generate new revenue and ridership through accelerating joint development projects as identified in the Ten-Year Strategic Plan for Joint Development, which set a goal of 20 new joint development agreements (JDAs) by 2032
- Optimize revenues through effective management of parking and other real estate assets
- Leveraging dedicated funding revenues via capital market opportunities to maximize capital plan progress
- Utilize short and long-term debt instruments including TIFIA, lines of credit and direct purchase borrowings to complement and increase efficiencies as needed to bridge funding gaps
- Continue the implementation of the Category Management Operating Model. This framework ensures consistent practices throughout WMATA for all acquisition practices
- Continue to implement WMATA's Small and Local Business Utilization Programs to include training and outreach events. Strengthen partnerships with the small and minority vendor community by

implementing a new socio-economic program funded with local funds

FY2023 Major Accomplishments

Accounting

- Clean audit opinion on Metro's FY2022 Financial Statements for the eighth straight year and FY2022 Single Audit for the seventh straight year
- The FY2022 Single Audit report noted no repeat or new findings for the third year in a row
- Received a clean examination opinion of Metro's compliance with the dedicated funding requirements for FY2022

Real Estate & Development

- Completed the Office Consolidation program with the occupation of three newly constructed LEED Gold certified WMATA-owned office buildings including 1) Metro's new headquarters at L'Enfant Plaza, 2) a 329,000 square foot office across from New Carrollton Station, and 3) a 425,000 square foot office near Eisenhower Avenue Station. Some of the key departments located at the New Carrollton location include the MetroAccess and Customer Service call centers and the Parking Operations Control Center. The new Metro Integrated Command and Control (MICC) for bus, rail and security are located at the Eisenhower Avenue location
- Completed the closure of WMATA's former Jackson Graham Building (JGB) headquarters, reducing operating costs and generating significant ground lease revenue for WMATA
- Collaborated with Amazon to commit \$120 million in low-rate financing to fund more than 1,000 units of affordable housing at four stations: Congress Heights, College Park, New Carrollton and Grosvenor-Strathmore
- Developed and released WMATA's first Strategic Plan for Joint Development, highlighting program impact and prioritizing portfolio opportunities with potential to generate an additional 31 million square feet of development, \$90 million in annual revenue, \$340 million in annual state and local taxes and expanded ridership
- Held four Compact public hearings on proposed transit facilities improvements and joint development for East Falls Church, Franconia-Springfield, Takoma, and West Falls Church Stations. Replaced 3000 parking meters with 75 paystations, reducing operating costs and increasing revenue collection

- Received three national and local awards for real estate development by Urban Land Institute (ULI), Commercial Real Estate Women Network (CREW), and Lambda Alpha International George Washington Chapter (LAI-GW)

Procurement

- Award of two contracts for 40-foot Battery Electric Buses: \$8.1 Million award to New Flyer of America and \$8.4 Million award to Nova Bus (US)
- Awarded MTPD Emergency Security Officer Services (Rail Stations) – Implemented additional security services in support of the recent increase in violence, to include deadly weapons and assault throughout rail stations in the metropolitan DC area. A modification was issued to Universal Protection Services LLC in the amount of \$20,907,343 to provide armed security guards at twenty-five stations to increase the security posture
- Awarded MTPD Various Police Department Partnerships, in support of elevated crime in the DMV area; issued multiple MOU's to various police jurisdictions in the DC area, in the amount of approximately \$2 million
- Awarded Real Estate “On-Call Services”: 13 Firms Awarded a five-year contract to help assist joint development
- Office of Procurement and Materials launched an automatic reminder via PeopleSoft Enterprise Learning Management (ELM) that notifies certified Contracting Officer’s Technical Representatives (COTRS) of pending expiration from the certification program; trained 190 COTRS through March 2023
- Small Business Program hosted eight outreach events to date in FY2023
- Small Business Program certification team has approved a total of 115 new applications
- Achieved 33 percent for FY2022 versus the 25 percent DBE goal
- Office of Procurement and Materials identified \$11 million in cost savings over three years
- Processed 18,762 purchase orders (POs) totaling \$1.13 billion to date.

Digital Modernization

The Department of Digital Modernization supports all operating components of Metro by providing administrative, technical and operational solutions.

FY2024 APPROVED OPERATING EXPENSE: DIGITAL MODERNIZATION

<i>(Dollars in Thousands)</i>	FY2021 Actual	FY2022 Actual	FY2023 Budget	FY2024 Budget	\$ Change	% Change
Personnel	\$45,574	\$43,425	\$42,537	\$50,168	\$7,631	17.9%
Non-Personnel	\$46,411	\$44,744	\$51,556	\$48,926	(\$2,630)	-5.1%
Total Cost	\$91,985	\$88,169	\$94,093	\$99,094	\$5,001	5.3%
Authorized Positions ¹	n/a	n/a	382	372	(10)	(2.6%)

1. Due to the extensive re-organization of November 2022, headcount by department is not available for FY2021 and FY2022

FY2024 Business Plan

- Complete the implementation of the Information Technology Infrastructure Library (ITIL) model to ensure best practices and processes for the delivery of Digital Modernization IT services to internal and external customers
- Safeguard WMATA data and network access. The implementation of a risk-based framework will continue in FY2024 ensuring all Metro information technology systems are secure and monitored to avoid intrusion, improving data protection and management
- Drive Digital optimization for business and transit systems, including better interoperability and data sharing
- Incorporate Enterprise Architecture industry standards to ensure the maintainability, affordability, scalability and performance of all digital assets and infrastructure
- Continue to migrate to the cloud to enable WMATA to scale, maintain flexibility, and focus efforts on core transit and business operations and not manage complex IT infrastructure
- Rationalize IT portfolio to reduce duplicative capabilities, streamline and optimize WMATA's IT environment and realize cost savings
- Strengthen cyber security applications, systems and infrastructure services; partner with organizations to enhance cyber capabilities
- Ensure technology investments include enterprise data analytics, capabilities and integration to drive informed decision making
- Continue the ERP replacement to migrate financial and human capital management systems to a

modern platform with efficient, effective transaction processing, integration and reporting and analytics

- Modernize scheduling systems for bus and rail to gain further efficiencies to improve the customer experience

- Initiate the implementation of an Electronic Health Records System. This multi-year project will enable the Authority to efficiently monitor the health of its employees

KEY PERFORMANCE INDICATORS: DIGITAL MODERNIZATION

Goal	Objective	Initiative/Action	Metric	Baseline	Target
Talented Teams	Engagement, Empowerment and Recognition	Implement realignment and business process improvement by identifying resource needs, clarifying decision rights and accountabilities, eliminating duplication, and reducing inefficiencies	Staff perception of duplication of activity	23%	65%
			Staff perception of process efficiency	33%	60%

FY2023 Major Accomplishments

- IT launched six new Metrorail station pages on our website as part of the grand opening of the Silver Line extension in November 2022. These new stations included Reston Town Center, Herndon, Innovation Center, Washington Dulles International Airport, Loudoun Gateway, and Ashburn. For details see <https://www.wmata.com/silverline>
- IT launched the Better Bus website to kick off the Authority's initiative of the first comprehensive redesign of the entire Metrobus network since its inception in 1973. For details, see <https://www.wmata.com/betterbus>
- Completed Phase 1 of ERP Replacement Project which included completing an As-Is assessment, completing business and technical requirements, Implementation Road Map, and product short list, writing the statement of work and demonstration scenarios for the implementation vendor, and providing support through the phase 2 procurement process
- Completed Phase 1 of OHAW Employee Health Records Project which included completing an As-Is assessment, completing business and technical requirements, Implementation Road Map, and product short list, writing the statement of work and demonstration scenarios for the implementation vendor, and providing support through the phase 2 procurement process
- Completed MetroMoves Program: In FY2023, WMATA opened three new Headquarters buildings, each of which required new external data circuits between WMATA and the commercial carriers, new network switches between floors and routers for Metronet connectivity, and telephone and cable TV services
- Equinix Datacenter: In support of the Metromoves program a new datacenter was established at the Equinix facility in Ashburn, VA. This data center replaces the old JGB datacenters and upon final certification will become the primary WMATA datacenter
- New Metro Integrated Control Center (MICC): In conjunction with the AIM and Radio teams, the network team established a new MICC data network which required the installation of new switches and routers, telephony and recording services
- JGB decommissioning project included the removal of all network devices, telephones, endpoints, and datacenter networking devices
- IT Systems and Software worked with Fare PMO to draft fare collection back-office (NextFare) replacement/modernization project RFP package. This is a major milestone in modernizing the legacy fare collection system
- IT Systems and Software implemented NextFare Drop 9+ with high availability and end of life software upgrades deployed to production. This upgrade improved availability, cybersecurity compliance for Fare Collection System in support of mobile payments
- Awarded the IT 8K Program contract and commenced work with the Office of Vehicle Program Services and Hitachi
- IT Systems and Software, working with the Department of Safety and Readiness, Office of Transit Asset Management, Office of Car Maintenance and Maximo, was able to support the implementation of business processes that allowed the 7000-series railcars a safe and reliable return to service

- IT Software and Systems teams worked to ensure Metro Integrated Communication Command (MICC) has all the required software and systems. Teams updated and integrated the new control center into the central control computer application. This is part of the initiative to establish the MICC and also move the Rail Operations Control Center, Bus Operations Control Center, and Security Operations Control Center out of JGB into the Virginia headquarters
- IT Teams collaborated with MTPD to enable roll out of Tasers and Body Worn Camera (BWC) for MTPD Officers. IT installed and enabled network drops at 18 locations to support this initiative. IT also established Single Sign-On functionality to access tasers and BWC content which improved security
- IT worked with MTPD to modify its system of record to allow the Criminal Investigation Division to track the individuals who enter and exit a crime scene. The implementation of this feature reduces the time and effort associated with reporting this information
- IT worked with the Department of Safety to develop a mobile-friendly inspection application that facilitates the inspection process by allowing Operations Safety Oversight specialists to prepare and submit inspection reports as well as track their findings through closure. This centralized system also allows the Office of Safety Data Analytics to collect the detailed information, including photographs, required to produce uniform and comprehensive outputs for operations and maintenance groups
- Several teams in IT Systems and Software (Geographic Information Systems (GIS), Rail Operations Control, and Bus) collaborated to release Metro Live, a public-facing application that allows Metro's customers to track live train locations. The app includes a new capability to track the specially wrapped train and buses to support Metro's seasonal campaign promotions and improve customer experience
- IT Systems and Software upgraded the enterprise software systems for advanced mapping, analytics, and data management. The enhanced systems provide the foundation to support the organization's needs with location-based analytics and promote SaaS open data capabilities
- IT Systems and Software released three new versions of SmarTrip® mobile app on IOS and Android platforms aimed to improve customer experience
- IT Systems and Software released SmarTrip® Web and API version 4.5 supporting the University Pass (UPass) program
- ITSS made 55-inch LCD PIDS and Rail Station Bus Information (RSBI) signs operational at New Carrollton, Landover, Cheverly, Deanwood and Minnesota Ave that were a part of the 2022 station improvement project
- ITSS made the Car Occupancy Displays on PIDS signs operable
- ITSS began providing bus bay information in the RSBI signs to provide more accurate information
- ITSS began to display bus schedule data as well as real-time bus predictions for the agencies that provide schedule data

Vulnerability and Patch Management

- Reduced WMATA's vulnerability Cybersecurity Exposure Score (CES) from 575 in May 2022 to 432 in February 2023
- Completed a contract with Insight, Inc. to conduct a comprehensive vulnerability and patch management assessment of WMATA's cybersecurity posture with respect to the people, processes, and technologies employed to remediate risk. Attributed by Tiger Team and ISO Compliance (*CAP-571 and CAP-592*)
- Facilitated implementation of NIST Checklists/DISA STIGs to implement secure baselines on WMATA systems
- Initiated the Enterprise Identity and Access Management (EIAM) enterprise project to deploy Multifactor Authentication (MFA), Single Sign-On (SSO), and Role-Based Access Control (RBAC) security services to WMATA systems and applications, and in support of CAP closure (*CAP-593 and CAP-595*)

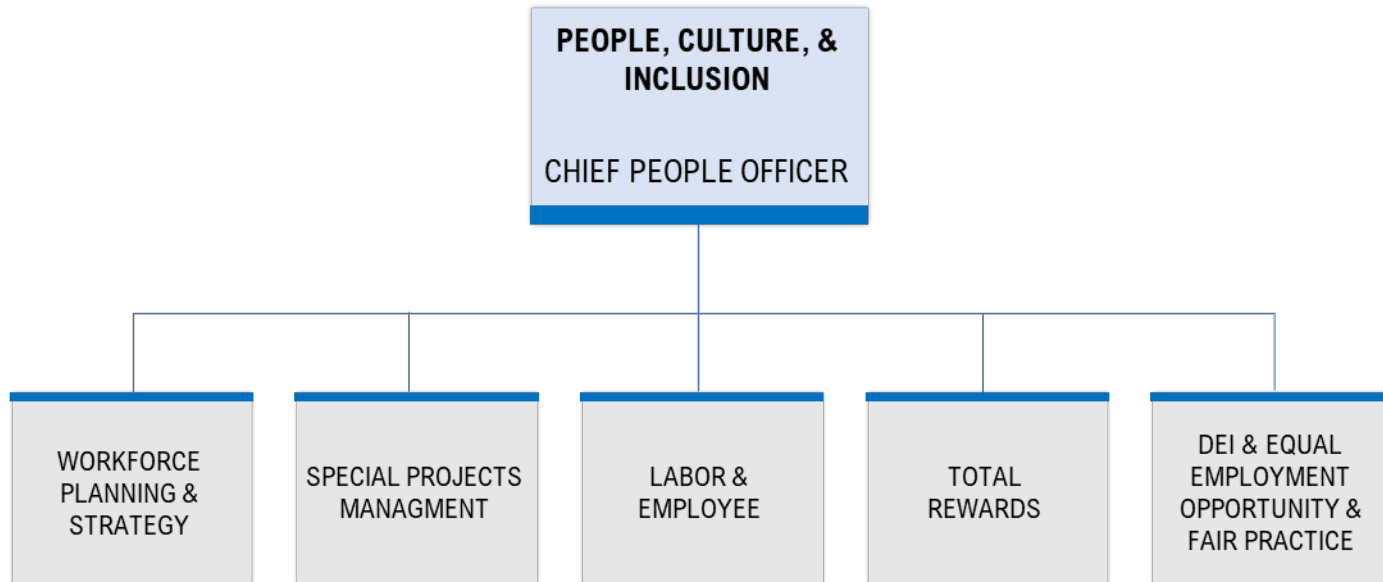

Enhanced the Cyber Metrics Dashboard

- Implemented 21 Key Performance Indicators (KPI) and implemented and 21 Key Risk Indicators (KRIs) into the Corporate Cybersecurity Dashboard
- Using KPI and KRI measurements across cybersecurity provides WMATA leadership data that measures the effectiveness of key activities of the cybersecurity program; such measures include Cyber Exposure Score, Remediation Maturity Grade, Responsiveness Grade, Cybersecurity Awareness Training, and Phishing Simulation Failure Rate

Strengthened Employee Cyber Resilience Through Training and Awareness Exercises

- Targeted Phishing Simulations:
 - Conducted 24 targeted phishing simulation exercises across multiple departments of WMATA
 - Value is added by collecting phishing simulation performance data from highly vulnerable departments that are likely targeted by external threats
 - Executive Summaries of key findings have been created, disseminated, and available to view
- Cybersecurity Awareness Month:
 - 2022 Metro participation in Cybersecurity Awareness Month exceeded last year's all-time high with a total of 1,857 attendees, a 19 percent increase
 - This attendance improvement over 1,560 attendees last year was accomplished with fewer resources
 - ITCS used Yammer with over 14,140 views as of October 31, 2022

People, Culture, & Inclusion

FY2024 APPROVED OPERATING EXPENSE: PEOPLE, CULTURE, & INCLUSION

<i>(Dollars in Thousands)</i>	FY2021 Actual	FY2022 Actual	FY2023 Budget	FY2024 Budget	\$ Change	% Change
Personnel	\$14,699	\$13,282	\$13,941	\$15,123	\$1,182	8.5%
Non-Personnel	\$10,006	\$9,273	\$19,352	\$20,555	\$1,203	6.2%
Total Cost	\$24,705	\$22,556	\$33,293	\$35,678	\$2,385	7.2%
Authorized Positions ¹	n/a	n/a	106	116	10	9.4%

1. Due to the extensive re-organization of November 2022, headcount by department is not available for FY2021 and FY2022

The Department of People, Culture, & Inclusion consists of Workforce Planning and Strategy, Special Projects and Information Management, Labor and Employee Relations, Total Rewards, and Diversity, Equity, and Inclusion.

The People, Culture, & Inclusion department supports all operating components of Metro by providing administrative and operational solutions. The People, Culture, & Inclusion department manages unionized employment matters and supports employee relations and labor relations groups with continued focus on Total

Rewards. The department is responsible for sourcing and supporting the selection of highly qualified talent, delivering customer-friendly onboarding, implementation of employee performance management programs, employee development and training opportunities, and promoting an engaged, diverse and inclusive organization free from discrimination. People, Culture, & Inclusion is focused on business innovation through organizational transformation and integrating strategic priorities across functions with the goal of establishing a culture of high performance at all levels of the organization.

KEY PERFORMANCE INDICATORS: PEOPLE, CULTURE, & INCLUSION

Goal	Objective	Initiative/Action	Metric	Baseline	Target
Talented Teams	Recruitment and Retention	Expand talent pool through part-time jobs, apprenticeship programs, and partnerships with universities and technical and trade schools	Diversified workforce	46 out of 82	Trend toward target of 82
		Expand talent pool through part-time jobs, apprenticeship programs, and partnerships with universities and technical and trade schools			
		Establish employee value proposition to establish Metro as a great place to work, develop careers, increase overall satisfaction, and have a positive impact on recruitment and retention	Offer acceptance rate	Not Yet Tracked	TBD
		Execute recruiting and hiring strategy to develop additional talent pools, increase access to candidates, and reduce vacancies	Time to hire	123 days	90 days
		Develop competency framework and redefine career paths	Voluntary turnover rate	3.0%	2.0%
	Engagement, Empowerment and Recognition	Develop culture change strategy to increase engagement across the organization	Staff sentiment about working for WMATA in the future	80%	90%
		Implement DEI strategy and programs to ensure Metro provides opportunities and representation to all cohorts and lead implementation of agency's Racial and Social Equity Strategy	Staff perception of DEI	59%	80%
		Establish new office focused on Diversity, Equity and Inclusion			
		Establish a performance evaluation framework that supports engagement and recognition across the organization	Staff perception of recognition	34%	60%
		Strengthen recognition efforts across the organization			
		Develop internal customer service strategy to enable better collaboration and positively impact external customer service	Internal customer satisfaction rate	Not Yet Tracked	TBD
	Professional and Technical Skill Development	Create talent / career/ skills development plans that provide attractive work experiences and expands career opportunities across Metro	Staff sentiment about working for WMATA in the future	80%	90%
		Provide leadership development and applied training programs to support emerging leaders and develop the next generation of Metro leaders			
		Expand career pathways at Metro			

FY2024 Business Plan

Workforce Planning and Strategy

- Identify and implement a new Applicant Tracking System to improve the overall onboarding process for the talent WMATA is striving to recruit. The identified system will be leveraged to enhance recruiter performance, applicant experience and overall hiring compliance while driving recruitment effectiveness and efficiency
- Continue the strategic sourcing and recruiting capacity by engaging a Recruitment Process Outsourcing (RPO) vendor to support high volume, pipeline and other recruitment efforts related to key projects and initiatives
- Staff key positions within the newly created Chief Diversity Office to include Chief Diversity Officer, the Workforce Diversity, Equity and Inclusion team, and the Transit Equity Group
- Continue the development and implementation of a Workforce Planning and Forecasting Model and develop a Strategic Workforce and Succession Planning and Career Pathing for WMATA, that enables the organization to make well-informed, efficient, and cost-effective decisions about future workforce requirements
- Develop and implement a Metro Talent Plan and Program for WMATA that ensures we retain top talent, high performers and high potential employees
- Continue to develop leaders throughout the organization with capabilities and behaviors aligned to Metro's Leadership Framework to support continuous improvement and customer engagement
- Continue executing background checks for would be new employees
- Finalize the staffing of the Office of Human Capital Solutions to lead WMATA Workforce Planning, Succession Planning, Retention Strategy, and Human Capital initiatives
- Develop and begin implementation of competency-based career paths for Metro's talent across the Authority
- Pilot Metro's succession management program. Modify the framework, as needed and roll-out the Program organization-wide
- Continue the development of Metro's Retention Strategy to ensure that the organization retains its top talent

- Automate reporting capabilities for Performance Management milestone reporting for Setting Objectives and Mid-Year Review of Progress:
 - Evaluate ePerformance platforms to facilitate new performance evaluation framework
 - Develop a performance management framework inclusive of 689/922 employees
 - Develop new Performance Management Policy with General Manager Approval
 - Design and deploy a customer centric CBT for all Metro employees
 - Strengthen and improve onboarding for new hires; develop department orientation program, create Metro Buddy program
 - Create Metro Excellence/Training Academy

Special Projects and Information Management

- Continue to sustain PeopleSoft as Metro's Transactional System of Record
- Develop requirements for a Data Warehouse
- Support the Deployment of the Authority's ERP
- Train Administrators and Senior Project Managers
- Configure and deploy an Applicant Tracking System
- Configure and deploy a Case Management and Grievance System

Labor and Employee Relations

- Continue providing advice and counselling to managers with represented employees on labor, contract and policy issues, and assisting employees to resolve issues within the workplace
- Complete the contract negotiations for the Local 2 and Local 639 Unions with minimum disruption to the organizations
- Continue the implementation of a Grievance Management system to streamline its complaint process and investigate complaints of discrimination more effectively and efficiently

Total Rewards

Benefits

- Complete selection and implementation of Health & Welfare RFP
- Develop RFP for Health & Welfare administration services
- Complete SOPs for Health & Welfare Department
- Identify Leave Management System

Retirement

- Complete Selection implementation of Pension Administration System
- Complete remaining 20 percent (3 million) images for scanning project

Compensation

- Communication Campaign around Compensation Philosophy
- Update all job descriptions with new department names per fall 2022 restructuring

FY2023 Major Accomplishments

Workforce Planning and Strategy

Talent Acquisition

- WMATA was acknowledged as Latina Style Magazine's The top 50 best companies for Latinas to work for in the U.S. 2023

- WMATA received Hispanic Magazine-Best of the Best Employer 2023
- WMATA received the Premier Business Partner Award from the Washington D.C. Department of Employment Services 2022
- WMATA received the Military Friendly 2023 award by Victory Media, publisher of G.I. Jobs magazine

- Increase the number of Student Bus Operator applicants by implementing hiring bonuses and revised selection process
- Staffed Key positions:
 - Vice President Chief Labor & Employee Relations Officer
 - Chief Diversity, Equity and Inclusion Officer
 - Vice President/Chief Mechanical Officer
 - Executive Vice President/Chief Customer Experience and Engagement Officer
 - Senior Vice President Metro Integrated Command, Communication & Control Center
 - Senior Vice President Bus Transformation, Better Bus Initiative

Human Capital Solutions

- Conducted a comprehensive workforce assessment
- Developed workforce planning and forecasting models to identify current and future staffing needs based on functional requirements (work breakdown structure) or performance metrics (top-down models)
- Developed Metro’s Talent Plan
- Competency Architecture continues to:
 - Develop agency-wide competency architecture that is based on Metro’s job families/subfamilies
 - Identify and define functional progression levels to promote competency-based human capital management
 - Integrate the framework with key human capital processes, such as recruitment and hiring, learning and development, succession planning, etc.
- Developed the framework of Metro’s Succession Management Program

Human Capital Performance & Learning Performance

- Integrated a competency based behavioral dimension into the performance management system derived from Metro’s Leadership Framework. This was socialized across Metro with briefings, guides, videos, newsletter articles, and a recorded panel discussion

- Transitioned the Local 2 population from an anniversary-based period to a universal performance date hosted on ePerformance instead of paper forms. During implementation achieved over a 99 percent completion rate for Local 2 Mid-Year Reviews
- Collaborated with IT to automate reporting capabilities for Performance Management milestone reporting for Year-End Evaluation
- Collaborated with IT to automate date entry for 689/922 Performance Conversations. Completion of project pending IT workload
- Redesigned PERFORMetro website to include new resources for each employee population. The new website averaged over 10,000 site visits from December 22, 2022 to March 21, 2023
- Engaged workforce with coordinated Yammer campaigns. Each Yammer message averages 5,000 views
- Launched a Performance Management Community of Practice with members from across Metro.
- Began drafting Metro’s first Performance Management policy
- Created Metro’s first comprehensive curriculum around Performance Management, including: PERFORMetro Rating Training, PERFORMetro Overview, Maximizing Performance of All Employees, Effective Performance Management for Managers and Supervisors I, Effective Performance Management for Managers and Supervisors II, Setting Effective Performance Objectives 1 on 1 Coaching

Learning

- Designed and developed customer centricity training for all IBOP employees. The goal of the training was to create a more collaborative, inclusive, and respectful culture by applying the principles of customer centricity. All senior leaders, directors and managers completed the training
- Leader Development:
 - Successfully launched the first full year of the Emerging Leader and Mid-level Leader programs in alignment with Metro’s leadership framework. Over 20 participants across the Authority completed the program
 - Launched the fourth year of the HiPO program with the largest cohort class to date

- In conjunction with the Talent Management Council, selected Metro employees from across the Authority for the Eno and APTA leadership programs

Special Projects and Information Management

- Implemented General Managers Realignment project such as, taking out acronyms, realigning staff, position descriptions etc.
- Implemented Total Rewards Statements
- Implemented Automation of PCN Reclass
- Implemented Automation Fitness Waive
- Implemented Email Notification for Self Service Banking Information changes
- Payscale implementation
- Successfully provided key leadership to support the New Call Intake center project that centralized all Human capital related calls by WMATA and Non-WMATA employees to direct callers to the appropriate Department and POC
- Implemented automated telework requests

Shared Services

- Completion of L2 Arbitration Project
- Universal Performance Plan Project - Data Reconciliation for HASTUS Project
- Contributions to the Implementation of Tax Update 22D & E and Implementation of Tax Update 23-A

Records

- File Ascension Project to be completed before end of FY2023

Labor and Employee Relations

- Completed successful negotiation of Local 2 successor CBA within negotiation authority (key achievement – universal step increase date to eliminate ongoing timing issues)
- Completed successful negotiation of Local 639 successor CBA within negotiation authority
- Secured positive outcome to L2 Reclassification Arbitration Award resulting in approximately two-thirds of the positions union petitioned to move into the union being excluded and maintained as NRP at significant savings to the Authority

Diversity, Equity & Inclusion

- Successfully obtained staff augmentation to conduct concurrence reviews on new hires as required by federal mandate

- Defined business requirements to automate the EEO concurrence process for new hires and appointments within the Authority
- Piloted the new automated EEO concurrence process to support defined business requirements and measure efficiencies to support Federal Labor mandates
- Finalized business requirements for a case management system to provide greater efficiencies in the complaint and investigation of discrimination complaints

Benefits

- Completed orientation and benefit processing for the transition from NRP to Local 2 as per the arbitration agreement
- Set up audit process and automated direct bill for medical premium payments
- Completed the audit of L922 population enrollment and premium deductions
- Implemented enhancements for 2023 Plan year
- Completed dependent audit to ensure eligibility and supportive documents of enrolled dependents
- Initiated an EAP program and coordinated a critical response EAP effort due to the Robert Cunningham incident that resulted in 47 counseling meetings and 206 employees serviced
- Completed SOW and implemented services for market analysis, compensation administration and job description development
- Completed leadership survey and established WMATA compensation philosophy to attract and retain high performing talent
- Completed the pay equity review to ensure compensation fairness across the Authority
- Completed the benchmarking of WMATA jobs to reposition the pay structure to the 75th market percentile
- Consolidated the NRP pay structure to a hybrid fanned structure and repositioned the salary ranges to the 75th market percentile. Completed a cost analysis and implemented the pay adjustment to position all employees' compensation within 80 percent of the midpoint
- Developed Compensation Philosophy – Manager Guide for recruitment and retention of high performing talent

- Updated the job descriptions process to include management review and prior to recruitment effort and adjusted the job description for Safety Sensitive & Covered Employees to reflect the actual requirements of the role, including experience and expertise in the subject area
- Completed the processing of the contract increases for MTPD, Local 689, Local 922 and Local 2 as per the CBAs
- Completed job description update to transition NRP to Local 2 as per the arbitration agreement
- Completed FMLA CBT training for supervisors and managers to be completed bi-annually
- Updated the Return to Duty requirements to ensure safety while streamlining the process and improving communication
- Completed, without any findings, six annual retirement plan audits
- Developed and issued an RFP for a pension administration system for the management of five pension plans
- Scanned 12.5 million images in preparation of the implementation of the Pension Administration System
- Processed over 114 retirements in December 2022; over 375 retirements were processed in CY2022

Total Rewards

- Implemented call center for Total Rewards
- Redesigned Total Rewards webpage to provide easy access to Total Rewards Information

Benefits

- Completed orientation and benefit processing for the transition from NRP to Local 2 per the arbitration agreement

- Completed the audit of L922 population enrollment and premium deductions

Compensation

- Completed SOW and implemented services for market analysis, compensation administration and job description development
- Completed leadership survey and established WMATA compensation philosophy to attract and retain high performing talent
- Completed the pay equity review to ensure compensation fairness across the Authority
- Completed the benchmarking of WMATA jobs to reposition the pay structure to the 75th market percentile
- Consolidated the NRP pay structure to a hybrid fanned structure and repositioned the salary ranges to the 75th market percentile; completed a cost analysis and implemented the pay adjustment to position all employees' compensation within 80 percent of the midpoint
- Updated 250+ job descriptions and the Job Description Library

Retirement

- Developed a retirement database to maintain retiree data to improve record keeping
- Completed, without any findings, six annual retirement plan audits
- Developed and completed RFI to assess the market for pension administration to assist with the development of the RFP for a pension administration system

Legal & Compliance

FY2024 APPROVED OPERATING EXPENSE: LEGAL & COMPLIANCE

<i>(Dollars in Thousands)</i>	FY2021 Actual	FY2022 Actual	FY2023 Budget	FY2024 Budget	\$ Change	% Change
Personnel	\$8,508	\$9,305	\$9,990	\$11,544	\$1,555	15.6%
Non-Personnel	\$8,519	\$3,589	\$8,587	\$10,326	\$1,739	20.2%
Total Cost	\$17,028	\$12,894	\$18,577	\$21,870	\$3,293	17.7%
Authorized Positions ¹	n/a	n/a	60	69	9	15.0%

1. Due to the extensive re-organization of November 2022, headcount by department is not available for FY2021 and FY2022

The Legal department is responsible for all legal affairs of Metro and provides high-quality legal advice and counsel to the Board of Directors, executive management, and all Metro departments and offices. The Audit & Compliance department is responsible for conducting internal audits, reviews, and assessments of Metro’s internal controls and business processes to help Metro more effectively manage risks. The Board Coordination & Executive Office is responsible for coordinating all activities between staff and the Board and supporting the efficient operations of the Executive Office.

FY2024 Business Plan

Legal

Advocate for the maximum protection of Metro’s legal rights:

- Defend Metro in all disputes and litigation, including providing legal advice and counsel to all Metro departments and offices to mitigate risk

- Provide legal advice and counsel to obtain jurisdictional and federal funding and debt financing, including jurisdictional operating and capital contributions
- Provide legal support to facilitate delivery of capital projects
- Provide legal advice and counsel for the return of the entire 7000 series railcar fleet to service
- Provide legal support for safety oversight and safety regulatory matters
- Provide legal support for WMATA’s Equity Working Group that is exploring and developing transportation equity policies
- Work collaboratively with all departments to support and implement Metro’s strategic plan

Audit & Compliance

Facilitate the effective management of risk:

- Conduct audits under the Internal Audit Plan
- Conduct special reviews and risk assessments as necessary and appropriate in support of Metro's mission, including but not limited to capital programs and related projects
- Implement the Enterprise Risk Management framework and the integrated risk management technology solution
- Coordinate and oversee the development and closure of corrective action plans issued by the Audit & Compliance division, Metro's Office of Inspector General, or by agencies such as the Federal Transit Administration (FTA), Government Accountability Office (GAO) or Washington Metrorail Safety Commission (WMSC)

FY2023 Major Accomplishments

Legal

- Provided legal advice and counsel in support of the successful issuance of \$392 million Dedicated Revenue Bonds, Series 2023A Green Bonds
- Provided legal advice and counsel in support of the successful opening of Silver Line Phase 2, including negotiating and executing a Trust Account Agreement, dated July 1, 2022, for the Metropolitan Washington Airports Authority to fund a trust account to address the repair or remediation of any known defects
- Assisted with the District's Office of Administrative Hearings to develop a civil notice of violation (NOV) for fare evasion and other prohibited conduct on the Metro system, including an adjudication and appeals process for the NOVs
- Provided legal advice and counsel in support of developing a body worn camera (BWC) policy, BWC training for Metro Transit Police, and other processes and procedures necessary to implement the BWC program
- Provided legal advice and counsel in support of major capital improvement projects including Northern Bus Garage, Bladensburg Bus Garage, Platform 4, Potomac Yard Station, Yellow Line Tunnel/Bridge Rehabilitation, and Heavy Rail Overhaul
- Provided ongoing legal advice and counsel in support of fare modernization and sustainability initiatives

Audit & Compliance

- Audit and review activities resulted in 67 actionable recommendations to management through March 2023
- Supported approximately 15 external audit activities including responses to Metro OIG Audits and Investigations, Management Alerts and Assistance Reports, and other external audit support activities (i.e., FTA, FEMA, MDOT)
- Supported closure of 24 OIG and other external audit Corrective Action Plans (CAPs), independently validated, and confirmed closure of 38 Audit and Compliance CAPs, and actively monitoring 100 open internal and external (including Metro OIG) CAPs through March 2023
- Expanded FY2023 scheduled activities to include Take Home Vehicles Assessment, Moving Violation Ticket Process Special Review, SmarTrip® Card Receipt and Distribution Quality Control Process Review (Consulting), and Safety Sensitive Non-Stock Parts and Materials Purchases Special Review
- Aligning enterprise risk with Metro's new strategic plan, "Your Metro, The Way Forward"
- Continued deployment of the Governance, Risk and Compliance Tool for corrective action plans and other integrated risk management activities
- Enhanced Dashboard Reports for the Purchase Card Oversight Program to enable effective decision making in support of compliance

Chapter 4 – Capital Budget

Overview

The \$2.4 billion FY2024 Capital Budget and the \$14.4 billion total FY2024-2029 CIP, which includes debt service and revenue loss from capital projects, focuses Metro's capital investments on safety, state of good repair, and reliability of Metrorail, Metrobus, and MetroAccess assets.

Highlights of the budget include:

- Investments in Northern and Bladensburg to enable them to run electric vehicles
- Replacement of bus divisions at Northern and Bladensburg, and land acquisition for Western
- Lifecycle replacement of bus and paratransit vehicles
- 8000-Series railcar acquisition
- Railcar Heavy Repair & Overhaul Facility
- Development of Blue, Orange, and Silver rail line corridor improvements

Additional information regarding WMATA's 10-Year Capital Needs can be found on-line at: www.wmata.com/initiatives/capital-improvement-program

Capital Investment Strategy

Metro's Value to the Region and the Need for Capital Investment

The Washington Metropolitan Area Transit Authority (Metro) system is the public transportation backbone of the National Capital Region, connecting residents and visitors across the region to jobs, housing, food, education, healthcare, essential services, opportunities, and entertainment. The system supports the sustainability, livability, and the economy of the region, protects the environment and helps advance racial and social equity in our community. Metro also plays a critical role in supporting the federal government.

The Metro system is the result of substantial regional and federal infrastructure investment. Continued capital investment is vital to provide safe and efficient service to customers that depend on Metro. Through the Capital Improvement Program (CIP), Metro advances capital projects and programs to restore, sustain and modernize the system.

The foundation of the CIP is the organization's top priorities that include commitment to customers, safety, service reliability and financial responsibility. Metro is in the process of working with the Board of Directors and stakeholders to develop a new five-year strategic transformation plan that will guide Metro and the CIP going forward.

Capital Strategy

Metro's Capital Strategy is to:

- Invest in the system to modernize and provide safe, efficient, and reliable service for customers, employees, and the region
- Address the backlog of overdue state of good repair needs
- Sustain safety and reliability through recurring maintenance, rehabilitation, and replacement programs
- Maintain financial stewardship
- Support a sustainable and more equitable future for the region

Capital Investment Priorities - Safety and Reliability

Metro's capital program is focused on providing safe and reliable service while maintaining the system in a state of good repair.

After decades of deferred maintenance and underinvestment, Metro accumulated a significant backlog of overdue safety and state of good repair needs. Capital investments implemented over the last several years such as track rehabilitation, replacement of legacy vehicles and equipment, and the Platform Improvement Program have successfully reduced the backlog, improved performance and reliability and have started to address the impact of years of underinvestment.

Even with this notable effort, Metro has more work to do to continue the progress we have made in addition to catching up on overdue state of good repair needs including the rehabilitation and replacement of bridges, power upgrades, signal and communications systems, and facilities. At the same time, Metro is focused on sustaining safety and state of good repair of all system assets through recurring lifecycle maintenance, rehabilitation, and replacement.

In addition to the safety and reliability priorities, Metro considers other key factors in the development of the CIP, including equity, sustainability, resiliency, improvements to the customer experience, regulatory findings and corrective action plans, modernization and efficiency,

emerging technology, project readiness, and jurisdiction-sponsored improvements.

Financial Stewardship

Metro is committed to responsible stewardship of federal, state, and local capital investments that have enabled the progress made over the past six years. Following through on that commitment, Metro continues to improve:

- A structured process for capital planning, prioritization, and decision-making
- Capital program website and frequent progress updates
- Detailed and timely capital program financial reporting for funding partners

Capital Program Performance

Metro is developing a performance outcome measures program to assess the impacts of capital investments related to:

- Safety, security, and reliability
- Customer and employee experience
- Community, equity and sustainability
- Operational capacity and efficiency
- Financial stewardship

Art in Transit graphic banners around Northern Bus Garage construction

Capital Improvement Program Highlights

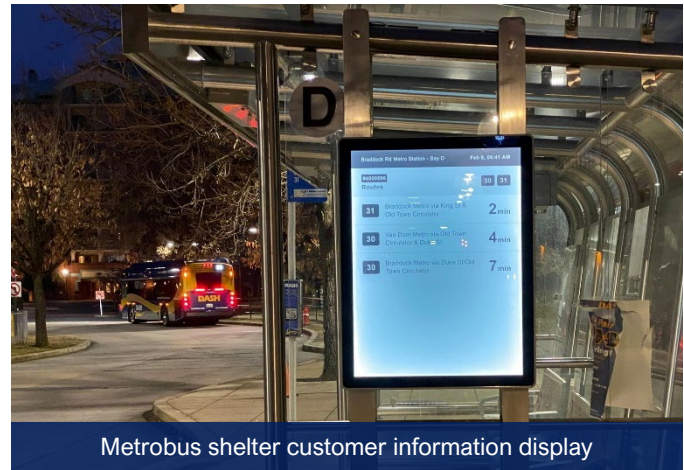

Metro’s \$14.4 billion FY2024-FY2029 CIP and \$2.4 billion FY2024 Capital Budget focus on service reliability, safety, security, and state of good repair of MetroAccess, Metrobus, and Metrorail and the facilities, infrastructure, and systems that support our transit network. Highlights of priority CIP investments to restore, modernize, and sustain the system include:

Metrorail

- Rehabilitation of Bridges & Aerial Structures
- Tunnel Rehabilitation and Water Mitigation
- Rehabilitation of Train Control Equipment & Planning for the Next-Generation Signal System
- Rehabilitation & Upgrade of Rail Power Systems
- Replacement & Upgrade of Communications Systems – Including Radio Infrastructure & Equipment
- Track Rehabilitation & Maintenance
- Ventilation Improvements – Red Line Pilot
- 8000 Series Railcar Acquisition
- Railcar Rehabilitation & Maintenance
- Railcar Heavy Repair & Overhaul Facility
- Replacement & Rehabilitation of Elevators & Escalators
- Deployment of Mobile Fare Payment & Replacement of Faregates

Underground Metrorail station cooling system

Metrobus shelter customer information display

Metrobus

- Bus Vehicle Replacement and Rehabilitation
- Replacement of Bus Divisions at Northern & Bladensburg & Land Acquisition for Western
- Investments in Northern & Bladensburg to enable them to run 100% electric vehicles
- Zero-Emission Bus Program Deployment
- Bus Customer Facility Improvements – Bus Shelters, Transit Centers and Customer Information Displays
- Roadway and Signal Improvements for Bus Priority (with jurisdictions)
- Replacement of Bus Fareboxes

MetroAccess

- Lifecycle Replacement of Paratransit Vehicles

Operations and Business Support

Priority investments to restore, modernize and sustain support functions include:

- Consolidated Office Buildings in the District of Columbia, Maryland, and Virginia
- Facility Roof Replacement
- Information Technology Hardware & Software Replacement, System Preservation
- Cyber Security Improvements
- Replacement Data Center
- Financial System Replacement

Metro’s CIP is grouped into six major investment categories: Railcars and Railcar Facilities; Rail Systems; Track & Structures; Stations & Passenger Facilities; Bus, Bus Facilities & Paratransit; and Business & Operations Support. Detailed CIP project and program information is found in Appendix D.

Metrorail traction power upgrade on Blue and Yellow line in preparation for Potomac Yard station

FINANCIAL PLAN BY INVESTMENT CATEGORY

<i>(Dollars in Millions)</i>	FY2024 Budget	FY2025 Plan	FY2026 Plan	FY2027 Plan	FY2028 Plan	FY2029 Plan	6-Year Total

Total Capital Program Cost	\$2,388.4	\$2,668.8	\$2,386.8	\$2,367.8	\$2,275.8	\$2,296.9	\$14,384.5

1. Projections subject to change based on actual debt requirements and terms of future debt issuance

Capital Program Development

Metro's capital program includes a 10-year Capital Plan, a Six-Year Capital Improvement Program (CIP), and an annual Capital Budget. Collectively these form the framework for the development, evaluation, strategic alignment and delivery of capital investments.

To ensure critical capital needs are addressed and that capital funding is invested wisely, Metro is establishing and improving a structured and centralized approach to identify, develop, evaluate, align, select, and approve capital investments to advance through the capital program.

Metro's capital program development process begins each year with a review and update of current and ongoing projects and programs as well as known potential investments still in development. Management then works with internal operations, maintenance, and business support leads as well as oversight entities and the jurisdictions to identify potential investment needs that might have emerged since the last program cycle.

For significant new and emerging needs, Metro is implementing a structured approach to develop and evaluate potential major capital investments. This approach includes:

- An objective assessment of the need
- An evaluation of alternatives and development of business cases to assess financial impacts and customer and public benefits of a potential investment
- Development of project implementation plans and charters to select a delivery strategy, establish project scopes, schedules and budgets, and assess risks and readiness before a major project
- Aligning potential capital investments to measurable strategic objectives, expected outcomes and key performance indicators
- Metro's CIP and 10-Year Capital Plan rely on the best available information at the time of development and are updated annually

Annual Capital Expenditure Budget

In accordance with Article VIII, paragraph 26 of Metro's Compact, the Board adopts an annual Capital Budget. This budget identifies capital investments by category that are expected to commence or continue during the budget period. The budget also includes the anticipated funding sources for the upcoming year.

Metro's capital program and annual budget are managed on an expenditure basis; program and project costs, including costs for programs and projects that will occur over multiple fiscal years, are budgeted and planned in the fiscal year that they are forecasted to be expended. Metro's fiscal year begins on July 1 and ends on June 30.

Metro's CIP and Capital Budget include estimated costs for capital expenditures to procure or construct fixed assets, or to improve and extend the useful life of an existing fixed asset. The CIP and Capital Budget also include estimated costs for planning, program management, and certain preventive maintenance costs.

The Metro Board of Directors has delegated authority to the GM/CEO to move capital budget and funding between programs, projects, and investment categories to adjust for changed schedules and to address emergency or unanticipated needs.

Annual Schedule

Metro's 10-year Capital Plan, Six-Year CIP, and Capital Budget are formally updated annually through the budget process. The process begins each spring and summer with the development of a preliminary proposal for Metro's Senior Executive Team's consideration. The GM/CEO then presents the proposed CIP to the Board of Directors in the fall of each year.

The Board authorizes a public hearing on the budget and Metro initiates a public input process. The Board considers the proposal and typically adopts the six-year CIP and Capital Budget in March or April each year. Adoption of the Capital Budget by March allows Metro to start the process to apply for FTA grants before the beginning of the fiscal year.

Zero-emission electric Metrobus Pantograph charging station

Capital Program Funding Sources

Metro's CIP is primarily funded by contributions from the region and federal grant programs. Current regional and federal funding sources are for restoring and sustaining safety, security, reliability and state of good repair. The table below details the FY2024 funding plan and six-year funding outlook.

Federal Grant Programs

Metro receives federal formula grant funding from the Federal Transit Administration (FTA) through 49 U.S.C. 5307 Urbanized Area Formula grants, 49 U.S.C. 5337 State of Good Repair grants, and 49 U.S.C. 5339 Bus and Bus Facilities grants. Metro also competes for federal discretionary grant programs for specific investments. Metro expects to receive about \$460 million in FTA grants for Metro FY2024 and the six-year program assumes continued FTA funding, adjusted for inflation.

Passenger Rail Investment and Improvement Act (PRIIA) Funding

PRIIA funding provides \$144 million annually in federal grants for WMATA's CIP which is matched with funding from Maryland, the District of Columbia, and Virginia for Metro's safety and state of good repair capital program. These grants are subject to a 1% holdback for FTA administration.

The FY2024 Capital Budget assumes \$144 million of federal PRIIA funding matched by funding from the region. The six-year program assumes federal PRIIA funding through FY2029 as PRIIA has been reauthorized through that period and beyond. Metro's capacity to support state of good repair programs is dependent on continued Federal and State support of this program.

Dedicated Capital Funding

In 2018, Virginia, Maryland and the District of Columbia approved a combined \$500 million per year in new dedicated capital funding to restore the system to a state of good repair and improve safety and reliability. Dedicated funding is limited to capital projects.

Metro is leveraging dedicated funding in the capital markets, issuing bonds to fund the capital program. The FY2024 budget assumes approximately \$800 million of dedicated funding-backed debt. Over the next several years, as Metro issues debt to address overdue and ongoing capital needs, a growing share of the annual \$500 million of dedicated funding will be committed to debt service, reducing funding capacity for future capital needs, and driving a need for new capital funding sources.

Jurisdictional Contributions

Maryland, the District of Columbia, and the local governments in Northern Virginia provide annual capital funding in the form of "allocated contributions". These contributions provide the required local match to federal formula, competitive and other grants and system performance funding. Allocated contributions are governed by the Capital Funding Agreement (CFA) for FY2022 to FY2027. FY2024 allocated contributions total \$293 million, 3 percent more than FY2023. The six-year program assumes annual 3 percent increases and a total of \$1.851 billion.

Jurisdiction Sponsored Projects

Metro also advances projects sponsored and funded by jurisdictions. These "reimbursable projects" are typically improvements to the system. One example is the new Potomac Yard Station, sponsored and funded by the City of Alexandria.

Potomac Yard station opening date announcement

FINANCIAL PLAN - ALLOCATION OF STATE AND LOCAL CONTRIBUTIONS

<i>(Dollars in Millions)</i>		FY2024 Budget	FY2025 Plan	FY2026 Plan	FY2027 Plan	FY2028 Plan	FY2029 Plan	6-Year Total
FEDERAL	Federal Formula Programs	\$459.9	\$469.3	\$481.2	\$490.8	\$500.6	\$510.6	\$2,912.3

1. Total funding requirement includes capital program expenditures, debt service, and estimated revenue loss from major shutdowns

Notes: FY2022 and FY2023 jurisdictional capital contribution allocations are set pursuant to the FY2022-2027 Capital Funding Agreement and based on the April 22, 2021 Adopted Budget

10-YEAR CAPITAL PLAN

Metro develops a 10-Year Capital Plan that is published separately and includes capital investment needs over a ten-year period. Additional information regarding WMATA's 10-Year Capital Needs can be found on-line at: www.wmata.com/initiatives/capital-improvement-program/

Long-Term Capital Planning

To restore and maintain safety, reliability and state of good repair of the system and prepare for a sustainable and equitable future of the region, Metro assesses capital needs over a long-term horizon and now annually updates a 10-Year Capital Plan. The plan provides an outlook of needs and opportunities for Metro and the region.

The 10-Year Capital Plan incorporates Metro's Six-Year CIP and the annual Capital Budget and extends beyond the current program. The Plan provides an outlook for:

- Major projects with expected completion dates beyond the current CIP
- Recurring and cyclical safety and state of good repair maintenance, rehabilitation and replacement programs that continue
- State of good repair projects and programs that are expected to begin after the current six-year CIP
- Potential future capital investments to modernize and improve the system for customers and the region

The 10-Year Capital Plan is not financially constrained. New capital funding sources will need to be identified to support the long-term state of good repair of the system and to advance improvements to support a sustainable and more equitable future for the region.

Major Capital Needs and Potential Future

Investments Zero-Emission Bus Implementation –

Metro is advancing a Zero-Emission Bus Program to test and evaluate technology to prepare for a future large-scale deployment. Zero-Emission buses have the potential to provide substantial value to the region by reducing greenhouse gas and local air pollution, providing a quieter, smoother ride, and supporting a more sustainable and livable region. Investments to enable Northern and Bladensburg Bus Divisions to run 100% electric vehicles are planned in the Six-Year Program. However, a large-scale deployment will require substantial investment in the 10-Year Plan and beyond.

Next-Generation Signal System – Metro's train control signal system is over 40 years old, obsolete, and unreliable and the replacement and upgrade of this vital system is among Metro's highest safety and state of good repair priorities. The replacement of the existing system will be complex, expensive, and lengthy. Metro is currently working to identify and plan for the implementation of new signal system technology.

Eight-Car Trains and Increased Rail Frequency – To increase the capacity and frequency of rail service and support the future of the region, Metro will need to acquire additional 8000-series railcars, continue to upgrade rail system power across the system, and expand railcar maintenance and storage facilities.

Station Access and Passenger Circulation

Improvements – Prior to the pandemic, many Metrorail stations across the system had high levels of passenger crowding on platforms, mezzanines, escalators, and elevators during high ridership periods. Metro and our jurisdictional partners have identified potential investments to improve customer access to and circulation in stations that will also address potential safety issues. More expansive projects are not included in the current CIP but could be advanced in the future.

Tunnel Ventilation – The Metrorail system includes an extensive network of ventilation systems to handle routine air exchange in stations and tunnels and to remove smoke in the event of an emergency. Metro is advancing a pilot to test improvements to the ventilation system on the Red Line. If the pilot is successful, a plan for systemwide implementation will be developed.

Water Mitigation – Metro has dealt with water infiltration in its underground structures since the system was constructed. The results of water intrusion have negatively impacted rail operations and caused damage that has led to incidents impacting our customers. Metro is working on a pilot to mitigate leaks in tunnels in the areas of greatest risk. If the pilot is successful, Metro will evaluate additional priority locations to help prevent water infiltration in the system.

Appendix A – Metro Profile

Potomac Yard station grand opening

Metro Introduction

The Washington Metropolitan Area Transit Authority (WMATA) was created in 1967 through an interstate compact among Washington, D.C., Maryland, and Virginia. Construction of the Metrorail system began in 1969 and the first phase of Metrorail operation began in 1976.

Metro added a second transit service to its network in 1973 when, under direction from the United States Congress, it acquired four Washington-area bus systems and merged them to create Metrobus.

In 1994, as mandated by the Americans with Disabilities Act (ADA), Metro began providing MetroAccess paratransit service for people with disabilities who are unable to use the fixed route transit service.

Metro completed the originally planned 103-mile Metrorail system in 2001.

In 2004, Metro expanded the rail system, opening the Blue Line extension to Largo Town Center station (now Downtown Largo), as well as the NoMa-Gallaudet U station on the Red Line. These expansions increased the Metrorail system to 86 stations and 106 miles.

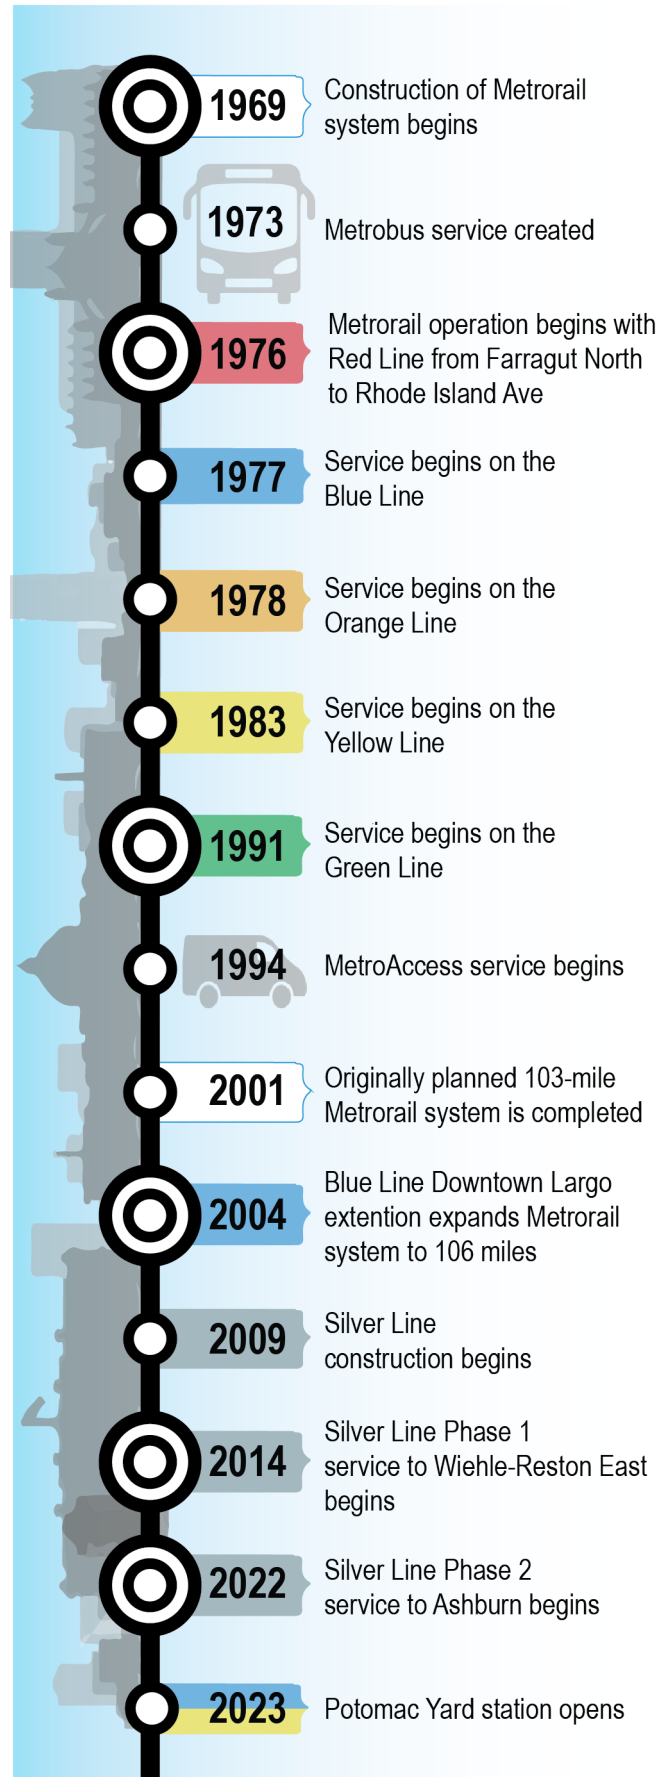

In March 2009, Metropolitan Washington Airports Authority (MWAA) started construction on the Silver Line, a 23-mile rail extension in Fairfax and Loudoun Counties in Virginia. Supported by a Full-Funding Grant Agreement from the Federal Transit Administration (FTA) plus toll and other revenues from funding partners, Phase 1 opened in 2014 with 11.6 miles and five new stations, extending service to Tysons Corner and Reston. Phase 2 opened on November 15, 2022, with an additional 11.4 miles and six new stations, providing service to Dulles International Airport and Loudoun County.

In addition, Metro opened the new Potomac Yard infill station on the Blue and Yellow lines in Alexandria, Virginia in 2023.

Key Metro Facts

- Metro’s service area size is approximately 1,500 square miles with a population of approximately four million people
- Metro’s transit zone consists of the Washington D.C., the Maryland counties of Prince George’s and Montgomery, and the Northern Virginia counties of Arlington, Fairfax and Loudoun and the cities of Alexandria, Fairfax and Falls Church
- Including the new Silver Line Phase 2 segment and Potomac Yard station, Metrorail currently comprises 128 miles of track, six rail lines, 98 stations and 1,278 railcars in the active fleet.
- Metrobus serves 9,374 bus stops throughout the region and has 1,571 buses in the active fleet
- Metro is the third busiest heavy rail transit system and the sixth largest bus network in the country
- More than a quarter of the region’s property tax base is located within a half mile of a Metrorail station
- More than half of the region’s jobs are located within a half mile of a Metro station or a Metrobus stop
- More than half of Metrorail stations serve federal facilities and approximately one third of Metrorail’s peak period commuters are federal employees
- Metro moves more than three times the amount of people each year as the region’s three major airports combined

In preparation for the opening of revenue service on Silver Line Phase 2, Metro welcomed Loudoun County as a contributing jurisdiction in FY2021. The Silver Line is Metro’s largest rail expansion project since the opening of the Ronald Reagan Washington National Airport to Stadium-Armory segment in 1977.

Oversight

Oversight of Metro is provided by a variety of internal and external offices, committees, and administrations. These oversight entities include, but are not limited to, the Federal Transit Authority (FTA), the Washington Metrorail Safety Commission (WMSC), the Office of Inspector General, the Office of Quality Assurance, Internal Compliance & Oversight, the Office of Audit & Compliance, and various advisory entities.

Federal Transit Administration

The FTA is the agency of the United States Department of Transportation that provides financial and technical assistance to local public transit systems. The FTA also oversees safety measures and helps develop next-generation technology research.

The Federal Government, through the FTA, provides financial assistance to develop new transit systems and improve, maintain, and operate existing systems. FTA provides and monitors grants to state and local transit providers.

Washington Metrorail Safety Commission

The WMSC serves as Metro's State Safety Oversight Agency (SSOA) and is responsible for enforcing transit safety requirements for WMATA's Metrorail system. The creation of an SSOA was required by the Moving Ahead for Progress in the 21st Century Act (MAP-21).

In 2017, Washington D.C., Maryland and Virginia passed legislation to create the WMSC, which then received required Congressional consent and approval by the President through Public Law No: 115-54. The WMSC began directly overseeing the safety of the Metrorail system on March 18, 2019 upon its oversight program receiving federal certification.

Office of the Inspector General

The Office of the Inspector General, authorized by the WMATA Board of Directors in April 2006 as an independent office that reports directly to the Board, supervises and conducts independent audits, investigations and reviews of Metro programs and operations to promote efficiency and financial integrity as well as to prevent and detect fraud, waste and abuse in such programs and operations.

Office of Quality Assurance, Internal Compliance & Oversight

The Office of Quality Assurance, Internal Compliance & Oversight provides independent reviews of Metro's operational and engineering processes and assets to promote compliance with internal and external regulatory requirements and advance quality improvement initiatives.

Office of Audit & Compliance

The Office of Audit & Compliance is Metro's internal audit function and provides independent and objective audits, reviews and assessments of Metro's system of internal controls and related business processes. Audits, reviews and assessments are designed to add value and to improve Metro's operations.

Advisors

Metro has four primary advisory groups: the Riders' Advisory Council (RAC), the Accessibility Advisory Committee (AAC), the Amplify community and the Joint Coordinating Committee (JCC). These advisory entities focus on specific issues as described below:

Riders' Advisory Council

In September 2005, the Metro Board of Directors established RAC. The Council provides Metro customers a forum to give input on Metrobus, Metrorail and paratransit services. The 11-member council includes six representatives from the Washington D.C., Maryland and Virginia, four at-large members, and the chair of Metro's Accessibility Advisory Committee.

Accessibility Advisory Committee

Metro's AAC was created to address the needs of senior citizens and customers with disabilities. Its efforts have resulted in numerous service upgrades including gap reducers, which make it easier for customers who use wheelchairs or are visually impaired to board Metrorail trains.

Amplify by Metro

Metro is leveraging a new web-based platform called Amplify to engage and get input from riders in the community. Metro's first ever customer community, Amplify is designed to bring together riders, transit advocates, and transit experts in an on-going digital forum. Through a structured environment of online surveys, polls, and discussion forums, Amplify community members share their experience as riders and influence

how Metro responds to issues affecting those who use the system. People who live in the national capital region and (at least once a month) ride any bus, train, or on paratransit can sign up to participate at amplifybymetro.com.

Joint Coordinating Committee

The JCC consists of staff members from the jurisdictions supporting Metro. The JCC was established by the Metro Board of Directors to facilitate the exchange of information between jurisdictions and Metro staff. Meeting agendas are developed by Metro staff and the JCC chair and include items referred by the Board or Metro staff, as well as items requested by JCC members.

Regional Transit Planning

The Washington Metropolitan Area encompasses over 4,000 square miles in Washington D.C., suburban Maryland and Northern Virginia; the region is home to almost six million people and over three million jobs. As the primary transit provider in the region, Metro is integral to the regional transportation planning process. The WMATA Compact gives the Authority the power to adopt a Mass Transit Plan as part of the region's continuous, comprehensive transportation planning process. Metro's regional planning function encompasses the preparation of transit system plans in partnership with other regional transit providers, conducting system planning analysis and transportation studies, communication of transit needs to regional planning bodies, and participation in planning processes at the regional and sub-regional levels. Metro has a special responsibility to ensure that the needs of the region's transit providers, both capital and operating, are reflected during the establishment of the Mass Transit Plan and that the region achieves a balanced system of transportation.

Metro coordinates with its regional partners to determine transit-based priorities and projects. The Metro Board of Directors, composed of members from the Compact jurisdictions and federal government, helps determine those priorities and provides policy direction. The Joint Coordinating Committee brings together jurisdictional staff to coordinate various budget and operational issues in conjunction with Board Committee meetings. Internal planning and programming are designed to work within this institutional framework.

The National Capital Region Transportation Planning Board (TPB) is the federally designated Metropolitan Planning Organization (MPO) to coordinate transportation planning and funding for the Washington region. The TPB serves as a forum for the region to develop transportation plans, policies and actions, and to set regional

transportation priorities through the Constrained Long-Range Plan (CLRP) and the six-year Transportation Improvement Plan (TIP). The TPB also provides technical resources for planning and policy-making. WMATA is one of the implementing agencies in the TPB planning process and is a voting member of the TPB. WMATA is also an active member of the TPB Technical Committee and several subcommittees such as Travel Forecasting, Bicycle and Pedestrian, Regional Bus, Regional Transportation Demand Management Marketing, and Human Services Subcommittee.

The Northern Virginia Transportation Commission (NVTC) administers transit finance and operations in Northern Virginia and coordinates transit service across jurisdictional boundaries. The Northern Virginia Transportation Authority (NVTA) is responsible for developing a Northern Virginia Regional Transportation Plan which provides long-range planning and inter-agency coordination in Northern Virginia. Metro works with both NVTC and NVTA on important transit funding and corridor development initiatives to enhance public transit service and ensure the integration of transit in highway investments and the Department of Transportation (DOT). Metro also works with Washington D.C., Maryland, and Virginia on important local plans and project development initiatives to enhance public transit service and ensure integration of transit with roadway investments.

Demographics

Based on the 2020 Census, the population of the Compact jurisdictions currently served by Metro is 4.6 million people across five counties (Montgomery and Prince George's in Maryland, Fairfax, Arlington and Loudoun in Virginia), three cities (Alexandria, Falls Church, and Fairfax in Virginia), and one federal district, which is the sixth largest metropolitan area of the country.

Based on the 2016-2020 American Community Survey (ACS) Narrative Profile, the demographic profile of the Washington Metropolitan area is as follows:

- 44.9 percent of the population is non-Hispanic white
- 25.2 percent is black or African American
- 15.9 percent is Hispanic or Latino
- 10.4 percent is Asian
- 3.6 percent is Mixed-Other

Per the same ACS Profile, there are 2.2 million households in the Washington Metropolitan area, of which 65.8% reside in single family homes, 33.5% live in apartments or multi-unit structures, and 0.7% live in mobile homes and other housing forms.

Economy

Metro's ridership and overall financial outlook are directly influenced by the population, economic conditions, and employment growth in Washington D.C. and the surrounding jurisdictions in Maryland and Virginia. Covid-19 has had significant global, national and regional impacts, and the full extent and duration of these impacts remains uncertain.

Job Growth in Metropolitan Washington

According to a May 2016 study by the Metropolitan Washington Council of Governments (COG) Trends in Workforce Demand, while metropolitan Washington has a skilled and educated workforce, there have been concerns in recent years about the region's economic performance. As other regional economies began to recover from the Great Recession, job growth in metropolitan Washington began to slow. Between the elimination of federal jobs with the enactment of the Budget Control Act of 2011 and loss of federal contracts in the first year of the sequester in 2013, an estimated thirty-six thousand jobs were lost.

According to data from the Bureau of Labor Statistics' Current Employment Statistics (CES) program, employment growth in metropolitan Washington lagged the nation from 2012 through 2015 and was equal to the national average in 2016 and 2017. The 2018 CES estimates indicated that metropolitan Washington employment growth (1.1 percent) had again fallen below the national average.

According to CES, in the months leading up to the Covid-19 pandemic in March 2020, the Washington region's job growth rate was exceeding the national average. Like the rest of the nation, metropolitan Washington saw a sharp decline in employment in the months following widespread shutdowns and regional stay-at-home orders. Though the Washington region saw a nearly nine percent drop in employment, this was lower than the national average that reached nearly 14 percent during the early months of the pandemic. The year-over-year employment growth rate made a major recovery in April 2021, increasing to 7.4 percent in the region, but lagged the national rate of 10.8 percent. Since then, the growth rates have gradually declined and begun to stabilize. However, the Washington region remains below the national average at two percent and 3.4 percent respectively as of October 2022.

The regional unemployment rate was approximately three percent prior to the onset of pandemic-related shutdowns in the spring of 2020. In April 2020 the unemployment rate

jumped to nearly ten percent, but has steadily declined from that peak to under five percent in the fall of 2021, near the October 2021 national average of 4.6 percent. Through October 2022 the unemployment rate has continued to decline to three percent, below the national average of 3.7 percent.

Changing Federal Presence

The Federal Government is the largest employer in the region; since 2000, between 11 and 13 percent of employment in metropolitan Washington has been federal. But the structure of the regional economy is changing. COG's regional econometric model projects that the portion of federal employment will decline from twelve percent of employment in 2015 to eight percent in 2045.

The Rise of Remote Work

As the region recovers from the Covid-19 pandemic, business activity has settled into a new normal that is significantly different from what preceded the pandemic. There has been a paradigm shift in how and where people work, specifically in the shift to remote work, that has had major impacts on the labor market, commuter and tourist activity, the demand for office space, and the location of economic activity in the region.

According to data from the Survey of Working Arrangements and Attitudes, as of July 2022 workers nationwide with remote-eligible jobs are working from home 50 percent of the time on average, compared to five percent prior to the pandemic. While the share of Americans working remotely at least part-time has remained steady over the previous year, the number of remote eligible positions is declining. However, the demand for remote work remains strong. LinkedIn reported that job postings with remote options on their site hit an all-time high of 20 percent in February 2022 and have shrunk to 14 percent, even though remote work postings drew 52 percent of all applications in October 2022.

Remote work may be on the decline at a national level, but the Washington region may be an exception; as Washington D.C. has the highest share of remote workers among major U.S. cities. In D.C., 48.3 percent of employees worked remotely in 2021 compared to the national average of 17.9 percent. Seattle had the second-largest share at 46.8 percent for the same period.

The Washington metropolitan region has a highly skilled and educated workforce that includes many occupations that have transitioned exceptionally well to remote work. According to the Office of Personnel Management (OPM), roughly 40 percent of federal employees telework up to

three days a week, which constitutes a large portion of the region's workforce. These facts coupled with the demand for remote work suggest that remote work remains the new normal in the region.

Where is Metropolitan Washington's Economy Headed?

Prior to the pandemic, economic factors such as slow federal job growth and the outlook for future federal government spending impacted Metro's forecast for Metrorail and Metrobus ridership. However, according to real estate advisory firm Newmark Knight Frank, the trend of declining federal job growth was reversed during the pandemic as the government acted to address the public health and economic crises. The federal government was the only sector in the region to show positive 12-month

net job growth through mid-2020 after the onset of the pandemic. Nevertheless, of the ten economic sectors studied in Newmark's third quarter 2021 regional Office Market Report, the Government sector displayed the worst year-over-year employment growth rate, declining by approximately two percent while most other sectors were growing.

Significant effort is currently underway to diversify metropolitan Washington's economy. Due to slow growth in federal jobs, the Roadmap for the Washington Region's Economic Future identified industrial clusters beyond the federal government with the potential to drive metropolitan Washington's economic growth over the next decade. Two of these drivers are professional and business services, which have dominated the region's economy for a long time.

Appendix B – Budget Process

Metro's annual budget serves as the foundation for its financial planning and control. The General Manager/Chief Executive Officer (GM/CEO), Chief Financial Officer, and staff prepare and submit the budget to the Metro Board of Directors for consideration and approval. The annual budget consists of two components: operating and capital. It is the responsibility of each department to administer its operations in such a manner to ensure the use of the funds is consistent with the goals and programs authorized by the Board and approved spending levels are not exceeded. Metro's budget planning begins in August of the preceding fiscal year with the development of budget priorities and assumptions for the plan year.

The budget must be adopted and implemented by June 30th for the fiscal year beginning on July 1st. The budget process consists of six major phases:

1. Development of key assumptions and drivers, model preparation, and budget formulation which includes department submissions;
2. Budget review/justification;
3. GM/CEO's presentation of the proposed budget to the Board;
4. Board discussions, public hearings and outreach;
5. Budget adoption by the Board; and
6. Budget implementation.

Budget Development and Departmental Submissions

Metro began the process of developing the FY2024 budget shortly after the adoption of the FY2023 Approved Budget. As part of the budget development process, the FY2023 Budget with specific programmatic changes was used as the FY2024 baseline. Ridership and revenue scenarios were refined throughout the budget development process as new information became available. Position data from the current approved FY2023 Budget and benefits obligations were used as the baseline for budgeted personnel related costs. The FY2023 Approved Budget and the FY2022 actuals were then analyzed and relevant assumptions were modified, including contractually obligated union wages and benefits, fuel prices, service levels and ridership and revenue projections. Based on the analysis of the data, Metro assigned targets to each department.

Using the Strategic Plan framework, the GM/CEO's Business Plan further guides both the Operating and Capital budget development processes. It identifies priorities for Metro, provides the foundation for department-specific work plans and keeps the agency focused on the long-term goals as outlined in the Strategic Plan. The GM/CEO's Business Plan outlines necessary actions to achieve priorities; provides measures to monitor success and provides the Board and public with a transparent and accountable framework. The priorities are reflected in the resulting proposed budget and multi-year operating and capital investment plans.

The Office of Management and Budget staff develops guidelines and assumptions in line with the General Manager's priorities and plans that drive the budget process. These guidelines and assumptions are incorporated into the department budgets.

- The initial planning, development of assumptions, and preparation of instructions and training materials are conducted in August
- The annual budget kickoff meeting is held in September with department leaders and budget preparers. New budget initiative requests are developed

The annual budget is developed based on two budget methodologies – continuation-level and zero-based. Continuation-level budgeting is used to develop the funding and resources necessary to sustain multi-year critical operating, special programs, and previously approved capital projects.

The agency utilized a hybrid zero-based budgeting approach for the development of the FY2024 operating budget. The zero-based approach was used to determine resources for anticipated changes to service levels and new programs.

Budget Review and Proposal

- The proposed CIP is developed concurrently with the proposed operating budget. Starting in July, operations, maintenance, engineering and other stakeholders are asked to submit capital investment need requests. In addition to needs identification submissions, Metro utilizes available asset condition data, fleet management plans, and other documents to identify capital investment needs. In the fall, Metro evaluates all identified needs, in concert with ongoing projects and programs, and strategically aligns them to develop Metro's CIP. Funding constraints are then applied to the capital program and the results are presented to the Senior Executive Team and GM/CEO for their review
- Operating and capital budget requests are reviewed by the Office of Management & Budget, the Office of Planning & Performance, and the Senior Executive Team. The proposed budget recommendations are presented to the GM/CEO in the second quarter of the fiscal year
- Once the GM/CEO finalizes the annual budget proposal and multi-year plans, they are presented to the Board of Directors and the public through the Finance and Capital Committee

Budget Discussion and Adoption

- The proposed budget is presented and reviewed in the Finance and Capital Committee and the Board deliberates through early spring
- Metro undertakes significant outreach efforts regarding the budget, particularly for any proposed service and fare changes, prior to adoption. The outreach occurs in three key areas
 - Public hearings: During the budget process, Metro holds at least one public hearing to review any proposed service or fare changes, as well as the proposed use of federal funding in the CIP. To meet Virginia Dedicated Funding Legislation requirements, one hearing must be held in a jurisdiction embraced by the Northern Virginia Transportation Commission. The comments and feedback received from

residents throughout the region are presented to the Board for consideration

- Public participation: Metro’s Public Participation Plan guides substantial additional outreach efforts beyond the public hearings through open houses, station pop-ups, and community events. The outreach provides specific and convenient opportunities for riders and local organizations to provide input and discuss their views. It ensures full and fair participation for all potentially affected communities, including minority, low-income, and limited English proficient populations
- Rider survey: Also, Metro periodically conducts online surveys to solicit rider input on key questions regarding the budget
- Metro staff summarizes data collected from these efforts, as well as all public comments/feedback received during the outreach process in a staff report that is delivered to the Board for review
- Collectively, Metro’s outreach efforts meet or exceed the requirements of both the WMATA Compact and the Federal Transit Administration’s Title VI guidelines

Amendments

When necessary, amendments to the budget are presented to the Finance and Capital Committee. The committee then advances the amendments to the Board for review and adoption.

Budget Implementation

- Implementation of the Approved Budget occurs between May and June
- The FY2024 Approved Budget is effective July 1, 2023
- Monthly budget variance reports are prepared by the Office of Management & Budget to enable management to monitor and control expenses and revenues
- Quarterly financial reports are prepared by the Office of Management & Budget and presented by Metro management to the Board of Directors
- These reports are used to monitor financial performance and ensure compliance with the approved budget

The underlying financial statements that inform this budget process have been prepared in accordance with

Generally Accepted Accounting Principles (GAAP) per the Governmental Accounting Standards Board (GASB) Statement No. 34 (Basic Financial Statements and Management’s Discussion and Analysis - for State and Local Governments). All financial information is consolidated into business-type activities that make up Metro’s Enterprise Fund. These business-type activities include transit operating and capital costs, infrastructure construction and debt activities. The budget is based on the provisions of GAAP, as applicable to government entities in the United States of America. Annual budgets are adopted in accordance with GAAP with the following exceptions:

- Depreciation and amortization are excluded
- Net actuarial determined post-employment benefit obligation recognized under GASB Statement No. 45, which was implemented by Metro in FY2008, has been excluded from the budget expenses; such costs are included in operating expenses in the annual financial statements but are not budgeted

In accord with the Financial Standards, the Office of Management & Budget monitors revenues and budget expenditures throughout the fiscal year.

Enterprise Fund

The Enterprise Fund is the sole fund for Metro. Within this Fund, income sources are classified in one of seven categories: passenger fares and parking fees, federal funds, state and local funds, dedicated funding, business revenues, other sources and debt. Passenger fares and parking fees support the operating budget. During the Covid-19 pandemic from FY2020 to date, federal grants have partially funded the operating budget. Other federal funds consist of federal grants to support the capital program. State and local funds support the capital program, as well as jurisdictional contributions for debt service and the operating budget subsidy. Annual dedicated capital funding of \$500 million was established in 2018 under legislation passed by Washington D.C., Maryland, and Virginia. Debt proceeds, serviced by the annual dedicated funding further support the capital program. Business revenues include advertising and joint development, among other funding sources.

Balanced Operating Budget

Metro is required to adopt an operating budget, annually, where operating revenues and subsidies equal expected operating expenses for the fiscal year. In accordance with Article VIII of WMATA’s Compact, the Board annually adopts a current expense budget for each fiscal year. Based on the Compact, the budget includes the Board’s

estimated expenditures for administration, operation, maintenance and repairs, debt service requirements and payments into any required funds.

The total expenditures are balanced with estimated revenues and receipts from all sources, excluding funds included in the capital budget or otherwise earmarked for other purposes. In Board Resolution 2020-09, which adopted the FY2021 Budget, the Board revised its policy regarding budget surplus and shortfall in order to comply with Dedicated Funding legislation. As such, WMATA will retain any surplus and will be responsible to address any shortfall in funding.

The focus of the operating budget is on the personnel, material/supplies and services necessary to operate Metrobus, Metrorail, and MetroAccess. Budgetary issues for the operating budget pertain to the cost of continuing operations, expanding services to meet recovering demand, and improving efficiency of service.

Capital Budget

In accordance with Article VIII, paragraph 26 of WMATA's Compact, the Board adopts an annual capital budget. This budget identifies capital investments by category that are expected to commence or continue during the budget period. The budget provides the planned funding sources for the program.

The primary focus of the capital budget is to ensure reliable, efficient, and safe service while maintaining the condition of Metro's current assets and infrastructure in a state of good repair. The capital budget supports the reliable, continuous and safe operation of each mode (Metrobus, Metrorail and MetroAccess).

Capital Expenditures

Capital expenditures are those that will lead to a future benefit beyond the current fiscal year. Expenditures are classified as capital when an entity spends money to procure or construct fixed assets or to maintain, improve or extend the useful life of an existing fixed asset.

The capital programming process assists Metro's leadership in making decisions regarding the assets and infrastructure required to support and/or grow the bus, rail, and paratransit operations. Metro's assets and infrastructure include, but are not limited to:

- Paratransit and service vehicles
- Buses and bus facilities
- Railcars
- Stations and tunnels
- Track and wayside
- Signal and power systems
- Administration and maintenance facilities

Appendix C – Human Capital Summary

Human capital management defines and categorizes employees' skills and abilities to ensure they are optimized to the objectives of the organization. At Metro, the management of human capital involves workforce planning and investment and is aligned with Metro's strategic plan and core mission of operating and maintaining a safe, reliable, and affordable transit system.

One measure of human capital is the number of positions to be employed and the various costs associated with such employment, referred to as personnel costs. Metro's personnel costs fall into three categories: labor, fringe benefits, and capital allocation. Capital allocation is a net zero-dollar adjustment between operating and capital.

Labor costs, which include regular wage and overtime pay for operations employees and salary expense for management, professional, and administrative personnel, make up approximately 72 percent of total personnel costs. The Authority-wide FY2024 labor budget for

operating and capital is \$1,319.1 million, an increase of \$63.5 million.

Fringe benefit costs are personnel-related expenses that are above and beyond the direct cost of employee wages and salaries. Metro's fringe benefits are comprised of health insurance and pension plan costs, as well as government mandated expenses including unemployment insurance and payroll taxes. The Authority-wide FY2024 fringe benefit budget for operating and capital is \$614.0 million, which is a \$52.2 million or 9 percent increase from the prior year.

The following tables provide a detailed comparison of total human capital staffing levels for Metro. The staffing requirement for FY2024 is 13,113, consisting of 11,062 operating positions and 2,051 capital positions. This represents an increase of 81 positions from FY2023.

Number of Positions

Appendix D – Capital Projects

CAPITAL IMPROVEMENT PROGRAM INVESTMENT PAGES

Metro’s planned CIP investments are presented in this document in one-page CIP investment summaries.

How to Read CIP Investment Pages

1 Investment Title & Overview

Title Each investment has a title and number.

Initiative Type assigns the investment as either a **Project** – typically a major investment with a definable beginning and end or a **Program** - an ongoing, recurring, or cyclical investment.

Category assigns the investment category: Railcar and Railcar Facilities, Rail Systems, Track and Structure Rehabilitation; Stations and Passenger Facilities; Bus, Bus Facilities and Paratransit; or Business and Operations Support.

Location assigns the geographic location of the investment. Most investments are “Systemwide”. When a specific location is known, the jurisdiction is listed. Many location-specific investments also have region-wide benefits.

Mode assigns the service the investment supports: Bus, Rail, Paratransit, or Systemwide.

Program shows the grouping of the investment within the broader investment category.

Federal Participation (all years) indicates if the investment is or will be funded by federal grants.

2 **Description** provides a basic summary of the scope of the investment.

3 **Expected Performance Outcome** describes how the investment benefits customers, operations, and/or employees; performance indicators are also included where applicable. Performance metrics are based on Metro’s current FY23 targets. These will be updated each year until the project is implemented.

4 **Near Term Deliverables** show anticipated activities over the next 12 to 24 months.

5 **Anticipated Funding Source** indicates how Metro currently expects to fund an investment in FY2024. Anticipated funding sources are subject to change.

6 **Schedule** is included on CIP **Project** pages including three project phases: Development & Evaluation, Implementation/ Construction, and Operations Activation. Schedules show how projects are expected to progress over the next ten years. CIP **Programs** do not include schedules as they are ongoing.

7 **Strategic Objectives** highlight the objectives that are measurable and most closely align with the expected outcome of the CIP investment including, Safety, Security, Reliability/State of Good Repair.

8 **Cost** displays the estimated cost of the investment. The estimated cost of **Programs** shows forecasted investment for the current year, upcoming six-year period, and 10-Year Plan. The estimated cost of **Projects** displays life-to-date costs and forecasted investment for the current year, upcoming six-year period, 10-Year Plan, and beyond. **Projects** also include an estimate of the total cost of the project, labeled “**Total Estimated Investment.**”

The CIP Investment Pages list consists of CIP Projects and Programs grouped by investment category. The CIP Projects and Program pages that follow the list are in sequential numerical order.

8000-Series Railcars (CIP0059)

1 **Initiative Type:** Project
Category: Railcar and Railcar Facilities
Location: Systemwide

Mode: Rail
Program: Acquisition
Federal Participation (all years): No

2 **Description**

This project acquires up to 800 new 8000-series railcars. The initial delivery of 360 vehicles will replace the 2000 and 3000-series railcars.

3 **Expected Performance Outcome**

Maintaining fleet in a state of good repair for safety and reliability. Meets or exceeds the Rail Fleet Reliability performance target of ≥56,500 miles between failure for 8000-series railcars (example based on Metro’s FY23 target) once fully implemented. New railcars provide improved customer features.

7 **Strategic Drivers**

4 **Near Term Deliverables**

Metro will continue railcar design and engineering of the 8000-series railcars.

8 **Cost (\$M)**

Investments	(\$M)
Expenditure Life to Date (up to FY23)	\$48.9

Bus Onboard Location Equipment and Software Program (CIP0002)

Initiative Type: Program
Category: Bus, Bus Facilities & Paratransit
Location: Systemwide

Mode: Bus
Program: Maintenance/Overhaul
Federal Participation (all years): Yes

Description

This program supports the design and replacement of automatic vehicle location (AVL) and related equipment on buses. This equipment is vital to bus operations, bus location tracking Global Positioning System (GPS), and bus customer information.

Expected Performance Outcome

Increases fleet availability and reliability through on board diagnostics that alert maintenance personnel of defects and failures that can be corrected proactively as measured by the Bus Fleet Reliability performance target of $\geq 8,200$ miles between failure (example based on Metro's FY23 target). Improves efficiency of revenue service through reliable GPS and route mapping abilities. Enables buses to communicate with Transit Signal Prioritization equipment along service routes.

Strategic Drivers

Near Term Deliverables

Metro will continue replacement of equipment with a new investments in software systems and on-board ancillary equipment.

Bus Maintenance Facility and Equipment State of Good Repair Program (CIP0004)

Initiative Type: Program
Category: Bus, Bus Facilities & Paratransit
Location: Systemwide

Mode: Bus
Program: Maintenance/Overhaul
Federal Participation (all years): Yes

Description

This program replaces existing equipment past useful life and provides new equipment to support the repair and maintenance of the bus and non-revenue fleets. Additionally, this project supports the construction of minor garage improvements.

Expected Performance Outcome

Maximizes the efficiency of bus maintenance operations to support improved fleet availability as measured by the Bus Fleet Reliability performance target of $\geq 8,200$ miles between failure (example based on Metro's FY23 target).

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Scheduled replacement of bus maintenance equipment including fork lifts, tool box kits, bus diagnostic equipment, and mechanic training equipment.

Cost (\$M)

Bus Vehicle Rehabilitation Program (CIP0005)

Initiative Type: Program
Category: Bus, Bus Facilities & Paratransit
Location: Systemwide

Mode: Bus
Program: Maintenance/Overhaul
Federal Participation (all years): Yes

Description

This program provides for the complete rehabilitation of bus mechanical, electrical and structural systems when a bus is approximately 7.5 years of age. Additionally, the program supports the procurement of components to replace those that can no longer be overhauled.

Expected Performance Outcome

Allows Metro to achieve the maximum useful life of a bus which extends the period between bus replacements while minimizing routine maintenance costs. Also, maintains bus reliability and addresses reliable revenue service availability as measured by the Bus Fleet Reliability performance target of $\geq 8,200$ miles between failure (example based on Metro's FY23 target).

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will perform annual scheduled overhaul of approximately 100 buses and 125 engines, and rebuild 150 transmission assemblies. Various other components will be rebuilt to include axles, HVAC units, pro-heat units and steering boxes.

Cost (\$M)

Bus Fleet Acquisition Program (CIP0006)

Initiative Type: Program
Category: Bus, Bus Facilities & Paratransit
Location: Systemwide

Mode: Bus
Program: Acquisition
Federal Participation (all years): Yes

Description

This program acquires and replaces standard 30-foot, 40-foot, and articulated buses consistent with the Metrobus Fleet Management Plan. Metro continues to advance the purchase and deployment of electric buses; estimated incremental capital costs are included in this program. The program also includes bus maintenance training and the purchase of spare parts.

Expected Performance Outcome

Provides customers with reliable and modern buses as measured by the Bus Fleet Reliability performance target of ≥8,200 miles between failure (example based on Metro's FY23 target). Maintains an average fleet age of approximately 7.5 years.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will advance the scheduled acquisition of approximately 100 buses. In FY2024, Metro plans to acquire approximately 75 40-foot hybrid buses and approximately 25 40-foot Battery Electric Buses (BEB).

Cost (\$M)

Investments	(\$M)

Bus Closed Circuit Television Replacement Program (CIP0007)

Initiative Type: Program
Category: Bus, Bus Facilities & Paratransit
Location: Systemwide

Mode: Bus
Program: Maintenance/Overhaul
Federal Participation (all years): Yes

Description

This program replaces Metrobus camera systems located on-board Metrobus vehicles to maintain a state of good repair on a lifecycle basis. All Metrobuses are outfitted with onboard-cameras.

Expected Performance Outcome

Monitors the interior of buses to deter crime and improve the safety and security of customers and employees.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will advance the planned life cycle replacement of camera systems for the Metrobus fleet.

Service Vehicle Acquisition Program (CIP0009)

Initiative Type: Program
Category: Business & Operations Support
Location: Systemwide

Mode: Systemwide
Program: Support Equipment/Services
Federal Participation (all years): Yes

Description

This program acquires service and maintenance support vehicles, including police vehicles, primarily to replace vehicles that are past their useful life. Metro will be transitioning to zero-emission vehicles and plans to reduce amount of vehicles in the fleet.

Expected Performance Outcome

To maintain the Authority’s service vehicle fleet in a state of good repair, this program acquires service, police, and maintenance support vehicles.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will replace approximately 200 service vehicles.

Environmental Compliance Program (CIP0010)

Initiative Type: Program
Category: Business & Operations Support
Location: Systemwide

Mode: Systemwide
Program: Support Equipment/Services
Federal Participation (all years): TBD

Description

This program designs, upgrades and replaces equipment and facilities to mitigate environmental impacts and maintain compliance with environmental regulations and directives from regulatory agencies.

Expected Performance Outcome

Allows Metro operations to continue by protecting the region's natural resources and human health and complying with environmental regulations.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will advance underground storage tank replacement (including at multiple maintenance facilities) and complete the New Hampshire Avenue Chiller Plant remediation.

MetroAccess Fleet Acquisition (CIP0015)

Initiative Type: Program
Category: Bus, Bus Facilities & Paratransit
Location: Systemwide

Mode: Paratransit
Program: Acquisition
Federal Participation (all years): Yes

Description

This program acquires vehicles for the paratransit fleet (MetroAccess), consistent with the MetroAccess fleet plan. Vehicle acquisition includes purchase of vans, minivans and sedans, in addition to making the necessary retrofits to add paratransit equipment and features. This program primarily supports the replacement of paratransit vehicles on a lifecycle basis.

Expected Performance Outcome

Prevents future reliability problems within the fleet as measured by the MetroAccess fleet reliability performance target of $\geq 22,000$ miles between failure (example based on Metro's FY23 target). Newer vehicles also incorporate updated ADA standards, customer feedback on improvements and improved fuel efficiency.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will purchase approximately 200 vehicles. Metro will monitor and evaluate the performance of these vehicles to inform future decisions on the appropriate mix of vans and sedans including adoption of zero emission vehicles.

Track Rehabilitation Program (CIP0024)

Initiative Type: Program
Category: Track and Structures Rehabilitation
Location: Systemwide

Mode: Rail
Program: Fixed Rail
Federal Participation (all years): Yes

Description

This program replaces, rehabilitates and provides preventative maintenance to Rail Systems in an effort to maintain a state of good repair. This includes rail replacement, stray current mitigation, track bed cleaning, drain rodding, vegetation controls, and other activities.

Expected Performance Outcome

Maintains track infrastructure in a state of good repair to prevent potential safety incidents and minimize disruptions to rail service as measured by the Rail Infrastructure performance target of ≤5.2% of track unavailable (example based on Metro's FY23 target).

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will continue the systemwide state of good repair program which includes stabilization and tamping of track, cleaning of the track bed, and replacement or renewal of crossties, fasteners, grout pads, drains, insulators and switches.

Roadway Equipment and Vehicle Program (CIP0025)

Initiative Type: Program

Category: Track and Structures Rehabilitation

Location: Systemwide

Mode: Rail

Program: Fixed Rail

Federal Participation (all years): Yes

Description

This program acquires roadway maintenance machines (RMM) used to maintain, repair, construct and inspect track and infrastructure across the system. This program replaces equipment that has reached the end of its useful life and is no longer feasible to maintain.

Expected Performance Outcome

Maximizes productivity of maintenance work through timely replacement of track equipment to address equipment availability, reliability, and fewer work delays due to equipment breakdowns. This state of good repair program supports the efficient use of work time for track outages.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will purchase, inspect, and put into service several types of track maintenance equipment including prime movers, flat cars, and ballast cars.

Bicycle and Pedestrian Facility Rehabilitation (CIP0035)

Initiative Type: Program
Category: Stations and Passenger Facilities
Location: Systemwide

Mode: Rail
Program: Platforms & Structures
Federal Participation (all years): Yes

Description

This program will improve non-vehicular access to Metrorail stations including: replacing bicycle racks and lockers that have reached the end of their useful life; as well as improving sidewalks and curb designs.

Expected Performance Outcome

Improves the safety and security of customers through updated pedestrian access routes and bicycle storage facilities. Supports the region's goals of reducing vehicle use by providing additional and updated options to access Metrorail facilities by foot or bicycle.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will continue replacing existing bike lockers and racks with new automated lockers, covered bike racks, U-shaped racks, scooter corrals, and bike fix-it stations. Metro will also continue planning activities for future pedestrian walkways throughout the system to improve access.

Procurement Program Support (CIP0036)

Initiative Type: Program
Category: Business & Operations Support
Location: Systemwide

Mode: Systemwide
Program: Support Equipment/Services
Federal Participation (all years): Yes

Description

Staff support for capital program procurement activity including support for the management and oversight of Metro's Small Business and Disadvantaged Business Enterprise Programs.

Expected Performance Outcome

Addresses Metro compliance with federal and local jurisdictional regulations, including those regarding minority and small business contracting matters, and supports timely procurement of capital program and project contracts.

Strategic Drivers

Near Term Deliverables

Metro will continue to provide support for capital-funded procurements to facilitate compliance in the issuance and management of those contracts.

System Planning and Development (CIP0039)

Initiative Type: Program
Category: Business & Operations Support
Location: Systemwide

Mode: Systemwide
Program: Support Equipment/Services
Federal Participation (all years): Yes

Description

This program conducts near-term and long-range planning studies and produces plans for station improvements that improve pedestrian flow, travel time, customer experience, vertical transportation, bus and rail operations, and station access.

Expected Performance Outcome

Allows Metro to continue to improve service to equitably meet customer and regional needs.

Strategic Drivers

Near Term Deliverables

Metro will advance the planning, development, and review of potential improvements systemwide.

Asset Management Software Improvements (CIP0042)

Initiative Type: Project
Category: Business & Operations Support
Location: Systemwide

Mode: Systemwide
Program: IT
Federal Participation (all years): No

Description

This program evaluates Metro's asset management business practices and supports implementation of new software.

Expected Performance Outcome

Allows Metro to better maintain assets due to improved awareness of condition and more efficient tracking of assets throughout their lifecycle from initial procurement to disposal.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will continue decommissioning the legacy product lifecycle management (PLM) software and transition the functionality to an existing asset management system.

Bus and Rail Scheduling and Operations Software Improvements (CIP0043)

Initiative Type: Project
Category: Business & Operations Support
Location: Systemwide

Mode: Systemwide
Program: IT
Federal Participation (all years): Yes

Description

This project will acquire software for both bus and rail scheduling functions.

Expected Performance Outcome

Increase the flexibility and efficiency of creating revenue service schedules to meet the needs of customers while reducing costs associated with operating and maintaining the system.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will advance design, development and implementation of the Bus and Rail scheduling system and complete small improvements to the current bus schedule applications.

Rail Service Management Software Improvements (CIP0056)

Initiative Type: Program
Category: Business & Operations Support
Location: Systemwide

Mode: Rail
Program: IT
Federal Participation (all years):

Description

This program will provide software updates and system integration between the Rail Operations Control Center (ROCC) and Passenger Information Display System (PIDS) at each station, ensuring train information is accurate and available to customers.

Expected Performance Outcome

Provides information to Metrorail customers and employees regarding train arrival schedules and service disruptions.

Strategic Drivers

Near Term Deliverables

Metro will advance the upgrade and improvement of communications to Passenger Information Display Systems (PIDS) to include integration of new Silver Line Phase II stations, future Potomac Yard Station and new PIDS displays being installed systemwide.

Cost (\$M)

8000-Series Railcars (CIP0059)

Initiative Type: Project
Category: Railcar and Railcar Facilities
Location: Systemwide

Mode: Rail
Program: Acquisition
Federal Participation (all years): No

Description

This project acquires up to 800 new 8000-series railcars. The initial delivery of 360 vehicles will replace the 2000 and 3000-series railcars.

Expected Performance Outcome

Maintaining fleet in a state of good repair for safety and reliability. Meets or exceeds the Rail Fleet Reliability performance target of ≥56,500 miles between failure for 8000-series railcars (example based on Metro’s FY23 target) once fully implemented. New railcars provide improved customer features.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will continue railcar design and engineering of the 8000-series railcars.

Rail Vehicle Scheduled Maintenance Program (CIP0063)

Initiative Type: Program
Category: Railcar and Railcar Facilities
Location: Systemwide

Mode: Rail
Program: Maintenance/Overhaul
Federal Participation (all years): Yes

Description

This program will support scheduled maintenance programs for all railcars. Major rail vehicle systems that will be addressed include, but are not limited to, replacement of components associated with wheels, brakes, traction motors, propulsion systems, HVAC, couplers, and vital relays.

Expected Performance Outcome

Maintains the rail fleet in a state of good repair to prevent future safety and reliability concerns to meet or exceed the Rail Fleet Reliability performance target.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will overhaul and conduct Scheduled Maintenance Programs (SMP) for 168 railcars. The scheduled overhaul will include vehicles 2000, 3000, 6000, and 7000-series railcars.

Cost (\$M)

Rail Vehicle Safety & Reliability Improvements (CIP0067)

Initiative Type: Program
Category: Railcar and Railcar Facilities
Location: Systemwide

Mode: Rail
Program: Maintenance/Overhaul
Federal Participation (all years): No

Description

This program performs engineering analysis, diagnosis, testing and resolution of safety, maintenance and operational issues for Metro railcars.

Expected Performance Outcome

Improves and maintains the reliability of the railcar fleet as measured by the Rail Fleet Reliability performance target of ≥14,000 miles between failure for the legacy fleet (example based on Metro's FY23 target).

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will continue to design and implement reliability improvements to the 7000 Series HVAC system while also testing the effectiveness and compatibility of higher MERV-rated filtration systems and possible alternatives on railcar fleet.

Elevator Rehabilitation Program (CIP0072)

Initiative Type: Program
Category: Stations and Passenger Facilities
Location: Systemwide

Mode: Rail
Program: Vertical Transportation
Federal Participation (all years): Yes

Description

This program rehabilitates elevators at Metrorail stations across the system including the replacement of internal elevator components and lighting upgrades to maintain a state of good repair and improve accessibility and security.

Expected Performance Outcome

Maintains elevators in a state of good repair to provide accessibility and preserve availability as measured by the Elevator Availability performance target of $\geq 97.5\%$ (example per Metro's FY23 target).

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will rehabilitate approximately fifteen elevator units at various locations around the system.

Rail System Power Upgrades (CIP0076)

Initiative Type: Project
Category: Rail Systems
Location: Systemwide

Mode: Rail
Program: Power
Federal Participation (all years): Yes

Description

This project will upgrade and replace electrical infrastructure equipment to improve performance of the rail power system and accommodate additional eight-car trains. Upgrades to the rail power infrastructure include traction power substations, tie breaker stations, cabling, and transformers to both increase system capacity and reliability. Future upgrades on the Red, Yellow, and Green lines will be completed with the state of good repair work under CIP0253.

Expected Performance Outcome

Contributes to Metro's ability to operate more eight-car trains in revenue service to increase capacity, reduce crowding, and improve the riding experience for Metrorail customers.

Strategic Drivers

Near Term Deliverables

This project will conclude upgrades of traction power substations and tie breaker stations included on the Blue Line and the Red/Orange/Green.

Station and Facility Restoration Program (CIP0087)

Initiative Type: Program
Category: Stations and Passenger Facilities
Location: Systemwide

Mode: Rail
Program: Platforms & Structures
Federal Participation (all years): Yes

Description

This program consists of evaluation of station condition, replacement of worn materials and fixtures, thorough cleaning and power washing of concrete and architectural features and the rehabilitation of restrooms and breakrooms. Each Metrorail station is scheduled for restoration approximately every four years.

Expected Performance Outcome

Provides customers and employees with a safe, clean and well-maintained environment.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will provide station restoration for a minimum of 12 stations which will include concrete cleaning, masonry work, painting, and station signage.

Cost (\$M)

Station Entrance Canopy Installation (CIP0088)

Initiative Type: Project
Category: Stations and Passenger Facilities
Location: Systemwide

Mode: Rail
Program: Platforms & Structures
Federal Participation (all years): Yes

Description

This project installs new station entrance canopies over entry escalators and stairways.

Expected Performance Outcome

Improves the reliability and useful life of escalators by protecting escalators and stairways from exposure to weather as measured by the Escalator Availability performance target of ≥92.9% escalators in a state of good repair (example based on Metro’s FY23 target) . Provides additional coverage for customers as they enter and exit the station.

Strategic Drivers

Near Term Deliverables

Metro will continue Phase 4 construction of station entrance canopies at selected stations, including Judiciary Square, Arlington Cemetery, Smithsonian, U Street, and Archives/Navy Memorial.

Joint Development Program Support (CIP0099)

Initiative Type: Program
Category: Business & Operations Support
Location: Systemwide

Mode: Systemwide
Program: Support Equipment/Services
Federal Participation (all years): Yes

Description

This program supports the technical, legal, real estate advisory, and related services to support joint development planning and execution.

Expected Performance Outcome

Allows Metro to perform appropriate due diligence and accelerates the process to support joint development near stations, increase ridership and economic development.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will continue to assess market readiness, infrastructure needs, and development capacity in order to align adjacent land development and jurisdictional interests.

Internal Compliance Capital Management Support (CIP0101)

Initiative Type: Program
Category: Business & Operations Support
Location: Systemwide

Mode: Systemwide
Program: Support Equipment/Services
Federal Participation (all years): Yes

Description

This program supports the performance of internal audits and oversight of the capital program.

Expected Performance Outcome

Allows Metro's capital program to be executed with strong organizational governance, internal controls and effective risk management.

Strategic Drivers

Near Term Deliverables

Metro will perform audits of various capital project and business processes related to the delivery of capital programs and projects.

Police District III Substation (CIP0102)

Initiative Type: Project
Category: Business & Operations Support
Location: Maryland

Mode: Systemwide
Program: MTPD
Federal Participation (all years):

Description

This project provides a permanent and dedicated transit police substation by renovating a former child care facility at Morgan Boulevard Station to serve as a police substation with administrative office workspace, locker rooms, a break room, gym, interview rooms, and other workspaces.

Expected Performance Outcome

Improves the distribution of police personnel to strengthen customer safety and security through reduced response times to police calls as measured by the employee injury rate performance target of ≤ 20.6 injuries per 200,000 hours worked, and the customer injury rate performance target of ≤ 56.4 injuries per 10 million revenue miles (examples based on Metro's FY23 targets).

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will complete construction of a new police substation at the Morgan Boulevard Station in Maryland.

Rhode Island Avenue Station Structural Repair (CIP0108)

Initiative Type: Project
Category: Stations and Passenger Facilities
Location: District of Columbia

Mode: Rail
Program: Platforms & Structures
Federal Participation (all years):

Description

This project rehabilitates structural components and mechanical systems at the Rhode Island Avenue Station, including the platform structure, station canopy, and life-safety systems.

Expected Performance Outcome

Brings the Rhode Island Avenue Station structural components into a state of good repair and addresses known defects to prevent potential safety and reliability concerns as measured by the Rail customer injury rate performance target of ≤ 20.6 injuries per 10 million revenue miles and on-time performance target of $\geq 92\%$ for customer trips (examples based on Metro's FY23 targets).

Near Term Deliverables

No planned deliverables in FY2024.

Transit Police Support Equipment (CIP0127)

Initiative Type: Program
Category: Business & Operations Support
Location: Systemwide

Mode: Systemwide
Program: MTPD
Federal Participation (all years): Yes

Description

This program will provide acquisition and lifecycle replacement of various support equipment for the Metro Transit Police Department (MTPD), including personal protection, surveillance, and access control equipment.

Expected Performance Outcome

Supports the security of Metro's customers and employees by equipping MTPD.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will continue acquisition and lifecycle replacement of support equipment for MTPD including body cameras.

Capital Program Financing Support (CIP0131)

Initiative Type: Program
Category: Business & Operations Support
Location: Systemwide

Mode: Systemwide
Program: Support Equipment/Services
Federal Participation (all years): No

Description

This program funds the availability fees and interest expense for Metro's short-term line of credit used for capital program expenditures.

Expected Performance Outcome

Provides Metro access to borrowing to finance the capital program.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will continue to fund the lines of credit and interim financing costs necessary to finance capital program cash flow needs.

Escalator and Elevator Overhaul Program (CIP0132)

Initiative Type: Program
Category: Stations and Passenger Facilities
Location: Systemwide

Mode: Rail
Program: Vertical Transportation
Federal Participation (all years): Yes

Description

This program rehabilitates or replaces escalator and elevator components based on condition and asset management criteria.

Expected Performance Outcome

Maintains elevators and escalators in a state of good repair to preserve availability as measured by the Elevator Availability performance target of $\geq 97.5\%$ elevators in a state of good repair and the Escalator Availability performance target of $\geq 92.9\%$ escalators in a state of good repair (examples based on Metro's FY23 targets).

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will repair and replace escalator and elevator components including speed reducer motors, and rack and axle units; refurbish gearboxes, brake board and escalator steps. Metro will advance the production of 10,000 replacement escalators' steps.

Radio Infrastructure Replacement (CIP0136)

Initiative Type: Project
Category: Rail Systems
Location: Systemwide

Mode: Rail
Program: Signals & Communications
Federal Participation (all years): Yes

Description

This project replaces Metro's outdated internal communication and public safety radio systems, as required by the Federal Communications Commission (FCC). This includes the public safety radio system, the Metro area radio system and cellular services throughout the system allowing customers to utilize cellular service while underground.

Expected Performance Outcome

Improves Metro's ability to communicate with first responders in the surrounding jurisdictions efficiently, enhancing the safety and security of customers using the system. Increases internal efficiency by enabling employees to communicate with the Operations Control Centers and management seamlessly throughout the system. Also, provides wireless coverage throughout the underground portions of Metrorail, which improves the customer's riding experience and makes Metrorail a more attractive option.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will continue the installation of the new radio system, take delivery of additional handheld radio and subscriber units, and install the remaining Metro box enclosures to cover Metro's above and underground system for both radio and wireless use.

Rail Vehicle Preventive Maintenance (CIP0142)

Initiative Type: Program
Category: Railcar and Railcar Facilities
Location: Systemwide

Mode: Rail
Program: Maintenance/Overhaul
Federal Participation (all years): Yes

Description

This program supports a portion of the annual preventive maintenance activities of the railcar fleet. The balance of activity is charged to Metro's operating budget.

Expected Performance Outcome

Allows railcars to receive necessary preventive maintenance to maintain the fleet in a state of good repair as measured by the Rail Fleet Reliability performance target of $\geq 14,000$ miles between failure for the legacy fleet (example based on Metro's FY23 target).

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will continue to perform routine inspections and scheduled maintenance on railcars.

Bus Vehicle Preventive Maintenance (CIP0143)

Initiative Type: Program
Category: Bus, Bus Facilities & Paratransit
Location: Systemwide

Mode: Bus
Program: Maintenance/Overhaul
Federal Participation (all years): Yes

Description

This program supports a portion of the annual preventive maintenance activities of the Metrobus fleet. The balance of activity is charged to Metro's operating budget.

Expected Performance Outcome

Allows the bus fleet to receive necessary preventive maintenance to maintain the fleet in a state of good repair as measured by the Bus Fleet Reliability performance indicator of ≥8,200 miles between failure (example based on Metro's FY23 target).

Strategic Drivers

Near Term Deliverables

Metro will continue to perform routine inspections and scheduled maintenance on buses.

Facility Security Monitoring Equipment Program (CIP0145)

Initiative Type: Program
Category: Stations and Passenger Facilities
Location: Systemwide

Mode: Systemwide
Program: Station Systems
Federal Participation (all years): No

Description

This program will provide for the hardening and improvement of security at various rail yards, stations, and facilities by installing cameras, public address systems, intercoms and additional security measures. Metro is piloting ways to enhance the Rail Operations Control Center's situational awareness of operating conditions in the tunnel through the installation of cameras.

Expected Performance Outcome

Addresses the safety and security of customers and employees through monitoring of the interior and exterior of stations and facilities. Monitoring deters crime, enables clear communication of public safety notices in rail stations and supports proper functioning of devices used to request assistance.

Strategic Drivers

Near Term Deliverables

Advance replacement and upgrade of life-safety and security systems at various locations system-wide. These modernization upgrades can include expanded cameras, intrusion detection and access control systems, new intercoms and communication equipment, and the infrastructure needed to support this equipment.

Support Facility Fire System Rehabilitation (CIP0150)

Initiative Type: Program
Category: Business & Operations Support
Location: Systemwide

Mode: Rail
Program: Support Equipment/Services
Federal Participation (all years): Yes

Description

This project upgrades fire alarm and electronic security systems at support facilities including bus garages, railyards, and administrative buildings.

Expected Performance Outcome

Improves compliance with National Fire Protection Association (NFPA) standards, which will improve the safety of Metro employees, help safeguard Metro assets, and maintain current fire alarm systems in a state of good repair.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will upgrade fire alarms, compressed natural gas sensors, and security systems at support facilities.

Rail Station Cooling Rehabilitation Program (CIP0151)

Initiative Type: Program
Category: Stations and Passenger Facilities
Location: Systemwide

Mode: Rail
Program: Station Systems
Federal Participation (all years): Yes

Description

This program rehabilitates and replaces station cooling system components including, but not limited to, chiller plants, cooling towers, water piping, ventilation systems, air handling units, and ductwork. During the warmer months of the calendar year, Metro operates equipment to cool and circulate the ambient air in parts of the station.

Expected Performance Outcome

Supports customer and employee comfort during hot days.

Strategic Drivers

Near Term Deliverables

Metro will advance rehabilitation of chiller plants and piping throughout the system.

Parking Garage and Surface Lot Rehabilitation (CIP0152)

Initiative Type: Program
Category: Stations and Passenger Facilities
Location: Systemwide

Mode: Rail
Program: Platforms & Structures
Federal Participation (all years): Yes

Description

This program rehabilitates parking facilities including garages and surface lots.

Expected Performance Outcome

Allows parking facilities to be maintained in a state of good repair to prevent property damage, improve the customer experience, and improve customer safety.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Advance necessary maintenance activities to allow parking assets to achieve their intended useful life. Metro will progress the rehabilitation of parking facilities at Addison Road, Huntington (East), Wheaton, Anacostia, New Carrollton and Shady Grove.

Facility Roof Rehabilitation and Replacement (CIP0170)

Initiative Type: Program
Category: Business & Operations Support
Location: Systemwide

Mode: Systemwide
Program: Support Equipment/Services
Federal Participation (all years): Yes

Description

This program supports facility roof rehabilitation and replacement including the preparation of assessment reports, sampling, removal, and installation of new roofing systems. Metro has over 600 locations that need to be maintained in a state of good repair.

Expected Performance Outcome

Addresses the protection of critical infrastructure, systems, and contents of Metro's buildings and helps prevent potential safety issues.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will advance roof replacements at Carmen Turner, New Carrollton Rail Yard, Greenbelt Rail Yard and various traction power substations, tie breaker stations, and parking facilities.

Escalator Replacement (CIP0185)

Initiative Type: Program
Category: Stations and Passenger Facilities
Location: Systemwide

Mode: Rail
Program: Vertical Transportation
Federal Participation (all years): Yes

Description

This program replaces escalators that have reached the end of their useful life and installs lighting to improve customer safety and security.

Expected Performance Outcome

Maintains escalators in a state of good repair to prevent potential safety and security issues, reduce customer injuries, and preserve availability as measured by the Escalator Availability performance target of $\geq 92.9\%$ (example based on Metro's FY23 target). In addition, modernized units are as much as 30% more energy efficient than the old units.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will replace approximately 24 of the oldest and poorest performing escalator units in the system.

Cost (\$M)

Support Facility Improvements (CIP0197)

Initiative Type: Program
Category: Business & Operations Support
Location: Systemwide

Mode: Systemwide
Program: Support Equipment/Services
Federal Participation (all years): TBD

Description

This program provides for the rehabilitation of support facilities to maintain them in a state of good repair.

Expected Performance Outcome

Improves the productivity and satisfaction of Metro employees and improves Metro's ability to recruit and maintain workforce by providing safer and more modern facilities and worker amenities.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Continue to develop project implementation schedules for renovation of employee breakrooms at bus garages and railyards. Metro will begin rehabilitation of mechanical systems at various facilities throughout the system.

Cost (\$M)

Railcar Rooftop Access Platform (CIP0204)

Initiative Type: Project
Category: Railcar and Railcar Facilities
Location: Systemwide

Mode: Rail
Program: Maintenance Facilities
Federal Participation (all years): TBD

Description

This project installs railcar rooftop access platforms at Alexandria, Brentwood, Shady Grove, Branch Avenue and Greenbelt railyards to allow safe and efficient maintenance of HVAC units on railcars.

Expected Performance Outcome

Provides safe access to the rooftop HVAC units on railcars for maintenance personnel.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will continue close-out of the projects for the railcar rooftop access platforms including relocation of fire safety systems to meet current code.

Track Pollution Prevention (CIP0210)

Initiative Type: Project
Category: Business & Operations Support
Location: Systemwide

Mode: Systemwide
Program: Support Equipment/Services
Federal Participation (all years):

Description

This project designs and implements modifications to fueling areas at railyards to ensure that spills in the trackbed are sufficiently treated and enclosed. Currently, routine fuel spills lead to contamination of the ballast and ground and result in non-compliance with regulatory requirements.

Expected Performance Outcome

Prevent routine fuel spills from contaminating the ballast and ground and maintain compliance with regulatory requirements as per the Clean Water Act (CWA) and Chesapeake Bay Restoration Act (CBRA).

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

No planned deliverables in FY24.

Sustainability/Resiliency Program (CIP0212)

Initiative Type: Program
Category: Business & Operations Support
Location: Systemwide

Mode: Systemwide
Program: Support Equipment/Services
Federal Participation (all years): No

Description

This program develops and advances policies, programs and partnerships in support of Metro’s Sustainability Vision and Principles including addressing the impact of climate change. The program includes testing and evaluating new technology and processes for suitability and performance across Metro operations. Once developed, these technologies and processes can be rolled out fully across Metro as part of wider capital investments or operational improvements. Projects typically focus on methods to reduce waste, decrease consumption of energy and water, and assess resilience against environmental factors.

Expected Performance Outcome

Identifies and advances innovative investments and process improvements to reduce waste and energy consumption, improve environmental stewardship, increase Metro’s resiliency, and contribute to equity and quality of life in the region.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Continue to support high-value sustainability projects and the development and dissemination of an agency-wide Sustainability Action Plan. Metro will continue making improvements to waste management and recycling processes throughout the system and investigate zero-emission solutions for customer EV parking and leaf blowers.

Capital Program Development Support (CIP0213)

Initiative Type: Program
Category: Business & Operations Support
Location: Systemwide

Mode: Systemwide
Program: Support Equipment/Services
Federal Participation (all years): No

Description

This program supports resources necessary to perform capital program development, monitoring, reporting, and strategic planning.

Expected Performance Outcome

Improves Metro's ability to plan, evaluate, prioritize, and report on its extensive capital improvement program.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Support Metro's Capital Program planning & programming, transit asset management, and financial & grant management.

Metrorail Station Improvements (CIP0218)

Initiative Type: Program
Category: Stations and Passenger Facilities
Location: Systemwide

Mode: Rail
Program: Platforms & Structures
Federal Participation (all years): No

Description

This program supports rehabilitation of station components throughout the system including shaft repairs, entry gates, flooring, and other components and amenities.

Expected Performance Outcome

Improves safety and customer experience by modernizing and maintaining Metrorail station infrastructure and systems in a state of good repair. Prevents crime and increases the security of employees and customers by ensuring station entry gates are functional.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will continue to replace and upgrade elements within rail stations (e.g., passenger information displays, gates, flooring, lighting, security, etc.). Includes removal of existing escalator, portion of stairs and construction of new concrete stairs, granite treads, pavers, and illuminated handrails at Judiciary Square (north stair), Bethesda (stair) and College Park-University of Maryland (stair).

Rail Station Lighting Improvements (CIP0219)

Initiative Type: Program
Category: Stations and Passenger Facilities
Location: Systemwide

Mode: Rail
Program: Station Systems
Federal Participation (all years): Yes

Description

This program improves the lighting and illumination levels within rail stations, including mezzanines, lower level platforms and track beds of Metrorail stations. In addition, exterior lighting as customers access the stations including station pathways and bus loops, are also replaced through this program.

Expected Performance Outcome

Provides lighting to improve customer and employee safety and security. In addition, newer lights are more efficient and reduce Metro's energy consumption.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will continue upgrades to station lighting for platform edges, above ground, and ancillary rooms. Start planning and begin upgrades to exterior lighting conditions outside of various stations to include common areas, pathways and parking lots in the six-year period.

Bus Planning Studies Program (CIP0220)

Initiative Type: Program
Category: Bus, Bus Facilities & Paratransit
Location: Systemwide

Mode: Bus
Program: Passenger Facilities/Systems
Federal Participation (all years): No

Description

This program advances Metrobus planning studies necessary to sustain the network of services and facilities. Efforts focus on service plans, customer information, facilities management, bus stop accessibility, transit operations, traffic management and service delivery.

Expected Performance Outcome

Optimizes bus service levels and delivery by Metro and other bus services across the region.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will advance bus planning studies evaluating integrating systems, services and facilities.

Bus Customer Facility Improvements (CIP0221)

Initiative Type: Program
Category: Bus, Bus Facilities & Paratransit
Location: Systemwide

Mode: Bus
Program: Passenger Facilities/Systems
Federal Participation (all years): Yes

Description

This program upgrades Metrobus facilities and amenities to achieve and maintain a state of good repair and improve delivery of customer information.

Expected Performance Outcome

Provides more comfortable bus shelters and improves compliance with ADA guidelines. Improves customer communication and information through proper signage, maps and schedules for customers to see clearly bus stops and bus route timetables.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will replace bus shelters in service beyond their useful life, replace paper signage, and improve bus stop infrastructure (route/sign poles, bus stop decals, wayfinding signage). Customer Electronic Information Displays will be installed.

Cost (\$M)

Railcar Repair and Maintenance Facility (CIP0225)

Initiative Type: Project
Category: Railcar and Railcar Facilities
Location: Maryland

Mode: Rail
Program: Maintenance Facilities
Federal Participation (all years): Yes

Description

This project constructs a new railcar repair and maintenance facility in Landover, MD. This will centralize most of Metro's railcar scheduled maintenance program (SMP) functions into a dedicated facility. Currently, railcar rehabilitation, repairs, and maintenance functions are split between Brentwood and Greenbelt Rail Yards along with ongoing service and inspection (S&I) work.

Expected Performance Outcome

Provides workers with a safer, more modern facility and shop equipment. Employee injury rate is expected to meet or exceed the Rail employee injury rate performance target of ≤ 3.6 injuries per 200,000 hours worked (example based on Metro's FY23 target).

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will continue construction of the new facility. Construction activities will include foundational work, storm water and sewer infrastructure, track infrastructure, base building and core, and exterior enclosure.

Flood Resiliency Infrastructure Upgrades (CIP0241)

Initiative Type: Project
Category: Stations and Passenger Facilities
Location: Systemwide

Mode: Rail
Program: Station Systems
Federal Participation (all years):

Description

Since the opening of the first Metro line over 40 years ago, changes in local development, aging of the system, updates in design guidelines and criteria, and the effects of extreme weather events have led to flooding vulnerabilities in the system. This project will assess and construct mitigations to protect stations from flood waters entering into the rail system.

Expected Performance Outcome

Reduces disruption to revenue service and increases customer safety by mitigating the risk of fire, smoke, and other incidents caused by water intrusion into Metrorail tunnels and stations as measured by the Rail Infrastructure Availability performance target of ≤5.2% of track under performance restrictions and the number of fire and smoke events to meet or exceed the performance target of ≤47 incidents annually (examples based on Metro's FY23 targets). Protects Metro infrastructure and equipment which reduces the frequency and cost of repairs and replacements.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will develop implementation projects based on the completed assessment, and plan the next set of stations to assess for flood resiliency improvements.

Rail System Drainage Rehabilitation Program (CIP0242)

Initiative Type: Program
Category: Stations and Passenger Facilities
Location: Systemwide

Mode: Rail
Program: Station Systems
Federal Participation (all years): Yes

Description

This program replaces and improves drainage pumping stations that have exceeded their lifecycle throughout the Metrorail system and supports implementation of flood resiliency improvements.

Expected Performance Outcome

Reduces disruption to revenue service and mitigates some of the risk of fire, smoke, and other incidents caused by excess water collecting within Metrorail tunnels and stations as measured by the Rail Infrastructure Availability performance target of ≤5.2% of track under performance restrictions (example based on Metro's FY23 target). Protects Metro infrastructure and equipment which reduces the frequency and cost of repairs and replacements and helps prevent potential safety issues.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro plans to complete drainage pump station renewals at the next two stations (Noyes Road and Medical Center) identified in priority list. Drainage pump station renewals include replacement of pumps, piping, controls, lighting, and other structural and drainage.

General Engineering (CIP0246)

Initiative Type: Program
Category: Track and Structures Rehabilitation
Location: Systemwide

Mode: Rail
Program: Fixed Rail
Federal Participation (all years): No

Description

This program provides general engineering support services for the development of architectural and engineering concept designs to help define the capital projects and address needs that may not be captured as part of other larger capital initiatives. This program helps resolve priority issues identified by Metro's engineers.

Expected Performance Outcome

Develops engineering solutions for maintenance and improvement needs that could lead to a capital investment.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will identify and support specific initiatives that require engineering services.

Emergency Construction and Emerging Needs Program (CIP0247)

Initiative Type: Program
Category: Track and Structures Rehabilitation
Location: Systemwide

Mode: Rail
Program: Fixed Rail
Federal Participation (all years): No

Description

This program supports emergent and emergency needs that arise across the system beyond the scope of other established capital investments.

Expected Performance Outcome

Resolves emergency and emergent issues that impact Metro service and reliability.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will address emergent construction needs as they arise.

Automatic Train Control State of Good Repair (CIP0251)

Initiative Type: Program
Category: Rail Systems
Location: Systemwide

Mode: Rail
Program: Signals & Communications
Federal Participation (all years): Yes

Description

This program replaces aging Automatic Train Control (ATC) systems, Train Control Room (TCR) infrastructure and wayside equipment (including devices to replace remote terminal units). Obsolete and failing equipment must be replaced at intervals ranging from 20 to 40 years.

Expected Performance Outcome

Provides reliable signal operation maximizing on-time performance and minimizing disruption with a performance target of $\leq 5.2\%$ of track under performance restrictions. Prevents potential safety issues and customer injuries to meet the Rail customer injury rate performance target of ≤ 20.6 customer injuries per 10 million revenue miles (examples based on Metro's FY23 targets).

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will continue the switch machine power supply replacements and state of good repair program for high current bonds, interlocking, signals, circuit cable, switch machines, control cable insulation, remote terminal units, and train control rooms. Metro will advance replacement of 25 train control rooms.

Cost (\$M)

Low Voltage Power State of Good Repair (CIP0252)

Initiative Type: Program
Category: Stations and Passenger Facilities
Location: Systemwide

Mode: Rail
Program: Station Systems
Federal Participation (all years): Yes

Description

This program replaces low voltage power systems, improves various power components (including remote terminal units), and maintains existing low voltage power systems in a state of good repair.

Expected Performance Outcome

Maintains infrastructure that provides power to station lighting, HVAC, elevators, escalators, train control and communication systems, drainage pumping stations, and other Metrorail station infrastructure in a state of good repair.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will install switchgears, transformers, cabling, and electrical panels at various locations. Uninterruptible Power Supplies will be replaced systemwide. Metro expects to advance work at Brookland, Takoma, L'Enfant Plaza, Archives, and Addison Road.

Cost (\$M)

Traction Power State of Good Repair (CIP0253)

Initiative Type: Program
Category: Rail Systems
Location: Systemwide

Mode: Rail
Program: Power
Federal Participation (all years): Yes

Description

This program replaces traction power systems, improves various traction power components (including remote terminal units), and maintains existing traction power systems in a state of good repair to deliver safe and reliable Metrorail operations.

Expected Performance Outcome

Improvements decrease speed restrictions imposed on trains as measured by the Rail Infrastructure Availability performance indicator target for FY23 of $\leq 5.2\%$ of track under performance restrictions and improved on-time performance. With safety improvements, the employee injury rate is expected to meet or exceed the Rail employee injury rate performance target for FY23 of ≤ 3.6 injuries per 200,000 hours worked (examples based on Metro's FY23 targets).

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will replace traction power substation equipment at West Falls Church Railyard and Klinge Bridge. Approximately 600 cables will be inspected and tested, and 8,000 linear feet of cable will be replaced per quarter.

Cost (\$M)

Anticipated Funding Sources (\$M)

Bus Priority Program Development (CIP0254)

Initiative Type: Program
Category: Bus, Bus Facilities & Paratransit
Location: Systemwide

Mode: Bus
Program: Passenger Facilities/Systems
Federal Participation (all years): No

Description

The Bus Priority Program aims to improve bus service and equity by allowing buses to travel smoothly and efficiently with the aid of new technology and intelligent roadway design. This program plans and implements new initiatives and technology to advance bus priority strategies.

Expected Performance Outcome

Increases the reliability of Metrobus service by developing strategies and working with jurisdictions to reduce travel time of buses through technology that prioritizes bus travel. The development of this program will improve bus operating speeds and reliability for improved customer experience, environmental sustainability, and financial stewardship.

Strategic Drivers

Near Term Deliverables

Near-term potential projects include a Violation Detection System, the launch of an All Door boarding pilot, and expanding transit signal priority and queue jumps across the region.

Fare Collection Modernization (CIP0255)

Initiative Type: Project
Category: Stations and Passenger Facilities
Location: Systemwide

Mode: Systemwide
Program: Station Systems
Federal Participation (all years): Yes

Description

This project replaces Metro's aging fare collection systems in rail stations, on Metrobuses, and upgrades the back end system that supports fare collection. The investment includes new methods for customers to pay and manage payment accounts.

Expected Performance Outcome

Provides modern infrastructure and payment options for Metro customers that will improve convenience, reliability and decrease maintenance and repair costs.

Strategic Drivers

Near Term Deliverables

Metro will continue engineering and installation of the new rail faregates and supporting systems, and manufacturing and delivery of new bus fareboxes. Additionally, Metro will continue development and improvement of the mobile payment system. Metro will continue to trial additional faregate modifications to deter fare evasion.

7000-Series Railcars (CIP0256)

Initiative Type: Project
Category: Railcar and Railcar Facilities
Location: Systemwide

Mode: Rail
Program: Acquisition
Federal Participation (all years): Yes

Description

This project acquires 620 of the 7000-series railcars to replace 1000, 4000, and 5000-series fleets, plus 28 additional railcars. The Metropolitan Washington Airports Authority (MWAA) funded an additional 128 7000-series railcars in support of the Silver Line Phase 1 and 2 extension projects.

Expected Performance Outcome

Replaces the unreliable 1000, 4000, and 5000-series vehicles, which will improve customer safety and reduce failures that interrupt revenue service as measured by the Rail Fleet Reliability performance target of $\geq 56,500$ miles for 7000-series railcars (example based on Metro's FY23 target).

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will continue to make milestone payments for railcar warranties while closely working to address various railcar modifications, including improved training and troubleshooting. All 7000-series railcars associated with this project have been acquired.

Emergency Trip Station (ETS) Rehabilitation (CIP0257)

Initiative Type: Project
Category: Rail Systems
Location: Systemwide

Mode: Rail
Program: Signals & Communications
Federal Participation (all years):

Description

The existing Emergency Trip Station (ETS) system has an aging infrastructure and utilizes obsolete electrical components and communications technology. This project upgrades the Rail Right-Of-Way (ROW) ETS system including the box that houses the components, telephone, LED lights, and mushroom button that controls third rail power.

Expected Performance Outcome

Maintains the safety of Metro employees through state of good repair replacement with newer and more reliable equipment.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will advance project development and implementation planning to evaluate the best approach to upgrading the ETS equipment and infrastructure.

Station and Tunnel Fire Alarm Rehabilitation (CIP0258)

Initiative Type: Program
Category: Stations and Passenger Facilities
Location: Systemwide

Mode: Rail
Program: Station Systems
Federal Participation (all years):

Description

This program upgrades fire alarm systems in Metrorail tunnels and stations.

Expected Performance Outcome

Improves Metro's compliance with National Fire Protection Association standards and addresses recommendations made by the National Transportation Safety Board. Improves customer and employee safety by accurately measuring and responding to fire incidents.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will continue planning activities and begin advancing the Tunnel Smoke Detection System by installing detection equipment at multiple fan and vent shaft locations throughout the system.

Cost (\$M)

Tunnel Water Leak Mitigation (CIP0262)

Initiative Type: Program

Category: Track and Structures Rehabilitation

Location: Systemwide

Mode: Rail

Program: Structures

Federal Participation (all years): Yes

Description

This program mitigates water infiltration into the Metrorail tunnel and vent shaft system.

Expected Performance Outcome

Reduces disruption to revenue service and increases customer and employee safety by mitigating the risk of water intrusion. Protects Metro infrastructure and equipment which reduces the frequency of repairs and replacements. Reduces fire and smoke events to meet or exceed the performance target of ≤47 incidents annually (example based on Metro's FY23 target).

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro has a project to mitigate water intrusion along two segments of the Red Line - between Silver Spring and Forest Glen, and Tenleytown-AU and Friendship Heights. An evaluation to determine effectiveness of the mitigation work is part of the scope.

Asset Management Software (CIP0269)

Initiative Type: Program
Category: Business & Operations Support
Location: Systemwide

Mode: Systemwide
Program: IT
Federal Participation (all years): No

Description

This program develops asset lifecycle management plans by asset group as required by the Federal Transit Administration (FTA). The program also establishes a consistent methodology for assessing asset conditions and standardizes how new assets are inducted into Metro's systems.

Expected Performance Outcome

Improves Metro's ability to track and maintain physical assets to enable proper maintenance in support of safe and reliable service.

Strategic Drivers

Near Term Deliverables

Metro will advance the development of asset management plans and standardizing asset condition assessment methodologies.

Capital Delivery Program Support (CIP0270)

Initiative Type: Program
Category: Business & Operations Support
Location: Systemwide

Mode: Systemwide
Program: Support Equipment/Services
Federal Participation (all years): No

Description

This program provides project administration, planning, scheduling, and management support for the portfolio of major construction projects.

Expected Performance Outcome

Improves Metro's ability to plan and deliver the Capital Improvement Program. This improves Metro's financial responsibility and supports state of good repair efforts.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will support the advancement of project implementation planning, scheduling, and management services for the delivery of the portfolio of major capital construction projects.

Digital Display and Wayfinding Improvements (CIP0272)

Initiative Type: Program
Category: Stations and Passenger Facilities
Location: Systemwide

Mode: Systemwide
Program: Station Systems
Federal Participation (all years): No

Description

This program invests in new equipment and space improvements designed to upgrade digital displays, improve signage and wayfinding, and deliver other customer amenities. Metro is advancing new ways to inform customers through the installation of digital signs on the exterior of rail stations.

Expected Performance Outcome

Enhances Metro's ability to improve the customer experience through the adoption of modern wayfinding and digital signage at Metrorail stations. These improvements will also generate advertising revenue.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Complete the installation of customer entrance digital displays at Metro Center and Columbia Heights. Metro will use the feedback from this demonstration to plan and execute additional targeted installations of digital displays.

Support Facility Rehabilitation (CIP0273)

Initiative Type: Program
Category: Business & Operations Support
Location: Systemwide

Mode: Systemwide
Program: Support Equipment/Services
Federal Participation (all years): No

Description

This program provides assessments on condition, designs for necessary improvements, and performs minor emergent improvements for administrative facilities for employees, including breakrooms, bathrooms, and work areas.

Expected Performance Outcome

Complete improvements to administrative facilities for employees, enabling departments to be better organized and contributing to Metro's fiscal responsibility through improved productivity. Facility improvements will address potential safety concerns and improve employee satisfaction.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will rehabilitate operation, maintenance, and administrative facilities that are identified on a prioritized location list.

New Carrollton Garage and Bus Bays (CIP0275)

Initiative Type: Project
Category: Bus, Bus Facilities & Paratransit
Location: Maryland

Mode: Bus
Program: Passenger Facilities/Systems
Federal Participation (all years): TBD

Description

This project supports the joint development at New Carrollton Station. Metro has entered into a third-party joint development agreement for mixed-use development in New Carrollton Station area. The development also includes the new Metro office building. As a part of this development Metro will demolish the obsolete parking garage and construct a replacement garage and bus loop.

Expected Performance Outcome

Increase station access, ridership, economic development and the customer experience.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will advance site preparation, foundational work, and begin construction of the new bus loop and parking garage structure.

Art in Transit and Station Commercialization Program (CIP0276)

Initiative Type: Program
Category: Stations and Passenger Facilities
Location: Systemwide

Mode: Systemwide
Program: Station Systems
Federal Participation (all years): TBD

Description

This program restores and adds to Metro's art collection and helps Metro develop plans to commercialize underutilized space in Metrorail stations.

Expected Performance Outcome

Expands customer amenities in the form of retail and advertising, and develops consistent design standards to improve the customer experience and provide diverse revenue streams for Metro. Restores and adds to Metro's art collection.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will develop structured guidelines to improve how customers interact daily with the transit system including with digital signage, and remediation of Art in Transit installation at entrance of DuPont Circle Station.

Supply Chain Modernization (CIP0277)

Initiative Type: Project
Category: Business & Operations Support
Location: Systemwide

Mode: Systemwide
Program: Support Equipment/Services
Federal Participation (all years):

Description

This project modernizes Metro's warehouses, including the supply chain for logistics, warehousing, planning, and ordering of inventory.

Expected Performance Outcome

Improves Metro's ability to manage inventory and supplies the right parts at the right time to maintenance operations, increasing efficiency and lowering inventory levels and costs.

Strategic Drivers

Near Term Deliverables

Metro will continue development and evaluation of a Warehouse Management System based on Metro's business model and strategy for the next decade, including incorporating a Vendor Managed Inventory to optimize inventory levels and order fulfillment.

Railyard Shop Equipment Replacement (CIP0279)

Initiative Type: Program
Category: Railcar and Railcar Facilities
Location: Systemwide

Mode: Rail
Program: Maintenance Facilities
Federal Participation (all years): No

Description

This program replaces or rehabilitates Metro rail shop maintenance equipment, such as overhead cranes, rail train lifts, hoists, or industrial shop air compressors that are inoperable, deficient, or have reached the end of useful life.

Expected Performance Outcome

Allows railcar maintenance activities to be completed safely and efficiently using equipment that is maintained in a state of good repair.

Strategic Drivers

Railyard Facility and Site Rehabilitation (CIP0284)

Initiative Type: Program
Category: Railcar and Railcar Facilities
Location: Systemwide

Mode: Rail
Program: Maintenance Facilities
Federal Participation (all years): No

Description

This program rehabilitates railyard facilities, systems, and site assets to achieve and maintain a state of good repair and improve the safety of employees and operational efficiency.

Expected Performance Outcome

Maintains railyard facilities in a state of good repair to support efficient operations and the wide range of functions on site.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will complete facility assessments, the cable trough repair at the West Falls Church Railyard, small corrective maintenance repairs at New Carrollton, and continue the development and evaluation of future major rehabilitations of the Shady Grove and New Carrollton rail yards.

Power Generator Replacement (CIP0286)

Initiative Type: Program
Category: Rail Systems
Location: Systemwide

Mode: Rail
Program: Power
Federal Participation (all years): No

Description

This program provides for the replacement of power generators throughout the Metrorail system.

Expected Performance Outcome

Provides additional resiliency to the Metrorail system by providing a back up power source to critical infrastructure including fire, life safety and communications systems and equipment.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro plans to replace generators at various locations throughout the system as identified by the developed priority list.

Tunnel Ventilation Improvements (CIP0291)

Initiative Type: Project
Category: Track and Structures Rehabilitation
Location: District of Columbia

Mode: Rail
Program: Structures
Federal Participation (all years):

Description

This project upgrades and installs additional underground ventilation infrastructure, including components such as fans, electrical infrastructure, lighting, communications equipment, ladders, steps, smoke detectors, alarms, and information technology infrastructure. Under CIP0356, a pilot and evaluation to rehabilitate ventilation shaft components will be implemented on the Red Line to serve as a proof of concept for future designs across the Metrorail system.

Expected Performance Outcome

Improves the tunnel ventilation system performance and capacity by installing additional fans to move smoke more efficiently, increasing customer and employee safety as measured by the Rail employee injury rate performance target of ≤ 3.6 employee injuries per 200,000 hours worked and the Rail customer injury rate performance target of ≤ 20.6 customer injuries per 10 million revenue miles (examples based on Metro's FY23 targets).

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will advance assessment and designs, complete the Red Line Ventilation Pilot (CIP0356), and evaluate the outcomes before considering plans for broader implementation. System-wide implementation is not funded in the six-year CIP.

Bridge Rehabilitation Program (CIP0294)

Initiative Type: Program

Category: Track and Structures Rehabilitation

Location: Systemwide

Mode: Rail

Program: Structures

Federal Participation (all years): No

Description

This program rehabilitates structural and system components of 162 aerial structures across the Metro system. Metro is rehabilitating additional structural and system components under Structural Rehabilitation - Package A (CIP0348) and Structural Rehabilitation - Package B (CIP0370).

Expected Performance Outcome

Returns bridges to a state of good repair, avoiding future emergency shutdowns to address major defects identified in inspections.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will develop designs for future bridge rehabilitations, conduct repairs of bridges and aerial structures based on priority locations, and demolish the Trestle Bridges (Walhonding and Wilson Lane trestle bridges in Maryland and the Foundry Branch trestle bridge in DC).

Union Station Improvements (CIP0297)

Initiative Type: Project
Category: Stations and Passenger Facilities
Location: District of Columbia

Mode: Rail
Program: Platforms & Structures
Federal Participation (all years): No

Description

This project implements a redesign of the First Street northeast entrance, including expanding the north mezzanine by adding stairs, adding additional fare gates, and relocating the fare vending machines.

Expected Performance Outcome

Provides a better flow for customers as they enter and exit the station, as well as improved lighting and an additional staircase.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will advance site design and begin the procurement process to award the construction contract for the First St NE entrance at Union Station.

Huntington Station Parking Garage Demolition (CIP0302)

Initiative Type: Project
Category: Stations and Passenger Facilities
Location: Commonwealth of Virginia

Mode: Rail
Program: Platforms & Structures
Federal Participation (all years): TBD

Description

The project demolishes the south parking garage at Huntington Station in Fairfax County allowing Metro to offer approximately 8 acres for a potential joint development.

Expected Performance Outcome

Improves customer and employee safety by removing deficient structures.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro continues to coordinate with Fairfax County on planned demolition of the south parking garage.

Rail Passenger Facility State of Good Repair Program (CIP0305)

Initiative Type: Program
Category: Stations and Passenger Facilities
Location: Systemwide

Mode: Rail
Program: Platforms & Structures
Federal Participation (all years): TBD

Description

This program repairs and replaces antiquated systems and infrastructure in customer facilities, including ceilings, sewage ejector pumps, and other systems.

Expected Performance Outcome

Increases the efficiency and reliability of customer facilities. Also improves customers' experience and helps prevent potential safety issues.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will rehabilitate 10 sewer ejectors at the following stations: Capitol Heights, Morgan Boulevard, Forest Glen, Glenmont, Judiciary Square, Mt. Vernon Sq, Shaw-Howard U, Columbia Heights, Gallery Pl-Chinatown and Congress Heights.

Station Platform Rehabilitation - Phase 4 (CIP0310)

Initiative Type: Project
Category: Stations and Passenger Facilities
Location: Systemwide

Mode: Rail
Program: Platforms & Structures
Federal Participation (all years): Yes

Description

This project rehabilitates and repairs platforms and station systems at the following Orange Line stations to address potentially unsafe and deteriorating conditions: Minnesota Avenue, Deanwood, Cheverly, Landover, and New Carrollton. Customer experience improvements include slip-resistant tile, improved lighting, upgraded passenger shelters, new passenger information displays, improved public address system, new camera systems, and renovated bathrooms.

Expected Performance Outcome

Upgrades and improves above-ground stations for customer safety and security, accessibility and comfort, as measured by the Rail customer injury rate performance target of ≤20.6 customer injuries per 10 million revenue miles (example based on Metro’s FY23 target). Lifespan of new platforms and other station assets will increase, reducing future maintenance needs and improving the quality of rail service for customers.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Complete punchlist and closeout activities.

Bladensburg Bus Garage Replacement (CIP0311)

Initiative Type: Project
Category: Bus, Bus Facilities & Paratransit
Location: District of Columbia

Mode: Bus
Program: Maintenance Facilities
Federal Participation (all years): Yes

Description

This project demolishes and replaces the existing obsolete bus maintenance and operations facility at Bladensburg to improve use and capacity of limited facility space. The new facility, to be designed to achieve LEED certification, will have an on-site employee parking lot, multiple access points, parking for up to 300 buses and 25 maintenance bays. The facility will be built to support zero-emission electric vehicles.

Expected Performance Outcome

Provides a new LEED-certified bus facility that will reduce associated energy consumption and operating costs, improve bus safety, efficiency, maintenance and operations as measured by the Bus employee injury rate performance target of ≤11.9 employee injuries per 200,000 hours worked. Maximizes bus fleet availability per the Bus Fleet performance target for FY23 of ≥8,200 miles between failures (examples based on Metro's FY23 targets).

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will complete demolition of the existing bus facility on the site, and begin construction of the new bus maintenance facility.

Four Mile Run Bus Garage Rehabilitation (CIP0312)

Initiative Type: Project
Category: Bus, Bus Facilities & Paratransit
Location: Commonwealth of Virginia

Mode: Bus
Program: Maintenance Facilities
Federal Participation (all years): TBD

Description

The project rehabilitates interior and exterior elements of the Four Mile Run bus facility to restore a state of good repair and meet short-term fleet capacity needs due to other bus facility replacement projects.

Expected Performance Outcome

Provides a more modern facility while incorporating operating efficiencies that enable Metro to increase throughput to accommodate fleet requirements arising from other bus facility replacements.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Complete the facility assessment to identify required improvements and 10% design.

Northern Bus Garage Replacement (CIP0315)

Initiative Type: Project
Category: Bus, Bus Facilities & Paratransit
Location: District of Columbia

Mode: Bus
Program: Maintenance Facilities
Federal Participation (all years): Yes

Description

This project replaces the obsolete Northern Bus Garage to address structural deficiencies and improve use of limited facility space. The new facility will be designed to achieve LEED certification and retain the historical façade, provide multiple access points and parking for approximately 150 buses, and incorporate potential retail or public space. The facility will be built to support the operation of electric buses; 100% of the buses operated from the facility will be zero-emission when it reopens.

Expected Performance Outcome

Provides a new LEED-certified bus facility that will reduce associated energy consumption and operating costs, improve bus safety, efficiency, maintenance and operations as measured by the Bus employee injury rate performance target of ≤ 11.9 employee injuries per 200,000 hours worked. Maximizes bus fleet availability per the Bus Fleet Reliability performance target of $\geq 8,200$ miles between failures. (Examples based on Metro's FY23 targets.) Offers potential retail space for revenue generation and/or public space.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will advance the project through demolition and construction activities that will preserve the historic façade, and related site preparation work.

Capital Program Financial Support (CIP0324)

Initiative Type: Program
Category: Business & Operations Support
Location: Systemwide

Mode: Systemwide
Program: Support Equipment/Services
Federal Participation (all years): No

Description

This program provides support for the financial management of the capital program, including jurisdictional funds and federal grants.

Expected Performance Outcome

Improves Metro's ability to compliantly manage the sources of funding for Metro's capital improvement program. This program supports Metro's financial responsibility, compliance, and state of good repair efforts.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will support the financial management of the capital program to include management of grants, accounting services, maintenance of financial systems, and alignment of capital costs to appropriate funding.

Information Technology Data Center (CIP0330)

Initiative Type: Project
Category: Business & Operations Support
Location: Systemwide

Mode: Systemwide
Program: IT
Federal Participation (all years): No

Description

This project constructs a new data center to replace the existing data center at the Jackson Graham building that is being vacated. Metro will build a modern data center that blends new technologies with existing capabilities to continually improve and scale services to users, customers, and partners.

Expected Performance Outcome

Replaces Metro's existing data center with a new modern facility to support the system and that will also enable Metro to generate revenue through the leasing of excess capacity.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will complete installation of servers, racks, telecommunications, and networking equipment at the new office facilities and data center.

Enterprise Resource Planning Software Replacement (CIP0331)

Initiative Type: Project
Category: Business & Operations Support
Location: Systemwide

Mode: Systemwide
Program: IT
Federal Participation (all years): No

Description

This project implements a new enterprise resource planning (ERP) system. Metro will perform necessary upgrades to the current ERP system to maximize vendor support until the current program sunsets.

Expected Performance Outcome

Replaces the existing ERP system before vendor support ends in approximately 2032. Provides the financial management and related systems critical to compliant financial managing and reporting.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will complete business requirement gathering, analysis, and software selection.

Fiber Optic Cable Installation (CIP0332)

Initiative Type: Project
Category: Rail Systems
Location: Systemwide

Mode: Systemwide
Program: Signals & Communications
Federal Participation (all years): No

Description

This project installs fiber optic cable and replaces outdated copper wiring for connectivity throughout the system to adjoining communication rooms along the rail Right-of-Way (ROW) and determines the appropriate strategy for installing fiber optic cabling to ancillary rooms such as traction power substations, low voltage power rooms, vent shafts, and tie breaker stations. This project provides the backbone for implementation of other investments such as Radio Infrastructure Replacement.

Expected Performance Outcome

Increases bandwidth, speed, and system reliability and enables Metro to upgrade communication infrastructure to modern equipment that requires fiber-optic connectivity. New cabling will improve Metro's ability to remotely monitor assets, increasing the efficiency of maintenance.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will advance the installation of fiber throughout the system.

Office Consolidation - District of Columbia (CIP0335)

Initiative Type: Project
Category: Business & Operations Support
Location: District of Columbia

Mode: Systemwide
Program: Support Equipment/Services
Federal Participation (all years): No

Description

As part of Metro's regional office consolidation plan, this project funds the construction of a DC office building at 300 7th St. SW. The new site will be renovated to modern workplace standards, including new commercial amenities on the ground floor to activate the streetscape and benefit the community. In addition, Metro will improve the exterior appearance and add three floors, creating space for leases to generate additional revenue. The building will be designed with the goal of achieving LEED certification.

Expected Performance Outcome

Modernizes office space for employees by incorporating the latest life-safety and energy management systems to increase employee safety and reduce energy use. Improves workplace quality and employee experience.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will begin construction to replace the chiller at Jackson Graham Office Building. Metro will make the final payments related to the construction of the DC headquarters at L'Enfant Plaza.

Office Consolidation - Virginia (CIP0337)

Initiative Type: Project
Category: Business & Operations Support
Location: Commonwealth of Virginia

Mode: Systemwide
Program: Support Equipment/Services
Federal Participation (all years): No

Description

This project constructs a new office building in Virginia as part of Metro's regional office consolidation plan. The new office building will be constructed near the Eisenhower Avenue Metrorail Station in Alexandria, Virginia. The building will be designed with the goal of achieving LEED certification and is part of the larger redevelopment of the Eisenhower Avenue corridor.

Expected Performance Outcome

Modernizes office space for employees by incorporating the latest life-safety and energy management systems to increase employee safety and reduce energy use. Improves workplace quality and employee experience.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will complete construction of the new administrative office building located at Eisenhower Avenue in Virginia including the relocation of Operation Control Centers.

Office Consolidation - Maryland (CIP0338)

Initiative Type: Project
Category: Business & Operations Support
Location: State of Maryland

Mode: Systemwide
Program: Support Equipment/Services
Federal Participation (all years): No

Description

This project constructs a new office building in Maryland as part of Metro's regional office consolidation plan. The new office building consolidates employees near the New Carrollton Metrorail Station in Prince George's County, Maryland. The station is one of the region's most significant transit hubs and is served by Metro, MARC, multiple local and regional buses, Amtrak, Greyhound, and the future Maryland MTA Purple Line. The building will be designed with the goal of achieving LEED certification and is part of the continued development of New Carrollton.

Expected Performance Outcome

Modernizes office space for employees by incorporating the latest life-safety and energy management systems to increase employee safety and reduce energy use. Improves workplace quality and employee experience.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will complete construction of the new administrative office building located at New Carrollton in Maryland.

Rail Station Emergency Egress Improvements (CIP0339)

Initiative Type: Program
Category: Business & Operations Support
Location: Systemwide

Mode: Systemwide
Program: Support Equipment/Services
Federal Participation (all years):

Description

This program improves first responder assess and direction throughout the Metrorail system. Addresses blocked access to fire department connection (FDCs) on standpipes and sprinklers, lack of access or limited signage of evacuation shafts, and unclear emergency egress routes that could impede first responder access and customer/employee evacuation.

Expected Performance Outcome

Increases the safety of customers and employees by helping first responders reach emergency situations through unimpeded access to the system and improving evacuation routes for employees and customers.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will survey emergency egress routes throughout rail stations systemwide.

Rail System Standpipe Replacement Program (CIP0341)

Initiative Type: Program
Category: Stations and Passenger Facilities
Location: Systemwide

Mode: Rail
Program: Station Systems
Federal Participation (all years): TBD

Description

This program replaces dry standpipes throughout the system that have reached the end of their useful life or need to be replaced based on asset condition.

Expected Performance Outcome

Replaces dry standpipes used to extinguish fires in Metrorail tunnels and station platforms to keep assets in a state of good repair and in compliance with national and local regulatory maintenance standards.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro plans to complete work on the Green Line and award a contract to replace dry standpipes for next phase of locations: Stadium Armory, Smithsonian, Eastern Market, and Greenbelt stations.

Information Technology Hardware State of Good Repair (CIP0342)

Initiative Type: Program
Category: Business & Operations Support
Location: Systemwide

Mode: Systemwide
Program: IT
Federal Participation (all years): No

Description

This program implements data center infrastructure technology improvements to achieve higher operational efficiencies, increases capacity and service availability and reduces risk to the underlying business functions and communications network.

Expected Performance Outcome

Supports continuity of operations by providing efficient, reliable, and secure computing and network infrastructure, communications hardware, and edge devices.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will upgrade or replace outdated hardware assets, perform network maintenance to support operational needs, and continue ongoing computing equipment replacements.

Accounting Capital Program Support (CIP0347)

Initiative Type: Program
Category: Business & Operations Support
Location: Systemwide

Mode: Systemwide
Program: Support Equipment/Services
Federal Participation (all years): No

Description

This program provides accounting support to Metro's capital program. This includes tracking depreciation, maintaining an inventory of capital assets, reviewing invoices for projects and communicating with stakeholders.

Expected Performance Outcome

Financial reporting entries for expenses and capital assets. This includes documenting depreciation of fixed assets and conducting a biannual inventory of capital assets. This program supports accurate and reliable financial reporting.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will continue to provide accounting services to the capital program, including review and control of expenditures.

Aerial Structure Rehabilitation A (CIP0348)

Initiative Type: Project

Category: Track and Structures Rehabilitation

Location: Systemwide

Mode: Rail

Program: Structures

Federal Participation (all years): No

Description

This project rehabilitates structural and system components of nine aerial structures, and the station platform canopy at Rockville Station. The aerial structures are located at Branch Avenue (two structures), Cameron Road, Eisenhower Avenue, Naylor Road, South Van Dorn, West Hyattsville, Minnesota Avenue and Grosvenor rail stations.

Expected Performance Outcome

Addresses structural issues on bridges, aerial structures, and the Rockville Station canopy identified during Metro safety inspections. Prevents emergency shutdowns of rail service due to structural deficiencies, improving customer experience.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will complete structural rehabilitation of Minnesota Avenue aerial structure, Grosvenor aerial structure, and 6 segmental bridges.

Yellow Line Tunnel and Bridge Rehabilitation (CIP0349)

Initiative Type: Project
Category: Track and Structures Rehabilitation
Location: District of Columbia

Mode: Rail
Program: Structures
Federal Participation (all years): Yes

Description

This project rehabilitates sections of tunnel and the Potomac River Bridge located between L'Enfant Plaza and Pentagon Stations.

Expected Performance Outcome

Prevents failure of the Yellow Line tunnel by addressing structural degradation of the tunnel liner. Extends the lifespan of the tunnel and bridge to maintain the continuity of service and safety of Metro's customers and employees.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will continue rehabilitation of the steel tunnel liner on the Yellow Line between L'Enfant Station and the Potomac River bridge, structural repairs of the Potomac River Bridge, and upgrades to drainage pumping systems.

Rail Station Platform Canopy Rehabilitation Program (CIP0352)

Initiative Type: Program
Category: Stations and Passenger Facilities
Location: Systemwide

Mode: Rail
Program: Platforms & Structures
Federal Participation (all years):

Description

This program replaces or rehabilitates platform canopies at various Metrorail stations to maintain them in a state of good repair.

Expected Performance Outcome

Provides customers with shelter from the elements on outdoor platforms and extends the life of Metro's platform assets and helps prevent future safety issues.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will complete canopy rehabilitation at Twinbrook Station, and plan next phase of rehabs based on completed systemwide assessment and prioritization of station platform canopies.

ePerformance and eCompensation Upgrades (CIP0354)

Initiative Type: Project
Category: Business & Operations Support
Location: Systemwide

Mode: Systemwide
Program: IT
Federal Participation (all years): No

Description

This project develops and deploys new modules for ePerformance and eCompensation, including the design, requirements, development, testing, and deployment of these modules.

Expected Performance Outcome

Aligns organizational resources and systems for employee performance to improve analysis of performance-related metrics and increase options for data-driven gap analysis. Improves compensation programs for employees through planning, administration, and reporting activities.

Strategic Drivers

Near Term Deliverables

Complete the requirements, design, development, testing and deployment cycle for the next user community (L689 and L922) for the employee performance and compensation application.

Zero Emission Bus Acquisition and Evaluation (CIP0355)

Initiative Type: Project
Category: Bus, Bus Facilities & Paratransit
Location: Systemwide

Mode: Bus
Program: Acquisition
Federal Participation (all years): Yes

Description

This project purchases electric buses and evaluates the transition of the fleet to zero emissions technology. The results of the evaluation will inform, guide, and direct Metro's future bus fleet strategy and plans for supporting equipment and infrastructure. As the Zero Emission Bus landscape continues to evolve, technologies other than electric will be evaluated through this project.

Expected Performance Outcome

Results of the test and evaluation program will inform and guide Metro's strategy for the future bus fleet. Zero-emission buses are expected to bring value by reducing local air pollution, providing a quieter, smoother ride, and supporting a more livable region.

Strategic Drivers

Near Term Deliverables

Metro will take delivery of 12 electric buses, complete charging station equipment installation at Shepherd Parkway Bus Facility, and begin testing of the buses and charging infrastructure.

Tunnel Ventilation Improvements - Red Line Pilot (CIP0356)

Initiative Type: Project
Category: Track and Structures Rehabilitation
Location: District of Columbia

Mode: Rail
Program: Structures
Federal Participation (all years): No

Description

The project performs a pilot and evaluation to add ventilation fans and upgrade shaft components. The pilot will be implemented on the Red Line between Woodley Park through Cleveland Park Metrorail Stations. If successful, the project will serve as a proof of concept for future designs across the Metrorail System and will be used to update Metro's ventilation design criteria.

Expected Performance Outcome

Improves ventilation infrastructure to expel smoke from tunnels in the event of a fire incident.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will complete the Red-Line pilot and evaluate its effectiveness while considering future system-wide tunnel ventilation improvements which are unfunded in the six-year CIP.

Cybersecurity Legacy Software Improvements (CIP0357)

Initiative Type: Project
Category: Business & Operations Support
Location: Systemwide

Mode: Systemwide
Program: IT
Federal Participation (all years): TBD

Description

This project improves, maintain and upgrade applications to improve cybersecurity.

Expected Performance Outcome

Protects Metro IT systems from cybersecurity risks through direct improvements, maintenance and upgrade of existing systems and technologies across the system.

Strategic Drivers

Near Term Deliverables

Metro will complete security assessments of systems, modify, upgrade, replace and decommission technology based on these assessments.

Business Systems State of Good Repair (CIP0358)

Initiative Type: Program
Category: Business & Operations Support
Location: Systemwide

Mode: Systemwide
Program: IT
Federal Participation (all years): TBD

Description

This program supports state of good repair activities for critical business applications including web applications, timekeeping and enterprise resource planning (ERP) systems.

Expected Performance Outcome

Provides continuity of operations and data security of critical information software applications.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will continue maintaining and enhancing the portfolio of software applications to meet operating and business requirements.

Enterprise Technology Platforms State of Good Repair (CIP0359)

Initiative Type: Program
Category: Business & Operations Support
Location: Systemwide

Mode: Systemwide
Program: IT
Federal Participation (all years): No

Description

This program supports state of good repair activities for critical enterprise shared services including business intelligence, storing and building data structures and other enterprise tools.

Expected Performance Outcome

This program supports tools and applications, as well as other shared services, utilized by both the Metro Business and Transit teams for their day-to-day sustainment operations.

Strategic Drivers

Near Term Deliverables

Metro will continue implementation of functional improvements, system integrations, data management, reporting, new modules, new applications, and maintaining and enhancing existing applications.

Transit Systems State of Good Repair (CIP0360)

Initiative Type: Program
Category: Business & Operations Support
Location: Systemwide

Mode: Systemwide
Program: IT
Federal Participation (all years): No

Description

This program supports state of good repair activities for critical transit applications including Bus, Rail, Asset Management, Safety and Metro Transit Police Department (MTPD) systems.

Expected Performance Outcome

Metro will continue to support the customer-facing services and related applications. This includes support for MTPD, Safety, Asset Management related to engineering and infrastructure assets, Geographic information system, Fare Collection, and other customer-facing websites.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will continue maintaining software systems used by rail operations control center, passenger information displays, Metro Police, and the safety department.

Service Oriented Architecture (SOA) Program (CIP0361)

Initiative Type: Program
Category: Business & Operations Support
Location: Systemwide

Mode: Systemwide
Program: IT
Federal Participation (all years): No

Description

Service-Oriented Architecture (SOA) application platform enables organizations to share independent services to accomplish business goals. SOA enables the development of applications to be more efficient and secure. This supports the ability to adjust applications to align with changing business needs.

Expected Performance Outcome

SOA offers flexibility by providing infrastructure automation and tools, thereby achieving a reduction in integration costs, as well as their efficient and effective coordination. SOA architecture enables IT structures to align to business goals.

Strategic Drivers

Near Term Deliverables

Metro will continue maintaining and improving its SOA services and systems to meet operating and business requirements.

Independent Verification & Validation program (CIP0362)

Initiative Type: Program
Category: Business & Operations Support
Location: Systemwide

Mode: Systemwide
Program: IT
Federal Participation (all years): No

Description

Independent Verification and Validation (IV&V) is Verification and Validation activities performed by an agency that is not under the control of the organization that is developing the software. It also performs dynamic verification by different testing methods such as integration, functional, and system testing. This program will support verification and validation activities for the overall technology development projects and operation and maintenance programs.

Expected Performance Outcome

The IV&V program will reduce discrepancies in the product quality and specifications. The program will also ensure that developers are adhering to Metro regulations and standards.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Execute procurement for a vendor to complete an assessment of Metro's information technology landscape to identify what is needed to establish an IV&V program.

Federal Participation (all years): No

Description

This program supports state of good repair activities for critical cybersecurity software applications.

Expected Performance Outcome

Provides continuity of operations and data security of software applications.

Strategic Drivers

Near Term Deliverables

Metro will continue maintaining and improving cybersecurity software applications to meet operating and business requirements.

Aerial Structure Rehabilitation B (CIP0370)

Initiative Type: Project
Category: Track and Structures Rehabilitation
Location: Systemwide

Mode: Rail
Program: Structures
Federal Participation (all years): Yes

Description

This project rehabilitates structural and system components of 20 structures: 1) Park Road, 2) Frederick Avenue, 3) Orange Line 495 Aerial, 4) Greenbelt Station Outer Loop Ramp Bridge 5) Greenbelt Inner Loop Aerial, 6) Route 7 Bridge, 7) Route 7 Ramp Bridge, 8) E-Line CSX Bridge, 9) Greenbelt Station Beltway Crossing Bridge, 10) Berwyn Rd., 11) Dunn Loring Pedestrian Bridge, 12) Vienna Station-North, 13) Vienna Station-South Pedestrian Bridge, 14) West Falls Church Station Pedestrian Bridge, 15) Aspen St. Bridge, 16) Georgia Ave. Bridge, 17) Piney Branch Rd. Bridge, 18) Riggs Rd. Bridge, 19) Van Buren St. Bridge, 20) Westmoreland St. Bridge

Expected Performance Outcome

Address findings on aerial structures identified during Metro safety inspections. Prevents emergency shutdowns of rail service due to structural deficiencies.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will issue the contract to design and repair approximately 20 bridges.

West Falls Church Development (CIP0371)

Initiative Type: Project
Category: Business & Operations Support
Location: West Falls Church Rail Station

Mode: Systemwide
Program: Support Equipment/Services
Federal Participation (all years): No

Description

This project redevelops the West Falls Church Station parking lots and reconfigures the bus loop and kiss and ride at the station to create a street grid and connecting roads as part of a joint development.

Expected Performance Outcome

Increase ridership and improve station access and the customer experience.

Strategic Drivers

Near Term Deliverables

Begin development and evaluation activities including design.

Station Revitalization (CIP0372)

Initiative Type: Project
Category: Stations and Passenger Facilities
Location: Systemwide

Mode: Rail
Program: Station Systems
Federal Participation (all years): Yes

Description

This project replaces station systems including fire, life and safety systems at 18 stations (Farragut West, Judiciary Square, Union Station, National Airport, Mt. Vernon Square, Smithsonian, Federal Center SW, L'Enfant Plaza, Waterfront, McPherson Sq, Federal Triangle, Metro Center, Farragut North, Gallery Place, Archives, Foggy Bottom, Rosslyn and Court House).

Expected Performance Outcome

Improve customer safety, upgrade information systems, and maintain fire and life safety assets in a state of good repair.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Initiate development and evaluation activities including assessments and alternative analyses.

Equipment to Support New Radio System (CIP0373)

Initiative Type: Project
Category: Business & Operations Support
Location: Systemwide

Mode: Systemwide
Program: Support Equipment/Services
Federal Participation (all years): No

Description

This project upgrades the operation control consoles located at the Carmen Turner Facility to be compatible with the current radio system (490MHz) and the future radio system (700MHz). The radio antennae will be moved from the Jackson Graham Building to a new location before decommissioning the old headquarters building.

Expected Performance Outcome

Improve flexibility and continuity of operations as Metro transitions from the 490MHz radio system to the 700MHz radio system.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will relocate the Jackson Graham Building radio antennae farm to the DC Headquarters at L'Enfant Plaza and upgrade the Carmen Turner Facility Operations Control Center consoles.

Infrastructure Improvements Solar Power Installation (CIP0374)

Initiative Type: Project
Category: Business & Operations Support
Location: Systemwide

Mode: Systemwide
Program: Support Equipment/Services
Federal Participation (all years): No

Description

To support the installation of solar panels at Metro parking garages and surface lots, this project completes state of good repair activities and installation of lights and cameras.

Expected Performance Outcome

Mitigate potential risks to customers as open parking in garages and surface lots are covered with solar panels.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will complete the required ancillary improvements at Cheverly, Anacostia, Southern, and Naylor Road parking garages and/or surface lots to support solar installations.

Shaft Structural Rehabilitation - 7 Shafts (CIP0375)

Initiative Type: Project

Category: Track and Structures Rehabilitation

Location: Systemwide

Mode: Systemwide

Program: Structures

Federal Participation (all years): No

Description

This project rehabilitates seven shafts to address damage to the structure from water infiltration, including repairs to grouting, concrete, ladders, stairs, electrical equipment, bollards, and drainage systems.

Expected Performance Outcome

Addresses the state of good repair deficiencies to bring these assets into good working order, mitigating the risk of failure and injury to employees and customers.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Begin the remediation of seven shafts; six on the Red Line and one on the Green Line.

Western Bus Garage Replacement (CIP0376)

Initiative Type: Project
Category: Bus, Bus Facilities & Paratransit
Location: District of Columbia

Mode: Bus
Program: Maintenance Facilities
Federal Participation (all years):

Description

This project replaces the obsolete Western Bus Garage maintenance and operations facility to improve use and capacity of limited facility space. The new facility, designed to achieve LEED certification, will support full implementation of 100% electric vehicles, multiple access points, bus parking, and maintenance bays.

Expected Performance Outcome

Provides a new LEED-certified bus facility that will improve bus safety as measured by the Safety performance target of ≤3.6 employee injuries per 200,000 hours worked, and efficiency, maintenance and operations as measured by the Bus Fleet Reliability performance target of ≥8,200 miles between failure (examples based on Metro’s FY23 targets).

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will continue the planning, preliminary design and National Environmental Policy Act (NEPA) review process for Western Bus Garage replacement.

Metro Strategic Transformation Plan (CIP0378)

Initiative Type: Project
Category: Business & Operations Support
Location: Systemwide

Mode: Systemwide
Program: Support Equipment/Services
Federal Participation (all years):

Description

This project creates a new strategic plan for Metro. The strategic plan will be developed by the Board, jurisdictional partners, customers, and staff to move the organization forward.

Expected Performance Outcome

Creates a new strategic plan to align the organization to deliver services in accordance with customer and jurisdictional needs.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will continue work to update the Metro's Strategic Plan.

D&E Railcar Acquisition (CIP8001)

Initiative Type: Program
Category: Railcar and Railcar Facilities
Location: Systemwide

Mode: Rail
Program: Acquisition
Federal Participation (all years): No

Description

This program provides surveys, studies, engineering, and design tasks to support new railcar acquisition efforts.

Expected Performance Outcome

Supports efforts to develop and prioritize projects related to railcar fleet acquisition needs. Railcar projects aid in maintaining a state of good repair of the railcar fleet by replacing the least reliable and poorest performing vehicles.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will update the Rail Fleet Plan.

D&E Rail Yard Improvements (CIP8005)

Initiative Type: Program
Category: Railcar and Railcar Facilities
Location: Systemwide

Mode: Rail
Program: Maintenance Facilities
Federal Participation (all years): No

Description

This program provides surveys, studies, engineering, and designs to support rail yard improvements.

Expected Performance Outcome

Supports efforts to develop and evaluate potential solutions to emerging rail maintenance facility needs before committing to larger investments.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will complete assessments of rail yard needs to determine state of good repair requirements.

Cost (\$M)

D&E Track Structures Improvements (CIP8013)

Initiative Type: Program

Category: Track and Structures Rehabilitation

Location: Systemwide

Mode: Rail

Program: Structures

Federal Participation (all years): No

Description

This program supports Metro's efforts to complete surveys, studies, engineering, and design tasks for tracks' and structures' capital initiatives.

Expected Performance Outcome

Supports efforts to develop and evaluate potential solutions for emerging track and structural needs before committing to larger investments.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will continue a study to address crowding in trains and stations and congestion within the busy Blue/Orange/Silver Line shared corridor. Also, complete design for extending a key pocket track outside of the Stadium Armory Metrorail station.

Location: Systemwide

Mode: Rail
Program: Platforms & Structures
Federal Participation (all years):

Description

This program provides surveys, studies, engineering, and designs to support platform and structure improvement efforts that may lead to future capital initiatives.

Foggy Bottom In-progress Model of Station Enhancements

Expected Performance Outcome

Supports efforts to develop and evaluate potential solutions to emerging needs before committing to larger future investments.

Strategic Drivers

Near Term Deliverables

No planned deliverables in FY2024.

D&E Passenger Facility Improvements (CIP8019)

Initiative Type: Program
Category: Stations and Passenger Facilities
Location: Systemwide

Mode: Rail
Program: Station Systems
Federal Participation (all years):

Description

This program identifies improvements needed for Metro's passenger facilities. Supports the development of designs and evaluates potential solutions.

Expected Performance Outcome

Supports efforts to develop and evaluate potential solutions to emerging needs before committing to larger investments.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will continue evaluation of implementation strategy for systemwide upgrades to the Passenger Information Display System.

D&E Bus & Paratransit Improvements (CIP8021)

Initiative Type: Program
Category: Bus, Bus Facilities & Paratransit
Location: Systemwide

Mode: Bus
Program: Acquisition
Federal Participation (all years):

Description

This program provides surveys, studies, engineering, and designs related to new bus and paratransit efforts that may lead to future capital initiatives.

Expected Performance Outcome

Supports efforts to develop and evaluate potential solutions to emerging needs before committing to larger investments.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Metro will advance design package development for future zero-emissions bus garages.

Future Bus Maint/Overhaul Proj (CIP8024)

Initiative Type: Program
Category: Bus, Bus Facilities & Paratransit
Location: Systemwide

Mode: Systemwide
Program: Maintenance/Overhaul
Federal Participation (all years):

Description

This program supports the development of converting future bus maintenance facilities to meet the needs of maintaining an electric bus fleet. This program also supports future needs related to planning, training and operational support for Zero-Emissions Buses.

Expected Performance Outcome

Supports efforts to develop and evaluate potential solutions to emerging needs before committing to larger future investments.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Continued development and evaluation of necessary bus garage facility improvements to support electric vehicle operations.

Planning Support for the District of Columbia (CRB0005)

Initiative Type: Program
Category: Business & Operations Support
Location: District of Columbia

Mode: Systemwide
Program: Support Equipment/Services
Federal Participation (all years): No

Description

This program facilitates planning and design of potential future transit projects and transit oriented development efforts which create pedestrian-oriented, mixed-use communities centered around Metro stations. This also includes other projects that are of priority interest to Metro and the District of Columbia.

Expected Performance Outcome

Facilitates improvements in station circulation, station access, regional transportation planning, and joint development activities that are of mutual interest to Metro and the District of Columbia.

Strategic Drivers

Safety

Security

Reliability/SGR

Near Term Deliverables

Planning for transit-oriented development in the District of Columbia. Metro will also coordinate planning requirements for other station passenger circulation improvements, joint developments, rail improvements, and bus facilities as requested by the District of Columbia.

Potomac Yard Station Construction (CRB0013)

Initiative Type: Project
Category: Stations and Passenger Facilities
Location: Commonwealth of Virginia

Mode: Rail
Program: Platforms & Structures
Federal Participation (all years): No

Description

The project supports the design and construction of a new Metrorail station on the Yellow and Blue Lines between the existing Braddock Road and Ronald Reagan Washington National Airport Stations. This project is a partnership between Metro and the City of Alexandria, which is funding the new station.

Expected Performance Outcome

Increases access to Metrorail in the City of Alexandria, accommodating economic development, reduced vehicle traffic, and improved quality of life in the City of Alexandria and the surrounding community.

Strategic Drivers

Near Term Deliverables

Metro will complete construction of the South Access Pavilion, retaining wall, and restoration of wetlands. Station is expected to open for passenger service in FY2023. Contract close out and punch-list items will continue after station opening.

Silver Line Phase 1 Railcars (CRB0019_19)

Initiative Type: Project
Category: Railcar and Railcar Facilities
Location: Systemwide

Mode: Rail
Program: Acquisition
Federal Participation (all years): No

Description

This project acquires 64 new 7000-series railcars for Phase 1 construction of the Silver Line; the railcars are funded by the Metropolitan Washington Airports Authority (MWAA).

Expected Performance Outcome

Provides additional railcars necessary for the Phase 1 portion of the new Silver Line rail service. All railcars have been received.

Strategic Drivers

Near Term Deliverables

Metro will achieve final acceptance of tools and test equipment, as-built drawings, user education program, operation and maintenance manuals, and spare parts catalogs.

Purple Line Construction Support (CRB0127)

Initiative Type: Project
Category: Stations and Passenger Facilities
Location: Maryland

Mode: Rail
Program: Platforms & Structures
Federal Participation (all years): No

Description

This project supports the Purple Line, a 16-mile light rail transit line extending from Bethesda to New Carrollton. The Maryland Transit Administration (MTA) is managing and funding the development of the line which will connect to four Metrorail stations: Bethesda, Silver Spring, College Park, and New Carrollton. This project includes design and engineering support to integrate Metro facilities with the Purple Line and a new entrance into the South Mezzanine at Bethesda Station.

Expected Performance Outcome

Supports future multi-modal connections that will increase transit access in the region. Increases customers' flexibility and convenience.

Strategic Drivers

Near Term Deliverables

Metro will support design and construction efforts to integrate the Purple Line with the Metro rail system. Metro will provide engineering oversight and project management support for this MTA administered project.

Appendix E – Sustainability, Energy, Equity, and Climate Resilience

Sustainability Vision

Metro provides a sustainable transportation system that meets the needs of people, communities, and businesses in the region, and fosters social wellbeing, equity, economic prosperity, and environmental stewardship.

Sustainability Principles

- Develop and Implement an Action Plan with specific priorities, strategies, and targets to advance sustainability at Metro and in the region
- Recognize that our investments and operational decisions change lives. Make those decisions intentionally to address historical, social, environmental, and economic disparities and racial and social injustice
- Build, operate, and maintain a resilient transportation system to improve livability, the environment, equity, and access to opportunity
- Leverage the special nature of Metro's service and our unique market position to advance regional goals
- Make cost-effective and data-driven business decisions that provide Metro and its partners with the best return on its investment
- Advance the region's sustainability efforts through leading transparent and authentic collaboration with stakeholders and community partners
- Foster a culture of continual improvement through growing staff capacity and leveraging regional expertise and innovation
- Establish measurable performance indicators to track implementation and successes of Metro's strategies and actions

Sustainability at Metro

Metro is inherently sustainable – by providing efficient mobility for customers while reducing traffic congestion, pollution and greenhouse gas emissions from single occupancy vehicles. Every trip taken on Metrorail, Metrobus, and MetroAccess supports cleaner air, improves the quality of life, and benefits public health for DMV residents. As a vital transportation link that occupies and connects communities, Metro's investments and operational decisions change lives – our actions have immediate and significant impacts on mobility, health, equity, economic prosperity, and the overall social well-being of the region. That's why Metro has been taking additional action to modernize our operations and advance sustainability through our service.

Metro's vision is to become the region's trusted way to move more people safely and sustainably. From increasing ridership to further reduce regional greenhouse gas emissions, to investing in technologies that improve water and energy efficiency, to improving amenities to make services accessible to all, Metro is committed to being the DMV's primary way to achieve sustainability goals and an active part of creating healthy, livable communities.

In 2023, Metro affirmed this commitment to sustainability through its Strategic Transformation Plan: [*Your Metro, The Way Forward*](#) ("the Plan") in which key sustainability initiatives are prioritized including decarbonization, resource consumption efficiency, investments in carbon-free clean energy sources (like solar), equity through system design and employment, the transition to zero-emission vehicles, and climate resiliency. In addition, Metro's Sustainability Vision and Principles serve as the agency's guiding framework to advance social well-being, economic prosperity, and environmental stewardship in the region.

As Metro moves ahead, the Plan will serve as a guide to ensure Metro delivers what customers deserve and the region needs. Major programs are described in the following pages; keep apprised of Metro's sustainability efforts at:

<https://www.wmata.com/initiatives/sustainability/>

Decarbonization

As one of the single largest energy users in the region, Metro is an important partner for meeting regional energy and decarbonization goals. In support of Metro's greenhouse gas emissions and energy targets, Metro is taking action to reduce energy and resource consumption, increase energy efficiency, invest in carbon-free clean energy sources, and transition to zero-emission vehicles.

A strategic pathway towards decarbonization must be defined to maintain a progressive push towards regional carbon and emissions reduction. Metro is developing a decarbonization strategy to eliminate use of fossil fuels from Metro business and support robust local, regional, and federal climate goals. A net zero Metro system means everyone in the National Capital Region will have the opportunity to travel without contributing to climate change.

Zero-Emission Vehicle Program

Metro is committed to transitioning its 1,600 Metrobuses to fully zero-emission as quickly as possible. Metro's recently completed Zero-Emission Bus Transition Plan provides the path for Metro to transform its fleet, facilities, workforce, and operations.

Transitioning to a **zero-emission bus** fleet presents a further opportunity to deliver significant environmental benefits for the region and improve the overall experience for Metrobus customers. Zero-emission buses will help drive regional air quality improvements by reducing greenhouse gas and tailpipe emissions, simultaneously providing public health benefits for everyone across the Metrobus service area. Without the need for a conventional vehicle engine, Metrobus customers will also experience a more comfortable ride while both the customers and the communities served benefit from a quieter vehicle.

In FY2023, Metro broke ground on two zero-emission bus facilities at the Northern and Bladensburg Bus Garages. Both facilities will be Leadership in Energy and Environmental Design (LEED) Platinum designed – the U.S. Green Building Council's highest ranking. Integrating zero-emission infrastructure into Metro's new and existing garages aligns with efforts to accelerate its transition to zero-emission fleet.

Clean Energy Market Engagement

Metro is engaging in the energy market in a way that supports a sustainable and resilient grid, invests in carbon-free clean energy sources, and helps transition to the fleet of the future. Staff are growing skills and experience and exploring market opportunities, including clean energy and decarbonization.

Metro is partnering with electric utilities, jurisdictions, and stakeholders to secure forward-looking energy contracts for financial savings and environmental benefits. For example, in coordination with the General Services Administration (GSA), Metro secured new electricity supply contracts for D.C. and in MD that require the suppliers to provide 50 percent of the electricity from renewables (like solar and wind). These combined contracts mean 35 percent of Metro's electricity use is now carbon pollution-free, supporting Metro's transition to clean electricity.

In addition, Metro is advancing 10 MW of clean solar power through an innovative lease agreement recognized by the Rocky Mountain Institute as one of the 10 "Most Noteworthy Local Government Renewables Deals of 2020". This is the largest community solar project in the National Capital Area and one of the largest in the nation.

Solar Carports at Anacostia Station Garage (Aug 2022)

Energy Action Plan

Metro's **Energy Action Plan** defines the path to a greener, safer, more reliable transit system. By following this plan, Metro is achieving environmental goals through increased energy efficiency and is generating long-term cost savings to support responsible stewardship of its capital funding.

This Plan has three main pillars:

1. Implementation of energy audit identified capital investments;
2. Modernize design, construction, and operations; and
3. Engage dynamically in the energy market.

The Energy Action Plan includes capital investments in energy efficiency projects between now and 2025 that will realize energy and operations/maintenance cost savings.

Equity

Public transportation is a powerful and unique driver of equity. Social and racial equity are key components of the Plan, which commits additional action in addressing equity through service and employment.

As a major employer and contractor of services, Metro is improving equity in the region through career opportunities, recruitment, and supporting small, female-owned, and/or minority-owned businesses. In addition, Metro is actively working to incorporate equity into system design, including through the bus network redesign and public participation and outreach.

As a participant in the American Public Transportation Association (APTA) Racial Equity Commitment Program, Metro has pledged to make racial equity an explicit strategic priority for the agency; undertake an annual diversity, equity and inclusion climate assessment; review and analyze demographic data; put in place programs, policies, practices and policies to establish and maintain a diverse, equitable, and inclusive environment. As part of this pledge, in 2023, Metro hired its first Chief Diversity, Equity, and Inclusion Officer.

Climate Resiliency

In line with the Plan, Metro launched an effort to develop a climate resilience program to combat and adapt to climate change impacts. The program will better help us prepare and prioritize strategic investments in alignment with regional resilience planning efforts.

Innovation and Continuous Improvement

Metro facilitates an organizational culture of continual improvement and sustainable stewardship. Metro's Sustainability Lab and Sustainability Awards promote cost effective innovation and best practice adoption across the Authority. Since their inception, these two programs combined have sponsored several business case analyses, test and evaluation programs, and operational improvements and recognized more than 150 staff.

Metro has also embedded tools to support innovation and data-driven business decisions into operations. For example, Metro actively monitors its energy consumption and costs through a centralized location for all utility data enabling insight into operations and opportunities for cost savings.

In line with the Plan, Metro is committed to reducing resource consumption and advancing employee wellness and health. Recently, Metro opened three new headquarter office buildings designed and built to LEED standards. As the most widely used green building standard in the world, LEED helps Metro to create healthy, enjoyable workspaces for employees, improve building performance and resource efficiency, and be a good neighbor in our community.

THIS PAGE INTENTIONALLY LEFT BLANK

Appendix F – Financial Standards

Metro's Financial Standards can be grouped into three major areas: general, business planning, and debt policy. The purpose of the general standards is to ensure that Metro prudently manages its daily financial operations, including banking services, investments and risk management to maintain adequate liquidity and appropriate cash reserves.

The business planning directives from the General Manager provide management with a set of parameters for developing the upcoming year's budget and other longer-term financial plans, as well as establishing future business targets for management to achieve.

The debt policy establishes parameters that govern the incurrence of Metro Debt and ensure that debt issuances are based on financial parameters that are similar or more conservative than those that would be placed on Metro by the financial marketplace. Actual debt covenants may differ from these standards, and in accordance with the debt policy, the actual covenants will be disclosed in any Board resolution approving a debt issuance.

Also, this appendix explains how Metro allocates state and local funding support among the jurisdictions.

Financial Standards – General

GAAP

- Complete and accurate accounting records are maintained in accordance with accounting principles generally accepted in the United States of America (US GAAP) as applicable to governmental entities. The standard setting body establishing governmental accounting and financial reporting standards is the Government Accounting Standards Board

Revenue and Expenditure Recognition

- Revenues are recognized in the period that they are earned, and expenses are recognized in the period in which they are incurred. Metro distinguishes between operating and non-operating revenues and expenses in its financial statements
- Operating revenues, which do not include state or local operating subsidy contributions or federal operating grants, are primarily composed of passenger fares and parking fees, which together

represented 79 percent of operating revenues in FY2022

Fiscal Year

- The fiscal year-end for financial reporting purposes is June 30th of each year. The Board approves the budget for each fiscal year by June 30th of the previous year

Annual Comprehensive Financial Report (ACFR)

- An independent certified public accounting firm performs an audit of Metro's financial statements. Metro's goal is to receive an unmodified ("clean") opinion on its financial statements and to receive the Government Finance Officers Association (GFOA) award for excellence in financial reporting for its ACFR

Other Financial Policies and Guidelines

- Funds are invested within the guidelines of the Board's approved investment policies and in compliance with the investment guidelines in WMATA's Compact
- In accordance with Board Resolution No. 81-36, designated Metro officials are empowered to open, close, or authorize changes to accounts and are authorized to appoint individuals as official signatories for financial accounts
- An annual actuarial analysis is performed on all Metro-administered pension plans. Based on the results of such analysis, Metro makes contributions as required in agreement with the terms of each plan
- Appropriate insurance coverage is maintained to mitigate the risk of material loss. For self-insured retentions, Metro records the liabilities, including losses incurred but not reported, at 100 percent of the net present value
- The budget includes the operating and capital resources necessary to implement the policy directions set by the Board. The budget is prepared in a fashion to clearly describe the projects and programs for the period

- WMATA engages in regional long-range transportation planning for the Washington metropolitan area in conjunction with the National Capital Region Transportation Planning Board (TPB) and other jurisdictional partners
- Staff provide transit system inputs to TPB for the Constrained Long-Range Plan (CLRP) and identify changes affecting the major financial assumptions of the plan and progress toward the implementation of new projects and programs
- WMATA also engages in short-range transit planning for the Washington metropolitan area. Staff provide inputs to the region's six-year Transportation Improvement Program (TIP) and identify the capital investment needs to support the existing regional transit system and regional service expansion
- The Office of Inspector General develops an annual work plan each year. The Board of Directors and WMATA's Senior Executive Team provide input on the work plan, which covers audits and evaluations. Furthermore, finalized complete audit and evaluation reports are submitted to the Board via the Executive Committee
- Recommendations for improvements are based on audits and evaluations performed by the Inspector General's office. Audits are performed in accordance with Government Auditing Standards, while evaluations are performed in accordance with the Association of Inspectors General (AIG) *Principles and Standards for Offices of Inspector General* (Green Book). These recommendations, management corrective action plans, and progress toward implementation are reported quarterly or as needed to the Board by the Inspector General. Semi-annual reports provide an overview of the Office of Inspector General's audits, evaluations and investigations for that period. The reports are provided to the Board and significant stakeholders identifying work performed, results and recommendations
- The Board has adopted fare policy principals and reviews the fares on a regular cycle. Management may propose fare modifications to achieve transit ridership improvements, maintain financial sustainability or support the other goals defined in Metro's fare policy principles.
- Service plan assumptions are based on demonstrated needs as defined through short-range planning
- Capital programs are funded according to the terms of the Capital Funding Agreement (CFA), laws, regulations and discretionary procedures approved by the Board. The capital program covers Metro's assets, including major transportation projects, and is included in each annual budget
- From time to time, Metro applies for and receives discretionary federal and state funding. Discretionary funding is requested when projects or programs may be competitive for receiving an award. Discretionary funding levels are estimated based on federal and state criteria, and the likelihood of obtaining approvals

Financial Standards – Debt Policy

- Metro may not enter into a debt or financing arrangement unless the transaction is in compliance with all applicable provisions of WMATA's Compact
- Pursuant to WMATA's Compact (Article IX paragraph 27), Metro may borrow money in pursuit of its mission. All such bonds and evidences of indebtedness are authorized by resolution of the Board and are payable solely out of the revenues of Metro. The bonds and other debt obligations of Metro, except as may be otherwise provided in the indenture under which they are issued, are direct and general obligations of Metro and the full faith and credit of Metro are pledged for the prompt payment of the debt service
- There is no dollar borrowing limit set in WMATA's Compact
- Long-term debt may be included in the budget or long-range plans; however, no such debt can be incurred without the specific approval of the Board
- The average life of debt instruments is matched to the average economic lives of the assets financed
- Reserve funds that may be required by the financial markets for each debt issuance are maintained. Cash and securities, insurance or surety bonds may

Financial Standards – Business Planning

- Passenger revenue forecasts are derived from historical ridership and revenue trends as well as forecasts of regional growth in population and employment. Since ridership may be affected by future fare policy changes, the impacts on ridership and average fare forecasts are based on conservative estimates

fund these reserves. For financial planning purposes, reserve requirements are included in the face value of debt issued

- Further guidelines beyond the Compact are included in the Board’s annual adopted Debt Management Policy, which reviews and provides additional guidance for the use of debt for financing the Authority’s infrastructure, capital projects and operational needs each fiscal year. The Debt Management Policy principles (a) identify efficient use of debt, (b) provide for timely debt service payments, and (c) balance the cost of capital with high credit ratings and access to capital markets

Allocation of State and Local Support

State and local funds to support Metro’s annual operating and capital budgets are based on Board-approved subsidy calculations described below.

The operating budget subsidy is allocated to the jurisdictional funding partners using six subsidy allocation formulas:

1. Regional bus subsidy allocation
2. Non-regional bus subsidy allocation
3. Rail maximum fare subsidy allocation
4. Rail base subsidy allocation
5. Paratransit subsidy allocation
6. Debt service allocation

Formulas 1 and 2: Regional and Non-Regional Bus Subsidy Allocations

The Metrobus subsidy is allocated using two distribution formulas. All bus routes are classified as being either regional or non-regional, based on route characteristics.

Regional bus routes generally provide transportation between jurisdictions. A route may also be classified as regional if it serves major activity centers that operate on major arterial streets and carry high volumes of riders in one or multiple jurisdictions. The following criteria, based on Board approved resolutions, are used in the classification of bus routes:

- Inter-jurisdictional routes are defined as regional. Defining characteristics of inter-jurisdictional routes:
 - Cross a jurisdictional (independent city, county, state) boundary

- Penetrate at least two jurisdictions by more than one-half mile in each, and
- Operate “open door” (allows boarding and alighting) over at least a portion of the line in two or more jurisdictions
- If a route does not qualify as regional under the inter-jurisdictional definition, then it must meet at least two of the following three criteria to be regional:
 - Arterial Streets: Operates for a considerable distance on an arterial street and a substantial portion (usually a majority) of riders use stops on the arterial street. Routes that operate for a short distance on an arterial incidental to their service area are not included
 - Regional Activity Center: Serves one or more regional activity centers. A conservative definition of regional activity centers is used, including only those where there is virtually universal agreement as to their regional character. Routes connecting to Metrorail stations, but that do not directly serve any regional activity center, are not considered to be regional
 - Cost Effectiveness: 30 or more boardings per platform hour

Routes not meeting the criteria described above are classified as non-regional. Regional and non-regional bus subsidies are allocated to the jurisdictions using the following formulas.

- Regional Bus Subsidy Allocation: The distribution of regional bus subsidy to the jurisdictions is based on a weighted, four-factor formula in the following proportions:

1. Density weighted population	25%
2. Revenue hours	25%
3. Revenue miles	35%
4. Average weekday ridership	15%

Density weighted population for each jurisdiction is determined by taking the average of:

- the jurisdiction’s share of the urbanized population in the compact area
- the jurisdiction’s share of “density weighted” population (i.e. population times density)

The revenue hours factor is determined by taking the annual regional revenue hours assigned to each jurisdiction divided by the total regional revenue

hours. The revenue miles factor is determined by dividing total annual regional revenue miles assigned to each jurisdiction by the total regional revenue miles. Ridership used is the average weekday ridership on regional buses by residents of each jurisdiction based on the Metrobus Passenger Survey.

- **Non-Regional Bus Subsidy Allocation:** The distribution of non-regional bus subsidy to the jurisdictions is computed as follows:
 1. Identify the cost of all Metrobus service, regional and non-regional
 2. Identify the costs which would accrue for regional Metrobus service if no non-regional bus service were provided
 3. Determine the costs of non-regional service by subtracting the regional Metrobus costs, as calculated in step two, from the costs of all Metrobus service
 4. Divide the costs of non-regional service as computed in step three by total platform hours for non-regional service
 5. Identify the non-regional platform hours for each jurisdiction
 6. Multiply the platform hours for each jurisdiction by the hourly rate
 7. Determine the revenue of the non-regional service for each jurisdiction
 8. Subtract the revenue as determined in step seven from the costs of step six

Formulas 3 and 4: Rail Maximum Fare and Base Subsidy Allocations

The rail subsidy consists of two components: the maximum fare component and the base rail component. The total maximum fare subsidy is deducted from the total rail subsidy, and the result is allocated using the base subsidy formula.

- **Maximum Fare Subsidy Allocation:** The maximum fare portion of the rail subsidy is designed to recognize the “taper” and “cap” features of the Metrorail fare structure. The taper feature is reflected in the diminishing cost per mile for trips greater than six miles, and the cap is reflected in the maximum fare on rail. The subsidy for the maximum fare is calculated as the difference between the regular fare that would have been paid if the taper and cap features were not available, and the actual fare paid with the taper and cap

- Once the maximum fare subsidy is calculated, the benefiting jurisdictions are allocated one-half the calculated amount, based on the percent of riders from the individual jurisdiction who benefit from the taper and cap. These percentages are calculated from the data taken from the Metrorail Passenger Survey. The remaining half of the maximum fare subsidy is incorporated into the rail base subsidy
- **Rail Base Subsidy Allocation.** The base subsidy allocation for Metrorail service is based on three elements in equal proportions:

1. Density weighted population	33.3%
2. Number of rail stations	33.3%
3. Average weekly ridership	33.3%

Density weighted population is the same for the regional bus subsidy allocation as it is for the rail base subsidy allocation. The rail stations factor is calculated by taking the number of stations, or portions of stations, assigned to each jurisdiction, divided by the total number of stations in the system. Ridership is calculated by taking the average weekday ridership in each jurisdiction as determined by the rail passenger survey. Only persons who reside in the compact area are included in the distribution.

Formula 5: Paratransit Subsidy Allocation

The paratransit subsidy is allocated to the jurisdictions using a two-factor formula with sub-allocations used for the Virginia jurisdictions.

1. **Direct Costs** - The contract carriers’ actual per trip, reservation and eligibility charges will be allocated directly to the jurisdictions
2. **Overhead Costs** - All other (non-direct) costs of the paratransit program will be allocated in proportion to the direct costs

Virginia sub-allocations of direct costs require that per trip charges be adjusted to reflect the average time of trips provided for each jurisdiction. Overhead costs assigned to Virginia jurisdictions will be sub-allocated based on the direct cost allocation as calculated above.

Formula 6: Debt Service Allocation

The allocation of local match and system performance funding is determined in accordance with the CFA. Any debt service from Gross Revenue Transit Bonds is allocated to the jurisdictions based on one or more jurisdiction’s request that Metro issue debt in an amount

equal to the jurisdiction's share of local match. Any jurisdiction that opts for debt in lieu of making cash payment of its capital subsidy agrees to pay the debt service for the term of the debt. Gross Revenue Transit Bond debt service for a given debt issue is allocated only to each jurisdiction that opted into such debt and shall be paid in accordance with the CFA, as amended.

Dedicated Revenue Bonds debt service is paid by WMATA from available, non-restricted dedicated revenue proceeds.

FY2024 Operating Subsidy

An alternate formula was approved by the Board of Directors in FY2020 to comply with Dedicated Funding legislation reflecting a base subsidy component and a legislatively excluded subsidy component. This alternate formula will continue to be applied going forward.

A mandated growth cap of three percent was applied to WMATA's base subsidy, as well as to total individual contributions from the District of Columbia, the State of Maryland and the Commonwealth of Virginia. For the State of Maryland and the Commonwealth of Virginia, the intrastate subsidy allocations are based on a jurisdiction's percentage share of the applicable Signatory's amount using the Board approved subsidy formula.

Costs legislatively excluded from the three percent cap on Operating Subsidy growth include costs for any service, equipment, or facility required by state or federal law such as paratransit cost increases, occupational safety and health cost increases, legal disputes (including litigation) and any capital project approved by the WMATA Board. The legislatively excluded subsidy cost is allocated to all jurisdictions, per the applicable formula.

THIS PAGE INTENTIONALLY LEFT BLANK

Appendix G – Debt Service

Debt Policy/Borrowing Powers

WMATA's Compact allows the Authority to borrow money in pursuit of its mission. All such bonds and evidences of indebtedness are payable solely out of Metro's properties and revenues. The bonds and other obligations, except as may be otherwise provided in the indentures under which they were issued, are direct and general obligations of the Authority. The full faith and credit of Metro are pledged for the prompt payment of the debt service.

Metro is required to make semi-annual payments of principal and interest on each series of bonds. There are certain covenants associated with these outstanding bonds with which the Authority must comply. The most significant are:

- Metro is to punctually pay principal and interest according to provisions in the bond document
- Metro will use its best efforts to operate the transit system properly and in a sound and economical manner and to maintain, preserve, and keep in good repair, working order and condition
- Metro must maintain insurance or self-insurance coverage for assets and operations of the transit system at all times

Gross Revenue Transit Bonds

2017A Bonds

In July 2017 WMATA issued bonds (2017A-1) as an advance refunding of the series 2009A bonds, and advance crossover refunding bonds (2017A-2) for the 2009B series bonds. The 2009A and the 2009B series bonds were refunded and retired on July 1, 2019.

2017B Bonds

On August 17, 2017 Metro issued new money Gross Revenue Transit Bonds, series 2017-B bonds in the principal amount of \$496.5 million. Net bond proceeds with premiums totaled \$588.9 million. The bonds provide for semi-annual payments of interest and annual payments of principal, with final maturity in July 2042. \$21.7 million was placed in a capitalized interest fund to service interest on the debt through July 2018. The annual jurisdictional debt service payment on the bonds is \$35.8 million. One jurisdiction fully opted out of the bond issuance and two jurisdictions partially opted out of the

bond issuance. In all, the three jurisdictions provided \$78.7 million in funding to bring the total capital project fund related to the bond issuance to \$575.2 million.

2018 Bonds

On December 18, 2018 Metro issued new money Gross Revenue Transit Bonds, series 2018 bonds in the principal amount of \$239.9 million. Net bond proceeds with premiums totaled \$269.1 million. The bonds provide for semi-annual payments of interest and annual payments of principal, with final maturity in July 2043. \$6.4 million was placed in a capitalized interest fund to service interest on the debt through July 2019. The annual jurisdictional debt service payment on the bonds is approximately \$17.3 million. Five jurisdictions fully opted out of the bond issuance.

Dedicated Revenue Bonds

2020A Bonds

On June 11, 2020 Metro issued new money Dedicated Revenue Bonds. This sale, in the principal amount of \$545.0 million, was the inaugural issue under the Dedicated Capital Funding Revenues credit. Net bond proceeds with premium totaled \$690.7 million. The bonds provide for semi-annual payments of interest and annual payments of principal, with final maturity in July 2045. \$55.4 million was placed in a capitalized interest fund to service interest on the debt through July 2022. Principal payments are deferred until July 2023. The annual debt service payment on the bonds is \$39.1 million. Debt service is paid from unrestricted dedicated capital funding revenues proceeds.

2021A Bonds

On May 25, 2021 Metro issued new money Dedicated Revenue Bonds. This sale, in the principal amount of \$784.4 million, was issued under the Dedicated Capital Funding Revenues credit. Net bond proceeds with premium totaled \$970.0 million. The bonds provide for semi-annual payments of interest and annual payments of principal, with final maturity in July 2046. Principal payments are deferred until July 2023, at which time the level annual debt service payment on the bonds is \$52.0 million. Debt service is paid from unrestricted dedicated capital funding revenues proceeds.

2023A Bonds

On March 14, 2023, Metro issued new money Dedicated Revenue Bonds. This sale, in the principal amount of \$392 million, was issued under the Dedicated Capital Funding Revenues credit. Net bond proceeds with

premium totaled \$427.2 million. The bonds provide for semi-annual payments of interest and annual payments of principal, with final maturity in July 2051. Principal payments are deferred until July 2025, at which time the level annual debt service payment on the bonds is \$25.8 million. Debt service is paid from unrestricted Dedicated Capital Funding Revenues proceeds.

Lines of Credit

Metro has access of up to \$500 million in short-term lines of credit. The lines of credit support Metro's capital program and manage cash flow needs. The lines of credit may be renewed for a period of up to two years.

GROSS REVENUE TRANSIT BONDS		FY2024 JURISDICTION FUNDING

Appendix H – Operating Statistics

Metrobus Revenue Vehicle Fleet Management Plan

The Metrobus Revenue Vehicle Fleet Management Plan is a statement of the processes and practices by which Metro establishes its current and projected Metrobus revenue vehicle fleet and facilities requirements. It includes a description of revenue service planned to accommodate Metrobus ridership demand, service adjustments, as well as an assessment and projection of needs for Metrobus maintenance programs and facilities.

METROBUS OPERATING STATISTICS

		FY2021 Actual	FY2022 Actual	FY2023 Budget	FY2024 Budget
STATISTICS	Bus Miles (000s) ¹	37,920	48,274	49,843	49,556
	Revenue Bus Miles (000s) ¹	29,068	37,795	38,220	38,528
	Passengers (000s)	52,097	80,790	79,269	105,640
	Total Active Fleet	1,583	1,572	1,588	1,571
	Passenger Revenue (\$000s)	\$20,367	\$47,555	\$59,103	\$67,870
	Operating Revenue (\$000s)	\$34,581	\$49,956	\$64,846	\$80,897
	Operating Expenses (\$000s)	\$633,622	\$674,429	\$743,895	\$743,369
	Net Subsidy (\$000s) ²	\$351,184	\$334,591	\$563,796	\$566,368
RATIOS	Cost Per Bus Mile	\$16.71	\$13.97	\$14.92	\$15.00
	Passengers Per Bus (000s)	32.91	51.39	49.92	67.24
	Passengers Per Revenue Bus Mile	1.79	2.14	2.07	2.74
	Cost Per Passenger	\$12.16	\$8.35	\$9.38	\$7.04
	Subsidy Per Passenger	\$6.74	\$4.14	\$7.11	\$5.36
	Average Passenger Fare ³	\$0.39	\$0.59	\$0.75	\$0.64
	Percentage of Cost Recovered from Passenger Revenues ⁴	3.2%	7.1%	7.9%	9.1%
	Percentage of Cost Recovered from Operating Revenues ⁵	5.5%	7.4%	8.7%	10.9%

1. Bus miles and revenue bus miles are scheduled and not actual; FY2024 bus and revenue miles are preliminary as of June 2023

2. Net Subsidy includes Covid-related federal relief funds in FY2021 - FY2024

3. Average fare is lower than base fare due to the impact of the transfer discount, senior, low-income and student discounts, passes, and the temporary suspension of fare collection between March 2020 and January 2021 and fare evasion

4. Farebox Recovery ratio

5. Cost Recovery ratio

ACTIVE FLEET

Manufactured (End of Year)	Maximum Scheduled Fleet	Total Active Fleet
Fiscal 2017	1,281	1,583

1. Scheduled includes straight time plus overtime

2. Non-Scheduled includes overtime and special events

Regional and Non-Regional Metrobus Routes

Metrobus routes are designated as either regional or non-regional. The cost of providing Metrobus service on regional routes is allocated between all of Metro’s jurisdictions. Direct costs associated with non-regional routes are allocated to the jurisdiction receiving the benefit of the non-regional route.

The Metro Board of Directors approves the designation of regional or non-regional Metrobus routes. The factors used in making the determination of regional and non-regional routes are:

- Alignment of inter-jurisdictional routes
- Routes operating on arterial streets
- Routes that serve specific regional activity centers and
- Route cost effectiveness

Metrobus operating costs can be expressed in terms of cost per platform hour. Platform hours include both revenue and non-revenue (sometimes called “deadhead”) service, which measures the total time between a bus leaving its storage and maintenance facility and its return at the end of the day. For the FY2024 budget, the average cost per platform hour for all routes is \$173.74*. For the allocation of the FY2024 operating subsidy, the budgeted cost per platform hour for non-regional routes (which has certain overhead and administrative expenses removed) is \$129.56*.

*Average cost per platform hour for all routes and the budgeted cost per platform hour for non-regional routes calculations are based on the May 2022 Metrobus geo-distribution.

Metrorail Revenue Vehicle Fleet Management Plan

The Metrorail Revenue Vehicle Fleet Management Plan is a statement of the processes and practices by which Metro establishes its current and projected Metrorail revenue vehicle fleet size requirements and operating spare ratio. It documents how service goals are applied to existing and forecast levels of ridership to establish fleet requirements for Metrorail service, as well as how these requirements are affected by vehicle maintenance needs, expansions of the Metrorail system, and other factors affecting the operation of the system. Additionally, it documents the key challenges Metro faces in meeting its service and maintenance goals.

Rail, Bus, and MetroAccess Mean Distance Between Failure. This measure uses total vehicle mileage (whereas safety measures only use revenue miles), so the data for both mechanical incidents and miles are included in the same table.

CRIME RATE

Years	Month	Rail Crimes	Bus Crimes	Other Crimes	Total Crimes	Rail Crime Rate	Bus Crime Rate	Total Crime Rate
2020	Jul	43	10	1	54	26.8	3.2	11.1

2022	Aug	4,719,332	3,417,646	1,651,703	9,788,681
2022	Sep	5,023,358	3,130,850	1,602,626	9,756,834
2022	Oct	5,574,796	8,903,247	1,612,937	16,090,980
2022	Nov	5,907,832	8,297,327	1,546,397	15,751,556
2022	Dec	5,907,832	7,761,080	1,517,913	15,186,825

Denominator for multiple safety measures. Table lists count of vehicle revenue miles by mode and total vehicle revenue miles per month. Vehicle revenue miles are miles driven while WMATA vehicles are in revenue service (excluding miles where vehicles are not in service, such as driving from the bus depot to the beginning of a route). Note: Dec 2022 bus VRM is an estimate as of publishing.

CUSTOMER SATISFACTION

Calendar Year	Fiscal Year	Quarter	Metro rail Customer Satisfaction	Metrobus Customer Satisfaction	MetroAccess Customer Satisfaction
2020	2021	Q1	0.0%	64.0%	86.0%
2020	2021	Q2	0.0%	84.0%	92.0%
2021	2021	Q3	0.0%	88.0%	91.0%
2021	2021	Q4	91.0%	81.0%	84.0%
2021	2022	Q1	91.0%	87.0%	87.0%
2021	2022	Q2	73.0%	72.0%	82.0%
2022	2022	Q3	68.0%	64.0%	85.0%
2022	2022	Q4	69.0%	69.0%	83.0%
2022	2023	Q1	73.0%	74.0%	79.0%
2022	2023	Q2	80.0%	75.0%	78.0%

This measure is calculated quarterly, not monthly.

PERFORMANCE MEASURE DEFINITIONS

RIDERSHIP

How is it measured?

Metrorail passenger trips + Metrobus passenger boardings + MetroAccess passenger trips

Ridership is a measure of total service consumed and an indicator of value to the region. Drivers of this indicator include service quality and accessibility.

What does this mean and why is it key to our strategy?

Passenger trips are defined as follows:

- **Metrorail** reports passenger trips. A passenger trip is counted when a customer enters through a faregate. In an example where a customer transfers between two trains to complete their travel one trip is counted.
- **Metrobus** reports passenger boardings. A passenger boarding is counted via the onboard Automatic Passenger Counter (APC) when a customer boards a Metrobus. In an example where a customer transfers between two Metrobuses to complete their travel two trips are counted. Metrobus totals also include shuttles* to accommodate rail station shutdowns and other track work, but does not include shuttles operated by a contracted vendor.
- **MetroAccess** reports passenger trips. A passenger traveling from an origin to a destination is counted as one passenger trip. Passengers include customers, personal care attendants (PCAs), and companions in accordance with ADA regulations.

*Metro does not include bus shuttle passenger trips in its budget or published ridership forecasts.

CUSTOMER SATISFACTION

How is it measured?

Survey respondent rating = Number of survey respondents (active riders) who marked their last Metrorail/Metrobus/MetroAccess trip as “very satisfactory” OR the second highest category in a five-point scale ÷ Total number of respondents

What does this mean and why is it key to our strategy?

Surveying customers about the quality of Metro’s service delivery provides a mechanism to continually identify those areas of the operation where actions to improve the service can maximize rider satisfaction.

Customer satisfaction is defined as the percent of customer survey respondents who rated their *last trip within a 30-day period* on Metrobus, Metrorail, or MetroAccess as a “5” or “4” in the customer satisfaction survey, with “5” denoting “very satisfied” and “1” denoting “very unsatisfied”. Metro distributes this survey through address-based sampling on a biweekly basis, and respondents must meet specific criteria to participate. Results are summarized quarterly.

METRORAIL SERVICE MISSED

How is it measured?

Percentage of service missed = Number of revenue service stops missed ÷ Number of scheduled revenue stops

What does this mean and why is it key to our strategy?

Missed Service monitors Metro’s “guarantee of service”—whether Metro is providing all the service that was scheduled and committed to. It helps to offer more clarity on the relative magnitude of various operational issues on daily rail operation, for example, operator or railcar shortage, and incident response strategy. It is an important indicator of transit service quality and productivity. Those missed stops can have a negative impact on the perceived reliability of rail service and can result in longer customer wait times, missed transfers, etc. which lead to customer inconvenience and dissatisfaction.

METROBUS SERVICE MISSED

How is it measured?

Percentage of service delivered = Number of trips missed ÷ Number of scheduled trips

What does this mean and why is it key to our strategy?

Metrobus service missed tells us whether Metro is meeting its level of service that we have committed to our customers through the budget and scheduling process. It is also a key measure of reliability; when trips are missed, customers experience much longer wait times than expected and it reduces the overall confidence in the system. Monitoring whether service was delivered helps Metro understand where there are issues with staffing, planning and scheduling, bus availability and reliability, and service interruptions.

METROBUS PREDICTION AVAILABILITY

How is it measured?

Percentage prediction availability = Number of trips with real time prediction made available in GTFS-RT ÷ Number of scheduled trips

What does this mean and why is it key to our strategy?

Prediction availability communicates how likely it is that Metro is using real time location information to generate the predicted arrival times of buses that customers see on BusETA or other third-party trip planning applications. When real time location information is not available, applications will either provide no prediction information for the bus or substitute the scheduled arrival time. Both of these alternatives are far less reliable than real time data and negatively impact the customer experience through extended wait times and lack of clarity on when their next bus will arrive.

Predictions can be unavailable for two main reasons:

1. Missed Trips: No real time location information was provided because service was cut for the scheduled trip
2. Bus Communication Failure: No real time location information was provided because of a technical issue with the bus. In these cases, service is provided, but customers do not have real time location information to track it.

METROBUS PREDICTION ACCURACY

How is it measured?

Percentage prediction accuracy = Number of accurate predictions ÷ Number of predictions

What does this mean and why is it key to our strategy?

Bus Prediction Accuracy measures the quality of Metro's real time arrival prediction data that customers use to plan their trips through BusETA and other third-party trip planning applications. The predictions are compared to the actual time the bus arrived at the stop according to Metro internal records.

Which predictions are evaluated?

To make the measure as customer focused as possible, only the most meaningful predictions are evaluated. Buses begin making predictions well before they begin service on a particular trip and can make predictions for stops hours before they are scheduled to arrive. Customers typically only use prediction information to plan in the very near term and are mostly only looking for the next arrival. To account for this, predictions made well in advance are thrown out, and only predictions made within 30 minutes of the bus's arrival are evaluated.

What is considered accurate?

Bus Prediction Accuracy is measured by comparing the predicted time of arrival to the actual time of arrival. A perfect prediction is when the predicted arrival time and the actual arrival time match exactly, but it is rare for a predicted and actual arrival to match to the second. The goal is not to be perfect, but to provide customers with enough good information so they can effectively plan their trips and are not waiting long periods of time for the bus. Therefore, the

measure creates a range of allowable error within which a prediction is considered accurate, and if the prediction falls outside that range, it is considered inaccurate.

The accuracy range follows two key principles:

1. **As the bus gets closer to the stop, predictions should become more accurate.** Errors have greater customer impact when the bus is closer to the stop. Customers are more likely to use these predictions and a two minute difference has a greater impact if the bus is five minutes away than when the bus is 25 minutes away
2. **A bus arriving before its predicted arrival (Early) is worse than a bus arriving after its predicted arrival (Late).** If customers follow predictions exactly, they will miss their bus if the bus was earlier than its prediction.

Using these principles, the following time ranges are used to determine whether a prediction is accurate:

Time before arrival	Lower Bound (Early)	Upper Bound (Late)
0-3 mins	-1 min	1 min
3-6 mins	-1.5 mins	2 mins
6-12 mins	-2.5 mins	3.5 mins
12-30 mins	-4 mins	6 mins

Prediction Accuracy is the number of predictions that fall within these ranges out of all predictions made within 30 minutes of a bus’s arrival.

METRO RAIL CUSTOMER ON-TIME PERFORMANCE (MYTRIP TIME)

How is it measured?

Percentage of customer journeys completed on time = Number of journeys completed on time ÷ Total number of journeys

What does this mean and why is it key to our strategy?

Rail Customer On-Time Performance (OTP) communicates the reliability of rail service, which is a key driver of customer satisfaction. OTP measures the percentage of customers who complete their journey within the maximum amount of time it should take per WMATA service standards. The maximum time is equal to the train run-time + a headway (scheduled train frequency) + several minutes to walk between the fare gates and platform. These standards vary by line, time of day, and day of the week. Actual journey time is calculated from the time a customer taps a SmarTrip® card to enter the system, to the time when the SmarTrip® card is tapped to exit.

Factors that can affect OTP include: railcar availability, fare gate availability, elevator and escalator availability, infrastructure conditions, speed restrictions, single-tracking around scheduled track work, railcar delays (e.g., doors), or delays caused by sick passengers.

METROBUS ON-TIME PERFORMANCE

How is it measured?

Percentage of bus service delivered on-time = Number of timepoints delivered on time based on a window of 2 minutes early and 7 minutes late ÷ Total number of timepoints delivered

“Timepoints” are major stops on a bus route that are used to create bus schedules. Note that this metric only includes service delivered and does not include missed trips.

What does this mean and why is it key to our strategy?

Bus on-time performance (OTP) communicates the reliability of bus service, which is a key driver of customer satisfaction and ridership.

Factors that can affect OTP include: traffic congestion, detours, inclement weather, scheduling, vehicle reliability, operational behavior, or delays caused by the public (crime, protests, medical emergencies, etc.)

METROACCESS ON-TIME PICKUP PERFORMANCE

How is it measured?

Adherence to Schedule = Number of vehicle arrivals at the pick-up location within the 30-minute on-time widow ÷ Total stops

What does this mean and why is it key to our strategy?

This indicator illustrates how closely MetroAccess adheres to customer pick-up windows on a system-wide basis. MetroAccess customers schedule trips at least one day in advance, and are given a 30-minute pick-up window. MetroAccess on-time pick-up performance is essential to delivering quality service to the customer.

ELEVATOR / ESCALATOR AVAILABILITY

How is it measured?

In-service percentage = Hours in service ÷ Operating hours

Hours in service = Operating hours – Hours out of service

Operating hours = Operating hours per unit x number of units

What does this mean and why is it key to our strategy?

Escalator/elevator availability is a key component of customer satisfaction with Metrorail service. This measure communicates system-wide escalator and elevator performance (at all stations over the course of the day) and will vary from an individual customer's experience.

Availability is the percentage of time that Metrorail escalators or elevators in stations and parking garages are in service during operating hours.

Customers access Metrorail stations via escalators to the train platform, while elevators provide an accessible path of travel for persons with disabilities, seniors, customers with strollers, and travelers carrying luggage.

An out-of-service escalator requires walking up or down a stopped escalator, which can add to travel time and may make stations inaccessible to some customers. When an elevator is out of service, Metro is required to provide alternative services which may include shuttle bus service to another station.

METRO RAIL CROWDING

How is it measured?

Percentage of passenger time spent on vehicles exceeding crowding guidelines = Number of crowded passenger minutes ÷ Total number of passenger minutes

What does this mean and why is it key to our strategy?

Crowding is a key driver of customer satisfaction with Metrorail service. Crowding measures the percentage of passenger time spent on vehicles that exceed crowding guidelines per WMATA service standards of 100 passengers per car. In FY23, WMATA returned to the pre-pandemic definition of crowding.

Crowding informs decision making regarding asset investments, service plans and scheduling.

Factors that can affect crowding include: service reliability, missed trips, insufficient schedule, or unusual demand.

METROBUS CROWDING

How is it measured?

Percentage of passenger time spent on vehicles exceeding crowding guidelines = Number of crowded passenger minutes ÷ Total number of passenger minutes

What does this mean and why is it key to our strategy?

Crowding is a key driver of customer satisfaction with Metrobus service. Crowding measures the percentage of passenger time spent on vehicles that exceed crowding guidelines per WMATA service standards of 120% of seated capacity during peak for BRT, framework, and coverage routes, 100% off peak and at all times on commuter routes. In FY23, WMATA returned to the pre-pandemic definition of crowding.

Crowding informs decision making regarding asset investments, service plans and scheduling. Factors that can affect crowding include: service reliability, missed trips insufficient schedule, or unusual demand.

Note: Prior to the adoption of the Metrobus Service Guidelines in December 2020, crowding guidelines were 120% of seated load for all services except express bus during peak.

METRORAIL FLEET MEAN DISTANCE BETWEEN FAILURE

How is it measured?

Mean Distance Between Failure (MDBF) = Total railcar revenue miles ÷ Total number of failures occurring during revenue service

What does this mean and why is it key to our strategy?

The number of miles traveled before a railcar experiences a failure. Some car failures result in inconvenience or discomfort, but do not always result in a delay of service (such as hot cars).

Mean Distance Between Failure communicates the effectiveness of Metro's railcar maintenance and engineering program. Factors that influence railcar reliability are the age and design of the railcars, the amount the railcars are used, the frequency and quality of preventive maintenance, and the interaction between railcars and the track.

METROBUS FLEET MEAN DISTANCE BETWEEN FAILURE

How is it measured?

Mean Distance Between Failures (MDBF) = Total bus mileage ÷ Total number of bus mechanical failures occurring during revenue service

In other words, the average number of miles a bus drives before it experiences a mechanical failure that interrupts revenue service.

What does this mean and why is it key to our strategy?

Mean Distance Between Failures is used to monitor trends in vehicle breakdowns that cause buses to go out of service in order to plan corrective actions. Factors that influence bus fleet reliability include vehicle age, quality of maintenance program, original vehicle quality, and road conditions such as inclement weather and road construction.

METROACCESS FLEET MEAN DISTANCE BETWEEN FAILURE

How is it measured?

Mean Distance Between Failures (MDBF) = Total MetroAccess vehicle odometer miles ÷ Total number of mechanical failures occurring during revenue service

What does this mean and why is it key to our strategy?

The number of total miles traveled before a mechanical breakdown requiring the vehicle to be removed from service or deviate from the schedule.

Mean Distance Between Failures is used to monitor trends in vehicle breakdowns that cause vans or sedans to go out of service and to plan corrective actions. Factors that influence MetroAccess fleet reliability include vehicle age, quality of maintenance program, original vehicle quality, and road conditions affected by inclement weather and road construction.

PART 1 CRIME RATE

How is it measured?

Part I Crime Rate = Number of Part 1 Crimes ÷ (Number of passengers ÷ 1,000,000)

In other words, the number of crimes per million passenger trips

What does this mean and why is it key to our strategy?

The FBI's Uniform Crime Reporting program classifies the following as Part 1 Crimes: Criminal Homicide, Forcible Rape, Robbery, Aggravated Assault, Burglary, Larceny, Motor Vehicle Theft, and Arson. To calculate Metro's Part 1 Crime Rate, MTPD looks at these crimes committed in the following areas: 1) on buses and bus stops, 2) on trains and in rail stations, 3) at Metro-owned parking lots, 4) at other Metro Facilities such as rail yards, bus divisions, headquarters, and MetroAccess vehicles, and 5) in a non-WMATA location but involving WMATA or MTPD property.

This measure provides an indicator of the perception of safety and security customers experience when traveling the Metro system. Increases or decreases in crime can influence whether customers feel safe in the system.

SAFETY EVENT RATE

How is it measured?

Safety Event Rate = Number of safety events that meet "major event" National Transit Database (NTD) reporting criteria ÷ (Total vehicle revenue miles ÷ 10 million)

In other words, the number of reportable safety events per 10 million revenue miles

What does this mean and why is it key to our strategy?

Safety events that are included in this measure are: collisions, fires, derailments, hazardous material spills, acts of God, and a few other uncommon safety occurrences.

Customer and employee safety is the highest priority for Metro and a key measure of quality service. Customers expect a safe and reliable ride each day. The safety event rate is an indicator of how well the service is meeting this safety objective.

CUSTOMER INJURY RATE

How is it measured?

Customer injury rate = Number of customer injuries reported to the National Transit Database (NTD) ÷ (Total vehicle revenue miles ÷ 10 million)

In other words, the number of customer injuries per ten million miles driven while vehicles are in revenue service

What does this mean and why is it key to our strategy?

The customer injury rate is based on National Transit Database (NTD) Reporting criteria. This measure includes customers injured during Metro operations when the injury requires immediate medical attention away from the scene.

Customer safety is the highest priority for Metro and a key measure of quality service. Customers expect a safe and reliable ride each day. The customer injury rate is an indicator of how well the service is meeting this safety objective.

CUSTOMER / EMPLOYEE FATALITY RATE

How is it measured?

Fatality Rate = Number of fatalities reported to the National Transit Database (NTD) ÷ (Total vehicle revenue miles ÷ 10 million)

In other words, the number of fatalities per ten million miles driven while vehicles are in revenue service

What does this mean and why is it key to our strategy?

The Federal Transit Agency's Public Transportation Agency Safety Plan identified the fatality rate as a key safety performance measure. Reducing the number of fatalities is a top priority for all transit agencies. This measure includes customer and employee fatalities due to Metro operations and excludes those from suicide, homicide, trespassers, illnesses, drug overdoses, or other natural causes.

NTD-REPORTABLE ASSAULT RATE

How is it measured?

NTD-Reportable Assault Rate = Number of employee and customer assaults reported to the National Transit Database (NTD) ÷ (Total vehicle revenue miles ÷ 10 million)

In other words, the number of reportable assaults per ten million miles driven while vehicles are in revenue service

What does this mean and why is it key to our strategy?

The Federal Transit Administration criteria for reporting assaults is any unlawful physical assault upon an employee or customer of Metro while on Metro property that results in immediate medical attention away from the scene. These are different criteria than those used by OSHA in the employee injury rate.

Customer and employee safety is the highest priority for Metro and a key measure of quality service. Customers expect a safe and reliable ride each day. The assault rate is an indicator of how well the service is meeting this safety objective.

EMPLOYEE INJURY RATE

How is it measured?

Employee injury rate = Number of employee injuries reported to the Department of Labor ÷ (Total work hours ÷ 200,000)

200,000 hours is equivalent to 100 employees working full-time for one year. In other words: the number of employees injured per 100 employees

What does this mean and why is it key to our strategy?

An employee injury is recorded based on OSHA 1904 Recordkeeping Criteria, when the injury is (a) work related; and, (b) one or more of the following happens to the employee: 1) fatality, 2) injury or illness that results in loss of consciousness, days away from work, restricted work, or job transfer 3) receives medical treatment above first aid, 4) diagnosed case of cancer, chronic irreversible diseases, fractured or cracked bones or teeth, and punctured eardrums, 5) special cases involving needlesticks and sharps injuries, medical removal, hearing loss, and tuberculosis.

Per the Occupational Safety and Health Act, employers are obligated to provide a workplace free of recognized hazards which may cause employee death or serious injury. OSHA recordable injuries are a key indicator of how safe employees are in the workplace.

Appendix J – Board Budget Resolution

Budget Resolution

April 14, 2023

For attachments to this resolution please see:

<https://www.wmata.com/about/board/meetings/board-pdfs/upload/3A-FY2024-Budget-Adoption-Title-VI-and-Public-Input-Report-FINALIZED.pdf#page=9>

Presented and Adopted: April 14, 2023

SUBJECT: ADOPTION OF FISCAL YEAR 2024 OPERATING AND CAPITAL BUDGETS, FARE AND SERVICE CHANGES, AND FISCAL YEAR 2024-2029 CAPITAL IMPROVEMENT PROGRAM, AND APPROVAL OF TITLE VI EQUITY ANALYSIS AND PUBLIC PARTICIPATION REPORT

2023-09

**RESOLUTION
OF THE
BOARD OF DIRECTORS
OF THE
WASHINGTON METROPOLITAN AREA TRANSIT AUTHORITY**

WHEREAS, Compact Sections 23 and 24 require the Board of Directors to adopt a balanced capital budget and a balanced operating budget each year; and

WHEREAS, WMATA continues to provide transit service at increasing service levels in response to increasing ridership demands; and

WHEREAS, The Board has reviewed and considered the General Manager and Chief Executive Officer's proposed fiscal year (FY) 2024 operating and capital budgets and FY 2024-2029 Capital Improvement Program (CIP); and

WHEREAS, Pursuant to the Public Participation Plan, the Board of Directors held four public hearings on March 6, 7, 8, and 10, 2023 (one was held in an area served by the Northern Virginia Transportation Commission pursuant to VA Acts of Assembly Ch. 854 Enact. Cl. 8), on the proposed FY 2024 operating and capital budgets, the fare and service changes, and the FY 2024-2029 CIP as well as the public outreach necessary for the Title VI equity analysis; and

WHEREAS, The results of a new rail passenger ridership survey required by Federal Transit Administration Circular 4702.1B and Board Resolutions 95-14 and 98-27 were received in March 2023; and

WHEREAS, Following the public hearings, staff prepared a Public Participation Report (Attachment A) and Title VI equity analysis (Attachment B) on the proposed service and fare changes using the data from the new ridership survey, which showed that the proposed changes do not result in a disparate impact on minority populations or a disproportionate burden on low-income populations; and

**Motioned by Mr. Letourneau, seconded by Dr. Loh
Ayes: 8- Mr. Smedberg, Ms. Babers, Mr. Drummer, Ms. Kline, Mr. Letourneau, Dr. Loh, Mr. McAndrew, and Ms. Martin-Proctor**

WHEREAS, The Passenger Rail Investment and Improvement Act (PRIIA) funding which was re-authorized in Sections 30019(b) and (c) of the Infrastructure Investment and Jobs Act of 2021 requires the Secretary of Transportation to use \$5 million of the PRIIA allocation to WMATA for use exclusively by WMATA's Office of Inspector General (OIG) for each fiscal year in which WMATA makes available \$5 million in non-federal funds for use exclusively by the OIG; and

WHEREAS, The WMATA Dedicated Funding Grant Agreement with the District of Columbia requires the Board to consider whether the most recent approved Federal Transit Administration indirect cost rates described in Attachment G are appropriate to apply to the capital program funded by the contributing jurisdictions; and

WHEREAS, The proposed FY 2024 capital budget includes the issuance of debt (including the issuance of bonds) as a partial funding source; and

WHEREAS, WMATA intends to reimburse itself from bond proceeds, if and when issued, for eligible expenditures on CIP projects incurred before the issuance of the bonds noted as debt in Attachment F of this resolution to the extent permitted by the Internal Revenue Code of 1986 and applicable IRS regulations;

WHEREAS, In June 2010, the Board adopted a $\frac{3}{4}$ mile zone from fixed route service for the provision of MetroAccess Service (Res. 2010-31);

NOW, THEREFORE, be it

RESOLVED, That the Board of Directors approves the Public Participation Report on the proposed FY 2024 operating and capital budgets and FY 2024-2029 Capital Improvement Program, set forth in Attachment A; and be it further

RESOLVED, That the Board of Directors approves the Title VI equity analysis set forth in Attachment B; and be it further

RESOLVED, That due to the receipt of the results of the new rail passenger ridership survey late in the jurisdictions' budget cycle, the Board of Directors directs staff to use the prior ridership survey results to compute the subsidy amounts for FY 2024; and be it further

RESOLVED, That the Board of Directors adopts the FY 2024 Operating Budget (inclusive of all operating reimbursable projects) of \$2.3 billion, with revenues, expenses, and subsidies detailed in Attachments C and D computed by: (1) taking the FY 2023 subsidy allocations and adding three percent to each Signatory's allocation; (2) allocating the Signatory amounts by calculating the jurisdiction's percentage share of the applicable Signatory's amount using the Board-approved subsidy formulae; and (3) applying the Board-approved subsidy formulae to the legislative exclusions to the three percent subsidy increase limitation; and be it further

RESOLVED, That the Board of Directors adopts the fare and service changes set forth in Attachment E; and be it further

RESOLVED, That the ¾ mile zone for the provision of MetroAccess service in Resolution 2010-31 is suspended until June 30, 2025, to freeze the existing paratransit service area as it exists and allow staff to evaluate the impact of Metrobus service changes on paratransit service; and be it further

RESOLVED, That the General Manager and Chief Executive Officer shall periodically report to the Board of Directors on the results of the FY 2024 service changes, including but not limited to, the Yellow Line turnback; and be it further

RESOLVED, That the \$2.00 charge for new SmarTrip® cards may be waived for customers without SmarTrip® cards that are enrolled into the Low Income Fare Program established in this resolution; and be it further

RESOLVED, That after the Board of Directors' approval of an acceptable Title VI equity analysis, the \$2.00 charge for new Senior SmarTrip® cards may be waived for cards issued after the effective date of the Board of Directors' approval of the Title VI equity analysis; and be it further

RESOLVED, That the Board of Directors adopts the FY 2024 capital budget of \$2.4 billion and the FY 2024-2029 Capital Improvement Program of \$14.4 billion as set forth in Attachment F; and be it further

RESOLVED, That the Board of Directors authorizes the General Manager and Chief Executive Officer, the Executive Vice President and Chief Financial Officer, or their designees to: 1) execute agreements with municipal finance professionals, including underwriters; and 2) draft preliminary bond offering documents for the issuance of tax exempt Dedicated Revenue Bonds through a negotiated sale method in a principal amount not to exceed the amount of debt contained in the adopted FY 2024 capital budget; and be it further

RESOLVED, That the Board of Directors authorizes staff to reimburse itself from bond proceeds, if and when issued, for eligible expenditures on Capital Improvement Program projects incurred before the issuance of the bonds noted as debt in Attachment F of this resolution to the extent permitted by the Internal Revenue Code of 1986 and applicable IRS regulations; and be it further

RESOLVED, That as required by Section 30019(c) of the Infrastructure Investment and Jobs Act of 2021, which amends the requirements of the Passenger Rail Infrastructure Investment Act, at least \$5 million of non-federal funds shall be provided from the operating budget for use exclusively by the Office of Inspector General in addition to any other non-federal funds necessary to match any unspent Passenger Rail Infrastructure Investment Act funds allocated for the use of the Office of the Inspector General from a prior fiscal year; and be it further

RESOLVED, That the Board of Directors approves one or more transfers in an aggregate amount not to exceed \$199.1 million of operating expenses from the FY 2024 operating budget to the FY 2024 capital budget and the use of Federal Transit Administration grant and local funds for the payment of eligible preventive maintenance expenditures so transferred; and be it further

RESOLVED, That the Board of Directors has considered the use of the most recent Federal Transit Administration-approved indirect cost rate set and directs staff to apply that indirect cost rate set as described in Attachment G to all projects, including those funded by jurisdictional capital contributions in the FY 2024 capital budget; provided, however, that if the FTA approves a different rate set during the fiscal year then that new rate set shall be used without further action of the Board of Directors so long as the new rate set does not cause an increase in the subsidy paid by any jurisdiction; and be it further

RESOLVED, That the Board of Directors authorizes the General Manager and Chief Executive Officer to reprogram up to \$10 million in capital funding to support operating revenue losses caused by service disruptions associated with major capital projects; and be it further

RESOLVED, That \$72.2 million of debt service payments resulting from the issuance of Series 2017A, 2017B, and 2018 bonds are due from and allocated to the participating jurisdictions as set forth in Attachment D; and be it further

RESOLVED, That in order to implement the FY 2024 capital budget and the FY 2024 operating budget, the General Manager and Chief Executive Officer, the Executive Vice President and Chief Financial Officer, the Executive Vice President and Chief Planning and Performance Officer or their designees are authorized to: (1) file and execute grant applications and accept grants or other federal financial assistance on behalf of WMATA for funds from the federal government and any other public or private entity regardless of whether a local match is required without further action by the Board of Directors, so long as the acceptance of such grant or other financial assistance does not result in the increase in expenditures above the approved FY 2024-2029 Capital Improvement Program or the approved FY 2024 operating budget or otherwise require approval by the Board of Directors; (2) conduct public hearings at any time during FY 2024 in furtherance of the implementation of the FY 2024-2029 Capital Improvement Program; and (3) execute and file the annual Federal Transit Administration Certifications and Assurances as a prerequisite to the submission of federal grant applications; and be it finally

RESOLVED, That to allow staff to timely apply for FY 2024 grants, this resolution shall be effective immediately.

Reviewed as to form and legal sufficiency,

Patricia Y. Lee
Executive Vice President, Chief Legal Officer,
and General Counsel

WMATA File Structure Nos.:
4.2.2 Fiscal Year Budgets
9.12.9 Tariff/WMATA Fare Structure

Appendix K – Glossary of Terms

Accounting Basis	The accounting principles and methods appropriate for a government enterprise fund. Financial statements are prepared on the accrual basis of accounting, under which revenues and expenses are recognized when earned or incurred.
Accrual Basis	Basis of Accounting where revenues are recognized when they are measurable and earned. Expenses are recorded when incurred.
American Rescue Plan Act of 2021 (ARPA)	A law that provided economic and other relief from the Covid-19 pandemic, including \$1.9 trillion in funding for individuals, businesses, and state and local governments.
Approved Budget	The revenue and expenditure plan approved by the WMATA Board of Directors for a specific one-year period starting on July 1.
Articulated bus (Also see Slinky bus)	A bus that comprises two or more rigid sections linked by a pivoting joint (articulation) enclosed by protective bellows inside and outside and a cover plate on the floor.
Assets	Property owned by Metro which has monetary value with a future benefit.
Balanced Budget	Refers to a budget where estimated revenues are equal to or greater than estimated expenses.
Board of Directors	The Board of Directors is a 16-member body composed of eight voting and eight alternate members responsible for corporate governance of WMATA.
Bond	A written promise to pay a specified sum of money (face value) at a specified future date and the proposed means of financing them.
Bond Proceeds	Refers to additional local capital funds raised, when necessary, by issuance of revenue bonds in the municipal markets.
Budget	Refers to a financial operation embodying an estimate of revenues and expenditures for a fiscal period of 12 months or longer. This can be an operating or capital budget.
Budget Calendar	Refers to a schedule of key dates for specific milestones in the preparation and approval of a budget.

Budget Document	Refers to the official written statement and the supporting numbers prepared by the financial staff for presentation for approval by the Board.
Budget Message	Refers to the general discussion of the budget document presented in writing as an overview, usually by the head of the organization.
BudStat	Monthly meeting to discuss status of Operations' financials and procurements by office with senior leadership across Operations, Procurement and Finance departments.
Bus Shelter	A shelter for riders to wait for the bus - a canopy area with or without bench seating. In addition, the shelter includes a display case with bus information for Metrobus riders and is equipped with a trash receptacle.
Bus Stop	Refers to a stop indicated by a sign for riders to wait for the bus.
Capital Assets	Assets of a material value that have a useful life of more than one year. Also called fixed assets.
Capital Budget	The portion of the budget that provides for the funding of improvements, projects and major equipment purchases.
Capital Improvement Program	The six-year plan of capital projects to be completed by Metro.
Cash Basis	Basis of Accounting whereby revenue and expense are recorded on the books of account when received and paid, respectively, without regard to the period in which they are incurred.
Compact	Refers to interstate compact creating WMATA; this is a special type of contract or agreement between the three jurisdictions within which the organization operates.
Contingency Funds	Operating and capital funds reserved for unexpected expenditures during the fiscal year which were not addressed in the annual budget.
Coronavirus (Also see Covid-19)	Refers to a family (Coronaviridae) of large single-stranded RNA viruses that have a lipid envelope studded with club-shaped spike proteins, infect birds and many mammals including humans, and include the causative agents of MERS, SARS, and Covid-19; also, an illness caused by a coronavirus.
Coronavirus Aid, Relief, and Economic Security Act (CARES)	A law which provided an economic relief package of over \$2 trillion in 2020 to American people as protection against the public health and economic impacts of Covid-19.

Coronavirus Response and Relief Supplemental Appropriations Act of 2021 (CRRSAA)	A law which provided supplemental appropriations for Covid-19 relief which included \$14 billion allocated to support the transit industry.
Cost Allocation	Refers to a process by which indirect or common costs are distributed to multiple cost objects (i.e., job, task, or business unit) based on a prescribed basis or methodology. For example, overhead costs such as IT support are allocated to the transportation modes on a percentage basis.
Covid-19 (Also see Coronavirus)	First identified in Wuhan, China in December 2019, Covid-19 refers to a mild to severe respiratory illness caused by a coronavirus (severe acute respiratory syndrome coronavirus 2 of the genus Betacoronavirus) and is transmitted chiefly by contact with infectious material (such as respiratory droplets) or with objects or surfaces contaminated by the causative virus, and is characterized especially by fever, cough, and shortness of breath and may progress to pneumonia and respiratory failure.
DC Circulator	Refers to a bus route funded by the DC Government with support from Metro to take persons to Washington, DC's premier cultural, shopping, dining, and business destinations.
Deadhead	Refers to non-revenue time when a bus or train is not carrying revenue passengers, usually a trip from, to, or between lines, yards or garages. Usually this refers to bus or rail travel to or from the garage or yard to a terminus or station where revenue service begins or ends.
Deficit	Refers to an excess of Liabilities over Assets or Expenses over Revenue.
Department	A major organizational unit that has overall responsibility for an operation or a group of operations within a functional area.
Development and Evaluation	An initial investment into the planning, development and evaluation of potential or proposed capital projects to determine if a project is viable and should be pursued.
Division	Refers to a garage and yard facility where buses are stored, maintained, and dispatched into service.
Fairfax Connector	The bus system that runs seven days a week with service throughout Fairfax County, Virginia and to Metrorail stations on the Orange, Blue and Yellow lines, including the Pentagon.
Fare box recovery ratio	Refers to the ratio of passenger fares (including inter-agency agreements related to fares) to total operating costs.

Farecard	Refers to a paper pass used to ride Metrorail or Metrobus. Paper farecards are no longer accepted by bus or at rail faregates (as of March 2016).
Four-point Securement System	Refers to an onboard securement system for wheelchairs, three-wheel and four-wheel scooters. The system incorporates four seatbelt-type straps that attach to the frame of a mobility device as a way to keep it from moving or rolling while on the bus.
Head Sign	Refers to the sign above the front windshield of a bus describing the line number or letter, its line name, and destination.
Headway (Frequency)	Refers to time intervals between vehicles moving in the same direction on a particular route. Headway can change on a line during the day as rider demand changes.
Kiss and Ride	Refers to an area within a station where commuters are driven by private car and dropped off to board Metrobus or Metrorail.
Kneeling Bus (Also see Passenger Lift)	Refers to a feature on buses that lowers the floor to the curb or to near-curb level to make it easier for passengers to board, especially for seniors and persons with disabilities.
Layover Time (Also known as Spot Time)	Refers to time built into a schedule between arrival and departure for bus drivers to rest; minimum times are set by union contract. Layovers normally occur at each end of a route to allow for a driver's break and schedule recovery, but they may be scheduled at other points to allow for timed transfer connections.
Liability	A debt or legal obligation arising from transactions in the past which must be liquidated, renewed or refunded at a future date.
Modified Accrual Basis	An accounting method that combines accrual-basis accounting with cash-basis accounting. Modified accrual accounting recognizes revenues when they become available and measurable, and with a few exceptions, recognizes expenditures when liabilities are incurred.
NextBus	Refers to the application that uses satellite technology for Metrobus locations to track the arrival times for bus operators and customers.
Office	An organizational unit that falls under the structure of a department.
Paratransit	Refers to scheduled service for people who cannot use regular fixed-route bus service. MetroAccess uses vans and sedans to provide this service in the Washington Metropolitan area.

Park and Ride	Refers to the parking facility available for riders at Metrorail stations.
Passenger Lift (Also see Kneeling Bus)	A mechanical device, either a lift or ramp, that allows wheelchair or scooter users as well as other mobility-impaired passengers to board a bus without climbing the steps.
Peak Service	Refers to weekday a.m. and p.m. service during commute hours that carries a maximum number of passengers. For Metrorail, peak hours are defined as the time between opening and 9:30 AM in the morning, and between 3 PM and 7 PM at night.
Personnel Expenses	Refers to expenditure in the operating budget for salaries and wages paid for services performed by Metro employees as well as fringe benefits costs associated with their employment.
Platform Hours	The total scheduled time a bus spends from pull-out to pull-in at the division. Platform hours are used as a benchmark to calculate the efficiency of service by comparing "pay to platform" hours.
Programmed Reader	A machine that is attached to the fare gate/fare box where magnetic fare media can be read on Metrorail and Metrobus.
Revenue	An increase in fund assets from operational activity such as passenger fares, parking and advertising.
Revenue Bonds	A bond on which debt service is payable solely from a restricted revenue source.
Revenue Hours (Also known as Revenue Service)	Refers to all scheduled time bus/rail spends serving passengers, which can also be defined as platform hours minus deadhead and layover time.
Revenue Passengers	Refers to passengers who enter the system through the payment of a fare.
Revenue trip (Also see Linked/Unlinked Trip)	Refers to any linked or unlinked trip that generates revenue by cash payment, use of a pass, and/or any other means of payment.
Ride-On	Refers to Montgomery County regional bus transit system.
Slinky bus	Refers to a nickname used by passengers for an articulated bus.

SmartStudent Pass	A monthly pass for unlimited travel on Metrobus and Metrorail for students under 19 years of age who live and attend school in the District of Columbia.
SmarTrip®	Refers to a technology built and designed by Cubic Transportation Systems, Inc., a subsidiary of San Diego-based Cubic Corporation to add and deduct value from an electronically encoded card when a rider passes the card near a programmed reader on Metrobus and at fare gates on Metrorail.
Strategic Buses	Refers to spare buses available for service in the event that a bus in route is taken out of service.
Subsidy	Refers to funding received from jurisdictional funding partners in the Washington Metropolitan area consisting of Washington, DC, suburban Maryland (Montgomery County and Prince George's County) and Northern Virginia counties of Arlington, Fairfax and Loudoun, and the Cities of Alexandria, Fairfax and Falls Church.
TheBus	Prince George's County, Maryland's local bus service.
Transit Advertising	Refers to ads posted on the exterior and interior of buses and rail cars.
Tripper	A short piece of work (usually on a bus, but sometimes on a train) not long enough to qualify as complete run or full day's work. May involve vehicles from one line or route being re-routed to serve another.
Trunk Line	A route operating along a major corridor that carries a large number of passengers and operates at headway frequencies of 15 minutes or less.
Unlinked Passenger Trip	Unlinked passenger trips count each boarding as a separate trip.

Appendix L – Glossary of Acronyms and Abbreviations

A

AAC	Accessibility Advisory Committee
AC	Alternating Current
ACS	American Community Survey
ACS	Authorized Construction Site
ACSO	Assistant Chief Safety Officers
ADA	Americans with Disabilities Act
AFC	Automatic Fare Collection
APC	Automatic Passenger Counter
APTA	American Public Transportation Association
ARPA	The American Rescue Plan Act of 2021
ART	Arlington Transit
ATOC	Adjacent and Task Order Construction
AWIS	Automatic Wayside Inspection System
AWP	Annual Work Plan

B

B2G	Back2Good
-----	-----------

C

CAFR	Comprehensive Annual Financial Report
CAP	Corrective Action Plan
CAPS	Coordinated Alternatives to Paratransit Services
CARES Act	Coronavirus Aid, Relief, and Economic Security Act
CBA	Collective Bargaining Agreement
CCTV	Closed-Circuit Television
CES	Bureau of Labor Statistics' Current Employment Statistics

CENV	Chief Engineer Vehicles
CFA	Capital Funding Agreement

How to Contact Metro

By mail or in person:

Washington Metropolitan Area Transit Authority
300 Seventh Street SW, Washington, DC 20024

To reach Metro headquarters by Metrorail, the closest station is L'Enfant Plaza and the closest station exit is at D and 7th Streets. To reach Metro headquarters by Metrobus, use routes 52 or 74.

By website:

<http://www.wmata.com>

By telephone:

Metro Information

202-637-7000 (TTY 202-962-2033)

Metrobus and rail schedules, fares, parking, Bike 'N Ride program, and more

Weekdays: 7:00 a.m. to 8:00 p.m.

Saturday and Sunday: 8:00 a.m. to 8:00 p.m.

Customer Relations

202-637-1328

Suggestions, commendations, comments

Weekdays: 8:30 a.m. to 5:00 p.m.

MetroAccess
